AWARD

It is not necessary for me to enter into the facts of the case as the parties have since made up their differences.

A joint petition of compromise was filed by the parties. Issue Nos. 1 to 9 were not pressed in that petition. In the circumstances, those issues need no adjudication. It may be presumed that the parties have amicably settled their dispute regarding those issues. Regarding Issue No. 10, the parties have come to terms and the said terms are incorporated in paragraph 1(a) of the joint petition of compromise. Three workers only as mentioned therein shall get such payment as stated therein in full and final settlement of their claim from the Company. The terms appear to be fair and reasonable and accordingly they are given effect to. Let an award be made in terms of the joint petition of compromise, which will form part of the award.

Dictated and corrected by me.

In the matter of an industrial dispute between Messrs. Punjab Engineering Works, 32 Ramkrishna Samadhi Road (Head Office—77 Netaji Subhas Road, Calcutta) and their two workmen represented by the Punjab Engineering Mazdoor Union, 242/2 Manicktalla Main Road, Calcutta-11.

BEFORE THE SECOND INDUSTRIAL TRIBUNAL, WEST BENGAL

PRESENT:

SHRI G. P. MUKHERJEE, *Judge, Second Industrial Tribunal.*

Appearances.

For the employees: Shri Sunil Kumar Dhar, Advocate.

For the Company: Shri T. K. Jagdesh, Labour Adviser of the Company.

The Government of West Bengal, Labour Department, by its order No. 2261Dis./D/10L-41/56, dated 28th May 1956, referred the above industrial dispute to this Tribunal for adjudication.

The issue as contained in the schedule to the order of reference stands as follows:—

Is the termination of services of Sarbashree Ajit Singh Matharu and Ajit Kumar Das justified? What relief are they entitled to?

AWARD

Before entering into the merits of the case, it will be worthwhile for the Tribunal to state that the case of Shri Ajit Kumar Das as mentioned in the issue does not and cannot fall within the scope of that issue. The issue as formulated for adjudication by the Tribunal seems to suggest as if the service of Shri Ajit Kumar Das has already been terminated by the Company. Merely because it has been stated so, the Tribunal is not bound to accept it as an accomplished fact. It has got to decide for itself whether there was termination of service of the worker—Shri Ajit Kumar Das by the Company. So, the point which arises for determination before the Tribunal, is whether there was in fact any termination of service of this man. But it has transpired from the evidence of O.P.W. 1 Shri J. Gupta, who is no less than a partner of the Company and who looks after its affairs, that Shri Ajit Kumar Das has not yet been discharged, but he has been kept under suspension pending permission for dismissal from the Labour Commissioner. So, the position is that the service of Shri Ajit Kumar Das is still continuing and requires to be terminated. That being so, his case which stands on a different footing from the other employee mentioned in the issue, falls outside the scope of adjudication by the Tribunal according to the issue as framed in the order of reference. Accordingly, I hold that he cannot be deemed to be involved in the present dispute, and he will not be touched by this award.

Regarding Shri Ajit Singh Matharu, the Union's case is that he joined this Company as a worker sometime in December 1953 on a salary of Rs. 225 per month, but his service was abruptly terminated on 30th September 1955 because of his Union activities. Accordingly, his reinstatement with back wages for the period of unemployment was claimed.

The Company's version was that Shri Matharu was appointed as Supervisor on 8th December 1953 on a total salary of Rs. 225 per month on the explicit understanding that he was taken by the Company to supervise the work of the Second Shift that was to be restarted, but for certain reasons, the Company had to give up the idea. The Management after some time came to the conclusion that the services of Shri Matharu were superfluous, and as such it was not possible for them to bear the heavy burden of his high salary. Accordingly, the Company wanted to say that his services were terminated with effect from 1st October 1955. The Company denied that it had victimised him for his Union activities.

Shri Ajit Singh Matharu has deposed in this case. Besides him, the Union has examined two other witnesses. One of them is the President of the Union, and the other is a worker of the Company. On the side of the Company, Shri J. Gupta, a partner of the Company, Shri R. S. Lakhwara, the Manager and another worker, Shri D. Sharma have been examined. Besides oral evidence, both parties furnished documentary evidence, and they are Exts. 1-14 and Exts. A-K. The Tribunal is to decide the case of Shri Matharu on a consideration of the evidence as stated above.

The Company has raised two legal objections. I, therefore, propose to dispose of the same in the beginning. The first legal objection is that it is an individual dispute and not an industrial dispute. The second objection is that Shri Ajit Singh Matharu was not a workman within the meaning of the Industrial Disputes Act, 1947, inasmuch as he was taken as a Supervisor. It is evident in this case that the cause of Shri Ajit Singh Matharu was espoused by the Union, and the Union moved the authorities under the Industrial Disputes Act, 1947, for his reinstatement. That being so, it must be held that the dispute which was originally an individual dispute became an industrial dispute, when the Union took up his cause and decided to utilise its collective bargaining strength to achieve the result. Hence, the first legal objection fails. Regarding the second legal objection that Shri Ajit Singh Matharu was not a workman, because he was taken as a Supervisor, I may say that this objection is equally untenable. Of course, Shri Ajit Singh Matharu was appointed on a handsome pay. But under the Industrial Disputes Act, 1947, it is no criterion for judging whether an employee is a workman or not. Even designation also is not a criterion for the purpose. The true criterion to judge whether an employee is a workman or not is the nature of duties that he actually performs. There is evidence on record as to this. It appears from the evidence that Shri Matharu was appointed for handling a heavy Vertical Boring Machine, and that he handled that machine from the date of his joining till he was discharged. The Manager of the Company was also constrained to admit in his cross-examination that so long as Shri Matharu was in their employ, he worked in that machine. It could not be shown or proved on behalf of the Company that Shri Matharu was appointed as a Supervisor, or he used to supervise the work of other workmen. On the contrary, the evidence of the partner of the Company Shri J. Gupta indicates that Shri Dilip Singh, who is Engineer, supervises the work of the workers. There is also the positive testimony of Shri Ajit Singh Matharu to the effect that he never did the work of Supervisor, while employed in this Company, but he was all along employed as a workman there. In this respect, he is corroborated by P.W. 3 Shri Hari Mohan Singh, who is a workman still working in the Company. This witness has stated on oath that Shri Matharu never worked as Supervisor in the Company, but he all along worked with the Vertical Boring Machine. So, considering the evidence as stated above, I have no hesitation in finding that Shri Ajit Singh Matharu was a "workman" within the meaning of the Industrial Disputes Act, 1947, his work being mainly manual. In the circumstances, Shri Ajit Singh Matharu would get benefit of the Act.

Now I shall discuss whether the termination of service of Shri Ajit Singh Matharu was justified. Here I want to state certain facts which are more or less relevant for the purpose. Admittedly, Shri Ajit Singh Matharu became member of the Union, while he was employed in the Company. It appears from the materials that the Management strongly objected to his being appointed as a member of the Production Sub-Committee, and that he could be taken in that Committee after a series of correspondence had passed between the Management and the Union in this respect. Shri Matharu wanted increment in his pay, and the Union also took up his cause in this respect, and the President of the Union carried on a good deal of correspondenc with the Management and the Labour Officer over this matter, but the Management was not at all inclined to grant him any increment. The matter came to such a pass that the Union on 12th September 1955 addressed a letter to the Manager of the Company that the workers would resort to direct action, if the Management failed to pay the increment due to Shri Ajit Singh Matharu. The service of Shri Matharu was terminated by the Management on 30th September 1955, and it was shortly after the said letter regarding direct action from the Union was received by the Company. The facts stated above demonstrate clearly that the Management had strong aversion for Shri Ajit Singh Matharu, and that was the reason why the Management opposed not only his increment in pay, but also his inclusion in the Production Sub-Committee. When direct action was threatened by the Union, the Company used it as an opportunity of getting rid of Shri Matharu. It will not be too much if it be said that with this idea, the Management gave Shri Ajit Matharu a letter, dated 30th September 1955, terminating his service.

Now let me revert to the letter terminating service of Shri Ajit Singh Matharu, dated 30th September 1955, which was addressed to him by the Management. The grounds for terminating his service as stated therein are that he was taken as Supervisor on 8th December 1953 as the Company was contemplating to start another shift, and that as that shift could not be started, his services became superfluous and his services were no longer required with effect from 1st October 1955. The grounds as stated in the letter of termination of service are only to be enquired into. While looking into the merits of the case, the Tribunal cannot go into other matters not mentioned in the notice of discharge or termination of service. The employer cannot add to the grounds already specified in such notice of discharge or termination of service of a worker. So, the contention of the Company that it had to terminate the service of Shri Ajit Singh Matharu also for the reason that it had suffered loss in its business, cannot be accepted. The Tribunal shall decide whether the grounds as mentioned in the letter of termination of service addressed to Shri Ajit Singh Matharu by the Management are true or not. It could not be proved or established by any satisfactory and convincing evidence by the Management that Shri Matharu when appointed on 8th December 1953 was taken as Supervisor in connection with starting of another shift. Nor could it be proved by the Management that the starting of such a shift was in contemplation. It cannot be understood how Shri Ajit Singh Matharu was rendered surplus, or his services became superfluous. The evidence as adduced in this case, proves beyond any doubt that Shri Matharu was appointed for handling a heavy Vertical Boring Machine, which was formerly handled by another worker, and that up to the date he was in the employ of the Company, he used to work with that machine. That machine is still in existence and has been working. It is still being handled by another worker. Thus, it is evident that the said machine has not been kept idle, but has been working. If that be so, where was the scope for the Management to say that Shri Ajit Singh Matharu was rendered surplus or his services became superfluous? Before coming to this Company, Shri Matharu was employed elsewhere, but he was taken in by this Company and appointed on a handsome salary, simply because he was found to be a skilled and efficient workman, and also competent to work well with the Vertical Boring Machine. This fact has been proved by the evidence of P.W. 3—Hari Mohan Singh, a worker still working in this Company. He has further stated that though he is working in that machine at present, he cannot give so much work as was given by Shri Ajit Singh Matharu while the latter worked in the Company. The Company did not issue any appointment letter to Shri Ajit Singh Matharu, while he was taken in. There is nothing to prove on the side of the Company that Shri Matharu was appointed temporarily in this concern, or that his services were likely to be terminated at any time. I have already stated that the Company could not prove by any evidence worth the name and credit that it had any idea of starting a second shift in the factory. Be that as it may, it has further transpired from the cross-examination of O.P.W. 1—Shri J. Gupta, who is a partner of this Company, that they do not take an employee in the expectation of opening a separate department. In the circumstances, the possibility of taking Shri Ajit Singh Matharu in the expectation of starting a second shift in the factory, is ruled out. As observed already, the Company appointed Shri Matharu on a salary of Rs. 225 per month because of his efficiency and skill. It has transpired from the evidence that he was working satisfactorily, while employed in the Company. It could not be shown or suggested by the Company that he had any lapses on his part. So, there was no justification for the Company to terminate his service. I am constrained to say that it was high highhandedness on the part of the employer to dismiss him from service. If his salary was high in the estimation of the Company, the Company instead of terminating his service, could have taken steps for reducing his salary. If an employee could be discharged in this fashion at the sweet will and pleasure of the Management, there could be no security of any employee working in an industrial concern. So, on a careful consideration of the facts and circumstances, I am of the view that the termination of service of Shri Ajit Singh Matharu was unjustified. The action of the Management in this respect is tainted with mala fides. It seems that the Management was actuated by ulterior motive and extraneous considerations. So, what the Management did cannot be supported. The order of termination of service of Shri Ajit

Singh Matharu cannot, therefore, be upheld. It is accordingly ordered that he be reinstated to his post, which he used to hold under the Company before his discharge, on the same pay drawn by him at that time. There shall be no break in his service. He is directed to report himself for duties to the Company within 15 days from the date of publication of this award in the *Calcutta Gazette.*

Now the question is what compensation he will get during the entire period from the date of his discharge till reinstatement. In the case of reinstatement, the normal rule followed by the Tribunals, is to allow wages for the period the workman had not been in the service of the employer. But in the present case, it has transpired from the evidence of Shri Ajit Singh Matharu himself that he worked for 4 to 15 days in a month as casual worker in Messrs. Hindusthan Steel Rolling Mills at Dum Dum since his discharge by the present Company. Acceptance of employment elsewhere does not disentitle a workman to compensation, which may however be reduced by the amount received otherwise. It has been held so in the case of Victoria Mills (1952 L.A.C., 139). Taking this fact into consideration, I think that the justice of the case shall be sufficiently met, if I direct that Shri Ajit Singh Matharu shall get half salary for the entire period from the date of his discharge till reinstatement, and it is awarded accordingly. The payment directed above be made to him also within 15 days from the date of publication of this award in the *Calcutta Gazette.*

This is my award in the present case.

INTERIM AWARD

The Government of West Bengal, in the Labour Department, by its order No. 3923Dis./D/11L-130/56, dated 3rd September 1956, has referred the following points to this Tribunal for adjudication in connection with an industrial dispute existing between Messrs. B. N. Elias & Co., Ltd. and its associated concerns mentioned in Schedule I to the order of reference on the one hand and their workmen employed in the Head Office represented by B. N. Elias & Co. Ltd. Employees' Union on the other:—

(1) What should be the bonus for these Companies for 1954, 1955 and 1956 and in what instalments such bonus should be paid?

(2) Whether the Companies mentioned in Schedule I should be treated as one integrated organisation or as separate units?

(3) What principles should be followed in determining when bonus is payable and what should be its quantum?

On 22nd September 1956 the Union filed an application for an interim award concerning bonus for the period on the ground that the employees were in great financial difficulties. The Companies resisted the claim for bonus and also the claim for an interim award.

Certain facts stand admitted in this case. Admittedly, the Companies since about 1942 made payments from time to time to their employees in addition to their wages and salaries. The amount of such payment made at any one time has been equivalent to one month's basic pay. At one time, four such payments were made in a year to clerical and subordinate staff. Subsequently, the number of such payments for the clerical staff was reduced to three per year, but remained at four for the subordinate staff until the year 1952. The clerical staff used to get such payments in April, August and December of the year, while the subordinate staff in addition to those payments in April, August and December got another such payment at Puja time.

It is the case of the Companies that in the year 1953 only, two such payments were made to clerical staff and three to subordinate staff, as the trading results for 1952 deteriorated as compared with the previous years. They further say that in 1954 and 1955, two such payments were made to clerical staff and subordinate staff, and in 1956 no such payments have at all been made to clerical or subordinate staff. They further submit that no bonus should be paid for any of the years 1954, 1955 and 1956 other than such *ex gratia* payments, as have already been made for 1954 and 1955. It is the contention of the Companies that such payments were purely *ex gratia*. They deny that these *ex gratia* payments are contractual rights of the employees, or a term of employment, or a condition of service, or customary payments, or irrespective of profit or loss.

The contention of the Union, on the other hand, is that the above payments were made as bonus. Such payments were made as a term and condition of service irrespective of profit or loss of the Companies. It was never understood to be in the nature of *ex gratia*. The aforesaid payments have been made for a sufficiently long period, even in the years of loss, and this practice has ripened into custom, and leads to an inference of implied agreement. The said payments were regularly made to the employees, but the Companies for reasons best known to them, did not pay the bonus due to clerical staff in December 1954 and 1955 and four months' bonus due to subordinate staff, which was payable to them in December, 1954 and 1955 and also at the Puja time of those two years. Nothing has also been paid on this account for the year 1956 to clerical or subordinate staff. Accordingly, the Union has prayed for a direction on the Companies by way of an interim award to make payment of arrear bonus as stated above.

At the very outset, I may say that interim awards should not be liberally granted, but such awards should be confined to emergencies only. Serious repercussion might arise when what is granted by the interim award is rejected in the final award. An interim relief can be asked for only in aid of the final relief that is likely to be given, and in the case where money payments are prayed for as a measure of interim award, the question of adjustment towards final amount to be given must be kept in view. The money awarded in the interim award should be capable of being merged and adjusted in the final relief. Bearing these principles in mind, let me proceed to consider whether any prima facie case has been made out for an interim award in the present case. Having heard the learned Counsels on both sides, and on a consideration of the facts and circumstances, I am of the view that no interim award can be passed in the present case. In my opinion, the employees are not entitled to the relief claimed in their petition for interim award concerning the bonus for the years in question. The claim of the employees is that payments, which these Companies used to make, were made as bonus, and it is a matter of right; being a term and condition of service. It was never understood to be in the nature of *ex gratia*, for it was paid for a sufficiently long period even in the years of loss. Thus, it is evident that the claim of the employees is one, which is based on customary bonus, or one as a term and condition of service. This claim is presumably based on what has been said by the Labour Appellate Tribunal in the Maha Laxmi Cotton Mills Case (1952, L.A.C., page 370). It has been held by their lordships in that case that the right to get bonus like Puja Bonus rested on agreement between the employer and the workers. The agreement may be either express or implied, and where not express, past practice may lead to an inference of implied agreement. But for implying an agreement, the practice must be unbroken and for a sufficiently long period, to exclude the hypothesis that payment has been made out of bounty. In the present case, there is no express agreement. The Companies contend that these payments were *ex gratia*. In the circumstances, it requires to be decided in this dispute whether the payments as made by these Companies to their employees were in the form of *ex gratia* payment or as bonus. It further requires to be determined whether such payments as made by these Companies for a number of years in the past, have established a practice so as to lead to an inference of agreement for payment of customary bonus as a matter of right; being a term and condition of service. It is a well-established fact that for a practice to grow into custom, it must be reasonable, immemorial and ancient. This point also needs consideration. So the claim of the employees in order to succeed as one based on customary bonus or one as a term and condition of service, raise serious and substantial question to be decided at the time of final hearing. To come to a decision on the point, detailed evidence would be necessary. So, till determination of all the points in controversy, no interim relief can be given.

For the reasons stated above, it would appear at the present stage that the prima facie case is against the employees. If the Companies be now directed to pay any amount towards the claim made by the employees, there would be a risk of the money thus paid to the employees being not recoverable from them, if the point is ultimately decided in favour of the Companies and against the employees.

Having regard to all these facts and circumstances as stated above, I am of the view that it will not be just and proper to pass any interim award concerning bonus. The application for interim award as made on behalf of the employees be rejected, and it is awarded accordingly.

The case of the Union as represented in the written statement is that the wages paid to the workmen of the concern are low and inadequate, and therefore the same need revision, and that there should be fixation of grades and scales of pay for different categories of workmen. Regarding dismissal of the workmen concerned, the Union has stated in the written statement that all these dismissals were illegal and wrongful. So, their reinstatement with wages for the period of unemployment without any break of service was claimed.

The claim as put forward by the Union was stoutly resisted by the Company. According to the written statement filed by the Union, this Company, which manufactures Hurricane Lanterns and Kerosene lamps in their factory at 93B Ripon Street, Calcutta, was very unsympathetic towards its workers, and as such they were smarting under some grievances. Accordingly, a Trade Union was formed by them on 22nd September 1955 and this Union was registered on 28th November 1955. But the formation of this Union was not taken in good grace by the Company, and it refused to recognise it. Immediately after the registration of the Union, the Union submitted grievances of the workers to the Labour Commissioner and the Management issued charge-sheets on flimsy and mala fide grounds against 10 of the workers, who took leading part in the formation of the Union. Again on 2nd December 1955 the Company issued charge-sheets against 11 other workers, who were also permanent members of the Union. In this way, the workers were terrorised. Subsequently, out of these 21 workers, 20 were dismissed. The matter was taken to the Labour Commissioner. Conciliation proceedings followed, but the Management took adamant attitude, and as such nothing came out. At this, the workers decided to go on strike from 12th January 1956 and a notice to that effect was served by the Union. The strike started from the same date and the Management also declared lock-out on the very date, on which the strike was started. At the intervention of the Labour Officer and as a result of conciliation proceedings, the Union decided to withdraw strike and the workers expressed their willingness to resume their duties. The Factory was re-opened on 8th March 1956, but on its opening, the Management started changing of workmen from one place to another, particularly in the Tool Room, and insisted on more and more production. The workers of the Tool Room approached the Management to have an amicable settlement in the matter and a meeting of the workers with the Management was held on 15th April 1956, which was Sunday. An agreement was arrived at on that date, which was to be signed on the next day, that is on the 16th April 1956. But on 16th April 1956 when the workers were working in the factory, three of the workers of the Tool Room were suddenly charge-sheeted and suspended and lock-out was declared. After the declaration of the lock-out, 4 workers were summarily dismissed on 16th and 17th April 1956. A joint conference was called by the Deputy Labour Commissioner, but it was of no avail and ultimately the matter was referred to the Tribunal.

The Company's version, on the other hand, as set-forth in its written statement is that the relation between the Management and the workers was very cordial, but it began to deteriorate from the beginning of October 1955, when Mohamed Samiulla originated labour unrest and confusion among the workers, inasmuch as he by unlawful means of threat, coercion and undue influence started hammering on the loyalty of the workers and winning over them to his side, and forced them to sign as a member of his proposed Union. The said unlawful means adopted by Mohamed Samiulla brought into existence an unhealthy atmosphere amongst the workers and a division in their camp—one group remained attached to the Company and the other started sabotaging the Company's interest by bringing down normal production by adopting go-slow tactics. The Company's case is that since October 1955 the normal production of the Company began to suffer and loyalty of the workers was systematically chastised by the hostile group. As a result of this, concerted go-slow tactics and other misdemeanours on the part of the hostile workers, the Management was compelled to dismiss 20 workers in December 1955 for gross misconduct and on their dismissal the production somewhat improved for some time, that is from 5th December 1955 to 17th December 1955, when the factory closed for the usual annual leave. But on the re-opening of the factory on 2nd January 1956, the said dismissed 20 workers incited the Company's existing workers to slow-down production and in consequence the production again deteriorated. The Management issued warning notices, but the reaction was that the Management received a notice of strike, which was abruptly commenced from the morning of 12th January 1956. So, lock-out had to be declared. The Management duly informed the Labour Commissioner of it and also served charge-sheets on some workers. As a result of intervention by the Labour Officer and also at the request of Shri Rajani Mukherjee, who replaced Mohamed Samiulla, the strike was withdrawn, and the factory was re-opened. Things went on smoothly for several days after the re-opening of the factory, and again towards the last week of March 1956 there was fall in production and the Management issued warning notices, but without any result. On 11th April 1956, 3 Tool Room workers—Martuz Ali, Abdul Majid Bepari and Tayub Khan—who were the ring leaders, were the first batch to repeat their go-slow tactics and they also instigated other workers to adopt that tactics. So, the Management was compelled to charge-sheet them. On 14th April 1956 the Management warned those 3 workers that if they themselves did not show to be of good behaviour and manner doing proper work, charge-sheet would be served on them. At this, they requested the Managing Director to fix an appointment for a meeting with them, so that they might give their explanations. Accordingly, an appointment was given to them to meet the Managing Director in the factory premises on 15th April 1956 (Sunday) at about 8 a.m. But instead of giving any explanation at the appointed time and place, they made some ridiculous representation, as a result of which Mr. Hruska, Managing Director of the Company, refused to entertain them. No discussion took place nor any agreement was arrived at. On 16th April 1956 with the commencement of the working hours, the workers were found avoiding and neglecting their work. The Managing Director warned them to give up go-slow tactics, and advised them to go on with their work with a view to increase the production. But this appeal of the Managing Director elicited jests and ridicules from the aforesaid 3 Tool Room workers. Accordingly, charge-sheets were served on them, and as soon as this was done, there were shouts and howlings by those 3 Tool Room workers, who left their work, and incited other workers to do so under threat of physical violence. As a result of this, the workers staged a stay-in-strike inside the factory, and showed riotous and disorderly behaviours. They even insulted the Managing Director and used offensive and abusive language towards him. So, for the safety and security of life and property, the Management summarily dismissed 48 workers. The Durwan of the Company (Pir Mohammed) was also at the same time mishandled by these workers. The workers, who staged the stay-in-strike, had to be removed from the factory at the intervention of the Police. Accordingly, the Company contended that these dismissed workers are not entitled to reinstatement, as by their reinstatement both the industry and the loyal workers will be economically killed out-right, and furthermore it will give encouragement to indiscipline and disorderliness amongst the workers.

Issue No. 2.—Whether the dismissal of the workmen mentioned in the attached list is justified? To what relief are they entitled?

Out of the 61 dismissed workers, as mentioned in the list attached to the Order of Reference, I may say that the cases of workers whose serial

Nos. are 12, 14, 50 and 54—Haradhan Bhattacharjee, Mahabir Prosad, Nizamuddin and Aminulla respectively—need no adjudication, as it is the Company's version that they are still in its employ. This fact would not be challanged or denied on behalf of the Union at the time of hearing, nor those 4 workers appeared before the Tribunal to contradict the same. In the circumstances, it can be safely said that those 4 workers are still in the employ of the Company. That being so, the cases of these workers cannot come within the purview of Issue No. 2. Accordingly, it must be deemed that no dispute exists between them and the Company, so far as this issue is concerned. Regarding serial No. 52—M. A. Rahaman also, no question of any dispute between him and the Company could not possibly arise. It is the Company's version that this man is unknown to them, and that he was never in their employ. The Union could not show or establish by any evidence that M.A. Rahaman was ever in the service of this Company and was dismissed. The Union could have proved this by examining the alleged worker—M. A. Rahaman, but the fact remains that neither the Union produced and examined him before the Tribunal, nor did he himself came forward out of his own accord to deny the version of the Company. Hence, it must be assumed that M. A. Rahaman—serial No. 52 of the attached list, was not in service of the Company at any time. That being so, the question of his dismissal as mentioned in Issue No. 2 does not and cannot possibly arise for adjudication.

Regarding workers, whose serial Nos. are 21, 22 and 23—Md. Idris, Md. Fakira and Md. Habibur Rahaman respectively—their case stands on a different footing. They were dismissed by the Company not for adopting go-slow tactics or for riotous and disorderly conduct, but their services were terminated for other reasons, and they were discharged long before December 1955. Regarding Md. Idris—serial No. 21—the Company's case is that his services were terminated for his absence without permission and that he was also absent on two other occasions in like manner previously. It is also the Company's case that when the matter of his discharge was taken to the Labour Officer, it was agreed that he should be taken back afresh in the factory on tendering apology in writing for lapses on his part and that accordingly an appointment was offered to him, but he did not accept the same by offering apology as agreed to. Md. Idris has deposed in this case, and he is P.W. 1. It appears from his evidence that he had taken leave on account of illness, but when he came back to resume his duties, he was not allowed to work and was told that his services were terminated. But he has admitted at the same time that previous to his taking leave on account of sickness, he had also been absent for 7 days and 17 on different two occasions. He has further admitted that in the Notice Board of the factory, there was notice to the effect that the workers must not absent themselves without previous permission. Thus it is clear from his evidence that he over-stayed leave on that occasion and also on previous two occasions, which demonstrates that he was in the habit of absenting himself without previous permission. It appears from Ext. A, which is a copy of the petition he sent to the Labour Commissioner on 16th May 1955, that he verbally intimated to the Company through Sk. Bhola that he required rest for a further period of one week from 12th April 1955 as advised by his attending physician. It is further stated therein that he put in an application on 16th April 1955 intimating the Management of his inability to attend to his work owing to illness. It is curious that neither Sk. Bhola has been examined in this case to corroborate the fact as mentioned in Ext. A, nor any copy of the application sent to the Management has been produced before the Tribunal. It appears from Ext. 2 that at the request of the Labour Officer, Md. Idris—serial No. 21—was agreed to be taken in afresh in the factory on his tendering apology in writing for breach of the standing rules of the factory on his part. But Md. Idris has admitted in his evidence that when he was recalled by the Company, he was asked to tender apology, but he refused. In the circumstances, the Management was perfectly justified in not taking him in the factory, as agreed to before the Labour Officer. Exhibit 3 is a copy of the letter addressed to the Labour Officer by the Managing Director of this Company regarding Md. Idris. This has been produced on behalf of the Union. It appears from this letter that in this Company there is a permanent notice hung up on the notice board warning the workers not to absent themselves from work without permission for a continuous period more than 3 days, in which case they are liable to discharge, and the workers were reminded of the contents of the notice from time to time. The said letter further indicates that Md. Idris was absent from work for about 3 weeks without any intimation whatsoever, and that he did not even care to send an intimation either by post or by any messenger, and that therefore the Management had concluded that he was no more willing to work in the factory. In this letter, the Management has denied that Md. Idris sent any intimation to them on 16th April 1955 regarding his inability to attend to his work due to illness. It appears that there is a permanent and highly qualified Physician for the workers in this factory, but it is curious that Md. Idris did not think it worthwhile to appear before this Physician to get himself examined, although his case was that due to his illness he could not attend to his work. The workers who fell sick were required to appear before this Doctor for medical examination and necessary treatment, unless they were rendered too weak. In the present case, it is not the case of Md. Idris (serial No. 21) that he was too weak to appear before the Doctor of the factory. It appears from his petition to the Labour Commissioner (Ext. A) that he required rest for a period of one week since 12th April 1955. But Ext. 3—the letter of the Managing Director to the Labour Officer shows that as a matter of fact he came to the factory after about 3 weeks. In view of what has been stated above, the Management was perfectly right in terminating his services. That being so, he is not entitled to any relief beyond what has been offered by the Company. No Company can afford to keep such a worker in its employ. Learned spokesman, Shri Rajani Mukherjee appearing on behalf of the Union, has argued before me that as no certified standing order was in existence at that time in the Company, the Company could not possibly take any serious steps on account of absence of a worker without previous permission. I do not see any force or logic in this argument. The undisputed fact remains that the Management had a permanent notice hung up on the Notice Board inside the factory warning the workers not to absent themselves from work without previous permission. Md. Idris, the workman concerned, had clear knowledge of this notice, and he has unequivocally admitted this in his cross-examination. So, the absence of any certified standing order is of no avail. Regarding Md. Fakira—serial No. 22 of the list—the Company's case is that he was taken in for 3 months for trial, and he joined the factory on 18th January 1955 and was discharged on 22nd April 1955, as complaints were received from his fellow workers that he used to quarrel with them. The Company has also stated in its written statement that he was paid all his dues, when he was discharged. The Union has not produced any evidence to show that what has been stated by the Company regarding Md. Fakira is false or untrue. Even Md. Fakira has not been examined in this case. In the circumstances, I am prepared to accept the version of the Company. It is accordingly decided that his discharge was justified. As regards Md. Habibur Rahaman—serial No. 23—the Company's case is that he was discharged on 21st January 1955 for conduct indicating signs of mental disorder, and that at the time of his discharge, he was paid his dues from the factory up to 21st January 1955. No tangible evidence has been adduced on behalf of the Union to disprove this version of the Company. The worker concerned has not also been examined in this case. Therefore, the Tribunal feels no hesitation in saying that the discharge of Md. Habibur Rahaman was also justified. Neither Md. Habibur Rahaman nor Md. Fakira—serial Nos. 23 and 22 respectively of the attached list is entitled to get any relief.

Now I would take up the cases of the remaining workmen mentioned in the list attached to the order of reference, and their serial Nos. are 1-11, 13, 15, 20, 24-49, 51, 53 and 55-61. On 28th November 1955 the workers bearing serial Nos. 1-10 were charge-sheeted by the Management for indulging in disorderly and riotous actions inside the factory premises for one month, directed against the other loyal workers of the factory, and for intimidating those loyal workers with physical violence, for adopting go-slow methods and inciting loyal workers also to follow such tactics, and thereby slowing down the production and hampering the progress of the factory. Again on 2nd December 1955 another batch of 10 workers were charge-sheeted for similar offences. All these workers were suspended with immediate effect requiring them to show cause as to why they should not be dismissed from the service of the Company. The workers who were charge-sheeted on 28th November 1955 did not show any cause, nor did they appear before the enquiry that was held. But the workers who were charge-sheeted on 2nd December 1955 showed cause and appeared before the Committee of Enquiry. The remaining workers on 17th April 1956 were summarily dismissed for using abusive language against the Management including the Managing Director, for beseizing the factory office and threatenng the Management and the Managing Director with physical violence on that date and also for attacking and manhandling the Durwan, Pir Mohammed. The charge-sheets and the letters of dismissal, enquiry proceedings and other documents have been produced in this case. The Union has also produced several documents. Over and above this, the parties have adduced oral evidence. On the side of the Union, 5 witnesses were examined. P.W. 1 is Md. Idris, P.W. 2 is Md. Rafique, P.W. 3 is Shri Gakul Chandra Guha, P.W. 4 is Abdul Aziz, and these witnesses save and except P.W. 1 were charge-sheeted on 27th November 1955. P.W. 5 is Shri Surendra Kumar Nath. He is not one of the workmen as mentioned in the list attached to the order of reference. On the side of the Company, Mr. M. Hruska, Managing Director of the Company and the Durwan, Pir Mohammed have been examined. The Tribunal has carefully considered the evidence—both oral and documentary. On a searching scrutiny of this evidence and after hearing the learned representatives on both sides, the Tribunal is definitely of the view that the dismissal of these workers—serial Nos. 1-11, 13, 15-20, 24-49, 51, 53 and 55-61 of the list—was justified. I do not see any reason to disbelieve the testimony of Mr. M. Hruska, Managing Director of the Company. He deposed before the Tribunal in a straight-forward manner. His evidence bears the stamp of truth. His evidence, if considered along with the documents that have been filed in this case, points to the clear direction that these workers under the advice and guidance of the labour leaders were out to force the Company to yield to their demands, and that with this idea, these workers adopted go-slow tactics, in defiance of the warnings and orders of the Managing Director to this effect, incited the loyal workers to join hands with them under threat of physical violence and also indulged in riotous and disorderly behaviour within the factory precincts, and even abused the Managing Director, who is pivot of the administration. Even at the last stage, the workers staged a stay-in-strike and beseized the factory. What the workers did cannot be supported. The Tribunal regards the actions of these workers as serious misconduct which justifies dismissal. Where the workers threaten or intimidate with violence a superior officer like the Managing Director on account of some grievances connected with the work whether during office hours or out of office hours, or whether in the factory premises or outside it, it is a misconduct, which cannot be countenanced much less to be condoned by any Tribunal. That the workers adopted go-slow tactics is amply proved in the present case, and the evidence of the Managing Director as also the production chart produced by the Company fully support the same. The Durwan has also deposed that he was assaulted by these workers. In respect of the first 10 workers after they were charge-sheeted, they were directed to show cause, but they did neither show cause nor appear before the Committee of enquiry. The next batch of another 10 workers did show cause and also appeared before the Committee of Enquiry. So, as regards them it cannot be said that there was violation of the principles of natural justice. In regard to the last batch of workers who were summarily dismissed, it is true no doubt that they were not charge-sheeted before their dismissal or any enquiry was held before they were dismissed. But in my view, that does not matter much. If no charge-sheets were issued and no enquiry held, the Tribunal would be competent to enquire into the matter and ascertain if the punishments awarded to the workmen concerned were justified on the grounds mentioned in the order of dismissal (*vide* Bathgate & Company's case. 1953 L.A.C., 149, followed in Suti Mills Mazdoor Union's case, 1954 L.A.C., 1953). In the present case, the evidence on record which has been considered, fully justifies the dismissal on the grounds as mentioned in the order of dismissal of the workers who were not charge-sheeted, and in whose case no enquiry was held before their dismissal. Learned spokesman appearing on behalf of the Union wanted to say that there was no slow-down in production, nor go-slow tactics was adopted by the workers. I am not prepared to agree with him in this respect. In my opinion, the evidence as produced by the Union in this case is of no avail against the Company's case that there was slow-down in production, as a result of go-slow policy adopted by the workers. Go-slow policy is a serious misconduct, and it is always condemned. It appears from the evidence that the Company took all possible steps for persuading the workers to give up go-slow policy and to increase production. The Company thought that certain stern actions against some workers might improve the situation, and that is why it took such action in the very beginning against some workers, but it had no effect. Even the warning notices issued by the Company from time to time in this respect were of no avail. On the contrary, the situation began to deteriorate, and the workers in order to coerce the Company to submit to their demands, merrily went on indulging in their go-slow tactics and incited other loyal workers to join hands with them under threat of physical violence. They openly defied the orders of the Managing Director, and used abusive and insulting language towards him in his very presence. Materials on the record go to show that threatening and unanimous letters were also given to the Management. The Durwan of the Company (O.P.W. 2) has deposed that the workers—Murtaj Ali, Tayub Khan and Abdul Majid—who were ring leaders began to shout at the other workers when they were given charge-sheets, and as a result of this, all the workers assembled and threatened to kill the Managing Director like what had been done in the Jessop Factory. He has further said that the workers in a body assaulted him. Such insubordination and rowdy activities of the workers were too much for any employer to tolerate. Such insolence and insubordination amount to misconduct, and may render the employees liable to instant and summary dismissal. No employer can be expected to keep such workers, who are unruly and boisterous to the Management, and who feel no hesitation in slowing down production by adopting go-slow policy resulting in loss to the Company. The rules of equity and social justice requiring the protection of a worker from the unfair conduct of the employer, on the converse, require that the right of the employer to expect full co-operation and proper discharge of duties as prudently and diligently as a man of ordinary abilities can perform, exists, and should be afforded similar protection. It is not the purpose of the Labour Tribunals to see and enforce that the business is carried on for the benefit and advantage of the workmen alone, but to see to an equal deal between the business interest and their workmen. The rule of security of service also depends on the said principle. A workman who fails in the performance of his duties for want of proper care and diligence on his part may lose the protection, if the circumstances lead to such a conclusion. No Company can be expected to keep such a worker in its employ who continually neglects his duties, as disregard of duties and insubordination may lead to the destruction of the business of the Company. The conduct of these workers was highly subversive of discipline. They not only adopted go-slow tactics, but also behaved in a disorderly manner, and this amounted to misconduct punishable with dismissal from service. Such insubordination and grave misconduct undermines discipline, and the gravity of such action and conduct cannot be under-rated. In the result, the Tribunal comes to the conclusion that the order of dismissal of workers, whose serial Nos. are 1-11, 13, 15-20, 24-49, 51, 53 and 55-61 was justified under the circumstances. I do not find that the decision of the Management of dismissing these workers is tainted by *mala fides*. There is neither any proof nor satisfactory evidence to show that the Management's action was in retaliation to the formation of the trade union or its activities or an unfair labour practice. There was no basic error of facts and there was also no perverse findngs on the materials. The principles enunciated in the case of Buckingham & Carnatic Mills, Ltd. (1952 L.A.C., 490) do not justify any interference to the findings of the Management or the punishment awarded. Considering the matter from all possible angles of vision, it appears to me that those workers were guilty of the charges levelled against them, and that the order of dismissal passed on them was justified. They are, therefore, not entitled to reinstatement or any other relief. It is, therefore, awarded that the dismissal of the workers, whose serial Nos. are 1-11, 13, 15-49, 51, 53 and 55-61 as mentioned in the attached list to the order of reference, was justified, and they are not entitled to reinstatement or any other relief. Regarding the workers, whose serial Nos. are 12, 14, 50, 54 and 52, I have already recorded my view. I repeat again that the 4 workers bearing serial Nos. 12, 14, 50 and 54 have been already in the employ of the Company, and that the worker bearing serial No. 52 was never in the service of the Company and was unknown to them. So, it is evident that they have been wrongly included in the list attached to the order of reference. Their case cannot come within the purview of Issue No. 2 as it has been formulated for adjudication. This issue has not been properly framed, so far as they are concerned. This issue is decided accordingly.

Issue No. 1.—Revision of wages and grades and scales of pay

Revision of grades and scales of pay of the employees of this concern has been claimed by the Union. The Company has no grades and scales of pay. At present, it allows increments to individual workers at its discretion. The demand of the Union for introduction of grades and scales of pay is resisted by the Company on the ground of its financial incapacity to bear the burden. It is evident that as a result of strike and adopting go-slow tactics by the workers, the Company has suffered considerable loss, and its financial position is not at all satisfactory. In the circumstances, this is not an opportune moment for introduction of grades and scales of pay. Before incremental scales can be imposed, it is essential to see whether the employer would be able to bear its burden. The financial condition of the Company must be such as to lead to the condition that it would be able to pay increments year by year for an appreciable number of years, for wage scales when settled are intended to be long term schemes. Thus, not only financial ability but also financial stability are also essential. As time-scale increases the wage bill year after year, such scale should not be forced upon an employer, unless it is established that the employer has the present capacity to pay, and its financial capacity can be counted upon in future. Thus, both financial ability and stability are requisite conditions. I do not, therefore, propose to introduce grades and scales of pay at the present moment. The employees would do well to co-operate with the Company for some time more with a view to improve its condition and production and to renew their claim thereafter. The employer should also note that harmonious working and industrial peace so essential for the development and expansion of his business, can be achieved only by having contended labour.

Though I am unable to concede to the Union's demand for introduction of grades and scales of pay at the present time, it, however, appears that the total emoluments that are being paid to some categories of workmen, fall short of the minimum that is prevalent in similar concerns in the neighbourhood. The Company has furnished a chart showing the minimum wages that are being paid to the different categories of workmen employed in Messrs. India Industrial Works, Ltd., which manufactures "Hind" lanterns and Messrs. Oriental Metal Industries (Private), Ltd., which manufactures "Dipti" lanterns. The Company has also submitted a statement of wages paid to its different categories of employees. From this statement, it appears that the minimum emolument in respect of several categories of workmen is Rs. 63 per month, and this falls short of Rs. 65 which is paid as minimum wages to workmen employed in Messrs. India Industrial Works, Ltd. and Messrs. Oriental Metal Industries (Private), Ltd. After all, equal work should ordinarily carry equal wages. I have anxiously considered the evidence, facts and circumstances of the case against the back-ground of the Company's present position. I have come to the conclusion that the present rate of minimum wages of the employees of this Company should be revised with a view to bring the same up to the standard given by the aforesaid two Companies. I was given to understand that this Company gives Rs. 28 per month as dearness allowance at a flat rate to all the workers. So, the existing minimum wages as prevalent in this Company can be brought up to the standard of Rs. 65 prevailing in the aforesaid two Companies, if I allow a flat rate increase of Rs. 2 in the dearness allowance to all categories of workmen of this Company, and it is awarded accordingly. The direction in respect of such increase in the dearness allowance will take effect from the date the award becomes enforceable. I am mindful of the fact that this increase in dearness allowance will put some additional burden on the Company, but the Company should not grudge to pay this, as such increase in the dearness allowance will, to some extent, mitigate the hardship of the workers. It is the total emolument or pay packet that counts, and it does not make much difference whether there is increase in dearness allowance or in basic wages.

Before I part with this issue, I may further observe that the Unions have not placed before the Tribunal any materials, so as to enable it to assess the rates regarding wages, and grades and scales of pay. So, unless that is done, it is difficult for the Tribunal to fix with precision either basic wages or the grades and scales of pay. The majority of the workers of this concern are unskilled. There are also semi-skilled and skilled workers. So, the basic wages and grades and scales of pay for different categories of workmen in this concern should be determined on scientific basis with an eye to job valuation, and time and motion study. Off-hand, this cannot be done. Then again, basic wages should be increased, and grades and scales of pay fixed with an eye to prevailing rates in similar industries in the neighbourhood. I must confess that no reliable date has been furnished by the Unions in this respect, though it claimed increment in wages, and introduction of grades and scales of pay. So, as the matter stands before me, I am unable to grant any increment in the basic wage or basic pay, and to introduce grades and scales of pay for different categories of employees in this concern. Hence, I have preferred to allow an increment in the dearness allowance only at a flate rate of Rs. 2 for all categories of employees, with a view to give them some relief for the present. This issue is disposed of thus.

This is my award.

In the matter of an industrial dispute between Messrs. Textile Machinery Corporation, Limited, Belghurria, 24-Parganas and their workmen represented by Texmaco Workers' Union, 49 Nimta Road, post office Belghurria, 24-Parganas.

BEFORE THE SECOND INDUSTRIAL TRIBUNAL, WEST BENGAL

PRESENT:

SHRI G. P. MUKHERJEE, *Judge, Second Industrial Tribunal.*

Appearances.

For the employees: Shri Ram Sen and Shri S. K. Acharya, Counsel.

For the Company: Shri S. K. Bose, Counsel and Shri K. P. Mukherjee Solicitor of Messrs. Khaitan & Co.

There was a dispute between Messrs. Textile Machinery Corporation, Ltd., Belghurria, 24-Parganas and their workmen represented by Texmaco Workers' Union, 49 Nimta Road, post office Belghurria, 24-Parganas, in regard to the question of bonus for the year 1955. Accordingly, the Government of West Bengal, Labour Department, by order No. 1218Dis./D/10L-101/55, dated 21st March 1956, referred the dispute to this Tribunal for adjudication.

The issue as contained in the schedule to the Order of Reference stands as follows:—

> Are the workers entitled to have payment of any bonus for 1955? If so, what should be the amount thereof?

AWARD

It is the case of the Union that Messrs. Textile Machinery Corporation, Ltd., is a prosperous Company in engineering industry of West Bengal. It paid Rs. 35 to each of the workers as Puja bonus in 1955. The Company has been making huge profits, but it has been denying corresponding benefits to its employees. So, the Union has claimed for further 3 months' wages over and above the customary Puja bonus as bonus for the year 1955.

The Company, on the other hand, alleges that it is not possible to pay anything beyond the customary Puja bonus, as there is no available surplus according to the formula of the Hon'ble Labour Appellate Tribunal in the Bombay Mill Owners' case.

The sole question, which calls for decision in this case, is whether the workers are entitled to any bonus for the year 1955 out of profits. As stated already, the workers claimed such bonus to the extent of 3 months' wages. This claim is stoutly resisted on behalf of the management on the ground that there is no surplus profit available for bonus.

Neither party disputed the applicability of the Full Bench Formula as laid down in the Bombay Mill Owners' case to the present case, and I am definitely of the opinion that in finding out whether there is any surplus out of trading profits of the year 1955, available for distribution as bonus to the workmen, and if any surplus is available, what amount is so distributable, I must follow the Full Bench Decision already referred to, since the Full Bench Decision laid down the principle for assessing bonus payable to the workmen, which had hitherto been unsettled and has substantially been established in India. The workmen of the concern can legitimately claim bonus for their contribution in the profit of the concern, only if there is left a surplus out of trading profits of the concern after providing for certain prior charges, and a fair return for the money invested. The Full Bench Decision as mentioned above has laid down that the first charge of the gross profit should be the amount of money that would be necessary for rehabilitation, replacement and modernisation of machineries. A fair return for the Capital invested has been considered as a prior charge, next in importance to the requirements for rehabilitation, replacement and modernisation of machineries. The Full Bench has also provided for some return for the money employed as working capital, which would be the property of the Company. Next charge on the trading profits of the concern should be the provision for taxation.

Before embarking on an enquiry in the above matter, it is necessary for me to dispose of the preliminary objection that was raised on behalf of the Company. A point has been raised on behalf of the Company that the Textile Machinery Factory and the Boiler Factory must be treated as two independent and separate entities, and therefore the question of bonus in respect of these two factories ought to be decided on separate data. But the case as put forward on behalf of the workmen was that these two factories constitute one unit of the same Management, that is Textile Machinery Corporation, Ltd., who are parties to the present reference. On a consideration of the materials and after hearing the learned Counsels on both sides, the Tribunal feels no hesitation in saying that the two factories form part of the same unit, and that both the factories are parts of the Textile Machinery Corporation, Ltd. It has transpired from the cross-examination of O.P.W. 3, Shri R. S. Sharma that both the factories as mentioned above are the properties of the Textile Machinery Corporation, Ltd. and that one balance-sheet is prepared in respect of them. It further appears that the Directors of both the factories are also common. It has been held more than once by the Labour Appellate Tribunal that where a Company has two or more branches, and the profits of all of them are pooled together, and the liabilities of the various concerns are met out of the general resources, and policies in respect of sales, purchase, capital, expenditure, etc., are formulated on the basis of the Company as a whole, all the Branches should be treated as one unit [*vide* decisions reported in 1951(ii) L.L.J., 608 and 613.] Applying the above principles, it is clear that the two factories must be treated as one unit, and not two separate and independent entities as contended by the Company. I am, therefore, clearly of the opinion that the two factories—Textile Machinery Factory and Boiler Factory—are integral parts of one and the same unit and must be dealt with as one for the purpose of bonus. Accordingly, the preliminary objection as raised on behalf of the Company is overruled.

Now the question for decision is what bonus, if any, are the workers entitled to. The Company has produced balance-sheets for the years 1954 and 1955. The surplus profits available for distribution as bonus to the workmen have got to be determined with reference to the balance-sheet. The Company submitted before the Tribunal their estimates about the available surplus at first. After this, the Union submitted its estimates about the same. After the filing of such estimates by the Union, the Company filed a revised estimate of the available surplus. I need hardly say that these estimates differ widely. According to the estimates of the Company, there would be a deficit of about 32 lakhs of rupees in the year 1955, after providing all the prior charges according to the accepted Full Bench Formula, while according to the estimates submitted by the Union, there would be a surplus near about 18 lakhs of rupees out of trading profits of the year. I have carefully considered the estimates filed by both parties, and have also heard the comments and criticism made thereon. Both the Company and the Union appear to have submitted before the Tribunal statements indicating in their own way permissible deductions from the gross profits for the purpose of ascertaining the surplus available for distribution of bonus. On a careful consideration of the statements submitted by the parties in the light of the balance-sheets filed, I am inclined to accept the Union's estimates and statements as being more in conformity with the formula given in the Bombay Mill Owners' case. The estimates and statements as given by the Company do not, in my opinion, represent the actual state of things for finding out the true trading results of the concern for the year in question. According to the balance-sheet, we get Rs. 30,76,184 as the net profit of the year under review. According to the Bombay Formula, the said profit should be taken as the point to start with. Thereafter, some items have got to be added to arrive at the gross profit. Then again, some items, namely, statutory depreciation, income-tax, dividend on paid-up capital, return on working capital and rehabilitation allowances are required to be deducted from the gross profit. From the said gross profit we are to see how much surplus would be available in the hands of the Company. There is no fixed rule bearing on the quantum of bonus that the Tribunal will grant according to the formula. That is to be fixed by the Tribunal having regard to the total view of the financial condition of the concern. As stated already, Rs. 30,76,184 has been net profit of the year under review according to the balance-sheet. It appears from the balance-sheet that Rs. 20,00,000 has been allowed as depreciation. That the said amount requires to be added to the net profit is not disputed by either party. The Union contends that the disputed claim amounting to Rs. 2,75,000, donation of Rs. 3,16,786 and contingency amounting to Rs. 15,000, which appear in the balance-sheet for the year in question, should also be added for the purpose of arriving at the gross profit. The Company does not agree to this. But here I am inclined to accept the Union's version as being more in conformity with the formula given in the Bombay Mill Owners' case. It has been decided in the case of Minakshi Mills, Ltd. (1954 L.A.C. 132 at page 138) that the donation paid by the Company should be added for the purpose of arriving at the gross profit, and that the Company is not entitled to debit the said sum against the profits of the year in question. I may say further that the disputed claim and contingency are not actual revenue expenditure of the business for the year 1955, and as such they are allowable charges against profit. Therefore adding all these items, gross profit comes to Rs. 56·82 lakhs. Now from this gross profit is to be deducted statutory depreciation and maximum rehabilitation. Here in this respect, the parties are at difference. The main contention urged on behalf of the Management centres round the amount required for depreciation and rehabilitation. Requirement for rehabilitation is calculated on the present-day price level, which is obtained by multiplying cost price by a co-efficient, which indicates the ratio of the rise. It has become a convention of all the Tribunals to multiply cost of buildings constructed prior to 1949 by 2·25, and the cost of plants and machineries installed prior to 1948 by 2·7 for the purpose of equating the requirement to the present market value. It has also been a convention of the Industrial Tribunal to assess total life at 27 to 30 years in case of buildings, and 15 years in the case of plants and machineries. I do feel that these conventions are not always favourable to the industries, but there is no help. The description of assets of this Company as stated in the balance-sheet for the year 1955 is given below:—

Particulars.	Original cost on 1-1-1955.	New addition in both Textile Machinery and Boiler Factory.	Steel Foundry and Jute Machinery.

Regarding Steel Foundry and Jute Machinery Factory

The Company started production in the said two factories at the end of 1955 (*vide* evidence O.P.W. 3), so the capital invested in the Steel Foundry and Jute Machinery Factories cannot be taken into account for the purpose of bonus calculations of 1955.

The annual requirement for rehabilitation and replacement of buildings and plants and machineries according to the calculation made on the basis of the figures supplied by the Company in balance-sheet and their chart is given below in a tabular form, and the position will be as follows, if calculation is made on a very liberal basis according to Minakshi Mills, Ltd., case (1954 L.A.C., 132). In calculating the total rehabilitation requirement, 5 per cent. of the cost price as break down value must be deducted:—

Purchase.	Original cost.	Multiple.	Total cost.
Up to 1947	38·52	2·7	104·00
From 1948-49	26·14	2	52·28
1950-55	56·98	1	56·98
		Total ..	213·26

Available fund against rehabilitation cost

	In lakhs.
Depreciation reserve appearing on the 1st January 1955 as it appears from the balance-sheet.	70·12
General reserve appearing on the 1st January 1955 ..	3·51
Break down value	6·00
	79·63
Total cost	213·26
Less available fund against rehabilitation cost	79·63
	133·63

If 15 years be taken as spread-over period for the plants and machineries, the rehabilitation cost of plants and machineries per year will be $\frac{133\cdot63}{15}=8\cdot90$

Calculation of building rehabilitation cost

	Lakh.	Multiple.	
Up to 1951	29·72	×2·25	=66·87
From 1952-55	18·24	×1	=18·24
		Total ..	85·11

$\frac{85\cdot11}{30\text{ years.}}=2\cdot88$ per year.

If 30 years be taken as spread-over period for the buildings, the rehabilitation cost of buildings per year will be 2·88. Thus the total annual cost for the rehabilitation of buildings, plants and machineries per year will be 11·78 lakhs. Therefore, depreciation and maximum rehabilitation comes to Rs. 12 lakhs. That would be deducted from the gross profit of 56·82 lakhs. The balance thus comes to 44·82 lakhs. Out of this, income-tax is to be deducted. There is no dispute between the parties as to the amount of income-tax that is to be deducted. The income-tax comes to 17·50 lakhs, if it is calculated at the rate of 7 annas per rupee. After this, the balance comes to 27·72 lakhs. From this amount again, dividend on paid-up capital should be deducted. It appears from the balance-sheet that the paid-up capital is Rs. 1,00,00,000 (one crore) consisting of—

	Rs.
10,000 *cum* preference shares of Rs. 100 each at 5½ per cent. dividend	10,00,000
30,000 redeemable preference shares of Rs. 100 each at 5½ per cent. dividend ..	30,00,000
60,00,000 ordinary shares of Re. 1 each	60,00,000

It appears that out of 60 lakhs of ordinary shares, 15 lakhs were employed for the steel foundry and jute machinery factory, where production has been started in the last week of December 1955. So, the Company cannot legitimately claim any return on the said 15 lakhs capital. As regards preference shares, they carry dividend at the rate of 5½ per cent. per annum. So, the Company is not entitled to dividend more than that rate in respect of those shares. Regarding the balance of paid-up capital, the Company is certainly entitled to get 6 per cent. dividend. On such calculation, it appears that dividend on paid-up capital comes to Rs. 4·46 lakhs. Next question for consideration is that how much return on working capital should be deducted. Here the parties are at variance. The Company contends that they are entitled to get 4 per cent. return on general reserves, forfeited dividend account, reserve for rehabilitation, depreciation, profit carried forward, taxation reserve, deposits against orders and materials. The contention of the Company is that the entire sum of those items was employed in the business. It must be remembered that in order to earn flat rate of interest during the whole year, it must be shown that the fund was wholly employed for the purpose, and if employed for a period, the return must necessarily be restricted to that period. There must be sufficient evidence before the Tribunal as to the utilisation of a fund and the period thereof, if a claim for return is to succeed. I wonder how the Company can claim return on reserve for rehabilitation, depreciation, reserve for taxation, deposits against orders and materials and profit carried forward. Provisions for all these were made in the balance-sheet for the year 1955, which was only prepared and published in the month of August 1956. So, it is evident that the said items were not and could not be admittedly employed in business in the year 1955. Furthermore, in the balance-sheet for the year, 1954, there was no reserve for taxation or for rehabilitation. The Company's claim for getting return on forfeited dividend account, profit carried forward and deposits against orders and materials is equally untenable. There is no evidence whatsoever to show that those items as stated above were employed by the Company in business of the year under review. It has been held recently in a case reported in 1956(ii) L.L.J. 275 that book debts, advance, deposit, investment and cash in hand could not be considered as reserve utilised as working capital for the purpose. I may say in this connection, that a fund like taxation reserve or the reserve for other debts must, from the very nature, fluctuate during the course of a year, and it is not sufficient for a Company to come before a Tribunal and to say that these were the reserves they had at the commencement of the year, and therefore they must be deemed to have continued as such throughout the period. Taking a broad and sensible view of the matter, I hold that the Company is at best entitled to get return at the rate of 4 per cent. on the amount of general reserve only, which was Rs. 3,51,406 on 31st December 1954. Although there is no direct evidence on the point, it is likely that the said general reserve was employed in business during the year under review. Therefore, the Company is entitled to get return of ·14 lakhs of rupees on the working capital of Rs. 3·51 lakhs of general reserve. After deducting this sum, the balance left is 22·72 lakhs. As I could understand in the course of arguments, the total basic wage bill of the workmen amounts to Rs. 1·50 lakhs per month approximately. If the workmen are paid 2 months' basic wages as bonus, the total amount of bonus will be Rs. 3 lakhs. Thus, if two months' basic wages are paid as bonus, in addition to what surplus out of profits to the tune of Rs. 20 lakhs approximately. The Company will be entitled to return on income-tax on account of payment of bonus, because income-tax is calculated upon the income of the

Company, less bonus that may be awarded. Thus, it is clear that the Company can easily bear an additional burden on account of bonus to be paid at the rate of two months' basic wages. I shall not be justified to grant bonus for the year in question at a figure in excess of two months' basic wages. I may in this connection repeat the observations in the Full Bench case—"After the aforesaid deductions there remains a surplus and the issue is whether the employees are entitled to any, and if so, to what bonus, the answer to this issue is not easy, for we have to consider in this context the needs of the employees, the claims of the share-holders and the requirement of the industry."

A table is given below as to how the available surplus has been worked out, and the basis thereof:—

	Lakhs.	
Net profit as per balance-sheet		30·76
Add back—		
Depreciation	20·00	
Disputed claims	2·75	
Donation	3·16	
Contingency	·15	26·06
		56·82
Less depreciation and maximum rehabilitation		12·00
		44·82
Less income-tax at annas 7 annas per rupee		17·50
		27·32
Less dividend on capital		4·46
		22·86
Less 4 per cent. return on working capital of Rs. 3·51 lakhs ..		·14
		22·74
Less 2 months' basic wages now given as bonus		3·00
		19·72
		available surplus.

In this connection, I may say that the year in respect of which bonus is claimed, the Company had the highest profit. In the year 1954, the Company had net profit of Rs. 9,44,477, but in the year under review that profit rose to Rs. 30,76,184. So, it came as a pleasant surprise how the Company could resist the claim for bonus of the workmen. The Company contended no doubt that after making provisions for depreciation and rehabilitation, it was not in a position to pay bonus. It is true that according to the principles laid down by the Full Bench Decision, the prior charges are to make provision for reasonable return on capital invested in the concern and for depreciation. But this does not mean that when in any year a huge profit has been made, the entire profit should be applied towards that purpose. The labour too has contributed towards that profit, and it should also have a share in it. It is only in this way that an incentive can be created in the labour for increasing the profit of the concern. If provisions for depreciation and rehabilitation are made in a large scale in one year, the labour's claim to bonus is likely to be hit hard. So, the justice of the claim for bonus for the workmen is strongly felt in the present case. Accordingly, it is decided that the workers shall get 2 months' basic wages as bonus for 1955. I may observe in this connection that temporary workers and apprentices will not get benefit of the bonus as awarded above. Payment of bonus as directed above must be made within one month of the award coming into operation.

This is my award in the present case.

AWARD

DECISIONS

Issue No. 1.—Revision of pay and scales of pay

The Union states in its written statement that a grade scale for the clerical and the subordinate staff was fixed in 1946. Thereafter the Company was a party to the Mercantile Tribunal in 1948, and the Union represented the workmen before the Tribunal through the Federation of Mercantile Employees' Unions to which it is affiliated. It is stated that the Mercantile Tribunal had to adjudicate on the dispute on pay scale amongst others, but that in those days the principles of wage fixation were not sufficiently clear and defined, and the said Tribunal in its award, dated 11th August 1949, fixed the scale of pay for the clerical and subordinate staff by increasing the minimum and maximum by about Rs. 10 in each case, otherwise maintaining the Company's scale of pay and without properly considering the matter in all its aspects. In the case of Drivers, no scale of pay was fixed. The starting minimum as well as the maximum of the grades fixed for each category of workers were low, inadequate and out of all proportion to the cost of bare necessities of life, as shown in Annexure C to the Union's written statement. In Annexure C the Union states that the cost of a balanced diet on the dietary mentioned at page 106 of the Famine Enquiry Report, amounts to Rs. 62-13 as for one consumption unit and Rs. 188-7 for a family of three consumption units. It is also stated that the annual increments provided and the period for which they were given were both short and low, in consideration of the normal period of service of an employee and his requirements and the conditions of service and grades and scales of emoluments prevailing in the other similar companies in the locality are much better than this Company. It is, therefore, stated that the employees are getting much less as remuneration than what they actually deserve and their grievances call for an immediate solution. The Union, therefore, claims that the scales of salaries should be as follows:—

"A" GRADE—Rs. 160—10—210 12—330
5 years. 10 years.

"B" GRADE—Rs. 100—5—140 7½—200 10—240.
8 years. 8 years. 4 years.

Special GRADE—Rs. 353—25—600.
10 years.

"A" Grade employees shall mean and include Sectional heads, Stenographers, Comptometer Operator, Accounting Machine Operators, Draughtsman, Highly Skilled workers, Ledger Keepers, etc. and 50 per cent. of the staff shall not be placed below "A" Grade.

For the purpose of fitting into the grades, every employee shall be given one increment for every past two years' service in the Company, subject to the existing advantages. Retrospective effect shall be given from January 1955.

Subordinate Staff.

"C" GRADE— Rs. 50—2—60 3—90.
5 years 10 years.

"C" Grade employees shall mean and include Daftri, Carpenter, Packers, Hand Painters, Dak Peons, Bank Peons, Coolie Sardar, Head Durwan and Head Bearer.

"D" GRADE— Rs. 45—2—65 3—80
10 years. 5 years.

Durwans, Bearer, Mazdoors, Car Cleaners shall come under this Grade.

"E" GRADE—Rs. 40—1—50 2—60.
10 years. 5 years.

Sweepers and washerman shall shall be included in this grade.

Drivers.

Car Drivers—Rs. $\dfrac{80\text{—}3\text{—}110.}{10 \text{ years.}}$

Lorry Drivers—Rs. $\dfrac{90\text{—}3\text{—}120.}{10 \text{ years.}}$

The Company, in its written statement, states that the scales of pay and other amenities fixed by the award of the Major Mercantile Tribunal are fair and adequate. The Company does not admit the correctness of Annexure C. The existing scales even on a scientific basis are adequate and fair, specially having regard to the nature of the Company's business. The Company denies that on proper appreciation of all circumstances, the workmen have any grievances, as alleged or at all. The Company contends that they are paying in accordance with the Tribunal award and no further increases can be given, nor is the Company in a position to commit itself to any further financial burden. The Company does not accept any of the proposed grades mentioned. The existing pay scales are adequate. The categories of employees to be covered by any grade must be decided by the Company according to its discretion.

The Stenographers ought to be graded on their speed and ability, as it is seldom that two Stenographers are exactly equal in speed and capability. It is not equitable that a beginner and an experienced person should be on the same scale of remuneration. The Company has none who is regularly and fully employed as a Comptometer Operator. The necessity for such a person is not sufficient to warrant their employment, but members of the clerical staff are used for this work from time to time as may be necessary. There is only one Accounting Machine Operator and the work is of a simple accounting basis. The Company has no Draughtsman at present, and if it did, he could not in any way be considered on the same level as a Stenographer; his grade might differ according to his experience and type of work for which he was required. The grading of such person if required at all, must be left to the Management. These pleadings are considered below.

Towards the end of 1946, the Company introduced new scales of pay and dearness allowance and other terms of service for the clerical and the subordinate staff, in view of the fact that such scales were introduced by the Bengal Chamber of Commerce and the Company, being a member of the Chamber, also accepted those grades. These grades appear in Annexure F to the Union's written statement. They are as follows:—

Clerical staff

Grade A—Rs. 150—10—250.
Grade B—Rs. 100—7—170.
Grade C—Rs. 60—4—124.
Grade D—Rs. 60—2—90.

Subordinate staff.

Rs. 20—1—40.

Car Drivers—Rs. 60
Lorry Drivers—Rs. 90.

The dearness allowance was revised and the Bengal Chamber of Commerce Dearness Allowance was introduced, which allows at a cost of living index of 260 (1939 = 100), a dearness allowance of 40 per cent. on the first Rs. 100 of the salary, subject to a minimum of Rs. 25 with another 20 per cent. on the second Rs. 100 of the salary and also Rs. 10 per cent. on the remainder of the salary. For every rise or fall of 20 clear points in the index, the dearness allowance will be increased or reduced by one quarter of the above percentages. The Bengal Chamber of Commerce scale of dearness allowance and the percentages are linked with the cost of living index as published in the "Capital".

The Government of West Bengal appointed a Tribunal, generally called as the Mercantile Tribunal by Order No. 135Lab., dated 17th January 1948, to adjudicate on certain disputes as to the terms and conditions of service between 267 commercial establishments in Calcutta, who were members of the Bengal Chamber of Commerce and their workmen. The present Company is a member of the Bengal Chamber of Commerce and it was Serial No. 72 of list No. 1 of the reference. That Tribunal made its award in the case of the present Company on 23rd June 1949 and this award was published in the *Calcutta Gazette* on 11th August 1949. It may be mentioned that the award in the case of Bengal Chamber of Commerce, which was published in the *Calcutta Gazette* on 17th February 1949, was the model award on which all the other awards were based. The grade scales and basic pay, as allowed under the award of the Mercantile Tribunal for the clerical staff of the company were as follows:—

Special Grade—Rs. 260 and upwards at the discretion of the Company.

Grade A—Rs. 160—10—260.

Grade B—Rs. 110—7—180.

Grade C—Rs. 70—4—134.

Grade D—Rs. 70—3—130.

It was observed that the probationers should get the lowest salary of the grades to which they belong.

Typist will not go below C Grade and Stenographers will not go below Grade B.

Each clerk will be given flat increment of Rs. 10. If after the increment, the salary of any clerk does not fall in any stage of the time-scale, he shall be placed at the next higher stage.

The Clerks shall get dearness allowance according to the Bengal Chamber of Commerce scale.

As to the subordinate staff, it was decided that the Tribunal would not interfere with the pay and dearness allowance, except that those persons, whose pay was below Rs. 30 would be pulled up to that figure and the amount of increase would be deducted from dearness allowance. The total emoluments must not go below Rs. 60.

The learned Advocate for the Union states that the pay of the clerical and the subordinate staff was not properly enquired into for the purpose of fixation thereof on a scientific basis. The requirements of food alone to continue a balanced diet at the present market price for standard family, as shown in Annexure G, comes to Rs. 188-7 while there are expenses for some other items like cloth, light, fuel, housing, medical expenses and other miscellaneous items. Taking an extremely moderate view of the whole thing and the sweepers and the washerman as the lowest rank of the subordinate staff, the claim of Rs. 40 per month as the starting pay, with a provision for incremental scale for 15 years is claimed to be a reasonable basis of approach for the revision of pay and on the same basis, the starting pay of the clerks is claimed to be Rs. 100 per month, and revision of grades is claimed as mentioned above. The claim that the cost of food for a balanced diet for a standard family would come to Rs. 188-7 is unworthy of support. Without taking into account the fact that the total cost of food to the extent of Rs. 188 and odd would mean a wage of much higher figure for the lowest paid worker, even a minimum wage of Rs. 188 per month in place of the existing minimum of Rs. 70 or so for the clerk and Rs. 30 for the sub-staff with suitable increments all along the scale to maintain the existing differentials is not possible for the Company to sustain. The approach as made by the Union is also open to objection on other grounds. Even if the worker was entitled to a balanced diet, as mentioned in the Famine Enquiry Report, stated in Annexure G to the Union's written statement, the cost therefor at the present market value would not give a picture of his wage requirements, as he is not entitled to a cent. per cent. neutralisation for the rise in the cost of living. The workman has to bear to some extent the burden of the increased cost of living. The Hon'ble Labour Appellate Tribunal of India, in the Nelli Marla Jute Mill's case, reported in 1953 L.A.C., 440 at page 445 observes as follows:—

> "In Buckingham & Carnatic Mill's case, statistics were examined. It is unnecessary to repeat the observation made therein for those statistics are equally available to us in this case. After examination of the matter in detail it was laid down that a workman like every other citizen has to bear to some extent the burden of the increased cost of living. * * * In these circumstances, we think that the rate fixed by the Tribunal is reasonable, for it still leaves about 34 per cent. burden of the higher cost of living on the workmen."

It is, therefore, clear that the workmen in Nellimarla Jute Mill's case got neutralisation of the rise to the extent of only 66 per cent. The revised Health Bulletin No. 23 of 1951 by Dr. Ackroyd, Fourth Edition (1951), fully revised by Shri V. N. Patwardhan, Director, and Shri S. Ranganathan, Chief Chemist, Nutrition Research Laboratories, Coonoor, shows at page 16 in Table II the composition of the well-balanced diet and at page 18 in Table III the composition of the ill-balanced diet, and in Table IV of the same page the composition of improved diet, which provided for the essential nutrients of a balanced diet and made a compromise by temporarily sacrificing the ideal diet with the necessity of making the improvement economically possible. It is stated that this improved diet as has been conceived and enunciated by the nutrition experts as the well-balanced diet in Table II will be too expensive and beyond the means of many. At page 19, it is stated that the insufficient and ill-balanced diet would have cost Rs. 2-8 per adult and the well-balanced diet, which is richer in milk and other food, would have cost Rs. 5 to Rs. 6 per adult per month in the pre-war days. The improved diet, as mentioned in table IV at page 18 would, therefore, cost the worker less than Rs. 5 per head. The dietory mentioned at page 106 of the Final Report of the Famine Enquiry Commission, mentioned in Annexure G to the Union's written statement, is the same as the well-balanced diet in Table II of the Health Bulletin, mentioned above. The argument of the learned Advocate that the cost of food of 3-consumption unit would come up to Rs. 188, and the worker is entitled to that sum with the cost of clothing etc. as his total wage in a month is, therefore, unworthy of support. As a matter of fact, the wage paid to the employees in this concern was fixed by the Major Mercantile Tribunal on a pattern set for as many as 267 mercantile firms in Calcutta, who were members of the Bengal Chamber of Commerce. The principles for fixation of fair wages, enunciated in the Report of the Fair Wages Committee, have been adopted in the decisions of the Hon'ble Labour Appellate Tribunal. The Fair Wages Committee's report deals with the case of industrial workers but the same principles have been generally held applicable for fixing the wages of the clerical staff belonging to the lower middle-class families. In the case of Buckingham & Carnatic Mill's case, reported in 1952 L.A.C., 490, the Hon'ble Labour Appellate Tribunal accepted the principles laid down in the report of the Committee on Fair Wages and applied them to the fixation of fair wages of all workmen. It was observed by the Hon'ble Judges in that case that the prevailing rate of wages in the same and similar occupations in the same or neighbouring localities is an important factor for unless the same wage level of workers employed in the same occupation in the same locality or in the neighbourhood was maintained, there would be a flow of labour from one industry to another in the same locality or neighbourhood, or from one unit of the same Industry to another unit, resulting in unfair competition and undesirable consequences. It was also accepted that the capacity to pay must be assessed not on unit-wise basis but on the industry-*cum*-regions basis, as is the recommendation of the Fair Wages Committee. In the case of Metal Box Company, reported in 1952 L.A.C. 322 at page 330, the Hon'ble Judges of the Labour Appellate Tribunal observed as follows:—"It is true that we should aim at a progressive improvement in wages, but such aim is necessarily conditioned by existing factors. It is the consistent policy of this Tribunal to grant to the workmen a scale which is in accord with the trend of wages and also with the capacity of a concern to pay and if possible to supplement it with bonus out of 'available surplus of profits.' In the case of the Army & Navy Stores, Ltd., Bombay *vs.* their workmen, reported in 1951(II) L.L.J., 31, the Hon'ble Labour Appellate Tribunal held that generally basic wages once fixed by an award should not be disturbed for a reasonable period of time and should not be altered without a material change of circumstances. This case was cited by the learned Counsel for the Company in support of his plea that no revision of the basic wage should be made. The learned Advocate for the Union cited the case of Caltex Employees' Union *vs.* Caltex (India), Ltd., reported in 1952 L.A.C., 402. In this case, the minimum wage necessary for a clerical employee was found to be Rs. 67-8 and in view of the considerations of the capacity of petrol products distributing companies operating in West Bengal, the minimum wage of the lowest grade clerical worker was fixed at Rs. 80 per month in the grade of $\dfrac{\text{Rs. } 80—5—120 \quad 7\tfrac{1}{2}—180 \quad 10—20}{8 \text{ years} \quad 8 \text{ years} \quad 2 \text{ years.}}$ In the case of Karam Chand Thappar & Bros., Ltd. *versus* their clerical and other employees, (1953 L.A.C., 152 at 165), the learned Judges stated that Rs. 66-12 was the minimum starting basic wage necessary for a clerk in place of Rs. 67-8 and here the learned Judges fixed the lowest grade of the clerks at Rs. 70—3—85—4—105—E.B.—5—170, and the next grade at Rs. 70—4—90—5—110—E.B.—7—215. The most important factor for consideration of fixation of wage scales of employees in a mercantile firm are the factors of minimum subsistence wage as the floor and the fair wage within the capacity of the Industry to pay on the industry-*cum*-region basis as the desired level. In view of the fact that the Mercantile Tribunal fixed the wages of employees of more than 200 mercantile firms, who are members of the Bengal Chamber of Commerce in 1949 virtually on the same pattern and basis and on the model of the award of the Bengal Chamber of Commerce case, it was argued by the learned Counsel for the

Company that an increase of the salary scales of the employees of the Company was not justified. We are to consider, however, the question of progressive advancement of the scales with a view to progressive advancement of the standard of living."

On a careful consideration of the matter, I am of the opinion that a major alteration of the scales of salaries of the clerical staff of this Company may disturb similar grade scales of salaries in other mercantile firms in Calcutta, which were parties to the Mercantile Tribunal award and the wage scales in whose case were also forced on the same model, being the model of the case of the Bengal Chamber of Commerce. On a consideration of the matter, I consider that Grade C and Grade D, as shown below, are almost similar grades and there is no need of these two grades existing simultaneously:—

Grade C—Rs. 70—4—134.

Grade D—Rs. 70—3—130.

Grade D should be abolished and Grade C should be extended a little by insertion of an efficiency bar at an intermediate stage. On a careful consideration of the matter, Grade C is reconstructed as follows:—

Rs. 70—4—110—6—128—E.B.—6—170.

The other grade scales shall continue as ordered by the learned Mercantile Tribunal.

In regard to the subordinate grades, the present scales are as follows:—

Rs. 30—1—40.

Rs. 35—1—55.

Car Drivers—Rs. 60.

Lorry Drivers—Rs. 90.

It appears that the learned Mercantile Tribunal did not interfere with the pay and dearness allowance of the subordinate staff and only directed that those persons whose pay was below Rs. 30 should be pulled up to that figure and the amount of increase deducted from the dearness allowance and the total emoluments must not go below Rs. 60. It appears that the scale of basic wages of the subordinate staff before the date of the Mercantile Tribunal was Rs. 20—1—40. Car Drivers used to get Rs. 60 and Lorry Drivers Rs. 90 per month. According to the Directions of the Mercantile Tribunal, the scale of Rs. 20—1—40 was increased to Rs. 30—1—40 and the dearness allowance was reduced by Rs. 10. The scale of Rs. 35—1—55 has been introduced recently for Carpenters, Packers, hand Painters, the Duftry and the Head Bank Peon and Durwans. It appears that the dearness allowance available to the subordinate staff at the present moment is Rs. 48 per month. With this dearness allowance, the minimum emoluments of the subordinate staff becomes Rs. 78, which compares very favourably with the wage awarded for the industrial workers and subordinate staff by the Major Jute and Engineering Tribunals of West Bengal. The minimum emoluments of the subordinate staff of the Government of West Bengal is less than Rs. 60 per month.

The monthly basic salary of the car driver is Rs. 60 and that of the lorry driver is Rs. 90. They get a dearness allowance of Rs. 48 as the other members of the subordinate staff. Evidence on record shows that no lorry driver is now in the employment of the Company, in view of the fact that the work of a lorry driver is not available for the whole month. P.W. 2 Shri Dasarathi Das, a car driver, works as the lorry driver and he is paid an additional remuneration of Rs. 2-12 per day on the days on which he drives the lorry. On an average, his extra remuneration is about Rs. 55 per month for driving the lorry, over and above his basic salary of Rs. 60 as a car driver. On a consideration of the matter, it is awarded that the car driver shall have a graded basic salary as follows:—

Rs. 60—2—70.

The car drivers will have their first increment on the date of the enforcement of this award. There is no lorry driver at present in the Company. A lorry driver's wage, if one is appointed, shall be at Rs. 90.

I do not consider that the basic wage of the other categories of the subordinate staff requires any revision at the present time and they shall continue as before.

As to the fitting in of the employees into the new scales, this may be called for only for the employees in the C and D grades that are altered by this award. The Union's claim for a grant of increment in consideration of the past services, which according to it, was not awarded by the Major Mercantile Tribunal, does not appear to be worthy of approval. The Mercantile Tribunal did not award any extra increments in consideration of past services in the case of employees of the large number of firms that were parties to adjudication before it. I have no doubt that the learned Mercantile Tribunal did not appreciate any such further increments to be necessary, in view of the fact that a general increment at the flat rate of Rs. 10 was granted to the clerical employees and the dearness allowance at the Bengal Chamber of Commerce scale was accepted by it and this general increment must have given a substantial relief to these employees for the rise of the cost of living. In the circumstances, the claim for further increments in the scales in recognition of the past period of service is rejected.

In view of the fact, however, that Grade D is abolished and is replaced by the reconstructed Grade C, it is directed that an employee of Grade D shall be fixed at Grade C at the stage of the actual salary he is drawing, or if there is no such stage, at the stage next above his actual basic salary. Employees of Grade C who were in receipt of basic salary above Rs. 110, shall be fixed at the stage of the actual salary he is getting in the reconstructed scale, or if there is no such stage, at the stage next above his actual basic salary. The efficiency bar in Grade C is placed at the stage of Rs. 128. There was no efficiency bar in the grade before. Efficiency bar exists in Government service and has been inserted in many awards made by the industrial courts and Tribunals. If there is no such bar, the clerk who is found to be inefficient after his confirmation will have no incentive for improvement throughout his whole service and the employer may have no alternative than to discharge him. The Central Pay Commission, states in its report at pages 39-40 "We are not prepared to ignore the fact that right down from the time of Islington Commission, all responsible authority have regarded the principle of efficiency bar as an indispensible part of the time scale system, if it is to work efficiently * * * Stoppage of increments is regarded and rightly regarded as in the nature of condemnation and the attitude of the Head of the office in resorting to that course must be different from his attitude in applying the efficiency bar. The principle of the efficiency bar is that on reaching a certain point in the salary scale, an officer shall be certified as competent to carry out higher duties of the grade before further salary advances are granted." An employee who will be considered to be fit to carry on the work should be normally allowed to cross the efficiency bar. Detention at the efficiency bar will always be considered as a punishment to be awarded after giving the employee an opportunity to explain his impugned conduct.

This issue is accordingly answered.

Issue No. 2.—Dearness allowance in respect of the subordinate staff.

The Union, in its written statement, states that dearness allowance of the subordinate staff shows the Company's unjust, arbitrary and unfair attitude towards the legitimate demands of the workmen. The dearness allowance was reduced by Rs. 10 per month when it was being paid on the Bengal Chamber of Commerce scheme based on the middle-class cost of living index. It is complained that the dearness allowance is being paid on the Bengal Chamber of Commerce scheme but on the basis of the working class cost of living since September 1950. The Union claims that Rs. 10 deducted from the dearness allowance should be added to the basic pay and should be paid back separately as dearness allowance. It is also prayed that since the date of such cut, the Bengal Chamber of Commerce scale of dearness allowance based on the middle-class cost of living index be paid back by declaring the notice effecting the change to be unjustified and void.

The Company, in its written statement, states in reply that the dearness allowance is paid strictly in accordance with the Mercantile Tribunal award of 1949, and that the claim of the Union was unjustified.

The learned Advocate for the Union stated in his argument that the present was a case for interpretation of the service conditions of the workmen, as allowed by the Mercantile Tribunal award. The Company was giving dearness allowance to the subordinate staff on the Bengal Chamber of Commerce scheme based on the middle-class cost of living and this claim of dearness allowance was accepted by the Mercantile Tribunal. This claim of dearness allowance based on the middle-class cost of living index was, therefore, a condition of service settled between the parties. That condition of service was changed in September 1950 by calculating the dearness allowances on the working class cost of living index instead of the middle-class cost of living index, which lowered the dearness allowance available to the workmen. The Union claims that when the working class cost of living index is taken as the basis for fixation of the dearness allowance, the cut of Rs. 10 made from the dearness allowance to raise the basic pay by the same amount, should no longer be made. It was further claimed that the deduction from the dearness allowance at Rs. 10 made since September 1950 should be refunded to the workmen by the order of the Tribunal.

The learned counsel for the Company opposed this claim. It is advanced that at the date of the Mercantile Tribunal's award, there was only one kind of cost of living index computed, being the middle-class cost of living index, and that in August 1950, the Bengal Chamber of Commerce computed the working class cost of living index and put the sub-staff on the scheme of dearness allowance based on the working class cost of living index with effect from September 1950. This claim was adopted in the office of the Bengal Chamber of Commerce and in the offices of all other Companies who are members of the Chamber, in view of the fact that the working class cost of living index and not the middle-class cost of living index was suitable to the subordinate staff. The learned counsel stated that the Company was still following the directions of the Mercantile Tribunal. The directions were that the total remuneration of the subordinate staff should not fall below Rs. 60 per month and that the basic pay should be at least Rs. 30 per month and to raise the basic pay to this figure, deduction of Rs. 10 should be made from the dearness allowance. It was argued that there was no ground for cancellation of the cut of Rs. 10 from the dearness allowance, in the present issue as referred to the Tribunal, or for a refund of Rs. 10 per month, as claimed for each member of the subordinate staff with effect from September 1950.

The directions of the Mercantile Tribunal as to the subordinate staff were as follows:—

> "We do not interfere with the pay and dearness allowance except that those persons whose pay is below Rs. 30 should be pulled up to that figure and the amount of increase be deducted from dearness allowance. The total emoluments must not go below Rs. 60".

The claim that the subordinate staff was allowed the dearness allowance on the Bengal Chamber of Commerce scheme applicable to the middle-class cost of living index as a condition of service does not appear to be justified on the directions as mentioned above. The only two conditions of service imposed by the Tribunal were that the total emoluments must not go below Rs. 60, and the basic pay should be pulled up to Rs. 30 by addition of a sum, which should be deducted from the dearness allowance. I do not appreciate why the deduction from the dearness allowance which is added to the basic pay should be omitted from the date the Bengal Chamber of Commerce scheme of dearness allowance based on the working class cost of living index was introduced. The Union does not seriously oppose the introduction of the dearness allowance on the basis of the working class cost of living index but claims withdrawal of the deduction of Rs. 10 from the dearness allowance, which is added to the basic pay to increase the basic pay. The present dearness allowance on the working class cost of living index is Rs. 58, and deducting Rs. 10, the sum of Rs. 48 is paid to the subordinate staff as dearness allowance. On a careful consideration of the matter, I do not find any justification for discontinuing the deduction of Rs. 10 from the dearness allowance. This claim is rejected. The claim for refund of the cut of Rs. 10 made from the dearness allowance since September 1950, is also not justified and is rejected.

This issue is accordingly answered.

Issue No. 3.—Leave—Privilege and sick.

The Union states in its written statement that the existing leave in the Company is very inadequate and the Union claims greater leave facilities and claims as follows:—

(i) Privilege leave—One month with full pay and dearness allowance in a year cumulative up to two months.

(ii) Sick leave—One month with full pay with dearness allowance, cumulative up to three months, and with half pay till recovery.

The Company states that the existing leave provisions are fair and adequate and should be confirmed.

The existing leave and holidays are as follows:—

(a) Privilege leave—14 days per year, cumulative up to two years.

(b) Casual leave—10 days per year, non-cumulative.

(c) Sick leave—14 days on half-pay per year, cumulative up to 56 days.

(d) Holidays—As under the Negotiable Instruments Act.

It appears that the learned Mercantile Tribunal awarded on leave as follows:—

(a) Privilege leave—14 days on full pay in the year cumulative up to two years.

(b) Casual leave—10 days with full pay in the year non-cumulative.

(c) Sick leave—At the discretion of the Company.

The claim here as to privilege leave is unjustified. On a consideration of the matter, however, it is awarded that privilege leave shall be allowed as follows:—

(a) Those with service under 10 years—14 days annually, cumulative up to 28 days.

(b) Those with 10 years' service and over—21 days annually cumulative up to 42 days.

As to sick leave, I do not consider that any alteration of the sick leave is justified under the circumstances. The claim for increase of sick leave is rejected. This issue is accordingly answered.

Issue No. 4.—Medical Facilities.

The Union states in its written statement that there is no medical facility in the Company. There are some mercantile firms who allow free medical facilities to their employees. The Company should appoint a doctor for the staff. All employees and their dependents should be given adequate medical aid which would include doctor's fees, cost of medicines including injections, patent medicines, charges for operations and beds in hospitals on production of proper vouchers. Adequate number of T.B. beds should be kept reserved by the Company in a reputed hospital for giving free treatment to those (employees and as well as their dependants) who may happen to fall victims to this fatal disease. In the alternative, two months' total wages should be paid to each workman as Medical Allowance in a year.

The Company states in its written statement that the Company is not prepared to supply any medical facilities, as claimed and that affording medical facilities to the subject is the responsibility of the State and not of the employer.

In the award of the learned Mercantile Tribunal, the directions as to medical aid were as follows:—

"This according to our scheme of the award is discretionary."

In the award of the learned Mercantile Tribunal as to medical facilities in the case of Bengal Chamber of Commerce versus their workmen, the directions were as follows:—

> "The clerks are to work in Calcutta and are not denied any facility offered by the State in common with other men. In the circumstances it is not obligatory on the Company to arrange for medical treatment of the clerks and their dependants. The Company, however, has some arrangements for giving medical aid and we do not propose to compel the Chamber to enlarge it."

It was argued by the learned Advocate for the Union that in the case of Caltex, reported in 1952 L.A.C., 402, the learned Labour Appellate Tribunal directed that the maximum limit for the cost of medical assistance in any year was not to exceed one month's salary including allowance of that particular workman. On the basis of this direction, the learned Advocate for the Union claimed that a similar direction should be given for the employees of this Company. A similar direction was given by the Appellate Tribunal in the case of Karamchand Thapper, reported in 1953 L.A.C., page 152 at page 161, following the direction of the Tribunal in the case of Caltex mentioned above. It, however, appears that in both these cases the Company was already giving certain medical facilities to the workmen and these facilities were limited to one month's wages by the Tribunal. There is no justification for the claim that where there was no medical facilities available to the workmen in any Company, the Tribunal was justified in imposing such a burden. The provision of medical facilities is the responsibility of the State. For the employees of the Company situated in the city of Calcutta, no such medical facilities can be claimed by the workmen. No such facilities exists in Government offices. There is a provision for compulsory medical facilities in the Bengal Factories Rules, applicable to factories. These rules are to be followed in the Hide Road establishment of the Company, which is a factory under the Factories Act. The claim for medical facilities as made by the Union is in these circumstances rejected. The Company is at liberty to grant any advantage on this account as it considers proper according to its discretion. This issue is accordingly answered.

Issue No. 5.—Provident Fund.

The Union states that the Provident Fund contribution of the employer and the workman is 5 per cent. of the basic pay on each side and the management of the same is vested absolutely in the hands of the Trustees nominated by the Company. The Union claims as follows:—

(i) Rate of contribution should be 8⅓ per cent. on the total emoluments.

(ii) 50 per cent. of the Provident Fund Trustees shall be representatives of the Union.

(iii) Maintenance expenditure of the Fund must be borne by the Company.

(iv) In no case of termination of service, forced or voluntary, the workman shall be deprived of the employer's contribution to the Fund, except cases of dismissal involving moral turpitude within 5 years from the date of his joining the service of the Company.

The Company, in its written statement, states that the existing Provident Fund with the Gratuity are generous provisions as retiral benefits and no alteration should be made. The Provident Fund Trustees are appointed in terms of the Trust Deed and no alteration of the rules regarding management or otherwise can be made in the absence of the Trustees or without the approval of the Commissioner of Income-tax. As to the claim of increase of the rate of contribution to 8⅓ per cent. of the total emoluments, it is stated by the learned Advocate for the Union that the Employees Provident Fund Act offers 6¼ per cent. contribution on either side on the basic pay as well as the dearness allowance. Therefore, 8⅓ per cent. on the total emoluments, as claimed by the Union, was moderate. It was further stated that the Provident Fund belongs to the worker and the worker should therefore have representation on the Board. of Trustees to the Provident Fund. It was also claimed that the maintenance expenses of the Fund should be borne by the Company and in no case of termination of service, the workman should be deprived of the employer's contribution to the Fund, except in the cases of dismissal involving moral turpitude within five years from the date of his joining the services of the Company.

The Major Mercantile Tribunal in 1949 generally awarded 10 per cent. Provident Fund contribution on basic pay on either side for the clerical staff and 6¼ per cent. on the basic pay for the sub-staff, as a single retiral benefit. When there was a double retiral benefit, as for example, Provident Fund and Gratuity or Pension, the contribution to the Provident Fund was generally much less. In the case of Messrs. McLeod & Co., published in the *Calcutta Gazette* on 4th August 1948, where there was only the Provident Fund as the retiral benefit, the contribution to the Provident Fund was increased from 6¼ per cent. of the basic pay to 10 per cent. for the clerical staff. There was a cover for the period uncovered by the scheme of Provident Fund. Similar was the case in the award of Messrs. Martin & Co. and Messrs. Burn & Co., published in the *Calcutta Gazette* on 25th August 1949. In the case of Lovelock Lewis & Co., published in the *Calcutta Gazette* on 12th May 1949, there were double retiral benefits and the contribution to the Provident Fund was one month's salary per annum for the employee and 50 per cent. of the employee's contribution by the employer. This makes the employer's contribution only 4-1/6 per cent. of the basic salary. There was also a retiring life pension granted to employees of long service. This scheme was approved by the Tribunal. The present Company also offers the benefit of gratuity as will be discussed in the next issue. In the award of the Major Mercantile Tribunal on this Company, the learned Judges approved of the contribution to the Provident Fund at 5 per cent. and altered the rules of gratuity to the advantage of the workmen in some respects.

Although the Provident Fund Trustees are not parties to this case, this Tribunal has the power to adjudicate on the industrial dispute between the parties as to what should be the rate of contribution by the employer and the employee to the Provident Fund. Whether the employer gives effect to it by making necessary change in the existing Fund or by starting a new Fund is immaterial so long as the orders of the Tribunal are carried out. This view was also taken by the Hon'ble Labour Appellate Tribunal in the appeal against the award of the All-India Industrial Tribunal (Bank Disputes) (*vide* page 165 of the award). I do not consider that the employees are entitled to a contribution to the Provident Fund to the extent of 8⅓ per cent. of the basic pay and dearness allowance, as claimed. In view of the fact, however, that there are two retiral benefits in this Company and the scheme of gratuity was altered to some extent by the learned Major Mercantile Tribunal, I would consider that the Provident Fund contributions should not be increased to more than 6¼ per cent. of the basic salary, as was agreed to by the Company in its letter, dated 23rd May 1955, to the Labour Commissioner, Ext. 7, in its reply on the charter of demands of the Union. It is, therefore, awarded that the Provident Fund contribution should be increased from 5 per cent. of the basic salary to 6¼ per cent. of the basic salary, as agreed to by the Company.

The claim that 50 per cent. of the Provident Fund Trustees should be representatives of the Union is rejected. There is nothing to show that there has been any maladministration by the existing Trustees. There is no ground for such a claim.

The claim that the maintenance expenditure of the Fund must be borne by the Company is unjustified and is rejected.

The claim that in no case of termination of service, forced or voluntary, the workman shall be deprived of the employer's contribution to the Provident Fund, except in cases of dismissal involving moral turpitude within five years from the date of his joining the service of the Company is unjustified and is rejected. The rule of Provident Fund does not allow a dismissed employee the employer's contribution but there is a provision that the Trustees may at any time with the consent of the Company pay to this dismissed, resigned or retired member a part or whole of the employer's contribution, as it considers proper in certain circumstances. I would consider that the rules are quite proper and the claim of the Union that in no case should the employee be deprived of the employer's contribution to the Fund except in cases of dismissal involving moral turpitude within five years of his service is unjustified and should not be supported. This issue is accordingly answered.

Issue No. 6.—Gratuity.

The Union states that the stipulations about payment of gratuity, being 50 per cent. of a month's pay for each year of service on completion of 10—14 years' service, 75 per cent. of the basic pay for each year up to 15—19 years' service, and one month's pay for 20 years' service and over is hard upon the workmen and the whole basis is unscientific and unjustified. The Union claims that every employee shall receive at the rate of one month's wages last drawn for each completed year of service or part thereof in all cases of termination of service, forced or voluntary, irrespective of the period of service.

The Company states that the present method of gratuity is exceedingly generous and compares favourably with that in many other concerns. The Company states that no change should be made.

The Major Mercantile Tribunal altered the scheme of gratuity to some extent. The original rules of gratuity were as follows:—

A gratuity is paid to any employee who leaves the service of the Company on his own account on the following basis:—

10—15 years' service—50 per cent.

15—20 years' service—75 per cent.

Over 20 years' service—100 per cent.

Gratuities are not paid to any employee who is dismissed for dishonesty or misconduct, of which the Company is the sole judge.

The gratuity is paid as follows:—

(a) For the last ten years of his service, one month's salary for each of the ten years worked at the rate of pay he was receiving during each of such ten years.

(b) For the preceding ten years, half the amount paid for the last ten years (a).

(c) For any period before twenty years from date of retirement the amount payable under (a) will be divided by ten and one quarter of that amount will be paid for each year's service over twenty years.

The subordinate staff also come under the scheme. Five per cent. Provident Fund was started from 1st August 1947. The Mercantile Tribunal made the following changes:—

Clause (c) to be deleted. Clause (b) to be re-drafted as follows:—

"For the preceding years, half the rate paid for the last ten years(a)".

For the words "Over 20 years' service—100 per cent." the following is to be substituted:—

"20 and over years' of service—100 per cent."

I do not consider that any further alteration of the existing scheme of gratuity should be made. This issue is accordingly answered.

Issue No. 7.—Retiring Age.

The Union states that the retiring age was never known in the Company till 1954, when only two members of the Union were victimised under the pretext of the retiring age of 55. The retiring age should be a benefit of the workman and not a handicap, and it should be the right of the workman to exercise. The Union, therefore, claims that the retiring age should be fixed at 60 years with option for the workman concerned to continue further.

The Company states that the present age of superannuation at 55 should remain.

The Major Mercantile Tribunal, in its award, directed that an employee should retire on completing 55 years. This was the direction in the awards of almost all other Companies. It appears that the Rules of the Gratuity (Ext. E) of the Company also states that an employee will be expected to retire at the age of 55 years, unless the Company in its absolute discretion permits any employee to continue in service for a longer period, in which case the years served after 55, will not count for gratuity. It is, therefore, clear that when the Gratuity Rules were introduced, retirement of the employee at 55 years was also arranged. The Gratuity Rules were made before the date of the award of the Major Mercantile Tribunal in 1949. This age of retirement was accepted by the Major Mercantile Tribunal. As there are schemes for retirement benefits, the employees should retire after attaining the age of superannuation at 55 years. The claim that the retiring age should be a benefit of the workmen and it should be the right of the workmen to exercise it is misconceived. The employer has got the right to see that its employees do not suffer from infirmity to his disadvantage, and when there is a sufficient retiral benefit, there should be no cause for complaint on retirement at the age which is generally accepted as the age of superannuation by all employers including the Government of the country. The claim of the Union that the retiring age should be fixed at 60 years, with the option of the workman concerned to continue further means hardly anything. It appears from Exts. N and N(1) that a number of employees who are more than 55 years of age, are still in the employment of the Company.

On a consideration of the matter, it is awarded that the retiring age shall continue to be at 55 years, but the Company shall be competent to grant extension of service to an employee for additional periods as it considers proper.

This issue is accordingly answered.

Issue No. 8.—Tiffin.

The Union, in its written statement, states that tiffin is allowed on working days in several respectable concerns in Calcutta, as for example, Balmer Lawrie and others at various rates amounting to a sum up to 12 annas per day in some cases. The Union demands free tiffin at Re. 1 per working day, overhead expenses to run the tiffin to be borne by the Company, and a tiffin room to be provided by the Company.

The Company, in its written statement, states that it never had nor does it propose to introduce a tiffin allowance. The Company also states that the claim for tiffin allowance is not an industrial dispute and the Company is not liable to provide free tiffin to its employees. The Company is not, therefore, prepared to provide tiffin or allowance of any description whatsoever. The Company has no room available for tiffin or a tiffin room, nor has it the capital available to build one.

It appears that there is an existing facility of a cup of tea in the day for every employee. In the award of the Mercantile Tribunal, the claim for canteen and tiffin was made and the learned Tribunal observed that according to the scheme of the award, these were in the nature of *ex gratia* payments. The same observation was made in several other awards, as for example, the award in respect of Messrs. Martin & Co. and Messrs Burn & Co., published in the *Calcutta Gazette* on 25th August 1949, in the award on the case of Messrs. McLeod & Co., published in the *Calcutta Gazette* on 4th August 1949, in the award on the case of Messrs. Jardine Henderson Ltd., published in the *Calcutta Gazette* on 11th August 1949 and in the award of Messrs. India Cable Co. Ltd., published in the *Calcutta Gazette*, dated 28th July 1949. In Messrs. McLeod & Co. Ltd. and Messrs. Jardine Henderson, Ltd., free tiffin of some sort was given. The Tribunal declared that they were of the nature of *ex gratia* and this claim was outside adjudication.

There is no doubt that when the total calorie consumption requirements are provided for in the provision of the wage, the claim of a further tiffin during working hours does not come into the calculation. There are some employers who have made provisions for tiffin during working hours as an *ex gratia* payment. This is to be appreciated, but this cannot be enforced by a Judicial Tribunal in the case of a Company who does not provide such benefit. I do not consider that only because Messrs. Balmer Lawrie & Co. and some other employers allow some tiffin, the present Company is bound to provide the same benefit to the employees. The claim of tiffin and canteen is rejected.

This issue is accordingly answered.

Issue No. 9.—Uniform for subordinate staff.

The Union states that the uniform for the subordinate staff is a necessity, and all respectable firms recognise the basic principle of giving uniform to their subordinate staff. It is further stated that in the supply of this uniform, the Company pursues the policy of discrimination between the Strand Road men and the men working at Hide Road as subordinate staff. The Union also claims that Khaki uniforms should be given to all members of the subordinate staff of Hide Road without making any distinction between the Durwans and others there, and warm uniforms for winter should be given to all members of the subordinate staff working at Strand Road as well as Hide Road.

The Company states in its written statement that the question of supply of uniform is not an industrial dispute, and the Company is not liable to supply the same. The Company, however, does supply some uniforms to certain members of the subordinate staff according to the Company's option. Such supply of uniforms, as has been in existence, is entirely at the Company's discretion. The Company does not consider that its subordinate staff at Hide Road Factory should have free uniform or that they require the same for the discharge of the respective duties. The Company, therefore, states that it is unable to agree to supply free uniform.

In the award of the Mercantile Tribunal, the learned Tribunal directed that umbrellas and uniforms be allowed for official work. It appears, that all the subordinate staff get uniform at the Strand Road office and the Durwans at Hide Road office get uniforms. Mazdoors there do not get any uniform. It also appears that some of the subordinate staff do get woollen jersey to be used in winter. In view of the fact that the learned Mercantile Tribunal allowed uniforms for official work, it is directed that Mazdoors at Hide Road should get uniforms for official work. No directions are made as to the grant of winter uniforms, as they are already supplied to the persons for whom they are necessary.

This issue is accordingly answered.

Issue No. 10.—Recreation room-cum-Library.

The Union states that there is no welfare arrangement in the Company and it claims that a room well-equipped with fans, lights, furniture, journals, books and indoor games facilities should be provided for the workmen.

The Company states in its written statement that it is not prepared to provide this and also does not consider it necessary.

I do not consider this claim as an industrial dispute. It was stated that there was no room in the office of the Company for providing such facility to the employees. This claim is rejected.

This issue is accordingly answered.

Issue No. 11.—Overtime for Hide Road Durwans.

The Union states in its written statement that the Durwans of Hide Road have much longer hours of duties than what is provided in the award or what is in vogue at Strand Road office The Union, therefore, claims extra wages for overtime work done by the Durwans with retrospective effect since 11th August 1949, and all the arrears should be accounted at the rate of double pay and dearness allowance, and the same should be provided also for all future work beyond the normal working hours.

The Company states in its written statement that the Durwans are to guard and protect Company's property, and as such, are liable to be called on at any time; and on such consideration, they enjoy better amenities than other members of the subordinate staff. The Company states that in any event the working hours of the Durwans, which is at present 43 hours a week, is lower than the normal total working hours in a week, and on this account, the Durwans are not entitled to any overtime wages. The Mercantile award does not apply to the employees of Hide Road, who are treated separately. The Company denies that the Durwans have any claim, retrospective or otherwise, for any overtime work. The Company states that it is unable to meet this demand.

It appears that the Hide Road warehouse was registered as a factory in 1949. Ext. 6 is a letter of Mr. Heaton to the Union dated 19th November 1954. It states that according to the opinion of the Chief Inspector of Factories, Calcutta, the Durwans at Hide Road are not workers within the meaning of the Factories Act. The Durwans are not employed in a manufacturing process or in cleaning any part of the machinery or premises used for manufacturing process or in any other kind of work incidental to or connected with the manufacturing process or subject to the manufacturing process. The Durwans at Hide Road are not workers under the Factories Act, as has been stated by the Chief Inspector of Factories, Calcutta. It appears that there were three Durwans at Hide Road office till October 1954. Annexure J to the Union's written statement shows copy of the duty roster of Durwans at is prevailed up to October 1954. It appears that the three Durwans had to put in a working period of 53 hours, 57 hours and 58 hours respectively in the week. It also appears that a complaint was made to the Company, and immediately a fourth Durwan was appointed, and a copy of the duty roster, Annexure K to the Union's written statement, as it obtained in May 1955, shows that one Durwan has to work for 39 hours in the week, and the other three work for 43 hours each in the week. It is, therefore, clear that since November 1954, the work of the Durwans is not at all heavy. The Major Mercantile Tribunal awarded on the working hours of the clerks and the subordinate staff. It appears that the directions as to subordinate staff was for a working period of 44 hours in the week. In that respect, the working period of the Durwans in the Hide Road office was more than 44 hours. The Union claims that overtime should be paid for the excess period worked since the 11th August 1949. The Durwans stay in the premises of the Hide Road office, and at the present moment, they are paid overtime wages for periods above 44 hours in the week. According to the award of the Major Mercantile Tribunal, overtime wages are to be paid according to the directions of the Bengal Shops and Establishments Act. Section 13 of that Act provides for wages for overtime work and overtime is payable beyond 56 hours in the week under section 7 or 10 hours in the day, according to section 10 of the Act. In view of the fact that the Hide Road Durwans are now being paid overtime wages beyond 44 hours in the week, I do not consider that any claim for overtime wages, as made by the Union, is justified. It appears that as soon as the grievance of the Durwans were pointed out to the Company in October 1954, a fourth Durwan was appointed and the grievance was removed. In such circumstances, the claim of overtime wages with effect from 11th August 1949, is unjustified and is rejected.

Issue No. 12.—Overtime for employees at Strand Road Office.

The Union states that the grievance of the workmen of the Strand Road on the point of overtime is limited to the non-payment of dearness allowance in calculating the rate of overtime allowance and as such, the Union claims that the Tribunal may be pleased to direct the Company to include dearness allowance in calculating the overtime allowance, which is one and half times the rate of wages under the Shops and Establishments Act. Under the Shops and Establishments Act, the ordinary wage means pay and dearness allowance both, and as such, arrear payments since 11th August 1949, may be awarded in favour of the workmen.

The Company states in its written statement that there was no contravention of law in regard to the payment of overtime wages to the staff at the Strand Road office, and the Company has paid such staff wages for overtime at the proper rates.

The representative for the Union stated that the dearness allowance should be included in overtime allowance. The overtime is paid at one and half times the basic wage only and the claim is that dearness allowance should be also included in the wage for the calculation of the overtime allowance as in the Factories Act.

The learned Counsel for the Company states that overtime wages are paid under the Shops and Establishments Act, and the ordinary rate of wages appearing in section 13 of the Act does not include the dearness allowance. It is further stated that even if the dearness allowance was included, the amount the employees are getting at one and half times the basic wage, according to the special calculations of the Company, gave them more than what they would get at one and half times the basic wage plus dearness allowance, calculated according to the Rules under the Bengal Shops and Establishments Act. It was pointed out that in the evidence of Mr. Heaton, he stated that overtime allowance was paid in this manner. If the basic salary is Rs. 300 per month, and it is assumed that there are 30 days in the month, then the overtime allowance would be calculated by dividing 300 by 30, which will give Rs. 10. This will be considered to be one day's wage, and then a day is taken to be represented by 4 hours in the case of the Strand Road employees and 6 hours in the case of the Hide Road employees. For the Strand Road employee at Rs. 300 per month, an hour's wage is, therefore, Rs. 2-8, and the employee gets one and half times this basic wage per hour, *i.e.*, Rs. 3-12. It appears that the actual working hours per week of the Strand Road office is 35½. The total monthly working hours would, therefore, amount to 154. The Company therefore divides the monthly basic wage of the employee by 120 instead of by 154 to find the hourly basic wage. This gives the employee a distinct advantage. The learned Counsel for the Company pointed out that under section 13 of the Bengal Shops and Establishments Act, overtime allowance is to be paid at one and (one-half) times the ordinary rate of wages payable to the worker and such ordinary rate of wages shall be calculated in the manner prescribed. This prescription appears in Rule 4 of the Bengal Shops and Establishments Rules, 1941. This rule states that ordinary rates of wages per hour is to be calculated by dividing the monthly wage by 243. According to section 13 of the Bengal Shops and Establishments Act, the employee is to get one and one-half times of this wage per hour of over-time work. The learned counsel calculated that in the case of an employee getting Rs. 260 as the basic wage, his overtime allowance at one and half times the hourly wage, calculated according to the Company's rules, would amount to Rs. 3-4 as per hour, whereas the overtime allowance calculated according to Rule 4 of the Bengal Shops and Establishments Act would amount to Rs. 2-11-3 p. per hour, calculating the total wage consisting of Rs. 260 as the basic wage and Rs. 178-12 as the dearness allowance. It was, therefore, argued that the employee of the Strand Road office was getting more than what he would be entitled to under the Shops and Establishments Act.

The award of the Major Mercantile Tribunal on this Company states that overtime allowance should be paid as under the Bengal Shops and Establishments Act. As a matter of fact, however, the provisions of the Bengal Shops and Establishments Act in section 13 for payment of wages for overtime work do not apply to commercial establishments, which the establishment at Strand Road is. This calculation applies only to a person employed in a shop or establishment for public entertainment or amusement. There is no provision for wages for overtime work for a commercial establishment in the Bengal Shops and Establishments Act. Considering, however, that the learned Major Mercantile Tribunal awarded that the provision of section 13 shall nevertheless apply for wages for over-time worked by employees of the establishment at Strand Road, section 13 of the Act should be applied and strictly construed. This section allows one and a half times the ordinary rate of wages payable to the worker for overtime work, which means work done in excess of the maximum limit of hours of work specified respectively in sub-clause (2) of section 7 and sub-clause (1) of section 10 of the Act. Sub-clause (2) of section 7 prescribe the hours of work for employees in a shop. These provisions are as follows:—

> "No person employed in a shop shall be required or permitted to work in such shop for more than ten hours in any one day and for more than fifty-six hours in any one week and after the hour of half past eight o'clock *post meredium*."

Sub-section (1) of section 10 provides as follows:—

> "No person employed in an establishment for public entertainment or amusement shall be required or permitted to work in such establishment for more than ten hours in any one day."

Section 13 of this Act Act also provides that the ordinary rate of wages payable to him shall be calculated in the manner prescribed. This prescription appears in Rule 4 of the Bengal Shops and Establishments Rules 1941. It shows that if a person is employed on monthly wages, the ordinary rate of wage per hour is 1 by 243 of the amount of monthly wages. The position is that this monthly wages would certainly include both basic wage and dearness allowance, but the ordinary rate of wages as prescribed shall mean 1 by 243 of the total monthly wage, consisting of basic pay and dearness allowance. The employee would, therefore, be entitled to one and half times of this ordinary rate of wages for every hour of work done beyond the limits prescribed in section 7 or section 10 of the Act. In actual practice, however, the employees at Strand Road are getting overtime allowance at the rate of one and a half times of the hourly rate at 1 by 120 of the monthly basic wage for hours worked beyond 35½ hours in the week. It is plain that the employees are getting a much greater advantage in wages by the practice followed by the Company than what they are really entitled to under the provisions of the Bengal Shops and Establishments Act. Firstly, 1 by 243 of the total wage including the dearness allowance will not be greater than 1 by 120 of the basic wage, except in the case of very low basic wages where the dearness allowance is much higher than the basic wage. In most cases, the dearness allowance is less than the basic wage. That means, that 1 by 243 of the total wage will be much less than 1 by 120 of the basic wage. Secondly, under the Act, the employee would not be entitled to get overtime allowance at one and half times of his ordinary rate of wages before the fifty-seventh hour in the week. The claim of the Union is, therefore, not justified. I would consider that the Company is paying a reasonable overtime allowance to the employees at Strand Road, at the rate as stated by Mr. Heaton. The learned Advocate for the Union pressed that the ordinary rate of wages meant the basic wage plus dearness allowance and pointed to the letter of the Deputy Chief Inspector of Shops and Establishments, dated 7th December 1954, addressed to the Secretary of the Company. I do not consider that the letter gives the correct interpretation on the question at issue. The phrase "ordinary rate of wages" is a creation of the Bengal Shops and Establishments Act and this Act itself defines it as the amount which is found by calculation in the manner prescribed in the Rules. The manner of calculating the ordinary rate of wages appears in Rule 4 of the Bengal Shops and Establishments Rules, 1941, and this Rule states that ordinary rate of wages per hour for a person employed on monthly wages shall be 1 by 243rd of the amount of the monthly wages. There can, therefore, be no doubt or ambiguity on the point.

The claim of the Union for including the dearness allowance along with the basic wage in calculating the overtime allowance in the manner done by the Company is unjustified and is rejected. The claim of the Union for arrear payment since 11th August 1949 does not, therefore, arise and is rejected.

Issue No. 13.—What modifications and additions are to be made in the Service Rules, dated the 1st August 1955, as framed by the Company before it is put into effect?

This issue relates to the Service Rules, Ext. A, which were framed by the Company, some of the provisions whereof were objected to by the Union on the ground that they were unfair and *mala fide*.

The Company, in its written statement, states that these were drawn up in a conciliatory manner, to serve the interest of both the Company and the employees, and they were not drawn up in any respect whatsoever as an "anti-labour action," as alleged by the Union. All the provisions of the Service Rules in Ext. A were discussed by the learned Advocate for the Union and the learned Counsel for the Company, and the suggestions of both the parties were carefully considered by me, and after a careful consideration of the matter, the Service Rules as mentioned in Appendix A to this award are framed in partial modification of the Service Rules in Ext. A as framed by the Company. It is unnecessary to discuss in details the allegations or the suggestions of either side on every item of Service Rules, as mentioned in Ext. A, as if I did so, it would unnecessarily burden the record. I have carefully considered all the objections and the suggestions of either side in Appendix A and would request the parties to implement them in the best interest of the Company and the workers. It is awarded that the Service Rules, mentioned in Appendix A, shall be the modified Service Rules applicable to the employers and the employees of this Company.

This issue is accordingly answered.

Issue No. 14.—Merger of dearness allowance with basic pay.

The Union claims that the dearness allowance of all categories of employees should be merged with their basic pay with effect from September 1954. It is stated that the Government of India appointed a Committee to enquire into the question of merger of dearness allowance with basic pay, and that Committee reported on the matter favourably. In this Company, the dearness allowance has been merged with basic pay in the case of four workmen, viz., (1) Shri Hem Chandra Chatterji, (2) Shri Manoj Kumar Sanyal, (3) Shri Mihir Kumar Roy and (4) Mrs. Farley, who were not members of the Union and Shri Monotosh Kumar Banerji, who was a member of the Union. The Union claimed for merger of dearness allowance with basic pay in cases of all employees in the Company, but this claim was rejected by the Company. Thereafter the Company picked up two officers of the Union, viz., Shri Anil Chandra Banerji and Shri Ram Prosad Ganguli, and merged their dearness allowance with basic pay, with the intention of creating a division in the ranks of the Union. The merger of dearness allowance in the cases of some of the employees gives them a greater advantage in the matter of bonus and provident fund contribution. The Union, therefore, claimed that the Company should merge the dearness allowance with basic pay in the cases of all their employees.

The Company states in its written statement as follows:—

The starting pay as fixed is fair and adequate in keeping with the cost of living index. The dearness allowance paid by it is the highest in India and is paid on the lines of the dearness allowance scheme of the Bengal Chamber of Commerce, which fixes its dearness allowance according to its own table of cost of living index. Such cost of living index is higher than the cost of living index prepared and maintained by the State Government, which is universally accepted in any enquiry regarding the cost of living index. Any rise in the cost of living index is met by a corresponding change in the dearness allowance, and as such, it is immaterial whether the index stabilises at a particular point of the cost of living index. The Company believes that a Committee was appointed by the Central Government, as alleged by the Union, and that the recommendation of the said Committee was neither accepted nor acted upon by the Government. The Company denies that it has merged the dearness allowance with basic pay of the employees named or any one of them. The Union has confused this with the promotion of the said employees to a Special Grade on a consolidated pay. The Company in the past has selected efficient persons from the clerical grade for promotion to special grades, usually with a consolidated pay, inclusive of all allowances and the Company proposes to continue the same practice in future. In selecting personnel for such promotion, the Company is not at all concerned whether the selected person belongs to the Union or not and as usual, efficiency, merit, responsibility and similar other considerations come before seniority. The selection for promotion is a management function. It is denied that all or any of the said persons were selected for reasons alleged or with any motive. The Company is unable to merge dearness allowance with basic pay. The Company denies that it set up any false plea, or indulged in any unfair labour practice. Save that the Company promoted the said Anil Chandra Banerji and Ram Prosad Ganguli to a special grade with a consolidated pay on their respective merits, it denies all other allegations made in regard to them, and it is denied that the said promotions were made with any motive, as alleged. The fact of the said two persons being officers of the Union had nothing to do with their selection. The Company was justified in its refusal to accede to the said demands. It is submitted that there is no justification for merging the dearness allowance with the basic pay and the demand in the circumstances is unreasonable and should be disallowed.

The learned Advocate for the Union stated that the Company has two systems of wage fixation, viz., (a) consolidated pay and dearness allowance and (b) separate pay and dearness allowance. The employees in the category (a) is a privileged class. They are picked up from clerks and their dearness allowance is merged with the basic pay. The fact is that some of them who are promoted as officers are outside the adjudication and those who are in the clerical staff are within adjudication. The employees who get a consolidated pay and dearness allowance, get more bonus and provident fund contribution than those who get basic pay and dearness allowance separately. This shows that for the same job, there are different grades of pay. This is unjustified. The seven men whose dearness allowance and pay were amalgamated are continuing in their old jobs.

The learned Counsel for the Company states that it was alleged in the evidence of P.W. 1 Shri Dina Bandhu Chowdhury, Secretary of the Union, that the five men whose dearness allowance was consolidated with the basic pay, left the Union in order to crush the Union, after the Union won a case before the Tribunal in 1953. As a reward, the Company merged their dearness allowance with basic pay The Union then demanded this privilege for all employees. Thereafter two of the officials of the Union got this facility of merger of dearness allowance with basic pay. These two employees had not then left the Union. The five employees severed connection with the Union prior to getting this privilege. In the cross-examination P.W. 1 states that he believes that the five men whose dearness allowance was merged with basic pay after they left the Union were rewarded because they left the Union about the time of Shri Niyogi's adjudication. This adjudication was in 1953. These five men are:—(1) Shri Mihir Kumar Roy, (2) Shri Manoj Kumar Sanyal, (3) Shri Hem Chandra Chatterji, (4) Shri Monotosh Banerji and (5) Mrs. Farley. Manoj Kumar Sanyal was the first Secretary of the Union. He left the Union in 1951 and the merger of his dearness allowance with his basic pay was made in 1954. He also states that Mihir Kumar Roy and Hem Chandra Chatterji were defaulters. Monotosh Banerji is still a member of the Union. Anil Banerji is the Vice-President of the Union and Ram Prosad Ganguli is an active member of the Union. It appears from the evidence on record that the five men, Manoj Kumar Sanyal and others, left the Union in 1951. The award of Shri Niyogi was made in 1953 and the merger of dearness allowance with basic pay of these five men were made in 1954. The plea that this merger of dearness allowance and basic pay was made as a reward for their leaving the Union is, therefore, entirely unjustified. It appears from the evidence of Mr. Heaton that apart from the seven people, there are several other persons who are on consolidated pay. Ext. F is a statement of such persons who are on consolidated pay in this Company and these are exclusive of technical departments. The consolidated pay given do not equal the total of the basic pay and dearness. It was more than the total of basic pay and dearness allowance. Mr. Heaton states that for many years the Company had a special grade, and employees who were considered as specially competent, were promoted to that grade and were given a consolidated salary and that was the case with all these people. According to the award of the Major Mercantile Tribunal, basic salary above Rs. 260 is within the discretion of the Company. In the case of these employees, who are getting consolidated pay, their salary is much above the A Grade. Their names, length of service and total pay will appear from Ext. F. There are 18 persons in this list. They are Clerks, Assistants, Stenographers, two Senior Assistants and a Commissionaire. The plea that the basic pay and the dearness allowance of these employees were consolidated with an anti-Union motive is entirely unjustified. It appears that they were promoted to a higher grade with a consolidated pay in recognition of their merit. There is no justification for the claim by the Union for such promotion for all the employees in the Company, or for a merger of dearness allowance with basic pay for all employees on the lines of advantage given to these 18 employees, as shows in Ext. F. The argument that the Gadgil Committee recommended consolidation of basic pay and dearness allowance at 280 for Government servants is not of much substance, in view of the fact that this recommendation was made for Government servants only for the purpose of calculating compensatory house rent and travelling allowance. Such a claim of merger of dearness allowance with basic pay was made by the Union in the case of Rashtriya Mill Mazdoor Sangh and others and Millowners' Association, Bombay, reported in 1955 L.A.C., 95, and the Hon'ble Labour Appellate Tribunal rejected this claim. It was decided that the demand for consolidation of basic wage and dearness allowance at a particular cost of living index figure must be rejected. It also opines that the division of total wage into basic wage and dearness allowance is a creature of circumstance. This scheme has become general in India and has been accepted as a fair approach to the problem of wage. The apparent object with which a system of separate basic wage and dearness allowance was adopted so as to provide for a possible recession of prices cannot be said to have altogether disappeared, although in the opinion of experts the cost of living is not likely to travel below 270 on base 1939 = 100. There is no particular significance to be now attached to the fixation of basic wages and dearness allowance at any given cost of living index. Such consolidation would have no practical advantage, except where particular circumstances exist, while on the other hand, it would upset the stabilised differentials and would create unnecessary ferment all over India for re-fixation of wages without any real merit or justification.

In view of these weighty observations of the Hon'ble Labour Appellate Tribunal of India as mentioned above, I do not consider that there is any justification for the merger of dearness allowance with basic pay on the strength of the report of the Gadgil Committee. From what has been discussed above, there is nothing on record to justify that the Company effected the merger of dearness allowance with basic pay in the case of some employees with any ulterior motive or as an instance of unfair labour practice. I do not find any justification for the claim of merger of dearness allowance with basic pay as made by the Union. This claim, is, therefore, rejected.

DECISION

By Government order No. 2654Dis./D/10L-51/A/54, dated the 25th May 1954, industrial dispute between the Calcutta Electric Supply Corporation, Limited, hereinafter called the Corporation and their workmen was referred for adjudication to the Fifth Industrial Tribunal, West Bengal.

In the order of reference the dispute between the Corporation and the workmen was stated to be the "the fixation of working hours of the bearers in the Head Office".

By award made on the 7th April 1955, the Industrial Tribunal has found that the present arrangement introduced by the Corporation should continue.

In order to appreciate the point that arises for decision, it is necessary to bear in mind that the working hours of the bearers in the Head Office before the present arrangement was put into force, were from 9-30 a.m. to 5 p.m. with half hour's recess for tiffin. In all 69 bearers work in the Head Office.

In the previous arrangement difficulty was felt that some of the bearers had to remain in the Head Office up to 7 p.m. That being the position of matters, the Corporation has introduced new arrangement under which the bearers work in the Head Office as per following details on Mondays to Fridays:—

8 bearers work from 9 a.m. to 5 p.m.

39 bearers work from 9-30 a.m. to 5-30 p.m.

11 bearers work from 10 a.m. to 6 p.m.

5 bearers work from 10-30 a.m. to 6-30 p.m.

4 bearers work from 11 a.m. to 7 p.m.

1 Dak Peon works from 8 a.m. to 4 p.m.

1 Dak Peon works from 12 noon to 7 p.m.

From a perusal of the letter, Exhibit D, it is plain that the workmen on Saturdays have to work in the Head Office for 5 hours. In these 5 hours, half hour's recess for tiffin is included.

No witness was examined in the Industrial Tribunal by either party.

On an examination of the records, the Tribunal has found that the arrangement now put in force "is a nice arrangement, and perhaps, the only possible arrangement to do away with overtime work without thereby increasing the working hours."

From the award given by the Industrial Tribunal, the workmen appeal under section 7 of the Industrial Disputes (Appellate Tribunal) Act, 1950, hereinafter called the Appellate Act.

In order to sustain the appeal, the workmen have to show that the appeal involves substantial question of law or that the award is in respect of any of the matters specified in section 7(1)(b) of the Appellate Act.

Shri Amal Roy, Honorary Secretary of the Workers' Union, urges that the award is in respect of wages and, therefore, the appeal is competent under section 7(1)(b)(i) of the Appellate Act.

From what we have said above, it is plain that under the order of reference, the point that arose for adjudication was the fixation of working hours of the bearers. In the adjudication of that dispute, question of wages was not involved. That being the position of matters the appeal does not fall within any of the items of section 7(1)(b) of the Appellate Act.

Turning to section 7(1)(a) of the Appellate Act, we find that no appeal is competent unless the appeal involves some substantial question of law. In the award out of which this appeal has arisen, the question that arose for adjudication was purely a question of fact and in the determination of that question no point of law was involved.

In the Memorandum of Appeal the only ground taken by the workmen is—

> "That the learned Judge erred in respect of facts of the dispute and refrained from granting any relief to the particular workmen concerned."

In our opinion, in the appeal no question of law is involved.

For the foregoing reasons we dismiss the appeal leaving the parties to bear their own costs in the appeal.

DECISION

The present appeal by the company is against an award of the Sixth Industrial Tribunal, West Bengal, published in the *Calcutta Gazette*, dated 14th July 1955, directing reinstatement with back wages and allowances of three workmen, Abdul Rahim, Suresh Lal Das and Ram Chandra Goswami.

The factory has two departments—(1) Tool Department and (2) Moulding Department. The Tools Department was completely closed towards the latter part of November 1953, and the workers employed there were discharged. The company also retrenched 5 workmen of the Moulding Department. By order No. 2037Dis./D/11L-152/54, dated 10th May 1955, the Government of West Bengal, Labour Department, referred to the Industrial Tribunal for adjudication whether dismissal of nine workmen, four of whom belonged to the Tools Department and five to the Moulding Department was justified and to what relief they were entitled.

The learned Tribunal held that the closure of the Tools Department was *bona fide* and upheld the retrenchment of the four workers of the said department covered by the Order of Reference. They were allowed compensation. Five workers of the Moulding Department covered by the Order of Reference, one died before the adjudication could be taken up and another who was a Durwan accepted payment made by the company in full satisfaction of his claim. About the other three who are the respondents before us, the finding of the Adjudicator is "admittedly the company engaged some men for the Moulding Department, three or four months after the discharge of these workers. If there had been any pressing necessity to reduce the number of labourers there could be no scope for fresh recruitment in which the business was running. In regard to these three men the company has not convinced the Tribunal that there was any occasion for retrenchment or that the principle of *last come, first go* was observed." Shri P. R. Mukherjee, appearing for the company argued that the finding of the learned Adjudicator that the company had engaged some men for the Moulding Department three or four months after the discharge of these workers was misconceived. Shri Mukherjee denied that the company recruited any worker after the retrenchment. The evidence on this point is not very clear. Hence, to meet the ends of justice, we called upon the company to file an affidavit that no fresh recruitment was made after the retrenchment and to produce the muster roll to show whether the principle of "last come, first go" was observed. The company filed an affidavit sworn by its accountant denying to have recruited any new hands in the Moulding Department after the retrenchment. In the affidavit, it was further stated that Rahim was not fit to work on any other machine existing at the time of retrenchment (the machine on which he worked having been sold away). Rahim filed an affidavit in reply that the company had recruited 8 workmen including one woman workman after the retrenchment and pleading that he (Rahim) was a Setter in the Moulding Department and was quite fit to work in all machines of the Moulding Department of the company. We have looked into the muster roll of the company produced before us and we find that Rahim and Sahadutt were incharge respectively of the first and second shifts. Rahim was getting

Rs. 3-10 per day and Sahadutt Rs. 3 per day. Ram Chandra Goswami and Suresh Lal Das were old employees. They were dismissed and re-appointed respectively on the 6th and 12th March 1953. They were filers. Two other filers Jagannath Das and Produmal Misra were appointed respectively on the 18th March and 14th August 1953. In the muster roll for the Moulding Department Rahim's name is at the top. Sahadutt's name comes next. From the order in which these two names appear in the muster roll and the rates of their wages, we may presume that Rahim was senior to Sahadutt but Sahadutt was retained in preference to Rahim. There was nothing in the written statement of the company before the Tribunal as to why the principle of "last come, first go" was not observed except a vague statement, viz., that the principle "last come, first go" had been followed consistently with efficiency. There is no such evidence on the record to show that any of the three workers Rahim, Ram Chandra Goswami, and Suresh Lal Das were inefficient. On the other hand, the company says in its written statement that very few workers have spotless records. At the hearing, attempt was made to justify the retrenchment on grounds other than inefficiency of these workers. It was alleged at the hearing before the Tribunal that the moulding machine on which Rahim was working had been sold away and that Suresh Das and Goswami were temporary men. Suresh Das and Goswami could not, in the absence of any clear indication that they were appointed for a work of casual or temporary nature for a limited period, be temporary workers simply because the management chooses to call them so. There is also no evidence that Rahim was not able to work on any machine other than the one which had been sold away. It is for the first time that the company attempted to make out, in the affidavit filed before us, that Rahim was not fit to work in machines other than the one which had been sold away. This has been denied in the counter affidavit by Rahim himself. Thus, it is clear that the company did not follow the accepted principle of "last come, first go" nor has justified the deviation from the accepted principle. We cannot accordingly uphold the retrenchment of these three workers.

In the result, the award must stand. The appeal is dismissed on contest. The appellant shall pay Rs. 25 as costs to the respondent.

PART VI.—Bills introduced in Parliament of India; Reports of Select Committees presented to Parliament; and Bills published before introduction in Parliament.

LOK SABHA

The following Bill was introduced in the Lok Sabha on the 24th August, 1956:—

BILL NO. 45 OF 1956

A Bill to provide option for the Central Government Servants joining the Contributory Health Service Scheme of the Government of India.

BE it enacted by Parliament in the Seventh Year of the Republic of India as follows:—

Short title, extent and commencement.

1. (1) This Act may be called the Central Government Servants (Option for joining the Contributory Health Service Scheme) Act, 19 .

(2) It extends to the whole of India except the State of Jammu and Kashmir.

(3) It shall come into force at once.

Contributory Health service Scheme to be optional

2. The Contributory Health Service Scheme of the Government of India, shall be made applicable only to those Central Government Servants who apply for it.

Avoidance of compulsion in the choice of treatment.

3. The Central Government shall not impose compulsion in respect of choice of medical treatment and attendance to any Central Government Servant.

Treatment in indigenous system of medicine.

4. Any Central Government servant who has on application under section 2 joined the Contributory Health Service Scheme, shall at his own option be entitled to the indigenous system of medical treatment.

Rule making power. **5.** (1) The Central Government may make rules to provide for,—

(i) encouragement of the proper treatment in the indigenous system of medicine;

(ii) better facilities in the treatment and attendance to the contributors of the scheme;

(iii) regulating the conditions of service and recruitment of doctors, nurses, dressers, compounders and other staff;

(iv) efficient check over the management and working of doctors and the staff attached to the dispensaries and for testing the quality of medicines supplied; and

(v) X-Ray and Pathological tests and other facilities to contributors of the scheme.

(2) These rules shall be laid before both the Houses of Parliament.

STATEMENT OF OBJECTS AND REASONS

For some time past the Central Government has been enforcing the Contributory Health Service Scheme for its employees in Delhi and New Delhi making it compulsory for the latter to make certain graded payment from their salary and receive medical attendance in lieu thereof in the hospitals provided under the Scheme. Under the present scheme there is no provision for treatment according to the indigenous systems of medicine. As the Scheme is liable to be extended to other categories of Government Servants and may ultimately mature into a National Health Insurance one, it is desirable to remove this defect and to make the Scheme more acceptable and comprehensive. Hence this Bill.

JHULAN SINHA.

NEW DELHI;

The 18*th July*, 1956

MEMORANDUM REGARDING DELEGATED LEGISLATION

The rule making power under the Bill is of a normal character. The scope of clause 5 is limited to various important matters so that the Government Servants who have joined the Contributory Health Service Scheme may have full facilities of treatment and attendance in indigenous system of medicine as well. Besides, the clause is intended to bring in efficiency by making rules for the recruitment of efficient doctors, nurses and the staff.

No. 27-I.—4th December 1956.—The following draft of rules, schedule of rates and appendices which, in exercise of the powers conferred by sections 78 and 99 of the Bengal Irrigation Act, 1876 (Bengal Act III of 1876), the Governor proposes to make for the supply of water from the river Harinamuri khal of the projected Mole Bund Irrigation Scheme in the district of Bankura, are hereby published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on or after the 13th January 1957. Any objection or suggestion with respect thereto which may be received by the undersigned before that date will be considered.

DRAFT RULES, RATES AND APPENDICES

Leases for a term of years

1. The country served by the canals shall be mapped out into blocks of convenient size in accordance with the features of the ground, natural or artificial. So far as may be practicable, the blocks shall be separated by drainage lines. This shall be done by the Subdivisional Canal Officer under the guidance and control of the Divisional Canal Officer.

2. Each block determined as above shall be numbered and recorded with its gross and irrigable areas in registers to be maintained by the Subdivisional Canal Officer. The blocks shall also be marked on maps to be maintained by the same officer.

3. Leases for not more than six years may be granted for the whole irrigable area of a block or for definite parts of a block under the following conditions:—

I. Ordinarily the whole irrigable area of any village so far as situated within the block must be included in the lease. If the lands of a village within the block are divisible into two or more distinct parts which can be irrigated independently a separate lease may be granted for each part.

II. All leases within one block shall be so granted that they may expire on the same date.

III. No lease shall be granted when the supply of water must of necessity be delivered across an unleased area, unless a channel exists, which, in the opinion of the Subdivisional Canal Officer, will deliver water without waste across the unleased area.

4. The Superintending Engineer shall fix from time to time the gross area for which and the limits of the canal within which, leases for a term of years may be granted.

5. Maps of all villages in which lands have been brought under lease for a term of years, or in which there is any possibility of such leases being taken, shall be kept in the Subdivisional Canal Office. These maps to be at scale 32″=1 mile when such are available and elsewhere at scale 16″=1 mile.

6. The preliminary application for a lease for a term of years, either new or renewal, may be of an informal nature, but it must be in writing. It may be presented and shall be received either at the Subdivisional or Sectional Canal Office; in the latter case the Sectional Officer shall forward it immediately to the Subdivisional Canal Officer. The Subdivisional Canal Officer as soon as he has, by personal enquiry or by an enquiry made by the Sectional Officer, satisfied himself that the land in question constitutes a definite block or a definite part of a block, and that it can be irrigated, shall at once inform the Divisional Canal Officer giving such particulars as that officer may direct, and shall ask his formal approval to the lease being proceeded with. On receipt of such approval the Subdivisional Canal Officer shall proceed to make the detailed assessment. The lands to be brought under lease shall be indicated on a copy of the map referred to in rule 5.

7. The Subdivisional Canal Officer on receipt of the application shall depute an amin to prepare the khasra or detailed assessment paper. This shall be done on the ground with the aid of the revenue survey map and khasra. Should the survey map and khasra not be available, the amin shall make a sketch map, and shall measure the areas of the holdings with a chain or measuring-rod.

8. When the amin has completed the khasra he shall forward it to the Subdivisional Canal Officer who shall forward it to the Divisional Canal Officer for approval.

9. As soon as the khasra has been approved by the Divisional Canal Officer, he shall return it to the Subdivisional Canal Officer endorsed with his signature in token of approval.

The Subdivisional Canal Officer shall then prepare a khatian or abstract of the khasra, and shall have the form of application given as Appendix I to these rules, filled up and signed or marked by each of the applicants, in the presence of two witnesses.

When the application has been completely signed, the Subdivisional Canal Officer shall send it to the Divisional Canal Officer, by whom the permit or formal approval of the lease shall be signed and issued in the form given as Appendix III to these rules. The permit shall be made over to the representative of the cultivators by the Subdivisional Canal Officer through his Sectional Officer. The Divisional Canal Officer shall return the application to the Subdivisional Canal Officer with a copy of the permit for record.

10. Should it happen that the cultivators of the block proposed for lease are not unanimous, and that some of them decline to sign the application, the Subdivisional Canal Officer shall report the matter to the Divisional Canal Officer and the Subdivisional Canal Officer shall hold a local enquiry, recording the statements of the persons who decline to sign and recording his personal opinion on the reasons given. He shall then send a report to the Divisional Canal Officer, who shall decide whether the lease may be accepted excluding the fields in the occupation of the persons who decline to sign, or whether the lease shall be declined. The Divisional Canal Officer may grant a lease when not less than 95 per cent. of the net irrigable area of the block has been signed for. In particular cases should it be desirable

to grant a lease even though an area larger than 5 per cent. of the block has not been signed for, this may be done on the written order of the Superintending Engineer. The reasons for granting the lease shall be fully recorded.

Covering leases

11. Applicants for a lease for a term of years who may require water before the lease has been concluded can obtain a supply on tendering an application for a covering lease in the form given as Appendix II to these rules. This application shall be signed in the presence of the tahsildar or of some other responsible officer nominated for the purpose by the Subdivisional Canal Officer. The signatures shall be those of the leading cultivators in the block in question and they shall represent holders of not less than 75 per cent. of the irrigable land within the block.

As soon as the Subdivisional Canal Officer receives the application duly signed, he shall issue a permit in the form given as Appendix IV to these rules, and shall at once supply water.

Season leases

12. Applications for water to irrigate spring rice or other crops between the 16th November and 15th June may be presented at the Subdivisional Canal Office or to the sectional Officer. They shall be in the form given as Appendix V to these rules.

In the applications the areas for which water is required shall be specified but the rate shall be charged on those areas for which water is actually used as determined by measurement.

The permit in the form given as Appendix VI to these rules shall be granted by the Subdivisional Canal Officer if he is able to supply the water.

Supply of water

13. The Divisional Canal Officer shall control the supply of water throughout the Division in his charge.

14. No water shall be supplied to any lands except such as have been brought under a lease for a term of years or for the season, or to such as are provided for by a covering lease.

15. Under the forms of irrigation lease in use, no specific supply of water is promised; but the undertaking is to give such a supply to each lessee as may be necessary for the lands leased. The supply shall be given, as may be required for the proper cultivation of the crops under irrigation, according to the exigencies of the season.

16. The Divisional Canal Officer may give the required supply by rotation, should this be advisable for the efficient working of the canals in his charge. In such a case, he is required to give the lessees written notice informing them of the periods when they will be supplied with water.

Collection of water-rates

17. The rates due for water supplied shall be collected by the Divisional Canal Officer or other officer in charge of the Revenue Division, through his staff of tahsildars and peons. All khatians or demand statements shall be signed by the Divisional Canal Officer or other officer in charge of the Revenue Division after scrutiny in his office.

18. At the time of preparation of the khatian in the Subdivisional Canal Office each person assessed shall be furnished with an extract from the assessment paper, showing the particulars of the charge aginst him. This extract shall be furnished in such form as may from time to time be approved by the Subdivisional Canal Officer for the purpose.

19. Each person on paying the sum due from him shall be given a receipt in the form prescribed for the purpose.

20. For the purposes of account of control over establishment, and of general administration, the Divisional Canal Officer or other officer in charge of the Revenue Division is in the position of an Executive Engineer in charge of a Division, and is directly subordinate to the Superintending Engineer. In regard to any proceedings taken under the Public Demands Recovery Act, 1913 (Bengal Act III of 1913), the Divisional Canal Officer is subject to the control of the Collector of the district.

Unauthorized use of water and waste of water

21. Should it be necessary to take action under the provisions of sections 79 and 80 of the Bengal Irrigation Act, 1876 (Ben. Act III of 1876), proceedings shall be instituted only under the direct and special order of the Divisional Canal Officer. The primary record of the facts regarding the unauthorized use or the waste of water shall be made by the Subdivisional Canal Officer and his subordinates. The parties whom it is proposed to assess shall be informed in writing, and shall be called on to show cause why they should not be assessed. The record of their statements shall be made by the Divisional or by the Subdivisional Canal Officer. The Divisional Canal Officer shall consider the facts and statements recorded, and shall, in deciding the case, give his reasons for or against assessment, both as regards the facts and as regards the law; and he shall determine rate to be charged subject to the provision in the schedule of rates attached to these rules.

22. Should the Divisional Canal Officer decide on making an assessment, he shall have the assessment paper prepared by the Subdivisional Canal Officer and his staff. Each person assessed shall be furnished with a statement of the charge against him, and an abstract of the demand or khatian shall be sent to the officer in charge of the Revenue Division, who shall proceed to recover the sums assessed. The period of one month within which an appeal may be presented to the Collector under section 91 of the Bengal Irrigation Act, 1876 (Ben. Act III of 1876), shall be computed from the date on which the statement of the charge may be furnished to the person assessed, which date shall be endorsed on it.

23. No proceedings shall be instituted if the unauthorized use or the waste of water have occurred through the act or neglect of a Canal Officer or a subordinate officer employed on the canal. During the irrigation of autumn rice, the passing on of surplus water from leased to unleased fields is not an unauthorized use of water.

Complaints and applications

24. All complaints or applications with respect of the supply of water, to defective drainage, and generally with respect to the administration of the canal, shall be received on presentation at either divisional or subdivisional canal offices.

Complaints and applications received by a Divisional Canal Officer may be transferred to his Subdivisional Canal Officer for disposal at his discretion.

Any such complaints or applications, if presented to the Sectional Canal Officer or to his staff, shall be returned endorsed with instructions as to the proper office at which to present them. If received by post, they shall be at once forwarded to the Divisional or Subdivisional Canal Officer.

25. Complaints or applications with respect to corrections of the assessment with respect to the actions of the amins in assessing and with respect to the actions of the tahsildars and other staff employed in collections, shall be received at the office of the Divisional Canal Officer or other officer in charge of the Revenue Division.

26. Receipts in the prescribed form shall be given at all offices for complaints or applications presented. The receipt of all complaints and applications shall be recorded in registers to be kept for that purpose.

27. The officer receiving the complaint or application shall either make a personal enquiry into the matter or he shall nominate in writing some responsible person to hold the enquiry.

28. The orders passed on all complaints or applications shall be in writing, and a copy of every order shall be furnished to the complainant or applicant.

The copy of order may be sent by post (registered), if this is convenient.

The period within which an appeal may be presented under section 91 of the Act shall be computed from the date on which the copy of the order is received by the person.

29. When an appeal to the Collector is from the order of a Subdivisional Canal Officer, the proceedings shall be called for through the Divisional Canal Officer, who may record on them such remarks as he may think desirable, provided that he does not thereby detain the proceedings.

In all cases in which an appeal against an assessment is preferred to the Collector, that officer may, if he thinks fit, direct that the collection of water-rates be suspended till the appeal is heard.

30. The Divisional Canal Officer may revise the proceedings of his Subdivisional Canal Officers and the Superintending Engineer may call for and revise the proceedings of all officers under his control.

Remissions and alterations of demand

31. Whenever the crop on land entitled to a supply of water suffers material injury from an insufficient supply of water, or from any interruption in the supply of water, remission of the rate due on such crop shall be given by the Divisional Canal Officer, provided that the person claiming remission shall have applied for such not less than fifteen days before the reaping of the crop.

32. On the occasion of lands being brought under a lease for a term of years, the Divisional Canal Officer may remit the rates for the first season on those fields which from the nature of the cultivation then obtaining, or from other causes, have not, in that season, derived any benefit from the supply of canal water.

33. Should the crop on lands under lease for a term of years suffer material injury from excess of water due to deficient drainage, the Divisional Canal Officer may grant remission of the rates due on such lands in whole or in part, provided that the person asking for remission shall have applied at least fifteen days before the reaping of the crop.

34. Revisions of the assessment required in consequence of land under lease being left uncultivated or of land being appropriated for purposes other than cultivation shall be made under the orders of the Divisional Canal Officer.

35. Revisions of the assessment required in consequence of incorrect entries of the names of occupants of lands under lease or of incorrect entries of areas or amounts in the assessment papers, or required by changes, in the occupation of lands, shall be made under the orders of the Divisional Canal Officer or other officer in charge of the Revenue Division, provided that no change involving any increase or decrease in the total area under lease for a term of years shall be made without the concurrence of the Divisional Canal Officer.

36. Remissions of water-rates on account of injury to the crops caused by inundation, by blight, by storms or by any extraordinary cause shall only be allowed under the special orders of the State Government.

Irrecoverable demands

37. The Superintending Engineer may sanction the writing off of those demands which are reported, after due enquiry by the Divisional Canal Officer or other officer in charge of the Revenue Division, as irrecoverable owing to the poverty of the defaulter or of his successors in case of his death, or owing to the defaulter having absconded.

Cultivators' representatives

38. Whenever the preliminary application for a lease for a term of years has been approved by the Divisional Canal Officer, the officer in charge of the Revenue Division shall, with concurrence of the Subdivisional Canal Officer, select as representative of the cultivators a suitable person or persons who shall generally be acceptable to the cultivators and who shall each have a direct interest in the land for which the lease is executed.

39. The person or persons so selected shall be required to give assistance to the Canal Officers in respect of the following matters:—

(*i*) In the preparation of applications for leases.

(*ii*) In the measurement of irrigated lands.

(*iii*) In recording the names of the occupiers of the holdings.

(*iv*) In receiving demand statements and distributing to the cultivators the individual notices of assessment.

(*v*) In attending, when required, at enquiries into complaints.

(*vi*) In reporting to the Circle Officer any changes in the occupancy of lands under lease.

(*vii*) In assisting the tahsildar in collecting rates.

40. For such assistance the cultivators' representative or representatives shall be entitled to free irrigation of the lands in his or in their own occupation, which may lie within the boundaries of the leased area subject to a total limit of 3 per cent. of the area assessed. The Divisional Canal Officer or other officer in charge of the Revenue Division may disallow in whole or in part this free irrigation, and may recover the rates which would otherwise have been payable in whole or in part if the assistance specified in rule 39 has not been efficiently rendered. The reasons for such disallowance shall be recorded in writing.

41. The Divisional Canal Officer shall maintain in his office a register containing a record of the names of all representatives and of the areas of free irrigation allowed to each.

42. Applicants for season leases shall be required to nominate one of their number who must have a substantial interest in the land to be irrigated as their representative. The representative so nominated shall perform the same duties as stated in rule 39 and shall receive remuneration on the same scale as in rule 40.

Power to decline or cancel leases

43. Should it be proved, after due enquiry, that the supply of water given to any leased area is habitually wasted or used for the irrigation of lands not under lease, it shall be competent for the Superintending Engineer to direct that the lease shall be cancelled with effect from the 16th of June next following. The order to cancel a lease shall be passed before the 1st of April of the year in which it is to take effect.

44. The Superintending Engineer may give directions to the Divisional Canal Officer to decline applications for irrigation leases of lands in villages where there has been persistent difficulty in realising the water-rates, until all arrears have been paid.

He may further suspend, or altogether cancel, any lease for a term of years, if on the 1st June of any year water-rates to the extent of half the demand for one year are in arrears. Previous notice of intention to put this rule in force shall be given not later than the 15th April preceding.

Miscellaneous

45. Tanks may be supplied with canal-water without charge, when water can be made available without injury to the cultivation dependent on a canal, under the following conditions:—

(*i*) That the water is to be exclusively used for domestic purposes, or for watering cattle.

(*ii*) That a channel exists through which water can pass without waste.

(*iii*) That the water shall only be supplied on the written order of the Subdivisional Canal Officer.

(*iv*) That any new outlet or sluice which may be required to allow of the supply being given shall be provided at the cost of the persons who ask for the water.

(*v*) That the supply of water may be stopped at any time, if it is found that it is being misused.

46. Except when a public right-of-way exists, no person shall, without the permission expressed in writing of the Divisional or Subdivisional Canal Officer, pass himself, or cause any animal or vehicle to pass, on or across any of the works, banks or channels of a canal, or drainage work which is part of the canal system except by means of such bridges, fords and ferries as may have been provided for the purpose.

Any person who, after due warning, commits a breach of this rule may be proceeded against under clause (*9*) of section 93 of the Bengal Irrigation Act, 1876 (Bengal Act III of 1876).

47. The use of any part of the banks or berms of any canal, drainage work which is part of the canal system, or flood embankment which is subject to the provisions of the Bengal Irrigation Act 1876 (Bengal Act III of 1876), as a place for answering the calls of nature, is prohibited. Any person who, after due warning, commits a breach of this rule may be proceeded against under clause (*9*) of section 93 of the Bengal Irrigation Act, 1876 (Bengal Act III of 1876).

48. Should water be required for purposes other than irrigation it may be supplied, when available, at a rate of two rupees per 10,000 cubic feet of water.

49. No officer employed on the canals, unless especially exempted by the State Government from the operation of this rule, shall have any interest in the distribution of water from any of the canals or purchase or bid for any Government property sold thereon either in his own name or in the name of another, or jointly, or in shares with others.

LABOUR DEPARTMENT

ORDER

No. 5040I.R./D/11L-142/56.—23rd November 1956.—Whereas under the Government of West Bengal, Labour Department, order No. 1622Dis./D/11L-142/56, dated the 20th April 1956, the industrial dispute between Messrs. Roneo, Ltd., P-13 Mission Row Extension, Calcutta-1 and their employees represented by Roneo Employees' Union, 65 Kansaripara Road, Calcutta, regarding the matters specified in the schedule thereto was referred for adjudication to the Sixth Industrial Tribunal;

And whereas the said Sixth Industrial Tribunal has submitted to the State Government its award on the said industrial dispute;

Now, therefore, in pursuance of the provisions of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased hereby to publish the said award as shown in the annexure hereto.

ANNEXURE

In the matter of an industrial dispute existing between Messrs. Roneo, Ltd., P-13 Mission Row Extension, Calcutta-1 and their employees represented by Roneo Employees' Union, 65 Kansaripara Road, Calcutta (Case No. VIII—84 of 1956).

BEFORE THE SIXTH INDUSTRIAL TRIBUNAL, WEST BENGAL, NEW SECRETARIAT BUILDINGS, THIRD FLOOR, CALCUTTA.

PRESENT:

SHRI SAILESH SENGUPTA, *Judge, Sixth Industrial Tribunal.*

Appearances.

For the Company: Shri P. C. Ghosh, Chief Accountant of the company.

For the Union: Shri Adinath Banerjee, Vice-President of the Union.

The employees of Messrs. Roneo, Limited, had demanded medical relief and tiffin allowance to be provided by the Company for members of its establishment. The company had, of its own accord, allowed bonus for the years 1953-54 and 1954-55, equivalent to one month's basic wages. The employees pressed for additional bonus equal to another month's wages. The disputes arising on the presentation of these demands did not yield to friendly negotiations. The Government of West Bengal, by order No. 1622Dis./D/11L-142/56, dated Calcutta, the 20th April 1956, had therefore to refer the following issues for adjudication by this Tribunal:—

ISSUES

(1) Medical facilities.

(2) Tiffin allowance.

(3) Whether the employees are entitled to get any additional bonus for the years 1953-54 and 1954-55?

The demands made on behalf of the employees were resisted by the Company. With regard to medical facilities and tiffin allowance the company pleaded that it was under no obligation to provide these amenities and with regard to the claim for bonus the company submitted that its finances did not permit of any augmentation of the amount voluntarily paid.

Issues Nos. 1 and 2

The gentleman holding brief for the employees argued that the company was under a moral and legal obligation to provide medical relief to the employees. Many commercial establishments had, according to him, made provisions for such relief. Tiffin allowance was also due to the employees as a matter of right. I have no manner of doubt that the learned gentleman is labouring under mis-conceptions. Medical facilities are the primary obligations of the State. A private employer has no duty cast upon him to arrange for medical treatment of its employees. Certain State Tribunal awards were referred to on behalf of the employees but they are in relation to big engineering firms. In almost all the cases the management had already provided for medical aid and the Tribunal simply added the seal of its approval making slight alterations where necessary. None of the firms were forced to introduce a system of medical relief for the first time. The employees are not working in a rural area where State owned or State aided medical centres are not accessible. Medical relief and tiffin allowance are ex-gratia concessions lying within the sphere of the employer's discretion. No moral or legal obligation really rests upon the employer to secure amenities of this description. Tiffin is supplied in certain commercial establishments which have made wide field of operations. This Company is struggling against heavy odds. Progressive tightening of the import policy of the Government resulting in the company's losing a substantial portion of its imports has brought the business to a reduced state of prosperity. Its business was to import typewriters, office machines, steel furniture and so forth. The company has adduced evidence which remains unrebutted that restriction on import are gradually on the increase and in consequence thereof the business has been severely curtailed. In such circumstances the Tribunal finds not an iota of justification for making the company undertake the liability to spend part of its finances for providing medical relief and tiffin allowance for its employees. Another point worth mentioning is that the wage scales were settled by this Tribunal by its award published in the *Calcutta Gazette*, dated the 3rd December 1953. The Appellate Tribunal confirmed the award subject to slight modifications. The employees did not at that time find it necessary to agitate for the reliefs which they have now brought forward. In building up the wage structure the Tribunal was certainly not unmindful of the requirements of the workers not only with regard to food, clothing and housing but also of the medical requirements. It would not be proper therefore to make any changes at this stage. The claim for medical facilities and tiffin allowance must accordingly be rejected.

Issue No. 3

The company paid one month's wages as bonus for each of the years 1953-54 and 1954-55. The Union claims that the grant already made should be supplemented by additional bonus equivalent to another month's wages. Admittedly the formula shaped by a Full Bench of the Appellate Tribunal in the Bombay Mill Owners' case is a mis-fit in this case since Roneo, Ltd., is not a manufacturing concern. Dealing with the claim for additional bonus made by the employees of the Bombay Branch of this company, the Labour Appellate Tribunal observed in the case reported in Vol. VI, Part IX, L.L.J., page 459, that the Full Bench Formula for the computation of the surplus of profits available for distribution as bonus cannot be applied in the case of an English Company, incorporated in England, which has no factory in India and carries on only the sales of their products. We have therefore to make our decision on considerations of the profits earned by the company in the two years under reference. The financial year commence on the 1st of July and terminates on the 30th of June of the next year.

The company produced its balance-sheets for 1952-53, 1953-54 and 1954-55. On behalf of the employees their representative challenged the balance-sheets but he could not advance any sound criticism so as to render them unreliable or open to suspicion. In the year 1951, the company had paid one month's wages as bonus. A dispute was raised over that and the State Tribunal had allowed 1½ months' wages. The Appellate Tribunal raised it to 2 months' wages, *i.e.*, wages for one month in addition to what was voluntarily paid. In the following year the company paid one month's wages and the employees accepted the same without demur. Net profit for the year ending 30th June 1953 was Rs. 1,52,106-12-11 according to the balance-sheet, Ext. A. In the next year the net profit amounted to Rs. 2,189-8-4, according to the balance-sheet, Ext. A(2). The company had still paid one month's wages by way of bonus. The Union cannot reasonably claim that further payment should be made. In the next year the company made profit of Rs. 89,405-6-8. In the case decided at Bombay the Learned Appellate Tribunal had found that Rs. 88,125-12-11 was shown as the profit in the balance-sheet. Assuming that the profits as given in the balance-sheet represented the true profits, Their Lordships held that bonus equivalent to three months' basic earning could be paid. This was however with regard to the employees in the Bombay Branch. From this award we find that 22 workmen were employed at Bombay whereas in Calcutta there were 56 workers then. According to the evidence of O.P.W. 1 the establishment in Calcutta now comprises 25 clerks, 48 mechanics, one operator, one tracer artist, one durwan and two bearers. The total strength thus comes up to 69. The amount of profit made in 1954-55 is nearly the same as in the Bombay case but the number of employees in Calcutta is three times the workmen engaged in Bombay. Following the Bombay award I think that another half month's wages only may be allowed as additional bonus for that year. My conclusion therefore is that no additional bonus is admissible for 1953-54 but for 1954-55 the company must pay additional bonus to the extent of 15 days' wages to the employees within three weeks of publication of the award in the *Calcutta Gazette*.

And whereas during the pendency of proceedings before the said Tribunal an application was received in writing from one Shri Madhusudan Misra an employee of the said company against the said company, alleging that the said company had discharged the said employee concerned in such dispute;

ANNEXURE

This is an application under section 33A of the Industrial Disputes Act filed by Shri Madhusudan Misra, a driver of Messrs. M. B. Sarkar and Sons, 167-C Bowbazar Street, Calcutta, represented by Secretary of Hindusthan Drivers' Union, 5/1 Russel Street, Calcutta, against the aforesaid company (Case No. 128/33A/1956).

PRESENT:

SHRI SAILESH SENGUPTA, *Judge, Sixth Industrial Tribunal.*

Appearances.

For the Company: Shri N. K. Mookerjee, Advocate.

For the workmen: Shri M. A. Quoraishi, Secretary, Hindusthan Drivers' Union.

The original reference out of which this present complaint has arisen was made under Government order No. 5814Dis./D/11L-341/55, dated Calcutta, the 8th December 1955.

This is an application under section 33A of the Industrial Disputes Act, presented by Shri Madhusudan Misra on the allegation that he was in service under Messrs. M. B. Sarkar & Sons as a motor car driver for a period of three years. In December 1955, he was at Hazaribagh. Towards the end of the month he was sent for by the Proprietors of the Firm and on arrival at Calcutta he was faced after a short while with an order of discharge. No grounds for termination of his services were communicated. Reinstatement with back wages for the period of enforced unemployment have been claimed.

The company in its reply raised a legal objection that Madhusudan Misra was not concerned in the dispute which was pending before this Tribunal arising out of the discharge of ten employees of the Firm. On the merits the company's case is that Madhusudan Misra was not employed by the Firm. He was serving as a driver of one of the partners of the Firm and had nothing to do with the business of this concern.

DECISION

The main reference related to the discharge of ten employees who were agitating for redress of their grievances unaided by other members of the establishment or any trade union. The order of reference runs thus:—

> "Whereas an industrial dispute exists between Messrs. M. B. Sarkar & Sons, 167-C Bowbazar Street, Calcutta-12 and ten of their employees named in the list attached, C/o Shri Paresh Chandra Banerjee, No. 6 Bastee, Tarak Pramanick Road, C/o Bhusan Bariwalli, Calcutta-6, represented by themselves regarding the matters specified in the schedule;
>
> And whereas it is expedient that the said dispute should be referred to an Industrial Tribunal constituted under section 7 of the Industrial Disputes Act, 1947 (XIV of 1947);
>
> Now therefore, in exercise of the powers conferred by section 10 of the said Act, the Governor is pleased hereby to refer the said dispute to the Sixth Industrial Tribunal constituted under notification No. 1909Dis./D/12L-5/54, dated the 2nd May 1955, for adjudication.
>
> The said Sixth Industrial Tribunal shall meet at such places and on such dates it may direct.
>
> ### SCHEDULE
>
> (1) Is the discharge of the ten employees named in the attached list justified? To what relief are they entitled?"

The learned Advocate for the Firm contended that ten individual employees were fighting their own cause in which Madhusudan Misra was not concerned or interested. It was not a collective dispute and hence Madhusudan Misra cannot be deemed to have been concerned therein. In support of his contention he referred to a decision reported in 1954, I L.L.J., page 323. Their Lordships expressed the view in the case cited that if an individual raises an industrial dispute other individuals would not be concerned with that and it is not necessary to obtain the permission of the Tribunal for the dismissal. The case would be different if the reference is made at the instance of any union taking up the matter collectively. If it is so taken up the dispute would be a collective dispute and the discharged workman would be concerned in the result. The present case stands on a different footing inasmuch as the earlier reference was not at the instance of any Union. As already pointed the individual workers were pursuing their remedy relying on their own resources. On the authority of this case it must be held that Madhusudan Misra was not concerned in the dispute in regard to which the earlier reference was made. He could not be affected by the result of the adjudication made therein. I agree with the learned Advocate that this application under section 33A is untenable because Madhusudan Misra was not a person concerned in the proceeding then pending.

The other point for determination is whether Madhusudan Misra was an employee of the Firm or of one of the partners. Madhusudan Misra's evidence is that he was appointed by the Burra Babu (Gosta Behari Sarkar) and received his wages from the company's funds granting receipt in the pay register maintained for drivers and durwans. The case of the other party is that one of the partners, viz., Pulin Behari Sarkar had engaged this driver for his own motor car and paid wages from his own pocket. The services of the driver were not utilised for purposes of business. The Firm was directed to produce the pay register in which Madhusudan Misra's claims to have granted receipt for wages paid. The register has not been produced on the plea that the clerk in-charge of the key of the safe in which the registers are deposited is absent and has gone over to his native place in Murshidabad. He could not be contacted and hence the safe could not be opened. This explanation is rather cold, and cannot be given full credence. The Tribunal is entitled to draw an adverse inference against the Firm on account of non-production of the pay register. There is however other evidence available which clinches the issue. The Blue Book and Insurance Certificate relating to car WBC-3553 were produced before the Tribunal. Pulin Behari Sarkar is the registered owner of the car and the Insurance Policy was taken out by him. Madhusudan Misra's own evidence is that he was driving the car WBC-3553 but he could not say in whose name the car is registered. The blue book and the insurance certificate prove that the car was used by Pulin Behari Sarkar for his private purposes. There is nothing to show that the car was ever employed in serving the interests of the business. The fact that the car was taken to Hazaribagh and used to remain there for three or four months at a time also militates against the employee's case that it was the property of the Firm. On the materials available, I am persuaded that Madhusudan Misra was in service under Pulin Behari Sarkar and not under the Firm. He is not therefore entitled to apply under section 33A because that was a dispute in which the Firm was interested and not Pulin Behari Sarkar. The application is in these circumstances rejected.

AWARD

1. By order No. 4411Dis./D/11L-290/55, dated the 15th September 1955, the Government of West Bengal, in the Labour Department, referred under section 10 of the Industrial Disputes Act, 1947, the industrial dispute between Messrs. Flury's Confectionery, Limited, 18 Park Street, Calcutta and their workmen represented by Calcutta Lower Grade Employees' Union, 249 Bowbazar Street, Calcutta, regarding the matters specified in the schedule, to the Third Industrial Tribunal constituted under section 7 of the Industrial Disputes Act, 1947, by notification No. 592Dis./D/12L-5/52, dated the 23rd February 1953, for adjudication.

2. After usual summons the parties put in appearance and filed their written statements. The pleading were completed on 13th December 1955. The parties were thereafter directed to file their lists of documents. Then after adjournments the dispute was heard on 30th October 1956, and award was reserved.

4. The matter of dispute as stated in the schedule to the order of reference is as follows:—

(1) Whether the Management were justified in terminating the services of the three employees, viz., Purnamasi, Dhanai and Muhammad Alam? What relief are they entitled to?

DECISION.

The dispute relates to termination of employment of three workmen Purnamasi, Dhanai and Muhammad Alam.

Regarding Purnamasi Calcutta Lower Grade Employees' Union (hereafter called the union) representing the workmen alleged in the written statement of claim as follows:—

Shri Purnamasi went on leave in April 1953 which was sanctioned by the management and returned in time to resume his duties. But as he was not fully recovered from his illness of which he suffered during his leave period, he was advised by the management to take leave for further treatment. After recovery he returned for duty. The management refused to allow him to join his duties. He was neither charge-sheeted for any offence nor any explanation was called for nor any enquiry was held by the management.

In reply Flury's Confectionery, Limited (hereafter called the company) in its written statement submitted as follows:—

Purnamasi was given a month's leave which expired on 14th June 1953. He did not report for duty on 15th June and on an enquiry from his fellow workers the company came to know that he had contacted Syphilis and that his disease was in a very bad state. On 28th June 1953 while making routine check in the employees' quarters, the said workman was found there in a horrible condition. On the same day the company advised him to go to a doctor at the company's expenses, but Shri Purnamasi did not pay any heed to that advise. On the 30th June 1953 the Manager of the company sent for Shri Purnamasi and his brother Barosa who had been working with the company and when they both came, the Manager advised them to accompany one of the company's assistants to the Company's doctor at Messrs. Frank Ross & Co. They both refused to go to the doctor and went away. In these circumstances, the company terminated the services of Shri Purnamasi by its letter dated 6th July 1953 as in Annexure "A".

In support of their case in this respect the Union has examined the workman concerned Purnamasi (P.W. 1), while the company has examined the Manager O.P.W. 1 Mr. Walter Walley and an assistant O.P.W. 2 Mr. Mitchel, besides proving Exts. A and B. On giving careful consideration to the evidence and circumstances, I am inclined to accept the company's version of the case. Purnamasi was a *Masalchi* employed in the Confectionery Department of the company. It is not disputed that he went on a month's leave which expired on 14th June 1953. Purnamasi's evidence that on the day he was to resume duty, he got pain in his stomach and accordingly prayed for extension of leave and it was granted by the Manager, is contrary to the case of written statement and is unreliable. Had he been so permitted, there would have been no occasion for refusing employment to him subsequently as he claimed. Ext. B is a copy of the notice terminating employment of Purnamasi from the date of the notice. In the notice the grounds, as have been pleaded in the written statement, were stated for termination of his employment. Exhibit A with the annexure also mentioned those incidents for which employment was subsequently terminated. In his evidence the Manager, of course, did not speak of the incident of 28th June 1953 but this was apparently due to lapse of memory. When the incident of 28th June 1953, as pleaded in the written statement, finds mention in the written order of the Manager Ext. A, as also in the subsequent notice, Ext. B, it is apparent that the Manager found Purnamasi in a rather horrible condition in employees' quarters on that date. Mr. Mitchel (O.P.W. 2) corroborated the Manager as also the written report (Ext. A) that Purnamasi and his brother when directed by the Manager to accompany Mr. Mitchel for examination, refused to do so and went away. A man with syphilis, it is obvious, should not be permitted to work in the Confectionery Department. When Purnamasi was suspected to have contacted syphilis and when he persistently refused to allow examination of himself by the doctor, the management had no alternative than to serve notice on Purnamasi terminating his employment as it did. As it was, however, a case of discharge by a notice (copy Ext. B) and not a case of dismissal, issue of formal charge-sheet was not essential, more so, after the steps which the Manager had himself taken before. It, however, appears that Purnamasi was not given pay for the notice period which he is entitled to get. Besides when the company chose to discharge the workman by a notice, I think the company in all fairness should have also paid him retrenchment relief. The evidence of the workman shows that he had served in the company for 7/8 years. In the circumstances, I award him compensation equivalent to 4 months' salary in addition to one month's notice pay. The company is directed to pay the said amount to Purnamasi within a month from the date of the award becomes enforceable.

Regarding Dhonai, Union alleged in the written statement as follows:—

He went on leave for 2 months from 18th August to 18th October 1954 along with other co-workers. After expiry of the leave he came and reported for duty but was not allowed to resume, though others were allowed to do so. He was not charge-sheeted neither any explanation was asked for, nor any enquiry was held.

In reply the company submitted as follows in the written statement:—

He was taken as a temporary hand and his services were terminated on 18th August 1954 and he received payment without raising any dispute.

Dhonai has deposed before this Tribunal. He is P.W. 2 The company, on the other hand, has examined only the Manager O.P.W. 1 Mr. Walter Walley in this respect. Dhonai deposed that he was allowed leave for 2 months along with 3 co-workers. He further deposed that on expiry of the leave when he came to resume duty, he was refused employment, though his 3 co-workers were given work. The salary registers of the company (Exts. C and D) produced before this tribunal showed that Dhonai was appointed in February 1953 and was subsequently granted leave from 19th August 1954. After having granted leave the company had no justification to refuse employment to him on his return after expiry of leave. Even if he was a temporary hand the company had no justification to refuse to employ him after expiry of the leave after having granted him leave. The salary register showed that Dhonai had served in the company for more than one year before he proceeded on leave from 19th August 1954. He could not, therefore, be said to have been a temporary hand. In any case, even if he was a temporary workman, it would be wrong to refuse employment to him without assigning any reason when he came to resume duty on the expiry of the leave. I, therefore, find no justification on the part of the company for termination of his employment. Dhonai, of course, was paid his dues before he proceeded on leave from 19th August 1954 but this would be of no avail to the company. The fact of receipt of payment of his dues could not be interpreted as equivalent to abandonment of employment or relinquishing lien on employment. The fact that he was given leave as disclosed in the salary register would rather belie company's case that Dhonai accepted discharge or gave up his lien on employment.

The company is, therefore, directed to reinstate Dhonai with all back wages on Dhonai's reporting for duty within a fortnight from the publication of the award.

Regarding Muhammad Alam, the Union alleged in the written statement as follows:

His pay for the month of December 1954 was unjustly withheld by the management. In spite of his repeated request the management refused to pay the legitimate dues of Shri Muhammad Alam. Mr. Walter Walley being infuriated at the most legitimate demand of the employee used abusive language and told that he has been dismissed. No charge-sheet was given, nor any explanation was asked for, nor any enquiry was held.

In reply the company submitted as follows:—

On 17th August 1954 at the closing of the day's work, the Manager of the company wanted to know the reasons of his absence from duty for the abovementioned days. The said workman at first refused to give the reasons for, but when the Manager said that he must give the reasons or he (the Manager) should take action against him, the said workman produced a piece of paper showing that he had been in the Police custody for the said two days and at the same time he started abusing the Manager in most filthy languages and said that he did not come to serve in a company like his even for a day more and said that he should be paid off his dues immediately. The company accepted his verbal notice of resignation on his own terms and it was arranged that he should come at 9 a.m. the next day to collect his dues. He did not turn up for payment after the said incident. The company would have certainly given him a charge-sheet for his above conduct had he not resigned as above.

In support of their case the Union has examined Md. Alam (P.W. 2) and filed Ext. 1 while the company has examined the Manager (O.P.W. 1), the house keeper O.P.W. 3 Mrs. B. Mesh, Cashier O.P.W. 4 Shri Santi Banerji and a workman O.P.W. 5 Golam Hossain.

On giving careful consideration to the evidence and circumstances I prefer to accept the company's version of the case. Muhammad Alam was admittedly absent from duty for two days on 14th and 15th August 1954 without any previous permission. 15th of each month was a pay day. On 16th August 1954 (Monday) Muhammad Alam came for duty and wanted payment of his wages. According to the workman (P.W. 2) the Manager was absent and he went to a Babu to receive payment of his salary when he was told that there was a remark against him for stoppage of salary. The workman's further version in evidence is as follows:—

> "On the next day (17th August 1954). I met the Manager and asked for payment of my salary. The Manager told me that payment would be made at 4 p.m. that day. Accordingly at 4 p.m. I again went to the Manager for payment. The Manager then told that I would be paid at 7 p.m. When I again went at 7 p.m. for payment, the Manager told me that I would get no pay since I absented for two days. I then requested the Manager to give me an advance of Rs. 10. The Manager did not pay but on the contrary abused me and went turned me out saying 'I was not required any more'."

This is the version of the workman regarding termination of his employment. From his aforesaid version it is more natural that when the Manager was persistently avoiding payment the workman became enraged and abused the Manager in most filthy languages as the witnesses on behalf of the company categorically deposed. All those witnesses denied that the Manager abused the workman. They all on the contrary deposed that it was the workman who was very rude, abusive and insubordinate to the Manager. I do not think that they have deliberately perjured merely because they have been employees in the concern. Their version seems to me more natural and probable. In a fit of rage when the workman lost control of himself as the witnesses deposed, it was not unlikely that the workman himself had said that he would not work any more in the concern and left accordingly. In any case, in view of the evidence of the company's witnesses disclosing misconduct of a very serious nature on the part of the workman, even summary dismissal would not have been unjustified. In this view of the matter I find that Muhammad Alam is entitled to no relief.

I award accordingly.

ANNEXURE

In the matter of an industrial dispute existing between Messrs. Regal Hosiery Mills, Qumarpara, Lillooah, Howrah and their workmen represented by Bengal Hosiery Workers' Union, 172 Beneras Road, post office Salkia, Howrah (Case No. VIII-85 of 1956).

BEFORE THE SIXTH INDUSTRIAL TRIBUNAL, WEST BENGAL. NEW SECRETARIAT BUILDINGS, THIRD FLOOR, CALCUTTA.

PRESENT:

SHRI SAILESH SENGUPTA, *Judge, Sixth Industrial Tribunal.*

Appearances.

For the company: Shri N. M. Das Gupta, Advocate.

For the Union: Shri Kali Chakravorty, Organising Secretary of the Union.

The dispute referred for adjudication by Government order No. 1609-Dis./D/8L-13/56, dated Calcutta, the 20th April 1956, had arisen between Messrs. Regal Hosiery Mills and their workmen represented by Regal Hosiery Workers' Union and centered round non-employment of three workers. The points for determination as stated in the schedule of the order of reference are as follows:—

(1) Whether the non-employment of the following workers was justified:—(i) Ramasankar, (ii) Rambali, (iii) Bansi Singh.

(2) To what relief including reinstatement and/or compensation are they entitled?

According to the Union, Ramasankar and Rambali had been discharged by the company. The dispute arising thereon was referred for adjudication to this Tribunal. In the long run the parties came to terms and an award was made on the basis of the compromise petition filed. One of the terms of the agreement was that Ramasankar and Rambali would be taken back. The company allowed these two workers to resume but terminated their services shortly afterwards without any cogent grounds. They were not charge-sheeted and no enquiry was held. This was a glaring instance of victimisation and unfair labour practice.

Bansi Singh is another worker whose services also were terminated without any rhyme or reason. The Union demanded their reinstatement with consequential reliefs.

The company made out the case in the written statement that Ramasankar was employed in the Bombay Textiles but his services were dispensed with. Steps were taken by him along with others, who were sailing in the same boat, to recover their lost position in the Bombay Textiles. When the authorities of the Regal Hosiery Mills came to know that Ramasankar was campaigning for reinstatement in the Bombay Textiles he was asked to come to a decision whether he would serve the Regal Hosiery Mills or the Bombay Textiles, inasmuch as he could not serve two masters at one and the same time. Ramasankar replied that if he could secure employment in the Bombay Textiles he would leave the Regal Hosiery Mills. Thereafter he did not turn up any more to work in these Mills and was reported to have joined the Bombay Textiles establishment. This was not at all a case of discharge or dismissal but of voluntary abandonment of the job.

Rambali resigned of his own accord, because of domestic interests which he had to attend to personally. He received his full dues before leaving the job. This was also not a case of termination of service by the company.

Bansi Singh was a habitual drunkard. He used to come to the factory the worse for liquor and had been sacked once in the month of May 1955 for drunken and disorderly conduct. As he had thrown himself at the mercy of the authorities and begged for forgiveness, he was excused but he did not mend his ways. On the 3rd October 1955 he came to duty in a state of intoxication and created an ugly scene. By an order, dated the 4th of October 1955, his services were dispensed with for misconduct.

The company offered to take back all these three workers on their giving undertaking that they would render loyal service and Bansi Singh would not come to duty in a drunken state. Three months' wages also were offered but the offer was turned down by the Union representative.

FINDINGS

Rambali and Banshi Singh did not appear before the Tribunal personally to pledge their oath. The company adduced evidence that Rambali was required to return home for urgent private business for which his presence was essentially necessary. He approached the management and tendered his resignation. His dues were paid at the time and the receipt, Ext. C, was obtained. The receipt serves the purpose of a letter of resignation as well. The evidence thus given stands unrebutted. Since there is no denial from the other side, the Tribunal cannot but accept the company's version with regard to Rambali. The finding of the Tribunal therefore is that Rambali had quitted service and was not discharged or dismissed by the company.

Bansi Singh was according to O.P.W. 1 a slave to drink. On one occasion in the month of May, his conduct was so intolerable that he was dismissed. He had however begged for forgiveness and the authorities granted him a chance to turn over a new leaf He could not however get rid of drink-habit. On 3rd October 1955 he came to duty in a state of intoxication and kicked up a row. He had used filthy language to the durwans. The company dismissed him the next day. Exhibit A(1) is a communication received from Bansi Singh in which he admitted that he had been guilty of misconduct and that the drink-habit was deep rooted.

Though he tried he could not break the habit but promised not to attend to his duty under the influence of liquor. The learned Union representative picked holes because of discrepancies in the evidence given by O.P.W. 1 and the durwan, O.P.W. 2 and the annomaly appearing in the letter, Ext. A(1), so far as dates are concerned. These are matters of little consequence since there is unqualified admission that a scandalous incident had happened in the factory. There was also the admission that once before this man was dismissed for drunkenness. The company's case is not a fabricated one. On his own showing Bansi Singh could not do without drink. The authorities were justified in giving him the punishment since the warning he had received on an earlier occasion had failed to cure him. The fact that no charge-sheet was served or no enquiry was held is perfectly immaterial in view of the admission made by the person concerned. His non-employment is fully justified.

Ramasankar rejoined the Regal Hosiery Mills on 28th July 1955 on the strength of the award made by this Tribunal which was published in the *Calcutta Gazette*, dated the 28th July 1955 at page 2945. It appears that he had secured employment with the Bombay Textiles after he was thrown out of employment from the Regal Hosiery Mills. Exhibit A is a letter addressed by Ramasankar and some others to the Labour Commissioner from which we gather the fact that some workers including Ramasankar were dismissed by the Bombay Textiles. The workers moved the Labour Commissioner for action so that the wrong done to them by the Bombay Textiles might be righted. This letter is dated 1st August, 1955. So it appears that after having joined the Regal Hosiery Mills on 28th July 1955 Ramasankar was still moving the Labour Commissioner in respect of his services under Bombay Textiles. The case presented by Regal Hosiery Mills is that Ramasankar was fighting for the job he had lost. He was therefore asked to make his choice for he could not work in two places. Ramasankar is said to have replied that he had no desire to work for this company if he could secure re-employment in Bombay Textiles. Thereafter he absented himself from duty. The Union version on the other hand is that at the instance of the Bombay Textiles, the Regal Hosiery Mills asked Ramasankar to withdraw the case against them. As he refused to do so he was dismissed. Of the two versions the one given by the company is more in keeping with probability. Ramasankar got back his appointment in the Regal Hosiery Mills but even thereafter he pursued his remedy against the Bombay Textiles. He was the Assistant Secretary of the Bombay Textiles Workers' Union. He was therefore some one to reckon with in that set-up. It does not appear that in the Regal Hosiery Mills he had climbed to any position of influence. It is probable that the Bombay Textiles job was more attractive to him. Since he got re-employment in the Bombay Textiles on the 24th August 1955, we can take it for granted that negotiations had taken a favourable turn and Ramasankar had got the inkling that he would be taken back. That being the posture of things it is quite likely that he had ceased to attend his duties in the Regal Hosiery Mills on and from 20th August 1955 as alleged by the Company. The other story that because of his refusal to give up the case against Bombay Textiles, the Regal Hosiery Mills had sacked him sounds rather thin. The Regal Hosiery Mills was no ally of the Bombay Textiles and it was not their concern at all whether Ramasankar continued his campaign against Bombay Textiles or not. His refusal to give up the case could not affect the Regal Hosiery Mills to the extent alleged. I therefore believe the company's version that Ramasankar had quitted service of his own accord. This was also not a case of discharge or dismissal by the company.

Issue No. 2

In view of the above findings none of the three persons are entitled to any relief.

ORDER

No. 5130I.R./D/11L-203/55.—30th November 1956.—Whereas under the Government of West Bengal, Labour Department, order No. 2381Dis./D/11L-250/54, dated the 2nd June 1954, the industrial dispute between Messrs. AWARD

1. By order No. 2831Dis./D/11L-250/54, dated the 2nd June 1954, the Government of West Bengal, in the Labour Department, referred under section 10 of the Industrial Disputes Act, 1947, the industrial dispute between Messrs. Reckitt & Colman of India, Ltd., 41 Chowringhee Road, Calcutta-16 and their workmen represented by Reckitt & Colman Workers' Union, 117/A Rakhal Das Addy Road, Calcutta-27, regarding the matter specified in the schedule, to the Third Industrial Tribunal constituted under section 7 of the Industrial Disputes Act, 1947, by notification No. 592Dis.' D/12L-5/52, dated the 23rd February 1953, for adjudication.

SCHEDULE

(1) Whether the employees are entitled to any additional bonus over and above the bonus already paid in 1953.

(2) Employment of casual labour.

(3) Scales of pay and increments.

(4) Night Shift allowance.

DECISION

Issues Nos. 1 to 4

Originally the dispute was heard and award was made on 21st December 1955. Previous to the said award the Union's objection to representation of the company through Lawyer had been upheld. The company then moved the Hon'ble Court against the said order of the Tribunal. The Hon'ble Court held that the company was entitled to be represented through lawyer and accordingly set aside the award. The record was received back on 25th August 1956, when the case was fixed for hearing. In the meanwhile the parties amicably settled the dispute as also other pending disputes and filed a joint petition of compromise on 17th November 1956 and prayed for an award in terms thereof. The representatives of both sides have been heard. It appears that the terms of settlement are fair. I, therefore, give effect to the same and make my award accordingly in respect of the issues before this Tribunal. The petition of compromise together with the Annexure is made part of the award.

Short recital of the case

In view of certain disputes being placed by the Reckitt & Colman Workers' Union before the Management from time to time since 1953 and the Management's endeavour thereunder to meet the view point of the workmen represented by the said Union which unfortunately ended in a reference to a Tribunal in 1953, before whom certain issues are still pending, there was a fresh approach from both the Management and the Union to come to an amicable settlement of all the outstanding issues including those before the 3rd Industrial Tribunal and with this objective an exploratory meeting was held in February 1956, presided over by Mr. J. P. Upton, Chairman of the Board of Directors of the Company.

Since then frequent meetings were held between the Management and the Union separately, to bridge over the mutual differences. As a result of these deliberations both the parties have now come to the following agreement, that the issues pending before the Tribunal under order No. 2831Dis./D/11L-250/54, dated 2nd June 1954, should be amicably settled between the parties out of Court and a long-term settlement should simultaneously be made before the Conciliation Officer in order to establish and maintain orderly and cordial relations between the Company and the workmen, so as to promote the interest of the workmen covered by this Agreement and the efficient operation of the Company's business.

Preamble.—This agreement is being entered into between Messrs. Reckitt & Colman of India, Limited, 41 Chowringhee Road, Calcutta (hereinafter called the Company) and its workmen of Behala and Chetla Factories as represented by the Reckitt & Colman Workers' Union (hereinafter called the Union), Registered No. 2897, 117A Rakhal Das Addy Road, Calcutta-27.

The issues pending before the 3rd Industrial Tribunal as per order No. 2831Dis./D/11L-250/54, dated 2nd June 1954, are—

(1) Whether the employees are entitled to additional bonus over and above the bonus already paid in 1953,

(2) the employment of casual labour,

(3) scales of pay and increments,

(4) night shift allowance,

and the parties hereby agree this day before the Assistant Labour Commissioner, Shri S. K. Bhattacharjee, as a witness, to settle these issues amicably and to file the said agreement before the 3rd Industrial Tribunal for an award as per the agreement. The said issues before the Tribunal are settled between the parties as follows:—

Issue No. 1.—Bonus for the year 1952 paid in 1953

In view of an overall agreement being reached in conciliation proceedings this day with the workmen the Company hereby agrees to pay bonus for the year 1952 on the following terms and conditions:—

That the Company will pay to the permanent workmen who completed one year of service in the year 1952 and who are covered by this agreement, bonus equivalent to 3/24th of their annual basic earnings (excluding dearness allowance, overtime and any other allowance, if any) less whatever amount has already been paid as bonus for that year. This payment of bonus will be made on or before 15th December 1956.

Issue No. 2.—Employment of casual labour

It is agreed that casual workers should be absorbed in permanent vacancies as and when they arise, if the casual workers are found suitable for the same.

Issue No. 3.—Revision of wage scales

In consideration of the Union—

(a) Entering into and abiding by this settlement for the period hereinafter stated,

(b) accepting the terms of this settlement in full and final satisfaction of all demands in respect of workmen covered by this settlement, and

(c) undertaking not to raise or pursue during the period covered by this agreement any demands including economic demands, involving financial commitment to the Company in respect of the workmen covered under this agreement,

the Company agrees to revise, with effect from 1st April 1956, the wage scales of the categories of staff covered under this agreement as follows:—

Labour wage scales: Effective April 1st, 1956.

Grades.	Wage Scales.	Span.
Unskilled	Rs. 32—2—44	6 years.
Semi-skilled	Rs. 40—2-8—60	8 years.
Skilled	Rs. 60—3—90	10 years.

It is agreed that only the permanent workmen will receive increments as indicated in the wage scales above with effect from April 1st 1956, provided however that they completed at least one continued year of service on that date. It is further agreed that yearly increment in the future will depend on regularity and good conduct.

Issue No. 4—Night shift allowance

It is agreed that the present arrangements of annas six as night shift allowance will continue.

The above issues are settled on the following conditions:—

1. The Union recognises the right of the Company:

(a) To hire, transfer, from one job/department/factory to another, promote and to take suitable disciplinary action against its workmen provided that no one is dismissed or any disciplinary measure is taken without a reasonable cause.

(b) To make or change or enforce standing orders and other rules and regulations regarding workmen as the Company may deem necessary and proper at any time, in accordance with the provisions of law.

(c) To eliminate, change or consolidate jobs, sections and/or department and changes in method of production.

2. The Company agrees that the Union has the right to represent and raise any question or dispute on behalf of workmen covered under this agreement. It is however agreed that, any representation as mentioned above inside the factory premises will be done only through a workman working in the factory, on behalf of the Union.

3. *Strike, slow-down, lockout.*—The Union, on behalf of the workmen covered under this agreement agrees that, during the operation of the agreement they will endeavour to come to an amicable settlement of any dispute with the Company on any issue not covered by this agreement failing which the matter would be referred to the appropriate Government for speedy settlement and shall not take recourse to strike without giving 14 days' clear notice in writing, go-slow, or any act subversive of discipline. Likewise, the Company will also create the necessary conditions for amicable and speedy settlement of any issue.

4. *Discipline.*—The Union agrees to co-operate with the Company in maintaining and enforcing discipline and avoiding wastage arising out of men, material or time, by the employees, and in the enforcement of standing orders.

5. *Duration of agreement.*—The Company and the Union agree that this agreement is adequate to the purpose set out in the preamble and that any attempt on the part of the Company or the Union to by-pass any of the provisions of the agreement shall be construed as a violation of the agreement.

If any of the provisions of the agreement is violated by either of the parties in any way, then it will be within the rights of the other party to rescind any or all of the provisions of this agreement.

This agreement shall remain in force in the first instance for a period of 5 years from this date and shall remain in force till November 15th, 1961, and shall continue to remain in force until such time as one party gives two months' notice to the other, declaring its intention to terminate the agreement.

Either of the contracting parties may abrogate part or whole of the agreement by giving two months' notice in writing in the event there is radical change in the economic structure of the country in the opinion of the Government but not before the expiry of three completed years of its working from the date of signing of this agreement.

The parties agree that this agreement will be submitted before 3rd Industrial Tribunal simultaneously when a "No Dispute" petition will be submitted jointly and this agreement will form part of an award of the said Industrial Tribunal.

And whereas during the pendency of proceedings before the said Tribunal, a complaint was filed before it against the said Company by Bijoy Singh, a worker of the said Company, alleging that the said Company had discharged the said worker concerned in such dispute;

And whereas in exercise of the powers conferred by section 33A of the Industrial Disputes Act, 1947 (XIV of 1947), the said Tribunal has adjudicated upon the said complaint and submitted its award to the State Government;

PRESENT:

SHRI G. PALIT, *Judge, Fifth Industrial Tribunal, West Bengal, Calcutta.*

For the Company: Shri S. K. Bose, Counsel of Messrs. Khaitan & Co., Solicitors.

For the workman: Shri Madan Mohan Saha, Advocate, instructed by Shri Bisheswar Bose, Secretary of the Union.

1. The original order of reference out of which this case has arisen was made under Government order No. 1696Dis./D/11L-123/56, dated 25th April 1956.

AWARD

2. On the date of hearing on 10th November 1956, on the suggestion of the Tribunal the Company agreed to pay 15 days' wages more as compensation to the employee concerned. The employee Shri Singh put in service under the Company for about 5 or 6 months. The Company discharged him on 5th May 1956. The Company contends that because of the closure of the department in which Shri Bijoy Singh was employed, his services were no longer required by the Company. I am satisfied that there was no *mala fide* involved in this case, and the petitioner's service was rightly terminated by the Company. However, I allow him 15 days' wages as compensation above. This should be paid within one week of the award coming into operation. I pass my award accordingly.

ORDER

No. 5091I.R./D/10L-79/56.—27th November 1956.—Whereas under the Government of West Bengal, Labour Department, order No. 3383Dis./D/10L-79/56, dated the 3rd August 1956, the question, mentioned in the said order and relating to the interpretation of the award, published under the said department order No. 5837Dis./D/10L-89/54, dated the 15th December 1954, was referred for decision to the Fifth Industrial Tribunal;

And whereas the said Fifth Industrial Tribunal has submitted to the State Government its award on the said question;

Now, therefore, in pursuance of the provisions of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased hereby to publish the award on the said question as shown in the annexure hereto.

ANNEXURE

Clarification of the award

The Government of West Bengal sent an industrial dispute to the Fifth Industrial Tribunal, West Bengal, constituted under Government order No. 3581Lab., dated the 9th June 1951. The said Tribunal gave an award in the matter which was published as per Government order No. 5837Dis./D/10L-89/54, dated the 15th December 1954. Now the said Government has by its order No. 3383Dis./D/10L-19/56, dated the 3rd August 1956, in exercise of the power conferred by rule 20A of the Bengal Industrial Disputes Rules, 1947, has sent a question to elicit clarification of the said award regarding certain points as below:—

> "Whether the workers should get dearness allowance prescribed by the Second Engineering Tribunal in terms of the ward published under the Government of West Bengal, Labour Department, order No. 5837Dis./D/10L-89/54, dated the 15th December 1954".

ORDER

Both parties were heard in the matter. The learned Advocate on behalf of the Company raises two objections, viz., (a) That the Tribunal after its award has become *functus officio* and it is not competent to clarify its own award. The Government is also not competent to send any order asking for clarification of the award already given. (2) That the Second Engineering Tribunal's award was directed to be applied to the case of workers so far as dearness allowance was concerned, but it was only the minimum dearness allowance that was allowed by the award, and not a graduated dearness allowance, on different pay slabs as per the said Engineering Tribunal's award. I am unable to accept any of these two contentions raised on behalf of the Company. Regarding the legal objection, I find that it has hardly any legs to stand upon. Rule 20A of the Bengal Industrial Disputes Rules, 1947, as amended by the Labour Department notification No. 5268Dis./D/1R-3(a)/54, dated 18th November 1954, stands thus—

> "*Rule 20A refers for interpretation of award.*—If any question arises as to the interpretation of any award made by a Tribunal, the State Government may make a reference to a Tribunal for a decision on such question, and the Tribunal may decide the matter after hearing the parties".

This ought to have sufficed. But if any further authority is needed in the shape of judicial decision, I refer to the case of G. Claredge & Co., Ltd., *vs.* Industrial Tribunal, Bombay and others decided by Mr. Justice Shah of the Bombay High Court reported in the L.L.J., Vol. II, July, 1951. It runs thus—

> "The High Court held that an industrial tribunal is not an *ad hoc* body constituted for the purpose of adjudication on a single dispute but it is a permanent body, and that it did not become *functus officio qua* that dispute, immediately on making the award; that it was open to the Government to seek a clarification of the award made by the Tribunal; and that the rule which provides for such clarification is not *ultra vires* of the Act or the rule-making powers under the Act; and that it is intended only to give effect to the purpose of the Act."

So it is clear that the contention which is raised by Shri P. R. Mookerji, the lawyer of the Company, is idle and cannot be accepted.

Regarding the second point, if the award in question is looked into, the matter does not admit of much doubt. This appears at page 4244 of the *Calcutta Gazette*, dated 30th December 1954, Part I. The Tribunal observed "Regarding dearness allowance, I award that the Company must pay henceforward dearness allowance as per the Engineering Tribunal's award". Then the Tribunal has developed its reasons for granting such dearness allowance. It is well known that it was the Second Major Engineering Tribunal which gave the final award about dearness allowance after revising what was awarded by the First Major Engineering Tribunal. Under the second award the Tribunal gave dearness allowance as below:—

Rs. 31 for the pay range up to Rs. 50.

Rs. 42 for the pay range from Rs. 51 to Rs. 100.

Rs. 48 for the pay range from Rs. 101 to 150.

Rs. 54 for the pay range from Rs. 151 to Rs. 200.

Rs. 60 for the pay range above Rs. 201.

Now, when I gave the award and made the dearness allowance prescribed by the Engineering Tribunal applicable to the case of workers in the present dispute, what I meant was that these scales of dearness allowance must govern in all their stages of different pay ranges to the cases of the workers of the present Company. So, to restrict the scope of my award to the minimum of the dearness allowance prescribed would be reading into the award something which it never contained and which was never meant to be contained therein by the Tribunal. So, to clarify the point, if there is any doubt, I say that the award in question granted the full dearness allowance as given by the Second Major Engineering Tribunal to different pay ranges, as referred to above. So the operative portion of the Engineering Tribunal's award, I mean the Second Tribunal's award, so far as dearness allowance is concerned, was made applicable to the present case.

This may be sent to Government.

Judge, Fifth Industrial Tribunal, West Bengal.

ANNEXURE

In the matter of an industrial dispute between Messrs. Sodepur Cotton Mills, Ltd., post Sodepur, 24-Parganas and one of their workers, represented by Sodepur Cotton Mills Workers' Union, House of Lala, Sodepur Station Road, post office Sodepur, 24-Parganas.

BEFORE THE SECOND INDUSTRIAL TRIBUNAL, WEST BENGAL

PRESENT:

SHRI G. P. MUKHERJEE, *Judge, Second Industrial Tribunal*

Appearances:

For the employee: Shri H. L. Roy, Pleader.

For the Company: Shri S. Bhattacharjee and Shri R. M. Roy of the Company.

This reference made by the Government of West Bengal, Labour Department, by its order No. 3175Dis./D/8L-23/56, dated 20th July 1956, relates to the dismissal of Shri Kanai Lal Mitra by the Company.

The issue as formulated for adjudication in the schedule to the order of reference is as follows:—

Is the dismissal of Shri Kanai Lal Mitra justified? To what relief by way of reinstatement and/or compensation is he entitled?

AWARD

At the very outset, I may say that the issue has not been properly framed. Admittedly, Shri Kanai Lal Mitra was not dismissed, but was discharged. So, the proper issue should have been—Whether the discharge of Shri Kanai Lal Mitra is justified. Be that as it may, this does not matter much.

According to the written statement presented by the Union, Shri Kanai Lal Mitra was appointed by this Company on 18th March 1955 in a permanent post, and was working in the Reeling Department. Shri Kanai Lal Mitra was the Assistant Secretary of the Union, and as such his activities were not taken in good grace by the Management. So, the Company was seeking for an opportunity to dispense with his service. With this idea, a false charge was brought against him on 23rd February 1956. Shri Kanai Lal Mitra duly replied to that charge-sheet denying the allegations made therein. The Management did not hold any enquiry, but discharged him by a letter, dated 27th February 1956. The action of the Management was *mala fide*, and an instance of victimisation and unfair labour practice. Accordingly, Shri Mitra's reinstatement with back wages for the period of forced unemployment has been claimed.

The Company denied the allegations as made in the written statement of the Union. Its case is that Shri Kanai Lal Mitra was first employed as a probationer in this Company on 1st March 1954, but he left his employment of his own accord on 31st July 1954, as a result of verbal warning given to him for his unsatisfactory attendance. After a lapse of 7 months, he approached the Company for fresh employment. The Company out of generosity and compassion, took him again as a probationer with effect from 18th March 1955 and not in any permanent post as alleged. While he was working as a probationer, he was warned several times for sleeping while on duty, and also for his very unsatisfactory record of attendance. On 23rd February 1956 in the morning when Shri H. Roy was discussing a matter with the Spinning Master in front of the factory gate, Shri Kanai Lal Mitra together with another worker came before them, and demanded of Shri H. Roy as to why a charge-sheet was issued to a worker, named Shri Deo Shankar Shaw. Shri H. Roy, Spinning Assistant told him that the charge-sheet was issued for an alleged offence on his part. At this Shri Kanai Lal Mitra flared up and threatened him with dire consequences, if any more charge-sheet was issued against the workers in future. Thereafter, Shri H. Roy made a written complaint to the Managing Director, on which basis Shri Kanai Lal Mitra was charge-sheeted on 23rd February 1956. A copy of the charge-sheet was issued to him and he submitted his explanation. Thereafter, a proper enquiry was held by the Management. In that enquiry, the charge against him was duly established. The Management, in view of this and also taking into consideration his past record of service, discharged him in accordance with section 4 of the certified standing orders by a letter, dated 27th February 1956. The Company maintains that his discharge was fully justified, and that he is entitled to no relief whatsoever.

Shri Kanai Lal Mitra has no doubt stated in his evidence that he was taken in as a permanent hand in the Reeling Department of the Company on 18th March 1955, but Ext. A —a form of application for appointment which has been produced by the Company and which has been admitted by Shri Mitra, clearly demonstrates that he was appointed as a probationer on 18th March 1955. This form is not only signed by Shri Kanai Lal Mitra, but he himself filled up the necessary entries therein. In the face of this, there cannot be any room for doubt that Shri Mitra was taken in this Company as a probationer on 18th March 1955 as contended by the Company. Learned lawyer appearing on behalf of the Union relying on Ext. 3, which is a leave card granted to Shri Kanai Lal Mitra by the Company, has argued that Shri Mitra was a permanent hand in this Company, because no such leave card is issued to probationers or temporary workers. But I would say that this argument has no force, as such leave card is issued under rule 87 of the West Bengal Factories Rules, 1949, to each worker, whether he is permanent, temporary or probationer. So, the leave card (Ext. 3) does not help Shri Mitra in the least. It has transpired from the evidence that the work of Shri Mitra while employed as a probationer has been unsatisfactory. He was not only warned for sleeping while on duty, but he was also warned for his absence without any leave or permission. Shri H. Roy (O. P. W. 1), Spinning Assistant of the Company, under whom Shri Mitra used to work, has deposed on oath that Shri Mitra's work was unsatisfactory, and his attendance was very irregular, for which he was warned. The Company has also produced certified standing order, which is Ext. C. It appears from paragraph 4 of that standing orders that all appointments, unless specifically mentioned, will be for a probationary period of 6 months and will be considered as temporary, and that on the expiry of 6 months, the Company will consider each case for confirmation, and if found suitable, he will be confirmed and made permanent, otherwise he will be discharged or his probationary period may further be extended to another 6 months. It is further stated therein that in case a workman is neither discharged nor his probationary period is extended after the expiry of 6 months, he may be deemed then to be on probation still up to the maximum limit of one year from the date of his appointment, whereafter he will be deemed to be automatically discharged if he is not already confirmed and made permanent. It is also laid down therein that the Company has the right to discharge a workman at any time during his probationary period with immediate notice. I may state here further that the employer, if he found the work of a probationer not up to the standard, could at any time dispense with his service without giving him a charge-sheet, and there was no obligation on him to point out the mistakes and short-comings of the workman concerned The only point to be considered is whether the Management acted *bona fide* or had been actuated by any malice or improper motive. Regard being had to the unsatisfactory work and attendance of Shri Kanai Lal Mitra while employed as probationer, and also in view of the charge of riotous or disorderly behaviour levelled against him, the Company had the right to discharge him at any time with immediate notice without issuing any charge-sheet. But in this case, as it appears from the materials on record, the Company did not do so. The Company was considerate to Shri Kanai Lal Mitra, though he was a probationer. Shri Mitra was duly charge-sheeted for having threatened Shri H. Roy, Spinning Assistant in presence of the Spinning Master on 23rd February 1956, which was to be treated as a major misdemeanour on his part under rule 15(g) of the Standing Orders. The said rule 15(g) of the Standing Orders (Ext. C) says that riotous or disorderly behaviour on the part of a worker shall be considered as a major misdemeanour. A copy of the charge-sheet was issued to Shri Kanai Lal Mitra, and he replied to that. The said reply is Ext. 1. In his explanation, Shri Mitra denied having committed any such offence as mentioned in the charge-sheet. On receipt of his explanation, the Management held an enquiry and examined witnesses. After such enquiry, it was held by the Management that the charge against Shri Mitra was established. Thereafter, Shri Mitra was discharged. Shri Kanai Lal Mitra had the temerity of saying that no such enquiry was held, and that he was not present at the alleged enquiry. The enquiry proceedings have been placed before the Tribunal and duly proved (*vide* Ext. F). The gentleman who held the enquiry has also been examined before the Tribunal by the Company, and he is Shri S. N. Chowdhury (O. P. W. 2). From the enquiry proceedings, it appears that Shri Kanai Lal Mitra was present throughout the enquiry, and that he was given sufficient opportunity to cross-examine witnesses examined, but he did not put any question to them. O.P.W. 2 Shri S. N. Chowdhury who has proved the enquiry proceedings, has made a positive statement that Shri Mitra was present all through in that enquiry. This statement of O.P.W. 2 cannot be lightly brushed aside. In the face of his clear and emphatic statement, the evidence of Shri Mitra that no enquiry was held, and that he was not present in that enquiry, cannot be believed at all. So, the Tribunal comes to the conclusion that there was no violation of the principles of natural justice in the present case.

Now let me revert to the charge levelled against Shri Kanai Lal Mitra, for which he was discharged. The charge against him was that on 23rd February 1956 while Shri H. Roy, Spinning Assistant, was discussing with the Spinning Master regarding working of the Mills in front of the factory gate, Shri Mitra along with a worker came to him just at that moment, and demanded an explanation as to why a charge-sheet had been issued against a worker named Deo Shankar Shaw. Shri H. Roy told him that as that worker had done something wrong, the charge-sheet was given to him. At this, Shri Mitra flared up and threatened Shri H. Roy with dire consequences, if such charge-sheet was given to any other worker in future. Accordingly, when a written complaint was made by Shri H. Roy to the Managing Director, Shri Mitra was charge-sheeted. In this case, Shri H. Roy has deposed before the Tribunal as O. P. W. 1. He has reiterated before the Tribunal what was stated in his written complaint to the Managing Director, on the basis of which Shri Mitra was charge-sheeted. I do not see any reason to disbelieve or brush aside the positive testimony of Shri H. Roy on the point. He has deposed in a straight-forward manner, and his evidence bears the stamp of truth. So, from the evidence, I am satisfied that Shri Kanai Lal Mitra was guilty of riotous or disorderly behaviour by threatening Shri H. Roy, Spinning Assistant, under whom he worked, with dire consequences, if in future any charge-sheet was given to any other worker. Such act of indiscipline and insubordination on the part of a worker who was a probationer cannot be tolerated. The conduct of Shri Mitra was highly subversive of discipline. He behaved in a disorderly manner, and it amounted to misconduct. Such insubordination and disorderly conduct on the part of a worker undermine discipline, and the gravity of such action and conduct cannot be under-rated. Therefore, the Management was quite justified in discharging Shri Kanai Lal Mitra. It cannot be said or held by any stretch of imagination that Shri Kanai Lal Mitra was discharged or dismissed by way of victimisation for his Union activities, or that the action of the Management was tainted with *mala fides*. So, on a consideration of the matter, it is decided that the discharge or dismissal of Shri Kanai Lal Mitra was justified. That being so, he is entitled to no relief by way of reinstatement and/or compensation.

This is my award.

MINISTRY OF HOME AFFAIRS

NOTIFICATION

New Delhi-2, the 25th October 1956.

S.R.O. 2473.—The report of Shri V. Viswanathan, I.C.S., who was appointed by the Central Government as the authority to demarcate the boundary line between the States of Bihar and West Bengal in the Purnea District in pursuance of the provisions of Section 3(1)(a) of the Bihar and West Bengal (Transfer of Territories) Act, 1956, is hereby notified:—

REPORT

FROM

Shri V. Viswanathan, I.C.S., Special Commissioner for Bihar-West Bengal boundary.

To

The Secretary to the Government of India, Ministry of Home Affairs, New Delhi.

New Delhi, the 7th October 1956.

Sir,

I have the honour to submit my report on the demarcation of the boundary between Bihar and West Bengal in the Purnea district carried out by me as the authority appointed in this behalf by the Central Government under Section 3(1)(a) of the Bihar and West Bengal (Transfer of Territories) Act, 1956.

2. At the time of the partition of India in 1947 parts of the districts of Dinajpur and Jalpaiguri in the old province of Bengal were allotted to East

Pakistan with the result that the new State of West Bengal was severed into two disparate physical parts. The main body of West Bengal which lies in the south has no physical contiguity with the three north-eastern districts of Darjeeling, Jalpaiguri and Cooch-Behar. Purnea which is the most north-easterly of the districts of Bihar, abuts on the boundary of East Pakistan, and interposes itself between the two parts of West Bengal. The line of communication by land between the two separate parts of West Bengal has to pass through the eastern fringe of the Purnea district through the Kishanganj subdivision. The Kathihar-Siliguri meter gauge railway line along a part of which in the old days ran the Darjeeling Himalayan railway, has now assumed a new importance. The old Ganges-Darjeeling road running from the banks of the Ganges across the Kishanganj subdivision to Siliguri and Darjeeling has become the chief means of road communication between the two parts of West Bengal. To adapt this roadway to the new conditions, the minor road connecting Dalkola near the Ganges-Darjeeling road to Karandighi and beyond has been connected with the sub-divisional headquarters of Raiganj in the West Dinajpur District. In the north, the old Ganges-Darjeeling road used to pass through that part of the Jalpaiguri district which is now included in East Pakistan. This has necessitated a new diversion from the police station of Chopra across the Mahananda at Chitalgatta to Bagdogra and Siliguri. This roadway from Raiganj *via* Karandighi, Dalkola, Kishanganj, Islampur, Chopra and across the Mahananda at Chitalgatta on to Siliguri has been declared to be a national highway. The cost of the maintenance and upkeep of this road is now borne by the Central Government though the West Bengal and Bihar Government act as their agents.

3. For some years now, the West Bengal Government have been making a strong plea for the transfer of the eastern parts of the Purnea district to West Bengal so that physical contiguity between the two parts of West Bengal may be established, and, further, so that at least the whole length of the national highway might lie entirely within the territories of West Bengal. The States Reorganisation Commission considered this claim of the West Bengal Government based not only on these two grounds but on several others and recommended:—

"Taking all relevant factors into consideration, we propose that,

(1) the portion of the Kishanganj sub-division which is to the east of the river Mahananda, and

(2) a portion of the Gopalpur revenue thana contiguous to the territory mentioned in (1) and extending down to the national highway in this thana should be transferred to West Bengal.

The actual delimitation of the new boundary will have to be settled after a detailed survey. The details of this transfer will have to be left, therefore, to the Government of India, acting in consultation with the State Governments concerned, but it should be ensured that control of the national highway in the Gopalpur revenue thana is vested in the Government of West Bengal."

4. It was, however, discovered soon after the publication of the report of the States Reorganisation Commission that their recommendations would neither establish contiguity between the two parts of West Bengal nor include the entire highway in the territories of West Bengal. As indicated above, the new alignment of the national highway in the north leaves the old Ganges-Darjeeling road at Chopra and crosses the Mahananda at Chitalgatta so as to avoid crossing a part of the Jalpaiguri district

in East Pakistan. The States Reorganisation Commission's recommendation would not have included this part of the road or the territories adjoining it in West Bengal.

5. The matter was again considered afresh and it was decided that the new boundary line should be demarcated in the Gopalpur thana and the Kishanganj sub-division of the Purnea district entirely with reference to the national highway so that this highway and the areas through which it runs may be clearly transferred to West Bengal. An exception was made in respect of the Kishanganj town itself which was to remain in Bihar. Section 3 of the Bihar and West Bengal (Transfer of Territories) Act, 1956, which lays down the manner in which this boundary shall be demarcated, is reproduced below:—

> 3. (1) As from the appointed day, there shall be added to the State of West Bengal the territories which, on the 1st day of March, 1956, were comprised in—
>
> (a) that portion of Kishanganj sub-division of Purnea district which lies to the east of the boundary line demarcated in accordance with the provisions of sub-section (2) by an authority appointed in this behalf by the Central Government and that portion of Gopalpur thana of the said district which lies to the east or north as the case may be, of the said boundary line; and
>
> (b) * * * * * * * * *
>
> and the said territories shall thereupon cease to form part of the State of Bihar.
>
> (2) The boundary line referred to in sub-section (1) shall be so demarcated as to be generally two hundred yards to the west of the highway in Purnea district connecting Dalkola. Kishanganj and Chopra with Siliguri in Darjeeling district and two hundred yards to the south or south-west of the highway in Purnea district connecting Dalkola and Karandighi with Raiganj in West Dinajpur district:
>
> Provided that the boundary line shall be so demarcated as not to cut across any village or town:
>
> Provided further that from the point where the first-mentioned highway meets the southern boundary of Kishanganj municipality to the point where it leaves the northern boundary of that municipality the boundary line shall be the same as the boundary of that municipality on the east.
>
> "* * * * *"

6. I was appointed by the Central Government as the authority for demarcating the boundary line referred to in clause (a) of sub-section (2) of Section 3 of the Bihar and West Bengal (Transfer of Territories) Act, 1956, by a Gazette of India, notification No. 12/3/56-SRI, dated the 7th September 1956. I was asked to undertake the work as soon as possible and to report to the Government of India by October 7, 1956, at the latest. The Government of Uttar Pradesh were kind enough to lend me the services of Shri B. S. Sharma, U.P.C.S., Additional District Magistrate, Bahraich and Shri Onkar Chandra Srivastava, Tehsildar, Sitapur, officers experienced in land revenue, survey and settlement work, to assist me in this task. The Government of India in the Ministry of Works, Housing & Supply also placed at my disposal the services of Shri C. Rama Rao, Executive Engineer of the Central Public Works Department. Our party arrived at Kishanganj in the afternoon of September 18, 1956,

and established our camp at Kishanganj for the duration of the demarcation proceedings. The Government of Bihar deputed Shri T. P. Singh, I.C.S., Commissioner of the Bhagalpur Division, Shri R. S. Pande, I.A.S., Joint Development Commissioner and K. K. Mitra, I.A.S., Director of Land Records and Surveys to assist me. The Government of West Bengal similarly deputed Shri M. M. Sen, I.C.S., Director of Land Records and Surveys, Shri A. K. Sen Gupta, Deputy Director of Surveys and Shri B. N. Chatterjee, W.B.C.S., Assistant Director of Surveys.

7. The first and the most important question which I was called upon to determine was the meaning to be assigned to the word "village" used in the first proviso to sub-section (2) of Section 3 of the Act. This proviso lays down that the boundary shall not cut across any village or town. I encountered no town on the boundary except Kishanganj for which a separate provision has been made in the second proviso to Section 3(2). It remained, however, to decide what the expression "village" should be taken to mean. The Director of Land Records, West Bengal, strongly urged on behalf of his State Government that this term must be taken as it is defined in section 3 of the Bihar Tenancy Act, and therefore should be read as meaning a mauza or a revenue survey village. The officers of the Bihar Government, however, suggested that the term "village" should not be construed as a revenue mauza but only as an inhabited locality near the roadside and that the aim should be to demarcate the line approximately 200 yards from the road which would not intersect any such inhabited settlements but skirt around them to include the entire habitation either in West Bengal or in Bihar. The Director of Land Records and Surveys, Bihar, put in a written request on behalf of the State Government asking that the interpretation sought to be put on the word "village" by the Government of West Bengal be not accepted. He urged tha a village should be treated as only an inhabited locality. He suggested that the boundary should be approximately 200 yards from the road varying from 250 to 300 yards or 150 to 100 yards ensuring that no inhabited area of a village is cut into two by this boundary line. On behalf of the State Government he further represented that where the major portion of an inhabited area of a village fell within 200 yards, the boundary should be extended at the point so that the whole village went to West Bengal. Similarly, if only a small portion of the inhabited area of a village or town fell within the 200 yards line and the major portion fell outside it, the distance of 200 yards should be reduced and the whole of the inhabited part should be allowed to remain in Bihar. He drew attention to the debates in the Lok Sabha at the time of passing of the Bihar and West Bengal (Transfer of Territories) Act, 1956.

8. The Director of Land Records and Surveys, West Bengal, also submitted a note on behalf of his State Government in which he urged that the words "village and town" must be given their recognised meaning and suggested that there is nothing in the Act to justify the splitting up of a village into its inhabited and uninhabited parts. He pointed out that such splitting up would be in direct contravention of the mandatory provisions of the Act which enjoin that the entity of a village or a town must be preserved. He pointed out that the definition of a village in the Bihar Tenancy Act is followed in interpreting all relevant statutes and notifications and that any departure in this particular instance would be unjustified.

9. I have given much anxious thought to this matter and have examined it very carefully both from the purely legal as well as from the

larger administrative points of view. Section 3(10) of the Bihar Tenancy Act, 1885, as amended up-to-date, runs as follows:—

> " 'Village' means the area defined, surveyed and recorded as a district and separate village in—
>
> (a) the general land-revenue survey which has been made of the districts to which this Act extends, or
>
> (b) any survey made by the Government which may be adopted by notification in the Official Gazette as defining villages for the purposes of this clause in any specified area;
>
> and, where a survey has not been made by, or under the authority of, the Government, such area as the Collector may, with the sanction of the Board of Revenue, by general or special order, declare to constitute a village;"

Section 3(10) of the Bengal Tenancy Act of 1885 runs as follows:—

> "(10) 'village' means the area defined, surveyed and recorded as a distinct and separate village in—
>
> (a) the general land-revenue survey which has been made of the Province of Bengal, or
>
> (b) any survey made by the Government which may be adopted by notification in the *Calcutta Gazette*, as defining villages for the purposes of this clause in any specified area;
>
> and, where a survey has not been made by, or under the authority of, the Government, such area as the Collector may, with the sanction of the Board of Revenue, by general or special order declare to constitute a village".

Section 3(25) of the U.P. Zamindari Abolition and Land Reforms Act, 1950, runs as follows:—

> "3(25) 'village' means any local area whether compact or otherwise recorded as a village in the revenue records of the district concerned and includes any area which the State Government may, by a general or special order publish in the Gazette declare to be a village;"

In the absence of a definition of the word "village" in the Act, I have had to construe it in the general sense in which it is interpreted in the laws in force in Bihar and also in other parts of India. It is quite clear from the definitions quoted from the tenancy Acts of the different States that the word "village" practically everywhere in India and definitely in Bihar, means a clearly demarcated area which has been separately defined, surveyed and recorded as distinct and separate village at the general land revenue survey. This is what is generally known as the mauza in the terminology of the land revenue administration. It consists of a defined area of land including the cultivated area of a village as well as the inhabited sites. The law does not contemplate the division of the inhabited area from the land attached to the village whether cultivated or otherwise. In fact the lands of the village and the inhabited parts of it form one indivisible organic whole.

10. Unless special provision is made in any legal enactment, this definition of the village is accepted for other administrative purposes also. For example, the 1951 census report by the Registrar General of India says—

> "the village in the administrative sense is the 'mauza'—a settled area with defined boundaries for which village records have been prepared".

The Bihar and Orissa Census Report of 1931 says—

> "the census village in British territory at least is a mauza the boundaries of which have been demarcated in survey and settlement operations. It may contain one group of houses, or it may contain many; on the other hand, there are not a few mauzas which contain no houses at all. The village, therefore, is not a residential unit but a revenue unit".

The census report of Bihar of 1921 says—

> "in the British districts the census village is the mauza, *i.e.*, the survey and settlement village which is a parcel of land with a defined boundaries which may contain one or more group of houses or even no houses at all".

The Bihar and Orissa Census Report of 1911 says—

> "the census village corresponded to the mauza in all the districts of Bihar and Orissa except Manbhum, Palamau and Hazaribagh ....The mauza, it may be explained, consists of a parcel of land, the boundaries of which was defined either by the survey over half a century ago or by later cadastral surveys".

11. The Director of Land Records and Surveys, Bihar, has drawn my attention to Section 4 of the Village Chaukidari Act, 1870 (Bengal Act IV of 1870) which lays down that—

> "the District Magistrate may, from time to time, by an order in writing under his hand, declare any local area or group of dwellings within the district of which he has charge, to be a village for the purposes of this Act".

This clause itself shows that for all purposes in the State of Bihar the revenue survey village is generally accepted as the village. This particular section in the Village Chaukidari Act merely provides an exception for the limited purpose of the appointment of chaukidars. It permits the District Magistrate when there are two or three large *abadis* within a revenue mauza to appoint separate chaukidars for each of these separate *abadis*. Where no such order is made by the District Magistrate, the village adopted for the purposes of the Chaukidari Act is the revenue survey village and even when the District Magistrate separates one of the *abadis* of the village for the purpose of appointing a separate chaukidar, the separate treatment of that *abadi* is only for the purposes of the Chaukidari Act and not for other purposes. In fact, the Bihar officers were unable to show me any provision of law in force in their State which would justify putting on the term "village" any meaning other than that contained in Section 3(10) of the Bihar Tenancy Act. From the strictly legal point of view, therefore, the conclusion is inescapable that the revenue survey village, as defined in the Bihar Tenancy Act, must be taken as the village for the purposes of the present Act also.

12. There are even stronger grounds from the administrative point of view for treating the revenue mauza as the village for the purposes of this Act. As explained above, the revenue mauza is an indivisible organic unit of administration. All over India it is the ultimate unit of administration. In inter-state exchanges, it must, like the atom in chemistry, be the ultimate unit of inter-change. There are no provincial or district boundaries anywhere in India which cut across existing revenue mauzas. Even at the partition of India between India and Pakistan, the fixation of border has generally been along mauza boundaries. In the scheme of the reorganisation of States which comes into force on November 1, 1956, there is no part of India where exchanges

of areas between different States occur in terms of areas less than revenue mauzas as the ultimate units.

13. If we were to take the boundary line across revenue mauzas saving only inhabited sites, we would be forcibly disrupting the organic life of these villages. The lands in a mauza are usually cultivated by persons resident in the inhabited sites within that mauza. If the boundary line is taken across a mauza, several of the inhabitants of the *abadis* will find themselves in one State and their holdings in another State. Worse results will follow. The holding of a ryot in these parts, as elsewhere in India, consists of a number of small plots scattered all over the mauza. If a mauza is intersected by the State boundary, a large number of ryots will find that while their dwelling huts are in one State, their little holdings are divided into two parts lying in different States. They will have to deal with two different sets of village officials, revenue thana officials and sub-divisional officials. They will have to pay their land revenue in two different places.

14. The division of mauzas by the boundary line would also greatly disrupt the land records system in the boundary villages. Each of these villages will have to be divided into two new mauzas. The land records will have to be sorted out into two separate parts and even the cadastral survey plots will have to be renumbered afresh. As it is, the transfer of the land records and other papers relating to the villages transferred from Bihar to West Bengal will be a process spread over a few months but if the land records have to be sub-divided and prepared afresh in the mauzas to be divided, the process may well be spread over several years.

15. Every administrative consideration is opposed to the partition of the revenue mauzas. From the legal point of view, there is no escape from the conclusion that the word "village" in the Act must be taken to mean the revenue mauza. In fact, to put any other construction upon the word "village" would, in my opinion, not be in accord with the Act of Parliament. In construing the exact sense of terms in the Act, we have to try to ascertain the meaning contained in the language of the statute. It would not be justifiable to go behind the statute itself to the Parliamentary debates in an attempt to find the meaning of terms.

16. I, therefore, finally decided that the demarcation must proceed on the basis that the term "village" shall mean the term as defined in Section 3(10) of the Bihar Tenancy Act, 1885, that is to say, a revenue mauza.

17. The Director of Land Records and Surveys, West Bengal, suggested next that wherever a mauza or a revenue survey village was intersected by a line drawn exactly 200 yards from the extreme edge of the highway on the Bihar side, the entire revenue mauza should be allotted to West Bengal. It was not possible to accept the suggestion that if a line drawn 200 yards from the outer limit of the highway cut across any mauza, the mauza must necessarily be allotted to West Bengal. The limit of 200 yards described in sub-section (2) of section 3 of the Act has been qualified in a most important way by the word "generally". It is true that the word "generally" occurs only in respect of the line to the west of the highways connecting Dalkola, Kishanganj and Chopra with Siliguri and not in the part relating to the highway connecting Dalkola and Karandighi with Raiganj. It would have been quite impracticable to adhere to any rigid distance of 200 yards for the boundary line even near the highway between Dalkola and Raiganj. I have taken the word "generally" as qualifying the distance of 200 yards of the boundary line along the entire length of the highway. If the eastern or northern boundaries of a mauza lay at some distance from the highway, even

though less than 200 yards, the mauza was kept in Bihar and not allotted to West Bengal. This has brought the boundary line at one place to about 45 yards from the highway, at another to about 65 yards and at two other places to 100 to 150 yards. When, however, a mauza lay astride the highway, the boundary line had to be taken to the western or the southern boundary of the village to include the whole of it in West Bengal as otherwise a part of the highway would have lain in Bihar. At a number of places, particularly in the southern part of the highway between Dalkola and Raiganj, it was found that the alignment of the road ran exactly on the boundary line between two mauzas. In such cases where there was absolutely no margin at all between the highway and the limits of a mauza, the mauza touching the highway and lying on its west or south had to be included in West Bengal.

18. The West Bengal officers also urged that the distance of 200 yards mentioned in the Act should be measured from extreme edge of all the lands pertaining to the roadway on the Bihar side as that alone would be in conformity with the definition of a highway under the law. As the word "generally" in Section 3(2) of the Act gave a certain elasticity to the distance of 200 yards, the question whether the distance of the boundary line should be measured from the middle of the highway or from the extreme edge never arose as a practical problem. The width of the highway varies between 100 and 130 feet and the distance involved in the point made by the West Bengal Government would never exceed 20 to 30 yards. As in each case we had to examine whether a particular mauza as a whole should lie in West Bengal or Bihar, the question of such narrow distances never arose in practice, and it was not necessary for me to answer this question at any stage.

19. I explained to the Directors of Land Records of both the States that it was not necessary for any boundary pillars or other marks to be fixed along the line of demarcation. There are no boundary marks fixed on the borders of any two States in India or any two districts within a State. The line of demarcation which I have fixed runs along the boundaries of mauzas which are clearly defined both on the ground as well as on the cadastral survey maps. From the further details that I shall give either in the body of this report or in the appendices, it should be quite simple for any revenue officer to ascertain the exact boundary line. The officers of the West Bengal and Bihar State Governments agreed with this.

20. Accompanied by the officers of the two State Governments, I moved along the entire length of the national highway in the Purnea District—a length of about 85 miles. As I went along, I carefully checked up the cadastral survey maps of the mauzas lying astride and on either side of the highway. The cadastral survey maps on which I had mainly to reply were prepared in the last cadastral survey of the Purnea District between the years 1901-05. The Kishanganj sub-division is at present under survey and settlement and fresh maps of many of the villages have been prepared. Only the original traces of these maps are now ready and no copies are yet available. In any case, until the survey is completed and all the prescribed procedure has been gone through and the maps and the records finally published, these maps cannot be regarded as the authoritative and official maps of the villages. The maps prepared in 1901-05 are still the official maps of these villages. In any event, there has been no change in the boundaries of any of the mauzas in this area as between 1901 and 1956. There have been some changes in the alignment of the road between Raiganj to Dalkola and from Dalkola to Kishanganj. The changes in the alignment were carefully checked up

with reference to the old villages maps. For a recheck of these changes in alignments, the new survey maps were extremely useful as they are not yet official authoritative, they represent the results of very careful and accurate survey. These new drawings of village maps were particularly useful in checking up on the alignments of the new road from Chopra to Chitalgatta and to the West Bengal border near Siliguri. In addition to this, tho officers of the West Bengal Government also produced sheets of the Public Works Department indicating the lands acquired for the highway through the different villages. Similar sheets of the Public Works Department, Bihar, were not immediately available though they were produced at a late stage. These provided very useful aids in the work of demarcation.

21. After a careful check of these maps on the spot, it was decided in each instance whether a particular mauza would remain in Bihar or West Bengal. Several cases were found in which the lands of a mauza lie in two or three disparate parts. Yet again cases were found where mauza though contiguous and with compact units has two or three parts, all with the same name and revenue thana numbers. In such cases it was convenient to separate one or more blocks from the total number of blocks for allotment to either State.

22. Three main principles were kept in view in finally demarcating the line:—

(a) that the entire national highway must in any case go into West Bengal;

(b) that some area to the south and west of the highway should also go with it to West Bengal so that the boundary line nowhere intersects or touches the road itself; and

(c) that subject to these considerations, the minimum area from Bihar is transferred to West Bengal.

The intention behind the Act was to include the entire highway within the territories of West Bengal. Section 3(1) (a) of the Act, however, permits of the transfer to West Bengal of areas in the Purnea district only from the Kishanganj sub-division and the Gopalpur revenue thana. The small scale maps show the highway to run only through these areas but on detailed inspection it was found that the road actually passes through village Choncha in revenue thana Amaur in the Sadar sub-division of the Purnea district. The provisions of the Act, however, do not permit the transfer of any area from the Sadar sub-division of the Purnea district to West Bengal. The entire village of Choncha including the portion of highway which passes through this village over a distance of about one and a half miles, will, therefore, continue to remain in Bihar. The boundary between the two States in this area, will accordingly be the eastern limit of village Choncha. The West Bengal authorities will of course have full freedom to use the part of the national highway which passes through this village. If, however, they choose to do so, they may make a slight variation in the alignment of the highway at this place so as to by-pass this mauza.

23. A list of villages (revenue mauzas) in the Purnea district transferred to West Bengal which abut on the new Bihar border is given in Appendix I. A list of villages (revenue mauzas) in the Purnea district, Bihar, which abut on the West Bengal border is given in Appendix II. These two lists by themselves completely define the new boundary line as this line has only to be taken along the common boundary of villages on the opposite sides in the two States.

24. A map showing the national highway and the boundary line as demarcated through the Gopalpur revenue thana of the Katihar subdivision and the Kishanganj and Islampur revenue thanas of the Kishanganj subdivision is also attached. The map is on the scale of one inch to one mile and has had to be divided into four separate sheets in order to make it handy and manageable for the purposes of this report. It indicates with a fair degree of precision the line of demarcation as drawn and the villages along the edge of which it passes.

25. The scheme of the Act is that the town of Kishanganj and the entire municipal area in which it lies should continue to remain in Bihar. The line of demarcation to be followed around the municipal limits of Kishanganj is described in the second proviso to Section 3(2) of the Act as follows:—

> "Provided further that from the point where the first-mentioned highway meets the southern boundary of Kishanganj municipality to the point where it leaves the northern boundary of that municipality, the boundary line shall be the same as the boundary of that municipality on the east."

26. At first sight it would appear that this should present no difficulty. It would be a simple matter to bring the line of demarcation along the west of the highway south of Kishanganj town and start off from the point where it intersects the municipal boundaries and follow the municipal boundary to the south and east and again in the north until it intersects the highway and meets the next line of mauza boundaries to be followed in the north. In actual fact, however, the difficulties of ascertaining the boundaries of the Kishanganj municipality were even greater than drawing the boundary line between the two States across the rural areas.

27. The area of the Kishanganj municipality was surveyed in 1928 by Shri K. P. Singha, I.C.S., Joint Magistrate of the sub-division who was specially appointed for the purpose. Shri Singha says in his report:—

> "During boundary survey, it was found that the municipal authorities themselves had a vague idea regarding the actual municipal boundary........................"

> "During the present operation, it was found that the municipality was claiming some land beyond the municipal limit without any authority..............."

> "The municipal agents appear to have a very poor knowledge of the lands actually belonging to and invested in the municipality..."

28. In order to ascertain the exact boundaries of the municipality of Kishanganj, I consulted the Chairman of the Municipal Board, Shri Chanchal Prasad and also the ex-Chairman, Shri Bulaki Lal Ram Das. Most of the senior officers of the municipality were away either because they had resigned and left their posts or because they had gone away on leave. The Municipal Chairman had only the vaguest ideas of the limits of the municipality and I could not get much useful assistance from municipal authorities in demarcating the municipal boundaries.

29. Kishanganj was created into a municipality in 1868. The earlier notification of the Provincial Governments defining the limits of the municipal area are not traceable. The oldest notification which could be found was No. 2066-M., dated the 23rd December, 1908, which however defines the boundaries of the various wards for the purposes of the election of municipal commissioners. In appendix III is given Notifica-

tion No. 1422-M., dated the 29th June, 1912, issued by the Government of Bihar by virtue of which the municipal boundaries were enlarged and the new boundaries defined. A corrigendum to this notification was issued in Notification No. 17559-L.S.-G., dated the 29th November, 1949, published in the *Bihar Gazette* of December 7, 1949. This is also given in Appendix III.

30. There was a great deal of discussion between the officers of the Bihar and West Bengal Governments with regard to the exact implications of these notifications. These notifications are in part vague, but after many hours devoted to the consideration of the notifications. I was able to construe what I thought was the meaning and purpose of these orders of the Provincial Government and where exactly the boundary would lie.

31. The notification of 1912 consists of two paragraphs. The first paragraph says—

> "the Lieutenant-Governor is pleased to include within the Kishanganj municipality in the district of Purnea a local area which is contiguous to that municipality and the boundaries of which are as follows..."

The paragraph concludes by defining certain boundaries on the north, east, south and west. The second paragraph says:

> "the boundaries of the Kishanganj municipality after the inclusion of the said area are as follows"

and then defines the boundaries of the municipality on all the four sides. There was some difficulty in ascertaining the exact significance of the boundaries mentioned in the first paragraphs but the only meaning which can be assigned to this part of the notification is that it defines the outer limits of the areas actually included within the municipality by this notification. The second paragraph then defines the boundaries of the municipality as constituted after this expansion. The places mentioned in the second paragraph are, therefore, areas lying outside the municipal limits. There are some glaring errors in the description as, for example, where the Lain and Phulbari mauzas are described to be on the east and the south. The corrigendum issued in 1949 amends the entries in the first paragraph of the notification of 1912 in respect of east and the south. This corrigendum does not give the outer boundaries as in the second paragraph of the 1912 notification. The 1949 notification must, therefore, be taken to mean that in so far as at least the areas included in the 1912 notification are concerned, they stand amended though what the outer boundaries may be after such notification have not been clearly specified. On this basis, I decided that while the mauza of Kharga should remain in the municipality and therefore in Bihar, the southern limits of the municipality should be the mauzas of Belan, Singhari, Rampur and Chandpur. The cattle fair ground in Machmara and the airstrip in mauza Pothiadhekabheja would remain in the Kishanganj municipality. The village of Hasanpur would also remain in the municipality except for a very tiny part on the right of the river Sudhanu. From here the river Sudhanu forms the eastern boundary of the municipality but the mauza of Majhia must under the 1949 notification be taken to be included in the municipality. Similarly, the village of Faringora on the north-east of the highway would be included in the municipality. The municipal boundary would cross the highway along the northern boundary of Faringora and pick up the main boundary line on the west of the road at the tri-junction of Balichuka Pachhim, Faringora and Taisa.

32. The Government of West Bengal have entered an objection to this delimitation of the municipal boundaries. They feel that considerably larger areas than that strictly included within the municipal limits have been allotted to Bihar. They urged that the notification of 1949 should not be taken to mean that any further addition to the municipal area was made in that year. I have drawn no such conclusion, but the fact of the amendment of 1949 is there whether it has added to the areas or merely redefined the areas fixed in 1912; but in view of the explanation given in the preceding paragraph, I have taken that the areas mentioned in paragraph 1 in the 1912 notification and amended by the 1949 notification are to be treated as areas within the municipality. The second objection of the West Bengal Government is that the area now allotted to the municipality is far in excess of that over which the municipal authorities exercise effective administrative jurisdiction. This may well be so that but usually notifications defining municipal boundaries assign to these local bodies areas slightly in excess of the truly urbanised limits. This prevents persons from building houses or carrying on new occupation just outside the municipal limits to evade taxes; and, secondly, the urban area of a municipality has to have a margin of area round it for further expansion of the needs of the town. The process of urbanisation is going on at a very rapid rate throughout India and all municipal towns require the inclusion of such marginal areas for further expansion. The area now included in the environs of Kishanganj, Bihar, would provide just that necessary elbow room to the municipality for future growth.

33. The demarcation of the municipal limits in this manner has also, as stated above, included the area in the Machmara village in which the annual cattle fair is held. This is regarded by all the inhabitants as an integral part of Kishanganj town and the exclusion of this area would have caused great difficulties in the holding of this rather important annual fair in this subdivision. It is also fortunate for the Kishanganj town that the minor airfield situated in mauza Pothiadhekabheja has also been included in the municipal limits.

34. A more exact description of the inter-State boundary as it runs along the municipal limits of Kishanganj is given in Appendix IV.

35. The following statement shows the area and the population of the Purnea district transferred to West Bengal:—

Statement showing the area and population to be transferred to West Bengal as a result of demarcation.

Serial No.	Name of Revenue Thana.	Name of Police-station.	Number of villages.	Area (in square miles).	Population (1951 Census).
1	2	3	4	5	6
1	Islampur	Thakurganj	12	58	14,357
		Chopra	129	158	52,949
		Islampur	123	139	59,652
2	Kishanganj	Kishanganj	285	180	66,810
		Goal Pokhar	95	73	36,028
3	Gopalpur	Karandighi	269	151	47,492
		Total	913	759	277,288

It will be seen that this demarcation would lead to the transfer of 759 square miles of area comprising 913 villages. The population transferred from Bihar to West Bengal is 277,288. The area to the south and the west of the road, that is to say, on the Bihar side of the highway transferred to West Bengal is 29 sq. miles in Gopalpur and Kishanganj Revenues thanas and 41 sq. miles in thana Islampur, making a total of 70 sq. miles. The area to the west of the road is considerable only in thana Islampur. This is because of the inclusion of certain large mauzas in West Bengal near the diversion of the road from Chopra and near the Mahananda and some large villages containing tea estates far in the north on the borders of the Siliguri subdivision.

36. In conclusion, I have to express my thanks to the Government of Bihar for their kindness in affording me the necessary facilities at my camp at Kishanganj and to the officers deputed by that State Government and to the Director and Deputy Director of Land Records, West Bengal, for all the assistance they gave me in carrying out this work. I have particularly to thank Shri Basudeo Sahay Sharma and Shri Onkar Chandra Srivastava, officers of the U.P. Government who were deputed to assist me and Shri C. Rama Rao of the Central Public Works Department.

Yours faithfully,
V. VISHWANATHAN,
Special Commissioner for Bihar
and West Bengal boundary.

APPENDIX III

Notification No. 1422-*M.*, *dated the* 29*th June* 1912, *from the Final Report on the Survey of Kishanganj Municipality in the district of Purneo,* 1928—30, *by Shri K. P. Sinha, I.C.S.*

In exercise of the power conferred by sub-section (2) of section 9-A of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), the Lieutenant-Governor is pleased to include within the Kishanganj Municipality in the district of Purnea a local area which is contiguous to that municipality and the boundaries of which are as follows:—

North—Cultivated land or Phulbari and Pirani Mauzas and Jhukti Phulbari Busti.

East—Municipal road and cultivated land of Line and Phulbari Mauzas.

South—Cultivated land of Line and Phulbari Mauzas.

West—Road to Khagra, and the cultivated land of Phulbari Mauzas and Phulbari Busti.

2. The boundaries of the Kishanganj Municipality after the inclusion of the said area are as follows:—

North—Pirani and Ghoramara and the cultivated land of Pirani and Phulbair Mauzas and Jukti and Phulbari Busti.

Notices.

3. If in any case the District Health Officer considers that the issue of a notice under these regulations is likely to lead to such an amount of delay as might facilitate the spread of cholera he may forthwith take such step as he may think fit for carrying out the work, and shall thereafter, as soon as possible, issue a notice on the person concerned stating the reason why such work has been carried out.

4. If any measure which the District Health Officer has, by a notice issued under these regulations, required to be carried out, be not carried out to his satisfaction within the time stated in the notice. the District Health Officer shall be entitled to carry out the measure.

Costs and compensation.

5. (1) All expenses incurred in carrying out any work in pursuance of any order issued under these regulations shall be paid by the board except in any case where the order directs a person to carry out any work in relation to property in his possession, in which case the expenses shall be paid by that person:

Provided that where the conditions, which led the District Health Officer to pass such an order, are not attributable to any act or default of the persons in possession of the property, the board may pay to such person the whole or a part of the expenses incurred by him in carrying out the order.

(2) The board may recover all expenses incurred by the District Health Officer in carrying out the measure under regulation 4 from the person or persons to whom the notice was originally issued.

6. The Board shall pay adequate compensation to any person who has sustained substantial loss or damage by reason of anything done under these regulations:

Provided that no person shall receive any compensation for anything done, or suffered under these regulations, if he has failed to carry out an order issued under these regulations within the time specified in the order and to the satisfaction of the District Health Officer.

8. (1) If information has not already been given under regulation 7, the medical practitioner called in to attend upon any case of cholera shall forthwith give notice of the case by special messenger to the nearest Sanitary Inspector or rural medical officer and by post to the District Health Officer and the cost of such messenger in each case shall be defrayed by the board.

14. The board shall provide free of charge suitable places, with necessary attendance, medicine, diet and other necessaries for persons isolated under regulation 11: provided that a private individual may provide places certified by the District Health Officer as being fit for the purpose of such isolation.

(2) The District Health Officer or a Sanitary Inspector may require such owner or occupier to keep closed during such a period as shall be specified in the order any well, tank, pool or other source of water-supply closed under paragraph (1) of this regulation.

28. The District Health Officer or a Sanitary Insector may prohibit persons from easing themselves, or throwing, depositing or discharging any rubbish, sewage, or offensive matter, into any well, tank, pool or other source of water-supply, which is used by the public, or within such a distance from such well, tank, pool or source of water-supply as he may fix.

30. Whenever the District Health Officer or a Sanitary Inspector is satisfied that the condition of any privy, urinal, drain, sewer or cesspool is such as to cause risk of spreading cholera to the inhabitants of the neighbourhood he may order the occupier of the land in which such privy, urinal, drain, sewer or cesspool is situated to disinfect, or to allow an officer of the Board to disinfect, the same with such disinfectants in such quantities and at such time as the said officer or inspector shall think fit.

(2) When the person to be examined under paragraph (1) is a female who, by the custom of the country, does not appear in public, the officer shall take her statement under such conditions as shall admit of due respect to the said custom.

(3) Such person shall be bound to answer all questions relating to such case put to him or her by such officer, other than questions the answers to which would have a tendency to expose him or her to any criminal charge.

44. BEFORE THE SECOND INDUSTRIAL TRIBUNAL, WEST BENGAL

PRESENT:

SHRI G. P. MUKHERJEE, *Judge, Second Industrial Tribunal.*

Appearances.

For the employees: Shri Panchanan Bhattacharya.

For the Company: Shri Sarada Charan Palit, Accountant and Shri Kamal Krishna Dey, Supervisor of the Company.

This reference made by the Government of West Bengal, Labour Department, by its order No. 3083Dis./D/8L-16/56, dated 17th July 1956, relates only to the question of compensation payable to the workmen mentioned in the list attached to the order of reference for their retrenchment with effect from 1st December 1955.

AWARD

Having regard to the scope of the issue as formulated for adjudication in the schedule to the order of reference, the Tribunal is not at all concerned with the question whether the retrenchment of these workers was *bona fide* and justified. The question of reinstatement of these workers does not, therefore, arise in the present dispute. The Tribunal must strictly confine its attention to the issue as framed by the Government for adjudication, which is as under:—

What compensation is payable to the workmen mentioned in the attached list for their retrenchment with effect from 1st December 1955?

List of retrenched workers

(1) Shri Mrityunjoy Pal.
(2) Shri Probhas Chandra Kabasi.
(3) Shri Gour Mohan Bose.
(4) Shri Bululal Basak.
(5) Shri Harekrishan Ghosal.
(6) Shri Gajendra Ch. Saha.
(7) Shri Subodh Ch. Mondal.
(8) Shri Kalachand Basak.
(9) Shri Santosh Kr. Nandy.
(10) Shri Kalidas Paul.
(11) Shri Haradhan Hazra.
(12) Shri Pasupati Dey.
(13) Shri Gour Krishna Mahanti.
(14) Shri Rabindra Nath Dey
(15) Shri Tarapada Biswas.
(16) Shri Nabakumar Naskar.
(17) Shri Panchu Gopal Sanki.
(18) Shri Hari Nath Nath.
(19) Shri Sukumar Nandy.
(20) Shri Sudhir Kr. Kayal.

In view of the issue as framed, the Tribunal shall proceed on the assumption that the retrenchment of these 20 workers was *bona fide* and justified. The only question to be decided by the Tribunal in this case is what compensation these workers are entitled to get. Admittedly, they were retrenched with effect from 1st December 1955. The workers cannot claim compensation on the basis of the concept of social justice, apart from the statutory provisions made in section 25F of the Industrial Disputes Act, 1947. It has been clearly laid down that the rights and liabilities of employers and workmen, in so far as they relate to retrenchment, shall be determined in accordance with the provisions of Chapter VA of the Industrial Disputes Act, 1947. Section 25F as mentioned above is incorporated in that Chapter. The workmen retrenched shall get, according to section 25F of the Act, compensation equivalent to 15 days' average pay for every completed year of service or any part thereof in excess of 6 months. They are further entitled to get wages for one month in lieu of notice. In the present case, it is therefore necessary to determine the length of service of the workers concerned. The Company has produced a list showing the period of continuous service of these workers and also the amount paid to them as compensation. It is Ext. A. This list was not accepted by the Union, so far as the length of service of the workers was concerned. It was urged on behalf of the Union that the length of service of these workers as shown in Ext. A was incorrect and cannot be taken as the basis for calculating the amount of compensation. The grievance of the Union was that the length of service of these workers as shown therein was less than their actual service in the Company. In support of this, the Union produced and proved a copy of the letter addressed to the Labour Commissioner on 5th December 1955. It is Ext. 1. In this letter, the dates of appointment of these 20 workers and their period of service in that Company have been mentioned. O.P.W. 1 Shri Sarada Charan Palit, Accountant, who deposed on behalf of this Company was constrained to admit in his cross-examination that the dates of appointment of these 20 workers as shown in Ext. 1 were correct. But he wanted to say that as there were breaks in the services of these workers, the length of their continuous service was accordingly shown less in the list filed by the Company and marked Ext. A. P.W. 1 Shri Mrityunjoy Pal has no doubt said in his evidence that there might have been breaks in the service of these workers now and then due to their illness, but he has added at the same time that they were not informed by the Company at any time that for such absence there would be any break in their service. The Company has not produced anythnig to show that such occasional absence of the workers due to illness was likely to affect their continuity of service. In the circumstances, I am not prepared to hold that there were breaks in the service of these workmen. The length of their service as stated in Ext. 1 filed by the Union is accordingly accepted. The dates of appointment of these workers are also noted therein. As stated already, O.P.W. 1 Shri Sarada Charan Palit has admitted in his cross-examination that the dates of appointment as shown in Ext. 1 were correct. I, therefore, direct that compensation should be calculated on the basis of the length of service as stated in Ext. 1. These workers shall get compensation equivalent to 15 days' average pay for every completed year of service or any part thereof in excess of 6 months as shown in Ext. 1. They are further entitled to one month's wages in lieu of notice. But it appears from Ext. C (Salary Book) that these 20 workers have been paid one month's wages, that is, for the month of November 1955 in lieu of notice. So, the workers are not entitled to get anything more on this account. It further appears from Exts. D and E that the Company paid to these workers wages for the leave due to them but not availed of. Possibly, the workers can have no grievance in this respect. It is accordingly decided that these 20 workers shall get compensation equivalent to 15 days' average pay for every completed year of service or any part thereof in excess of 6 months, and that the length of their service in this respect shall be determined on the basis of Ext. 1. It appears from Exts. A and B that these workers have received compensation according to the length of service calculated by the Company as per Ext. A, but which has not been accepted as correct either by the Tribunal or by the Union. The payments already made to these workers in this respect, shall, however, be adjusted while making payment of compensation to them as awarded above. This is all the relief that this Tribunal can grant to these workers as retrenchment compensation with effect from 1st December 1955. The amount found due to these workers after such adjustment be paid to them within a fortnight from the date of publication of this award in the *Calcutta Gazette*.

This is my award in the present case.

ANNEXURE

In the matter of an industrial dispute existing between Messrs. Anna Art Press, Ltd., 25 Dr. Suresh Sarkar Road, Calcutta-14 and their workers represented by the Calcutta Press Employees' Congress, 12 Dedar Box Lane, Calcutta-16 (Case No. VIII-45/1956).

BEFORE THE SIXTH INDUSTRIAL TRIBUNAL, WEST BENGAL
NEW SECRETARIAT BUILDINGS, THIRD FLOOR, CALCUTTA

PRESENT:

SHRI SAILESH SENGUPTA, *Judge, Sixth Industrial Tribunal.*

Appearances.

For the Anna Art Press, Ltd.: Shri N. K. Mookerjee, Advocate.

For the Calcutta Press Employees' Congress: Shri N. R. Roy, Advocate.

This reference made by the Government of West Bengal, by order No. 857Dis./D/13L-3/1956, dated Calcutta, the 5th March 1956, relates to some of the service conditions applicable to the employees serving under Anna Art Press, Ltd.

The issues submitted for adjudication have been formulated in the following manner:—

(1) Minimum wages and scale of pay for different categories of workers.

(2) Casual leave.

(3) Puja bonus.

(4) Retiring benefit.

(5) Are the dismissals of the following workers justified? What relief are they entitled to?

(a) Jane Alam, (b) Md. Hossain and (c) Md. Sarif.

The Union made out the case in the written statement that the management was not amenable to reason. They did not pay heed to the just claim of the workers for pay and other amenities legitimately due to them. The disputes could not be settled by methods of conciliation and were ultimately referred to this Tribunal.

The company in contesting the demands made by the Union submitted that service conditions prevailing compare favourably with conditions prevailing in similar concerns in the neighbourhood. The business was started in 1947 and had to struggle against heavy odds. Losses were incurred year after year. Though at present the corner appears to have been turned, the business has not yet stabilised itself and cannot possibly bear the burden of fresh financial liabilities.

FINDINGS

Issue No. 1

The business came into being in 1947 as a partnership concern and in 1948 it was converted into a Private Limited Company. The balance-sheet for 1948 (Ext. B) records loss to the extent of Rs. 5,901-3-0. The balance-sheet of 1949 (Ext. B1) records loss to the extent of Rs. 16,543-5-6. In 1950, the losses amounted to Rs. 5,451-13-9, as per balance-sheet Ext. B(2). In 1951, the business incurred a loss of Rs. 662-12-0. For the time being the tide had turned thereafter, for, in 1952 the business earned a profit of Rs. 3,037-6-9 as will appear from the balance-sheet Ext. B(4). The profits rose higher in 1953 reaching the total of Rs. 8,411-7-9. It had a down grade movement in 1954 as the profits were confined to Rs. 1,345-2-0, *vide* Ext. B(6). In 1955, the company collected a profit of Rs. 6,067-14-6. The fortunes of the business are thus found fluctuating. There is a good deal of force in the argument advanced on behalf of the management that grades and scales of pay should not be fixed so long as the business does not get settled down on an even keel. The prosperity noticed in the last few years may be a mere flash in the pan and the pendulum may swing over to the other end. Unless the position of the business is firmly established and the prosperity becomes a permanent feature, the Tribunal cannot create conditions which will ring its death knell. This is not therefore the opportune moment for building up pay scales and grades for the employees.

An argument was advanced that this concern is part and parcel of another business conducted under the name and style of Daw Sen & Co. The profits earned by Daw Sen & Co. must therefore be taken into account in assessing the financial stability of the Anna Art Press Limited. From the evidence of the Manager we find that though the Boards of Directors are the same these are two entirely separate concerns and the Shareholders are also different. Separate balance-sheets are maintained for the two units. I am not satisfied that Daw Sen & Co. is a limb of the Anna Art Press Limited and hence the profits of that business cannot be drawn upon for the purpose of getting a true estimate of the finances of the business under reference. It would however be necessary to determine the minimum wages which should be paid having regard to present-day conditions. So far as this point is concerned the capacity of the industry to pay is of no consequence for it has been held that an industry which cannot pay the comparable minimum has no right to exist.

There was an Omnibus Award in 1948 in which the question of minimum wages was determined. One hundred and sixty-nine Printing Presses of Calcutta and Howrah were involved in the reference. In that award the basic wages for an unskilled workman of all categories was settled at Rs. 25. Dearness allowance was fixed at Rs. 22. On appeal dearness allowance was admittedly raised to Rs. 28. Another award was made in 1951 concering 69 Printing Presses. In that award the pay structure as framed by the 1948 award was maintained. Exhibit "E" is a statement prepared by O. P. W. 1 in which the starting salary, dearness allowance, etc., have been tabulated. It appears that the starting pay is not less than Rs. 25 for any category of workers. The concern is not therefore paying its employees less than what was fixed by the Omnibus Award of 1948. It is therefore awarded that the basic minimum wages will not be less than Rs. 25 for unskilled workers and dearness allowance will be payable at the rate of Rs. 28. The pay of other categories of workers also compares favourably with the pay scales as settled in the award. I do not therefore disturb the existing structure.

Dearness allowance for all categories will be at the flat rate of Rs. 28 per month. I cannot accede to the Union prayer that an ad-hoc increment at the rate of Rs. 10 should be granted.

Issue No. 2—Casual leave .

The Union demand is for 7 days' casual leave per year on full pay. The company has not provided for casual leave. It was urged that whereas in the Omnibus Award 10 days' festival holidays have been allowed, the Anna Art Press allows 16 days on this score. It is directed to grant 10 days holidays in a year on full pay excluding Sundays and casual leave for 7 days in a year (non-cumulative) on full pay. This will bring this Press into line with the other Presses on whom the Omnibus Award is binding.

Issue No. 3—Puja bonus

The demand on this head does not rest on firm ground. It is not the case of the Union that Puja bonus has been paid on any occasion by this concern. It is not a condition of service. The workers cannot therefore claim Puja bonus as of right. The lawyer for the Union pleaded for a concessional grant of Puja bonus but that lies entirely within the discretion of the employer and no direction by the Tribunal can be given.

Issue No. 4—Retiring benefit

The Union pressed for a gratuity scheme in addition to the Provident Fund started by the company in August 1956. The claim is for the uncovered period. The lawyer for the management contended that a scheme of provident fund having been brought into operation further burden should not be cast upon the concern having regard to its uncertain future. Provident Fund might have been started earlier as the Employees' Provident Fund Act came into operation much earlier. The employees should not lose the benefits of the service rendered by them prior to the inauguration of the Provident Fund Scheme. For the period from the beginning of 1951, till the starting of the Provident Fund, the employees who have put in more than 5 years' continuous service will receive 15 days basic wages for each completed year of service by way of gratuity.

Issue No. 5

Jane Alam, Md. Hossain and Mr. Sarif are three out of six employees who have been thrown out of employment. The Union has taken up the cudgels on their behalf. The company's reply is that they were probationers whose services were liable to be terminated at the option of the authorities before confirmation. On the evidence it appears that these people worked for less than a year. Their services were dispensed with, according to the evidence of the Manager, as the work of the Press had to be re-organised. The Union does not challenge the statement made in the company's written statement that Jane Alam was appointed on 20th June 1955, as a probationer and was discharged on 6th August 1955, Md. Hossain was appointed on 5th January 1955 and was discharged on 6th August 1955, Md. Sarif was appointed on 2nd March 1955 and was discharged on 6th August 1955. It does not appear that the discharge of these workers was *mala fide* or due to any animus. The testimony of the Manager must be accepted that they were probationers whose services were dispensed with because the concern, on reorganisation, did not require them. P. W. 3 admitted that at that time the volume of work had shrunk. The Union did not make out any case that men junior to these three workers were kept on while their services were terminated. As the action of the management was *bona fide* and there were reasonable grounds for cutting down the establishment, I must hold that the discharge of these workmen was not unjustified. They have been paid their full dues and are not entitled to anything more.

DECISION

The facts leading to the reference which are not disputed are as follows:—

Chingreehatta Bone Mill, Ltd. (hereafter called the Company), has its factory in Belliaghata while its Head Office is located at 4 Clive Ghat Street, Calcutta. There are two other concerns S. C. Sons, Ltd., as also India Cycle, Ltd., under the same management. The Head Office of these concerns are also located at 4 Clive Ghat Street. In the premises of the factory of the company, India Cycle, Ltd., has its workshop and S. C. Sons, Ltd., has its godown.

At the relevant time the company employed about 200 workmen in its factory. In December 1951 Chingreehatta Bone Mill Workers' Union (hereafter called the Union) had been formed when most of the workmen of the factory became its members. Thereafter in July 1953 Chingreehatta Bone Mill Mazdoor Union (hereafter called Mazdoor Union) was formed when most of the workmen of the factory transferred their allegiance from the Workers' Union to the same.

Workman Sultan Ahmed (serial No. 77 of the reference) became Secretary of the Majdoor Union since its establishment while Shri Dhirendra Nath Datta (serial No. 178) who admittedly joined service of S. C. Sons, Ltd., and who was admittedly working in the godown of S. C. Sons, Ltd., situated in the premises of the factory of the company became Treasurer of the Majdoor Union since its establishment. Shri S. C. Gupta who is and was Director of Chingreehatta Bone Mill, Ltd., was Director of both S. C. Sons, Ltd., and India Cycle, Ltd.

After Majdoor Union had been formed, two agreements were entered into between Majdoor Union and the management of the Company relating to the amenities of the workmen employed in its factory. Before the second agreement the Mazdoor Union placed a charter of demands, on 18th June 1954. This was followed by conciliation proceedings. In course of the conciliation there was a tripartite settlement on 1st September 1954 as in Appendix A, to the written statement of the Majdoor Union. According to the Majdoor Union terms of settlement as contained in items 1 and 2 were forthwith implemented by the management. Regarding items 3 and 4 the Majdoor Union alleged that the management did not implement them according to the settlement and as a result controversy arose about implementation of the terms of items 3 and 4 in December 1954. From January to March 1955 correspondences passed between Majdoor Union and the management over this. In this state in March 1955 the management proposed that it could not run the factory without retrenching some workmen. The Majdoor Union reacted forthwith and opposed such proposal of retrenchment.

On 5th April 1955 the Company issued charge-sheet (as in specimen in Appendix "D" of the written statement of Mazdoor Union) to 40 workmen (as in Appendix "C" of the written statement of the Mazdoor Union) for having interfered with business of the company by preventing export of products of the Mill on that day. The charge-sheets were served before the closure of the factory and the workmen were suspended with immediate effect. Out of those 40 workmen who were charge-sheeted, 7 workmen were on leave, and this was also recorded in the Register of the company. On 6th April 1955 the charge-sheeted workmen submitted their explanation, denying the occurrence as also having participated in it. Those who were on leave also so stated in the explanation. The President of the Mazdoor Union also wrote to the company on that day (6th April 1955) protesting against the company's action [Ext. 8(c)]. On 14th April 1955 the company dismissed 33 workmen with effect from 5th April 1955 and let off seven workmen who had been on leave. According to the company the said workmen were let off under the notion that the company could not legally punish them when they had been on leave. Appendix G1 to the written statement of Mazdoor Union gives the names of the 33 workmen who were dismissed for misconduct with effect from 5th April 1955.

Sultan Ahmed (serial No. 177) was also given charge-sheet separately on 5th April 1955 for the same occurrence (Ext. 4). On 6th April 1955 he submitted explanation [Ext. 4(a)]. He denied having participated in the occurrence. On 14th May 1955 the company issued a letter dismissing him from service with effect from 5th April 1955 (Ext. 5).

On 11th April 1955 Dhirendra Nath Dutta (serial No. 178) was, on the other hand, given charge-sheet on a different charge, [Ext. 1(a)] and was directed to submit explanation forthwith. On 14th April 1955 a letter was issued on the printed form of S. C. Sons, Ltd., dismissing him from 11th April 1955 under the signature of Shri S. C. Gupta, Director, Chingreehatta Bone Mill, Ltd. (Ext. 1).

The company declared lock-out of its factory from 7th April 1955 under a notice, dated 6th April 1955. Appendix H to the written statement of Mazdoor Union is the said notice which runs as follows:—

> "In view of the incidents that happened on 5th April 1955 when rowdy obstruction was created at the time of export of bone products by lorry and again on 6th April 1955 when suspended workers forcibly entered the Mill premises and also due to the stay-in-strike during the working hours, the management most reluctantly has to declare a lock-out of the Mill from the 7th April 1955 until further notice."

The Mazdoor Union challenged the contents of the notice on 7th April 1955 [Ext. 8(d)] and moved the Labour Commissioner for intervention. As a result conciliation proceedings followed.

During conciliation proceedings workers' union intervened and intimated that its members were ready to work. On 24th April 1955 the management issued notice (Ext. 2) withdrawing the lock-out from 2nd May 1955. By the said notice all the employees, excepting those who had been dismissed, were required to report at the Mill by 7 a.m. on 2nd May 1955. By the said notice (Ext. 2), it was further directed that any worker who failed to rejoin on 2nd May 1955 would not be allowed to work unless he satisfied the management of his inability to join duty on that date and that in no case a worker would be admitted to rejoin later than 4th May 1955.

As per notice the factory was re-opened on 2nd May 1955. Some 20 to 25 workmen belonging to workers' union only joined work. Remaining workmen numbering 143 out of 178 who belonged to the Majdoor Union did not join work. Their demand was that unless the dismissed workmen were re-instated and allowed to work they would not work. Consequently on 4th May 1955 when the management found that these workmen did not join even then as per notice, it discharged the remaining 143 workmen out of 178 from 5th May 1955 by notice Ext. 3. Hence the dispute.

Firstly regarding 33 workmen who have been dismissed with effect from 5th April 1955 as mentioned in Appendix G(1) to the written statement of the Majdoor Union, it has already been noted that these workmen along with 7 others in all 40 were given charge-sheet on 5th April 1955. It is common case at the hearing that out of 40 workmen who were charge-sheeted, 7 workmen as per record of the company were on leave on 5th April 1955. Those 7 workmen who were on leave and who were eventually let off according to the company's case on the notion that it could not legally proceed against them as they had been on leave, it appears, were Narayan, Ratan, Baboolal, Muneswar, Ram, Mongal, Dukhia and Jasman [*vide* Ext. 8(c)]. The charge against the 33 dismissed workmen was that they obstructed transport of bags containing crushed bones by lorry for the purpose of export. The concerned workmen in their explanation denied the occurrence as also having participated in it. Regarding the occurrence the company has examined the lorry driver D.W. 2 Md. Habib, the Sardar D.W. 3 Chhabu Sardar, the Supervisor D.W. 4 Dhananjoy Chandra, Mechanical Supervisor D. W. 5 Upananda Saha, besides filing the Police Diary (Ext. A). The Majdoor Union, on the other hand, has examined its Secretary P.W. 2 Sultan Ahmed and coolies P.W. 3 Jagdish Bhuiya, P.W. 4 Dudhmoni Dasi, P.W. 5 Ram Sundar and P.W. 6 Ganga.

On giving careful consideration to the evidence and circumstances I have no doubt that the occurrence as alleged by the company did take place in the early part of the day on 5th April 1955. The company's witnesses deposed that the workmen obstructed loading of the bags into the lorry for the export. None of the witnesses examined by the Majdoor Union could categorically deny the occurrence having taken place. They only said that they were working inside the mill and that none of those who were working inside went outside and obstructed loading. In the explanations which the workmen submitted they did not also categorically deny the occurrence. There have been, of course, discrepancies in the evidence given by company's witnesses but these were unavoidable as the situation was tense when it was not possible to notice the details and as further the occurrence took place long ago. The fact that 7 out of 40 charge-sheeted workmen were on leave on that day as per record of the company would not necessarily belie the occurrence. It is not impossible that a workman although on leave, could come and take part in the occurrence as alleged by the company. I do not believe that the company could have invented the occurrence and given charge-sheet to such a large number of workmen so soon after without basis. The company's version of the motive as suggested during hearing that the workmen obstructed loading in order to force the Director of the company Shri S. C. Gupta to come down to the factory so that they could secure from him by surrounding him cancellation of the order of transfer of Shri Dhirendra Nath Dutt from the factory to the Head Office may not be true. But the evidence shows that Shri S. C. Gupta, who used to visit the factory daily ceased to do so for some days before the occurrence having been surrounded by the workmen to agree to their demands. It is, therefore, not unlikely that when dispute was going on over the question of implementation of items 3 and 4 of the settlement, dated 1st September 1954, the workmen resorted to the occurrence in order to bring down into the factory the Director Shri S. C. Gupta in order to compel him to accept their demands by surrounding him as in the past. Be that as it may, on the evidence and circumstances, there can be no doubt that the occurrence as alleged by the company did take place.

Now, as to complicity, it is the positive case of the company, that all the 33 dismissed workmen obstructed loading of the bags into the lorry for the purpose of export on 5th April 1955. These 33 comprise both male and female workmen. The witnesses examined by the company also stated that both male and female workmen obstructed such loading. Though their names were not given individually, one by one D.W. 5 categorically stated that all the 33 dismissed workmen besides Sultan Ahmed participated in the occurrence and out of them Muneswar, Jagdish and Bal Kisson were present in the tribunal. As against this none of the 33 dismissed workmen, not even those who were present in the tribunal except P.W. 3 Jagdish deposed before this tribunal denying having participated in the occurrence. Jagdish Bhuiya who alone so deposed, out of the 33 claimed that he had been on leave on 5th April 1955 and consequently had not participated in the occurrence. But it has already been seen that according to the common case of the parties, only 7 out of 40 charge-sheeted workmen were on leave on 5th April 1955. The names of those 7 persons have already been stated. Jagdish Bhuiya is not one of them. Besides the attendance register of the company produced before this Tribunal shows that Jagdish Bhuiya was present on that date. No motive whatever was suggested or proved why false charge against any of these 33 dismissed workmen was brought. In the circumstances, I accept company's version that all the 33 workmen as mentioned in Appendix G(1) obstructed loading of the bags in the lorry for export. It is accordingly held that they were rightly dismissed.

Regarding workman Sultan Ahmed (serial No. 177 of the reference), he has been the Secretary of the Majdoor Union since it was established. As he was a Cooly Supervisor as distinguished from the Charge-sheeted 40 workmen who were coolies, he (Sultan Ahmed) was admittedly given separate charge-sheet for the same occurrence on 5th April 1955. The charge-sheet against him is Ext. 4. He submitted explanation to the same on 6th April 1955 [Ext. 4(a)]. He denied having participated in the occurrence. The company, on the other hand, adduced evidence to the effect that the workmen under his leadership obstructed loading of the bags on 5th April 1955. After communication of the order of dismissal as per company's letter, dated 14th April 1955 (Ext. 5), Sultan Ahmed submitted a representation to the Director on 20th April 1955 [Ext. 5(a)]. In that representation he did not state anything new. It was merely stated that he was not related to any job of export and was in his usual job inside the factory on 5th April 1955. The company by its letter dated 21st April 1955 intimated him that its decision could not be altered [Ext. 5(b)].

Giving careful consideration to the evidence and circumstances, I rather accept the evidence on the side of the company that obstruction to the loading was caused under the leadership of Sultan Ahmed as being more probable and natural. It is accordingly held that he was rightly dismissed.

Regarding Shri Dhirendra Nath Dutt (serial No. 178) it has already been noted that he admittedly joined service of S. C. Sons Ltd. and was admittedly working as a Store-Keeper in the godown of S. C. Sons, Ltd., situated in the premises of the factory of the company (Chingreehatta Bone Mill, Ltd.). Shri Dhirendra Nath Dutt (P.W. 1) admitted in his deposition before this tribunal that in all correspondences he was described as an employee of S. C. Sons, Ltd. and that he was all along borne as an employee in the muster-roll of S. C. Sons, Ltd. and that he had received his salary from S. C. Sons, Ltd., throughout his career till dismissal with effect from 11th April 1955. The charge-sheet [Ext. 1(a)] against him as a result of which he was dismissed, was issued by Shri S. C. Gupta describing himself as Director of S. C. Sons, Ltd., on the printed letter form of S. C. Sons, Ltd. [*vide* Ext. 1 (a)]. The letter of dismissal was also issued on the printed letter form of S. C. Sons, Ltd., describing him as clerk of S. C. Sons, Ltd. In the said letter, Shri S. C. Gupta, Director, who signed the order was described as Director of Chingreehatta Bone Mill, Ltd., which was apparently a mistake. The said description cannot convert Dhirendra Nath Dutta into an employee of Chingreehatta Bone Mill Ltd. nor can the fact that Shri Dhirendra Nath Dutta was employed to do distribution of rations to the employees of the factory of Chingreehatta Bone Mill Ltd. outside office hours after 4 p.m. As Shri Dhirendra Nath Dutta, according to his own showing, had all along been an employee of S. C. Sons, Ltd. and was paid from that company, it is obvious he can have no claim against Chingreehatta Bone Mill Ltd. For his dismissal the remedy, if any, has to be sought against S. C. Sons Ltd. which dismissed him and not against the present company Chingreehatta Bone Mill Ltd. In this view of the matter I find that the reference is not maintainable so far he is concerned.

Again the remaining workmen numbering 143 who were discharged from 5th May 1955 as they did not join duty by 4th May 1955, the company admittedly did not follow the principles of natural justice before such discharge. No person under the ordinary concept of natural justice can be discharged without being properly charge-sheeted and given an opportunity of explaining his conduct. As such, it is obvious, that discharge of these persons in contravention of the principles of natural justice cannot be upheld. No doubt these workmen themselves did not join on the re-opening of the factory on a demand that unless the dismissed workmen were taken back and were allowed to work they would not join but none the less this would be no sufficient excuse on the part of the employer to discharge them summarily. In this view of the matter, I find that termination of their employment was not justified. It, therefore, follows that they are entitled to be reinstated. Having, however, regard to the fact that these workmen did not themselves join work in spite of notice. I think it will not be fair to award them back wages. The financial position of the company is, of course, unsatisfactory but this cannot be a ground for refusing reinstatement which is the normal relief. Their period of absence from 5th May 1955 till reinstatement should be treated in the circumstances as leave without pay. The Company is directed to reinstate the aforesaid 143 workmen on their reporting for duty within a month from the date the award becomes enforceable.

It is awarded accordingly.

ANNEXURE

In the matter of an industrial dispute between Messrs. Central Dooars Tea Estate, post office Panabasti, Jalpaiguri and their employee, Shri Samiran Kumar Sarkar, represented by Tea Garden Indian Employees' Association, Dima Tea Estate, post office Kalchini, Jalpaiguri.

BEFORE THE SECOND INDUSTRIAL TRIBUNAL, WEST BENGAL

PRESENT:

SHRI G. P. MUKHERJEE, *Judge, Second Industrial Tribunal.*

Appearances.

For the employee: Shri J. N. Mitra, President, Tea Garden Indian Employees' Association.

For the Company: Shri S. C. Sen, Advocate.

The present reference made by the Government of West Bengal, Labour Department, by its order No. 3441Dis./D/9L-75/54, dated 6th August 1956, relates to the dismissal of Shri Samiran Kumar Sarkar, an employee of Messrs. Central Dooars Tea Estate, by that Company.

The issue formulated for adjudication in the schedule to the order of reference stands as follows:—

Whether the dismissal of Shri Samiran Kumar Sarkar was justified? To what relief is he entitled?

AWARD

Shri Samiran Kumar Sarkar was an employee of Central Dooars (Rangamati) Tea Estate, which is under the Managing Agency of Messrs. Jardine Henderson, Ltd. He was appointed on 21st June 1948. He was deputed to work as Ration Clerk in said Tea Estate in October 1953 and was working in that capacity till he was charge-sheeted on 10th February 1954. In January 1954 he was suspended of restoring to malpractice. It was detected by the Company, when Ration Store Books, etc., were examined in detail. In course of examination, it was found that Shri Sarkar had mis-appropriated a sum of Rs. 78-2-3 pies during the weeks ending 16th January 1954 and 23rd January 1954. The method adopted by him to mis-appropriate the amount mentioned above was to take money from the workers, who came to take rations at a concessional rate and then to issue slip for the issue of ration in the normal way, which meant that the rations were duly issued from the godown and to show the various amounts in the Ration Entitlement Book as not having received. This indicated that the issue of rations against these payments were not shown as being made, thus making the actual stock of rations in the godown less than that shown in the Stock Book. On 10th February 1954, Shri Samiran Kumar Sarkar was served with a charge-sheet for not showing intentionally the cash received by him from the workers and for intentionally showing the rations as not having been drawn by the workers, with a view to mis-appropriate the amount of Rs. 78-2-3 pies, which was a gross misconduct under the certified standing orders of the Company. Shri Sarkar duly received the charge-sheet and sent a reply thereto on the following day, that is on 11th February 1954. On receipt of this reply, a departmental enquiry was held by the Management on 13th February 1954 in presence of Shri Sarkar, who was given a personal hearing and a further opportunity to explain his conduct. The Management after full enquiry came to the conclusion that his reply was unsatisfactory and unconvincing. The Management found him guilty, and therefore dismissed him from service for gross misconduct with effect from 1st March 1954. Shri Sarkar requested the Management to revise its decision, but it was turned down. Conciliation proceedings followed, but they were of no avail. At long last, the matter was referred to the Tribunal for adjudication.

The Union, which took up the cause of Shri Samiran Kumar Sarkar, has stigmatised his dismissal as wrongful and illegal. Accordingly, his reinstatement with back wages for the period of his unemployment has been claimed.

Central Dooars (Rangamati) Tea Estate (hereinafter to be called as Company) has denied in its written statement most of the allegations made by the Union in its written statement, and contends that the services of Shri Samiran Kumar Sarkar were terminated, as he was found guilty for having misappropriated a sum of Rs. 78-2-3 pies. The Company further asserted that it dismissed Shri Sarkar after fully going into his case and giving him full opportunity to explain his conduct, which he failed to do to the satisfaction of the Management. The Company obviously could not retain an employee, who was found guilty of criminal misappropriation. Hence, his dismissal was quite justified, and he is not entitled to any relief.

At the relevant time, Shri Samiran Kumar Sarkar was admittedly serving as a Ration Clerk in this Company. It is also an admitted fact that he distributed ration slips to the workers for the weeks ending 16th January 1954 and 23rd January 1954. Shri Sarkar has further admitted in his cross-examination that before distribution of ration, he used to note down in the Ration Issuing Book what rations the workers were entitled to get, and that he also prepared ration slips corresponding to the entries made in that Book. It has come out from his evidence how he used to prepare ration slips. He has said that when a worker came for ration, he enquired of him whether he was willing to take the entire amount of ration, to which he was entitled as shown in the Ration Issuing Book, and that on getting reply from the worker, he collected money from him, signed the ration slip and then handed over the same to the worker concerned, and after this he made tick in the Ration Issuing Book against the name and quantities of rations of the worker concerned. He also stated that when a worker did not take any ration, the ration slips remained with him, and he did neither make corresponding entries in the Ration Issuing Register against his name, nor did he sign the ration slip. The Company has produced relevant ration slips issued and signed by Shri Sarkar after collecting money from the workers concerned. They are Exts. B-series. Shri Sarkar, when confronted with these ration slips, had to admit that he wrote the portions of those slips which are written in ink. But the initials which were written in pencil were denied by him, though he was constrained to admit at the same time that those initials looked like those of his. From the evidence of O.P.W. 1 Shri S. Gopalan, it has been satisfactorily proved that the initials appearing in Exts. B-series are the initials of Shri Sarkar. In the face of this positive testimony of O.P.W. 1, Shri S. Gopalan, and also in view of the admission of Shri Sarkar that the initials appearing in Exts. B-series looked like those of his, it can be safely held that the initials as appearing in Exts. B-series are the initials of Shri Sarkar. Therefore, it is proved beyond any doubt that Shri Sarkar prepared those slips (Exts. B-series), put his initials thereon, and collected money from the workers concerned regarding these slips. But it appears from the corresponding entries of the Ration Issuing Books which were admittedly made by Shri Sarkar, that the amounts thus collected by him were not shown in the Ration Issuing Book. This meant that the issue of rations against those payments were not shown as being made, thus making the actual stock of rations in the godown less than what was shown in the Stock Book. Shri Sarkar has admitted in his cross-examination that the entries in the Ration Issuing Book for the weeks ending 16th January 1954 and 23rd January 1954 regarding quantity of ration to be issued to workers, are in his own handwriting. He has also admitted that the unsold quantities as shown in that Register for the weeks ending mentioned above are also in his handwriting. He has furthermore admitted that the unsold quantities were subsequently entered in the Ration Issuing Register by him so he cannot escape his liability in any view. It has transpired from the evidence that when the Management came to know that there were discrepancies in the issue of rations for the weeks ending 16th January 1954 and 23rd January 1954 in the evening of 23rd January 1954, a check of the stock of ration was directed by the Management and that Shri S. Gopalan, O.P.W. 1, checked the books and in course of checking, he found that the money, which was collected by Shri Sarkar in respect of ration slips marked Exts. B-series, was not deposited. Exhibit G is the written report of Shri Gopalan. He reported on an examination of the register that a certain amount of ration which was sold, was actually shown as "unsold" in the Ration Issuing Book, and the entire amount of the same was not deposited. The matter being reported to the Management, Shri Sarkar was charge-sheeted. Exhibit C is the copy of the charge-sheet that was served on him, and it is dated 10th February 1954. Shri Sarkar was charged for having intentionally failed to show the cash received by him from the workers in respect of ration slips (Ext. B-series) for the weeks ending 16th January 1954 and 23rd January 1954, as a result of which a total amount of Rs. 78-2-3 pies was less paid into the cash. As this amounted to misconduct, because it was misappropriation of the said amount, Shri Sarkar was asked to show cause as to why he should not be dismissed from the service of the Company, and he was suspended forthwith pending further enquiry. Exhibit D is the reply to that charge-sheet. In this reply, Shri Sarkar stated that he could not account for these discrepancies of money, but admitted that there might have been mistakes on his part through pressure of work. An enquiry was held in respect of the charge levelled against him on 13th February 1954. Exhibit E is the enquiry proceedings. It appears therefrom that the said enquiry was held in presence of Shri Sarkar. Several questions were put to him, to which he replied. Shri Sarkar also put his signature in the enquiry proceeding—acknowledging that it was a correct recording of his statement. The Management after enquiry being statisfied that Shri Sarkar was guilty of the charges levelled against him dismissed him from service with effect from 1st March 1954. On a careful consideration and searching scrutiny of the materials placed before the Tribunal, I am satisfied that the decision of the Management in dismissing Shri Samiran Kumar Sarkar from their service was just and proper. There was sufficient evidence to support this finding, and the decision of the Management was a possible view on the materials before it. That being so, the Tribunal should refrain from substituting its own judgment for the judgment of the Management, as in such matters the Tribunal does not act like a Court of Appeal, but rather as a Supervisory Body. In the present case, it cannot be said at any rate that there was violation of the principles of natural justice. Nor was there any basic error of facts or any perverse finding on the materials regarding the action taken by the Management. I am not prepared to hold that there was want of *bona fides* on the part of the Management in terminating the services of Shri Sarkar. Necessary evidence has also been placed before the Tribunal. The evidence, if carefully gone into, clearly points to the direction that Shri Samiran Kumar Sarker deliberately misappropriated the sum of Rs. 78-2-3 pies by not depositing the same into the cash, although he actually collected that money from the workers concerned while issuing ration slips (Ext. B-series) to them for the weeks ending 16th January 1954 and 23rd January 1954. There can be no room for doubt that he was responsible for his failure to account for that sum, and he tried to escape his liabilities by falsely pleading that the rations valued at that sum, were not sold at all. What Shri Sarkar did, clearly amounted to misconduct punishable with dismissal from service according to the standing orders of the Company. No Company can afford to keep such a dishonest employee in its service. The Tribunal, therefore, comes to the conclusion that the dismissal of Shri Samiran Kumar Sarkar was *bona fide* and justified and that he is entitled to no relief. On a consideration of the evidence, the Tribunal is of the view that what Shri Sarkar did, was not a *bona fide* mistake under the pressure of work as alleged. The issue is decided accordingly.

A grievance was made on behalf of the employee that he was deputed to work as a Ration Clerk against his will, and that he protested when he was being selected for that post. It was accordingly argued by the learned spokesman on behalf of the Union that he was particularly selected for that post, so that the Management could find loopholes in his work, and thereby chuck him out for giving appointment to a South Indian. I must say that I was not impressed by this argument. The right of selection or deputation of an employee is always with the Management, and there is no conceivable reason why the Management should invariably consult the employee concerned, whenever the question of his being appointed to some other post in that concern will arise. The employees have no right in law or equity to compel any employer to act according to their choice or convenience in the matter. Such deputation or transfer of an employee is purely a Management function,, and it is quite open to the Management to transfer or depute a clerk from one department to another in the exigency of circumstances.

This is my award.

In every such case the dates on which examination and sterilisation are carried out shall be recorded:

Provided that this requirement shall not apply to any such well or reservoir if the water therein is filtered and treated before it is supplied for consumption.

13. **Report from the Health Officer.**—The inspector may, by order in writing, direct the employer to obtain, at such time or at such intervals as he may deem fit, a report from the nearest laboratory to be specified by the inspector about the fitness for human consumption of the water supplied to workers and decision shall be taken on the opinion of the health officer or the certifying surgeon, if the former is not available. In every such case the employer shall submit to the inspector a copy of such report as soon as it is received.

DECISION

By order No. 2437Dis./D/13L-3/54 made on the 13th of May 1954 industrial disputes between Messrs. A. T. Dev, Ltd., hereinafter called the Company and their workmen were referred to the Sixth Industrial Tribunal for adjudication.

In the order of reference the disputes between the parties were stated to be as under:—

(1) Whether the contention of the B.P.M.'s Press (A. T. Dev, Ltd.) that they have no piece-rate system in their establishment is correct?

(2) To what extent the existing system or systems other than the monthly wage system should be replaced by the monthly wage system?

(3) What principle should be followed in determining a portion of the total earnings of the workers who are not paid on the monthly wage system as basic wages in fitting them into the appropriate grades under the monthly wage system as per the 1948 Press Industry Award?

Finding that the question of the abolition of the piece-rate system was settled in the previous reference, the Tribunal has held that there cannot be a second reference on the same issue. In the award under appeal the Tribunal has found that the contention of the Company that there was no piece-rate system in their establishment was not correct and that the point covered by issue No. 2 was set at rest by the award of 1948 which was adopted by the Fourth Industrial Tribunal in the Award made on the 5th January 1953.

In these proceedings the Company objects to the correctness of the award on Issue No. 3.

Issue No. 3 involves the points specified hereunder:—

(1) that there are workmen in the B.P.M.'s Press who are not paid on the monthly wage system;

(2) that the workmen not paid on the monthly wage system should be fitted into the appropriate grades under the monthly wage system as per the Press Industry Award of 1948; and

(3) that principles have to be evolved for determining the basic wages of the workmen not paid on the monthly wage system.

That there are workmen who are not paid their basic wages on the monthly rate system admits of no dispute. Indeed, it is admitted that Compositors working in the press are piece-rated workers.

Shri Haradhone Samanta, P.W. 1, Section Holder, gave evidence that he was paid on daily basis. In these proceedings there is no dispute that the workmen who are not paid basic wages on the monthly rate system should be fitted into the appropriate grades under the monthly wage system as per the Press Industry Award of 1948. In the award of 1948, the Tribunal found:—

> "It is accepted that ordinarily all workers in the printing presses will be employed on the basis of monthly wages. There exists, however, in the printing industry certain work, e.g., envelope-making and other classes of stationery manufacture and book-binding, which are usually done under the piece-system. Therefore the piece system in this limited sphere may continue in the industry.
>
> It is agreed that piece system does not include work on contract basis."

In the Press Award made on the 1st of March 1951 it was decided that the workmen who are not paid basic wages on the monthly rate system should be fitted into the appropriate grades under the monthly wage system as per the Press Industry Award of 1948. In these circumstances the point that remains for decision is the determination of the principles to be followed in fixing the basic wages of workmen not paid on the monthly rate system. In Annexure A to the Press Industry Award of 1948 the basic minimum pay of skilled compositors was stated to be Rs. 55 while the maximum basic pay of skilled compositors was stated to be Rs. 120. In the footnote the expression "skilled compositor" was defined to mean a person competent to handle all classes of job and book work independently.

In the Industrial Tribunal Shri Benu Gopal Chakraborty, O.P.W. 1, gave evidence—

> "These compositors are known as junior compositors. The scale of monthly pay of junior compositors in other presses is Rs. 35 to Rs. 55 plus dearness allowance Rs. 28."

Shri Benu Gopal Chakraborty gave evidence that inasmuch as no job work was done in the press the compositors were junior compositors.

In the opening lines of the cross-examination, Shri Benu Gopal Chakraborty stated—

> "I cannot say in which press these vouchers, Exts. G and G(1), were printed. I cannot say where the letter heads on which Exts. A, A(1) and A(2) appear were printed."

Shri Benu Gopal Chakraborty then stated—

> "I know the difference of job work and book work. Printing of letter heads is job work, so also printing of vouchers."

No other evidence was examined by the Company.

In the books of the Company there is no description of any compositor as junior or senior compositor.

Shri Haradhan Samanta, P.W. 1, Shri Sudhir Ranjan Dutta, P.W. 2, Shri Ajit Kumar Mitra, P.W. 3 and Shri Phanindra Nath Raha, P.W. 4, gave evidence for the Union. On the record there is ample evidence that the Compositors who are parties to these proceedings are competent to handle all classes of job and book work independently.

From the definition of the expression "skilled compositor" it is plain that a person competent to handle all classes of job and book work independently satisfies the requirements of that definition.

Shri Benu Gopal Chakraborty, O.P.W. 1, gave evidence:—

> "The earnings of 12 months divided by 12 less Rs. 22 which was dearness allowance settled by the award would be monthly wages.
>
> * * * * * *
>
> Dearness allowance is being paid to the workers at the rate of Rs. 22 even from before the award."

In our opinion the total emoluments of piece-rate workers included dearness allowance.

After the publication of the Press Award of 1948 the piece-raters did at no stage claim dearness allowance in addition to the emoluments issued to them. In the award of 1951 it was expressly stated that the dearness allowance was included in the emoluments.

On the record it is plain that the compositors were in receipt of Rs. 120 to Rs. 130 when the previous award was given, wherein it was provided that the existing emoluments of workmen will not be prejudicially affected.

In these circumstances, we see no objection to the pay scale of the compositors and the Section Holders fixed by the Tribunal.

In the award under appeal the Tribunal has fixed the basic pay and the dearness allowance.

That being the position of matters, we fix the basic wages of the compositors at Rs. 98 per month in the scale of Rs. 55—5/2—95—E.B.—7/2—120. In addition to the basic pay the compositors will be paid dearness allowance at the rate of Rs. 28 per mensem.

In the case of the Section Holders we see no justification to interfere with the award.

In the concluding portion of the award the Industrial Tribunal gave option to piece-raters to make election in writing whether they want changeover from piece-rate system to monthly rate system. That option is not touched by this decision.

In the result, the appeal is allowed to the extent indicated above leaving the parties to bear their own costs.

DECISION

This appeal has been preferred on behalf of one Shri S. Balakrishna, an ex-employee of Messrs. Merz & McLellan (India), Calcutta, against an award of the Seventh Industrial Tribunal, West Bengal, dated 21st May 1956. Shri Balakrishna raised an industrial dispute regarding the termination of his services by the Company and this dispute was referred by the State Government of West Bengal to the Seventh Industrial Tribunal.

The learned Tribunal refused to entertain the reference holding on the evidence that Shri S. Balakrishna was not a workman within the definition of section 2(s) of the Industrial Disputes Act and that as such, he could not raise any industrial dispute for any valid reference within the purview of the Industrial Disputes Act. Feeling aggrieved by this decision, the present appeal has been filed.

The only point which arises for our determination is whether Shri Balakrishna was a workman within the definition of section 2(s) of the Industrial Disputes Act—

> "On an anxious consideration of all the facts and circumstances of the case, the Tribunal comes to the conclusion, not without some doubts and hesitation, that Shri Balakrishna was not a 'workman' within the meaning of section 2(s) of the Industrial Disputes Act, though, truly speaking, he may not be a non-worker of the second category referred to in the case of Phaltan Sugar Works, Ltd. (1954 L.A.C., 783). Accordingly, the Tribunal has no jurisdiction to try this case or enquire into Shri Balakrishna's grievances or grant suitable relief for which he may, if so advised, approach the appropriate Government."

We see no reason to disagree with the learned Tribunal's conclusion that Shri Balakrishna was not a workman within the meaning of section 2(s) of the Industrial Disputes Act. But we cannot approve of the expression "not without some doubts and hesitation" used by the learned Tribunal in its final observation quoted above. In our judgment, the facts and circumstances as disclosed in evidence, oral and documentary do not leave any room for doubt and hesitation.

It is admitted by Shri Balakrishna that he was appointed as the Senior Scale Engineer under the Company with effect from 1st November 1947 on a basic monthly salary of Rs. 850 plus dearness allowance varying from time to time and other allowances. His services were terminated with effect from 30th September 1955, that is to say, after eight years of continued service. During these years, Shri Balakrishna was at Madras for a period of 17 months and at Delhi for one month. At Delhi he was a Resident Engineer and at Madras, he was in charge of a very important Engineering construction in connection with Konar Dam work and Basin Range work. It is admitted that while at Madras and Delhi, Shri Balakrishna was engaged in a superior type of work which cannot be said to be clerical in nature but it is contended that the type of work Shri Balakrishna was to perform in Calcutta was of a routine nature involving a lot of clerical work. But it is contended that even while in Calcutta, Shri Balakrishna had to look after the technical work at Madras and Delhi. And apart from that it is clear from the documents on record that the duties performed by Shri Balakrishna were much more than mechanical and routine duties involving clerical work. His duties require technical knowledge, initiative and independent judgment.

We may quote the following passage from his deposition in cross-examination:—

> "I was posted to Delhi only for one month. After the period of 17 months' stay in Madras I have been in Calcutta for the last six years of my service. From Calcutta I used to visit the Basin Range work in Madras accompanying the Principal Engineer. I prepared the drafts of the Estimates (Ext. K). For Capital and Budget estimates, I would be called upon to visit the sites with the principal engineers in about one out of two cases. I had to assist the Contract Department. I drafted this letter signed by Mr. Clerk, the Principal Engineer (Ext. L) in connection with the letter I had merely assisted Mr. Singh, as the Senior Engineer (Ext. LI), I checked this arithmetically but on the strength of that payment would not be made to the Clients (Ext. M)......................................I could draw on the services of the pool of Stenographers..
>
> ....
>
> I used to help in the preparation of tender documents and also adjudication, but my decision was not the final thing. I used to assist in the preparation of contract documents, draft instruction letters for the principal engineers to sign, meant for the Clients. Independently I did not hold consultations with the Clients. Once or twice in the absence of the principal engineers I held consultations with clients on the strict instructions of the principal engineers issued beforehand. I witnessed the final test on behalf of the Company simply because anybody could take down the readings. I used to inspect plants for defects and report to the principal engineers. This inspection was held sometimes independently, sometimes in the company of the principal engineers."

The details of duties adumbrated in the foregoing extracts from the deposition of Shri Balakrishna leave no room for doubt that Shri Balakrishna's duties were those of a Senior Engineer requiring technical knowledge and responsible handling and not of a clerical nature as Shri Balakrishna would have us believed.

It cannot be doubted that his employers gave him the duties and rank of an Officer. His basic salary was Rs. 850 per month besides dearness allowance. It is further admitted that whenever he toured in connection with the Company's business he was entitled to draw first class travelling allowances. These are amenities which are accorded to Officers and not to the clerical staff.

It further appears that for about 17 months, Shri Balakrishna enjoyed car allowance and house allowance over and above basic salary and dearness allowance. Car and house rent allowances were discontinued. Shri Balakrishna has instituted a Civil case before the Subordinate Judge, Fourth Court, Alipore, for recovery of car allowance since discontinued by the Company. The very fact that Shri Balakrishna has instituted a Civil Suit instead of raising a dispute under the Industrial Disputes Act for recovery of his unpaid dues from the Company shows that Shri Balakrishna did not at the time of the Civil Suit consider himself as the workman within the definition of Section 2(s) of the Act.

Shri Balakrishna's high salary and allowances and the fact that he has instituted a Civil Suit for recovery of his unpaid dues from the Company are a pointer to his status as an Officer. They may not be conclusive by themselves. But we have independent evidence about the nature and type of duties which Shri Balakrishna had to perform during his employment as Senior Scale Engineer under the Company. As we have said, his principal duties require initiative, technical knowledge and independent judgment and not merely routine and mechanical type of work required of clerks.

It may be true that Shri Balakrishna's work was subject to the supervision of the superior officers and that he was not vested with any supervisory authority, but that does not necessarily mean that he belonged to the category of clerks. It is the type of work done by an employee, namely, clerical and mechanical, it makes him a workman within the definition of section 2(s) of the Industrial Disputes Act but we are definitely of opinion that the work done by Shri Balakrishna was neither clerical nor mechanical in nature and accordingly, we confirm the finding of the learned Tribunal below that Shri Balakrishna was not a workman within the definition of section 2(s) of the Industrial Disputes Act and that as such, he was not competent to raise an industrial dispute within the purview of that Act. The learned Tribunal, is therefore, justified in refusing to entertain the reference.

In the result, the appeal is dismissed and we make no order for costs.

DECISION

This is an appeal by Messrs. Commercial Bureau against the award of the Sixth Industrial Tribunal, West Bengal, reinstating six discharged workmen of the Company with full back wages. Shri Das Gupta appearing on behalf of the Company very frankly confessed that the appeal could not be competent unless a substantial question of law is involved in it. Shri Das Gupta contends that the award of the learned Tribunal is not in accordance with law inasmuch as its findings are not consonance with the evidence on record. There are two issues involved; the first issue relates to the justification of discharge of the six workmen concerned on the ground of alleged misconduct. It is a finding of the learned Adjudicator that misconduct with which the workmen concerned were charged was of a trivial nature and did not really justify the extreme step taken by the Management in ordering their dismissal. It appears from the charge-sheet that there were as many as six charges levelled against the workmen concerned. In the judgment of the learned Tribunal below one of the charges related to demand of the workmen concerned of all the money from the pay master which was to be disbursed to the workmen for the weekly pay. The workmen wanted to take the money for deducting subscriptions to the Union. This lead to a little fracus. In the judgment of the learned Tribunal the question was a highly trivial one and did not demand any serious steps against the workmen concerned. The learned Tribunal relied upon the statements of the Superintendent of the Company himself to the effect that the question in dispute was of a trivial nature. In view of this state of things, appearing from the evidence it cannot be said that the finding of the learned Tribunal was not supported at all by the evidence on record. We see no reason to interfere with the decision of the learned Tribunal in that behalf. So far as the other charges in the charge-sheet were concerned, the learned Tribunal concluded by saying that those charges could not be substantiated. We do not find any worthy evidence to justify a contrary finding. In view of the above, we cannot take any exception to the finding of the learned Tribunal on issue No. 1 to the effect that the discharge of the six workmen concerned was not justified.

2. The second issue relates to the question of relief to which the workmen concerned were entitled. The learned Tribunal had come to the conclusion that the incident in connection with which these six workmen were subsequently hauled up in proceedings under sections 107 and 144 of the Cr. P. Code was one for which the unsympathetic attitude of the management was responsible. We do find that after the dismissal of the workmen, there was an incident which led the Management to invoke the protection of law under the Criminal Procedure Code. The workmen were proceeded against under sections 107 and 144 of Cr. P. C. But they were let off after they had given undertakings of good behaviour. The incident no doubt shows that the workmen concerned were guilty of some untoward conduct. But that incident should not be construed as definite proof of the fact that the workmen concerned are persons undesirable to be retained in the services of the Company in the interest of the industry and that as such the decision of the learned Tribunal awarding their reinstatement with all back wages of pay should not be given effect to. Nor we see any reason to interfere with that decision at this stage when we find that as a matter of fact the workmen concerned have already been reinstated in employment by the Company and that there has been no untoward incident after their reinstatement. Shri Amar Chatterjee appearing on behalf of the workmen gives an undertaking on behalf of the workmen that they would not commit any act of indiscipline or insubordination during their tenure of service with the Company. Shri Chatterjee further states on behalf of the workmen that the workmen alleged that they have as a matter of fact been always amenable to discipline.

3. In the result, the appeal is dismissed but without costs.

DECISION

The two appeals, appeal No. Cal.-25/54 by Messrs. Byron & Co. and appeal No. Cal.-28/54 by the workmen of the concern represented by Byron Mazdoor Panchayat, are directed against an award by the 4th Industrial Tribunal, West Bengal, published in the *Calcutta Gazette*, dated 31st December 1953. The following items of industrial dispute were referred to the tribunal for adjudication:—

(1) Dearness allowance.
(2) Annual increment.
(3) Period to be fixed for confirmation.
(4) Free medical aid.
(5) Provident Fund.

Prior to the award under appeal there was an award given by Shri P. K. Sarcar which was published in the *Calcutta Gazette*, dated 24th Febraury 1949. The award of Shri P. K. Sarcar related, among other things, to wages, dearness allowance, confirmation of workmen and introduction of provident fund. Shri P. K. Sarcar rejected the claim for provident fund and directed that a workman who had been continuously in service for one year should be deemed to be permanent. He, however, revised the basic wages and dearness allowance. This award was followed by a settlement entered into by the parties in conciliation proceedings on 5th June 1953. Under the combined effect of the award of 1949 and settlement of 1953, the wages and dearness allowance of the workmen stood at the time of the present reference as indicated below:—

Catagories of workmen.	Basic Wages, monthly.	Dearness allowance, monthly.	Remarks.
1. Cart Deliveries men Coolies.	Rs. 29—½—32	Food concession Re. 1.	Cart delivery men who are employed for out door work for delivery get cartage at the rate of 6¼ each per trip and the average number of trip per day is 3. Besides they get overtime at the rate of 4 annas per hour and the average overtime per worker per month is about Rs. 13.
2. Syrup man ..	Rs. 33—1—38	Re. 1.	Syrupman gets in lieu of dearness allowance the sale proceeds of empty Crown Corks and sugar bags.
3. Bottle packers and counters.	Rs. 32—½—35	Rs. 22+ Food concession Re. 1.	....
4. Bottle fillers ..	Rs. 33—1—38	Ditto	....
5. Zamadars and Darwans.	Rs. 33—1—38	Ditto	....
6. Sardar ..	Rs. 33—1—38	Ditto	....
7. Machine Attendants	Rs. 38—1—48	Ditto	....
8. Drivers ..	Rs. 75	....	The wages of the drivers are inclusive of dearness allowance.

(Based on Ext. D)

The workmen demand for all categories of workmen annual increment at the uniform rate of Re. 1, dearness allowance at a flat rate of Rs. 45, free medical aid including free medicine, confirmation on completion of three months' services and introduction of a scheme of Provident Fund or Gratuity.

The employers plead that the conditions of service of the workmen and their total emoluments are fair and compare favourably with those in comparable concerns. They also plead financial inability to bear any additional burden.

The adjudicator has disbelieved the evidence of the employers about their financial inability and has awarded uniform annual increment of Re. 1 and has directed Rs. 11 to be added as dearness allowance to the total emoluments of the drivers and Rs. 3 in the case of others. It has also awarded Provident Fund with contribution on either side at 6¼ per cent. of the basic wages of the workmen. The adjudicator has refused to enlarge the existing medical facilities which are available to the workmen of the concern.

The Company has appealed against the award on Annual increment, Dearness allowance and Provident Fund and the workmen's appeal is directed against the award on Dearness allowance and medical facilities.

The appeals came up before this bench in June 1955 for hearing and this bench, disagreeing with the adjudicator's findings on financial capacity, modified the award. It appears that in calculating the extent to which additional burden can be imposed on the industry some accidental mistakes crept in. As the employers pleaded financial incapacity, an enquiry was called for as to whether the financial position of the industry would be able to bear any additional burden. The workmen filed an application for review of the decision in appeal. As the arithmetical mistakes were considered material, the application for review were allowed and the parties were heard on the merit of appeals.

At the original hearing of appeals, the Union made much of the fact that the balance sheet was filed in a confidential cover and pleaded that it was not drawn up according to the direction of Shri P. K. Sarcar given in his award. It also pleaded that the accounts disclosed by the balance sheet were entirely unreliable and that it did not reflect the correct state of affairs. The tribunal found the balance sheet to be mysterious, particularly because, it was filed in a confidential cover and accepted the criticism levelled against the balance-sheet by the representative of the workmen on the following grounds:—

(1) Sales increased thousand times over what they were 18 years ago.

(2) There is no competition in the market.

(3) Sales books have been improperly withheld.

(4) Shri P. K. Sarcar's suggestions regarding the balance-sheet made in his award were not followed.

The Company being a private Company was within its rights under section 21 of the Industrial Disputes Act to place the balance-sheet before the tribunal in a sealed cover. It appears from the evidence of the Company's witness that he referred to some relevant figures in the balance-sheet and that the learned advocate for the Company made no secret of the balance-sheet. The union had full opportunity not only to inspect the document but also to take full advantage of it by cross-examining the Company's witness with reference to it. The grievances which was sought to be made out at the original hearing of these appeals were not real. The learned tribunal appears to have been misled to think that the balance-sheet was a mysterious document and that it did not agree with what the Company's own witness is said to have admitted before it. The Company stated in the Memorandum of appeal that the evidence of his witness Shri N. B. Bhesania was wrongly recorded. We have looked into his evidence as recorded. His evidence as recorded in his examination in chief is "Since 1949, our profits are going on increasing. There is no possibility of increase at present. .... The Company has got the capacity of Provident Fund". In cross-examination the witness said, "It will not be correct to say that the business does more profit now than in 1949. .... It will not be correct to say that the sales books in 1949-51 area in custody of the Company which have been deliberately withheld". A perusal of this deposition which was given in support of the Company's case that it has no capacity to pay either any increase in dearness allowance or Provident Fund, will convince any reasonable man that the answer of the witness in the examination in chief was not that the profit was going on increasing and that the Company has got the capacity of Provident Fund. The statement of the witness in the cross-examination contradicts what has been recorded as his statement in the examination in chief. If really the witness had made a statement as recorded, the Union would not have cross-examined the witness on the point. We are satisfied that the deposition of this witness was not correctly recorded at least to the extent noticed above. In any case, it cannot be said to be an admission of the Company's capacity to pay due to increase in profit.

The workmen appear to have challenged the Company's accounts in the balance-sheet before Shri P. K. Sarcar, but the learned adjudicator did not accept their contention. On the other hand, he held that the charge brought against the Company was made very lightly and most irresponsibly and accepted the profit and the sales figures submitted by the Company as correct. He accepted the balance-sheets which have been properly certified by the auditor as correct. He, however, made some suggestion. Shri P. K. Sarcar could not allow the workman's claim for dearness allowance to the workmen at Rs. 45 per month and Provident Fund as claimed by the workmen on the ground of financial inability of the Company as proved by the balance-sheets. The entire criticism of the balance-sheets of the Company was based on a wrong appreciation of the findings of Shri P. K. Sarcar in his award. The criticism advanced before us were mostly vague and unwarranted. The entries in the balance-sheets must be presumed to be correct until the contray is shown by positive evidence. Audited balance-sheets. should not be thrown away merely on speculation and surmise as incorrect and fictitious. This tribunal has repeatedly held that an audited balance-sheet should not be rightly discarded and that it should be presumed to be correct unless the contrary is established by positive evidence. We, accordingly, held that the balance-sheet records a correct state of affairs and that the net profit in the year 1952 amounted to Rs. 39,636-5-6 only as indicated in the balance-sheet.

The Company is a sole proprietary concern and the proprietor, from time to time, as he must, drawn advances from the accounts of the business and pays them up out of the profits.

It appears from the award of 1949 that in the year 1946 the capital was Rs. 2,12,086. This came down to Rs. 44,838-5-7p, at the end of 1952. The drawings were partially recouped from the net profits at the end of 1952. The capital together with net profits in that year was Rs. 87,634-5-7p. This was presumably because the proprietor, in view of the gradual increase in the bottle deposit, thought it inadvisable to block up so much capital money. The proprietor appears to have required about Rs. 2,00,000 for running the business as working fund, and the capital together with the bottle deposits provided, this fund. We do not feel that the proprietor was unjustified to draw so much of the capital as was not required for the business and remained idle. The shrinkage of capital has no bearing in the issues under consideration, for the capital does not indicate the trading position of the Company and the demands of the workmen can only be met from the trading profits. For the purpose of the present appeals we cannot but proceed on the basis that the net trading profits of the concern (without any provision for income-tax for 1952) amounted to Rs. 39,636. It appears that in the relevant year the proprietor paid Rs. 2,10,457-0-5p. as the income-tax. As the present business of the proprietor is an unregistered proprietory concern the income-tax would be assessed on the profits as income of an individual. The proprietor has sworn an affidavit that his income from other sources in the relevant year was only Rs. 16,500 and that the proprietor had to pay as income-tax Rs. 21,045-5-0. We had the opportunity to look into the receipts for the payment. It has been submitted on behalf of the proprietor that the total income-tax on his income from other sources amounting to Rs. 16,500 would be about Rs. 2,264 and that the balance of Rs. 19,191 should be charged on the profits of the present business, on the ground that the present business has increased his total income and has raised the income tax. It has been urged on behalf of the proprietor of the concern that if he had not the present business he would be liable for only Rs. 2,264 as income-tax. We are not aware what those other sources are and when they came into existence. In all fairness, to avoid all possible controversies, the total income-tax paid should be proportionately distributed and charged on the entire income of the proprietor or in other words the profit of the present business and the income of the proprietor from other sources should be held to be proportionately liable for the income-tax paid. Thus the proportionate income-tax, including the super charges and super tax payable on the profits of the business, would be Rs. 15,149. This will leave Rs. 24,487 to the business out of the total profits. The proprietor is entitled to a fair return of the capital money that is left after drawings, viz., Rs. 44,839, at 6 per cent. which works out to Rs. 2,790. The proprietor, who works for the Company like a whole time servant, is undoubtedly entitled to some remuneration. In the original judgment on these appeals the proprietor was allowed only Rs. 12,000 per annum on this account although it was held that the proprietor might claim more. The representative of the Company has prayed for higher remuneration. Having regard to the financial position of the Company, we do not propose to allow the proprietor any higher remuneration in the same way as it will not be possible to concede to the demands of the workmen in full. We, accordingly, allow the proprietor Rs. 12,000 per annum on this account. This will leave Rs. 9,697 to the industry for other expenses.

In an enquiry as to the extent of the financial burden the industry is able to bear, we cannot but proceed on the basis of the latest accounts available which, in the present case, are of 1952. Ext. D shows that 170 workmen are getting an annual increment of 8 as. *We propose to make the incremental scale for all categories of the workmen in the industry uniform by raising it to Re. 1.* This will involve an additional burden of Rs. 1,020. This increment of the incremental scale will reduce the amount of profit available to about Rs. 8,677. It may be noted that the additional burden of Rs. 1,020 would be in the first year and that this additional burden will increase every year in arithmetical progression.

Lorry drivers, 3 in number, shall get Rs. 5 each per month as dearness allowance in addition to their consolidated wages and dearness allowance and other benefits that they have been receiving at present. 65 workers are getting Rs. 22 per month as dearness allowance. If this dearness allowance is raised to Rs. 45 per month the Additional financial burden would be in the neighbourhood of Rs. 23,000, but after raising the incremental scale, the industry will not be left even 40 per cent. of the amount to meet the workmen's demand. *We, however, increase the dearness allowance of the Darwans, Machine attendants, Sardars, Bottle* *counters, Bottle fillers and packers by Rs. 2 per month. We also allow cart delivery man or coolies Rs. 2 per month on account of dearness allowance.* This will involve an additional financial burden of Rs. 5,748 per annum. We have not allowed any additional dearness allowance to the Syrup men, inasmuch as they have recently been permitted to appropriate the sales proceeds of the sugar bags which, as Ext. D indicates, amount to Rs. 2 per month. This has not been refuted on behalf of the workmen.

Thus it is seen that the industry will be left with only Rs. 2,929. The learned counsel for the workmen submitted a statement at the time of hearing of these appeals to show the financial commitment involved in the Provident Fund Scheme. According to the calculation of the learned counsel, the Provident Fund scheme would require in the first year Rs. 4,284. The Company cannot bear this burden. We, accordingly, *set aside the award so far as it relates to the introduction of a Provident Fund Scheme.*

About the workmen's appeal for increase in medical facilities we do not propose to interfere with the adjudicator's decision on this point. No appeal in respect of the period of confirmation is competent. Hence it is ordered that appeal No. Cal.-25/54 succeeds in part and is allowed with modification as stated above. Appeal No. Cal.-28/54 fails and is dismissed. Parties shall bear their own costs. The adjustment shall be made on and from the date when this decision comes into force. Any excess payment, if already made, by way of implementing the award, need not be refunded.

DECISION

This is an appeal preferred by the Royal Calcutta Turf Club Employees' Union against Messrs. Royal Calcutta Turf Club, Calcutta and workmen of the said club not represented by Royal Calcutta Turf Club Employees' Union, in respect of the award of the Fourth Industrial Tribunal, West Bengal, published in the *Calcutta Gazette* of 1st March 1956.

2. The Issues that were referred for adjudication were—

(1) Is the suspension of the four employees, namely, Shri Muneswar Prosad, Shri Carlus, Shri Mantu Mallick and Shri Bhagrassan Tewari, justified?

(2) What relief are they entitled to?

3. The learned Tribunal has held that the suspension is justified and that the workmen are not entitled to any relief.

4. At the outset, objection has been taken on behalf of the respondents, that no appeal lies under section 7, clause (1) of the Industrial Disputes (Appellate Tribunal) Act. The reply of Shri Sen Gupta, Advocate, on behalf of the appellant Union, is that the learned judge is wrong in coming to the conclusion that the suspension is justified, and that the management is guilty of discrimination in taking punitive action only against the four individuals referred to above.

5. Taking the first contention, it is necessary to state a few facts. A letter was sent on 15th September 1954 signed by about 15 employees of the Royal Calcutta Turf Club making certain allegations against Shri D. T. Modi, the Clerk of the Course and who joined the Royal Calcutta Turf Club in July 1953. The allegations against Shri Modi have been briefly set out at page 755 of the award. They were to the effect, that 58 coolies were all of a sudden made permanent and their pay was increased by Rs. 3-4 to Rs. 14-8 per month ignoring the rest of the staff and their services and capabilities, that Jagdish was going to be made stand sirdar and four coolies were going to be made permanent, that there were more than 50 men who had longer and better service than Jagdish and the men specially favoured by Shri Modi, that Shri Modi was trying to confirm his own men to support his dirty conspiracy in removing Shri Bijon Mukherjee and had taken the signatures of all the coolies in a blank paper representing that he would send the paper to the Secretary of the Club for securing permanent jobs, that after this Shri Modi had taken thumb impressions on another blank paper of other 60 coolies, for a purpose unknown, and that the matter should be investigated and looked into. This letter, dated 15th September 1954, was addressed to the Secretary of the Royal Calcutta Turf Club. The Stewards directed an enquiry into the allegations against Shri Modi. Exhibits C and C(1) contain the record of enquiry conducted by Messrs. Gupta and Dawson. Exhibit D is the report of the enquiring officers to the Secretary, dated 10th May 1954, and the Enquiring Officers came to the conclusion, that the allegations made by the workmen were wholly unjustified, that the latter was inspired by a group of dissatisfied employees, some of whom were Shri Muneswar Prosad, Shri Carlus, Shri Mantu Mullick and Shri Bhagrassan Tewari, that Shri Muneswar Prosad took a leading part in getting up the letter and that the four persons named above were leaders of the disgruntled sections who were smarting against the tightening of control and stricter supervision since Shri Modi took charge of the race course. Thereupon the management issued charge-sheets against the four persons in respect of whom suspension orders were passed. The charge-sheets were in the terms of Ext. 3, dated 19th October 1954, which is addressed to Shri Carlus. It is mentioned therein, that in respect of the petition sent to the Secretary, a departmental enquiry had been held, that the workmen had been called upon to adduce evidence in support of the allegations, that they had totally failed to substantiate their case before the enquiring officers, that they were charged with the offence of gross misconduct for making false, malicious and defamatory statements against Shri Modi and that they should send their explanations by 27th October 1954. The workers were also informed that they were suspended from duties with effect from 20th October 1954 until a final decision was taken on the conclusion of the enquiry. Exhibit E is the report of an official of the race course deputed to hold the further enquiry and it is dated 20th November 1954. It is mentioned therein, that all the four persons now in question appeared in the further enquiry conducted at the race course on 18th November 1954, that at the enquiry all the four persons stated that they had nothing more to add to what they had already stated in the preliminary enquiry and that they had nothing to add to substantiate their allegations. The Enquiring Officer sent up a report recording his opinion, that the four individuals failed to substantiate their allegations in spite of their having been given every opportunity to adduce further evidence. Exhibit F is the copy of the letter, dated 23rd November 1954, addressed to the Labour Officer and therein the Secretary communicated the decision of the Stewards who considered the proceedings of the enquiry and the findings of the Enquiring Officer. The decision was to the effect that the four persons with full knowledge made certain baseless and malicious allegations against Shri D. T. Modi that they had failed to substantiate those allegations in spite of full opportunity being given to them, that the charges against them had been established and that they should be dismissed from service with immediate effect. The Secretary however wrote to say, that with a view to maintain *status quo* as requested by the Labour Officer, the employers had refrained from making the decision effective. Permission was sought to dismiss the four workmen concerned as the charges had been proved against them.

6. The contention of Shri Sen Gupta is that the decision arrived at by the lower Tribunal to the effect, that the conduct of the management was justified is not tenable on the evidence. We are not prepared to agree. There was evidence placed before the lower Tribunal in support of the respective contentions of the parties. The evidence was taken into account and the lower Tribunal came to the conclusion that the findings arrived at by the Enquiring Officers as a result of their enquiry was justified and supported by material evidence. We fail to see how this finding of fact can be interfered with. There is no substantial question of law involved in the same. Our attention has not been drawn to any circumstances which would warrant the view that the finding of the lower Tribunal is vitiated in any manner.

7. The question has however been raised, that the lower Tribunal was wrong in taking into account the enquiry that had been held by the management. There is no force in this contention. The management held an elaborate and exhaustive enquiry and the workmen had every opportunity to substantiate the case put forward on their behalf. As a result of the

enquiry, the management came to the conclusion that the workmen were guilty of misconduct. They had every right to come to the said conclusion on the material placed before them and as the lower Tribunal has remarked with regard to all the points of enquiry there was reliable evidence to support the findings of the Enquiring Officers. Even judging by the tests laid down in the case of Buckingham & Carnatic Mills (1952 L.A.C., 490) the findings arrived at by the management are not objectionable in any manner. There is no basic error of facts. There is no case of victimisation or unfair labour practice and the conduct of the management is *bona fide*. The contention on behalf of the appellants that the learned Tribunal was wrong in taking into account the enquiry held by the management is not tenable. On the contrary there is every reason for coming to the conclusion that there was a fair and impartial enquiry and that the management acted throughout *bona fide* and that the findings arrived by the Enquiring Officers are fully justified by the material on record.

8. The last point urged is that when the petition was sent on behalf of 15 persons, the management is guilty of victimisation in choosing only four for punishment. The lower Tribunal has referred to various decisions in support of the conduct of the management. The Stewards proceeded to take action against the four individuals as they were the ring-leaders and instigators of the unlawful action initiated against Shri Modi. They were certainly within their rights in punishing only these four persons and no exception can be taken to the same. There is no case of victimisation or unfair labour practice. The action of the management is *bona fide* and no exception can be taken thereto.

9. We see no sufficient grounds for interference with the decision of the lower Tribunal and we find that the action taken by the management against the four workmen is justified and that the workmen are not entitled to any relief

10. In the result the appeal is dismissed. No costs.

GOVERNMENT OF WEST BENGAL

DEPARTMENT OF HEALTH

Public Health

NOTIFICATION.

No. P.H./4750/2R-75/56.—20th December, 1956.—Whereas the Governor is satisfied that the municipal area of Howrah is threatened with an outbreak of smallpox;

Now, therefore, in exercise of the power conferred by section 2 of the Epidemic Disease Act, 1897 (III of 1897), the Governor is pleased to prescribe the following temporary regulations for the prevention and control of smallpox, and for the medical inspection, isolation, observation and surveillance of persons suffering from or suspected of being infected with smallpox in the said municipal area for a period of six months:—

Temporary Regulations for the Prevention and Control of Smallpox.

1. In these regulations, unless there is anything repugnant in the subject or context:—

(a) "Health Officer" means the Health Officer of the municipality;

(b) "Sanitary Inspector" means a Sanitary Inspector appointed by the municipality;

(c) "Smallpox" means any disease accompanied by an eruption or vesicles or pustules;

(d) "Patient" means a person suffering from or suspected to be suffering from smallpox;

(e) "Medical practitioner" means any person practising the medical profession.

Notices.

2. If in any case the Health Officer or a Sanitary Inspector considers that the issue of a notice under these regulations is likely to lead to such an amount of delay as might facilitate the spread of smallpox, he may forthwith take such steps as he may think fit for carrying out the work and shall thereafter as soon as possible, issue a notice on the person concerned stating the reason why such work has been carried out.

3. If any measure which the Health Officer or a Sanitary Inspector has, by a notice issued under these regulations required to be carried out, be not carried out to his satisfaction within the time stated in the notice the Health Officer or a Sanitary Inspector shall be entitled to carry out the measure.

Cost and compensation.

4. (1) All expenses incurred in carrying out any work in pursuance of an order issued under these regulations shall be paid by the municipality except in any case where the order directs a person to carry out any work in relation to property in his possession, in which case the expenses shall be paid by such person:

Provided that where the conditions, which led the Health Officer or a Sanitary Inspector to pass such an order, are not attributable to any act or default of the person in possession of the property, the municipality may pay to such person the whole or a part of the expenses incurred by him in carrying out the order.

(2) The municipality may recover all expenses incurred by the Health Officer or a Sanitary Inspector in carrying out the measure under regulation 3 from the person or persons to whom the notice was originally issued.

5. The municipality shall pay adequate compensation to any person who has sustained substantial loss or damage by reason of anything done under these regulations:

Provided that no person shall receive any compensation for anything done or suffered under these regulations, if he has failed to carry out an order, issued under these regulations within the time specified in the order and to the satisfaction of the Health Officer or a Sanitary Inspector.

Location of disease.

6. When a case of smallpox occurs in a house, the nearest male relative in attendance upon the patient, or in the absence of any such relative the occupier of the house, or if the occupier be the patient, the senior male inmate of the house other than patient of the house shall within twenty-four hours of the onset of the disease, give information regarding the occurrence of such case either personally or in writing to the nearest Sanitary Inspector. When the inmates of the house are all females the medical attendant or the senior male inmate of the nearest house shall give the required information.

7. (1) Every medical practitioner called in to attend upon any case of smallpox shall forthwith give notice of the case by a special messenger to the Health Officer or a Sanitary Inspector and the cost of such messenger in each case shall be defrayed by the municipality.

(2) The Doctor-in-charge of a hospital or a dispensary within the municipality shall forthwith give notice of any case of smallpox brought to such hospital or dispensary for treatment to a Sanitary Inspector or to the Health Officer by a special messenger and the cost of such messenger in each case shall be defrayed by the municipality.

8. Registrars of births and deaths shall supply to the Health Officer or a Sanitary Inspector such periodical returns of case of smallpox as he may from time to time call upon them to furnish.

9. The Health Officer or a Sanitary Inspector may examine any person who is or suspected to be, suffering from smallpox or who, in his opinion, may be infected with or likely to spread smallpox.*

Isolation of patients.

10. When the Health Officer or a Sanitary Inspector considers that the isolation of any patient is a precaution necessary for the protection of the neighbouring population, he shall order the patient to observe isolation and may order the nearest relative in attendance on the patient, or the occupier of the house in which the patient is staying to arrange for the isolation of the patient in such a manner and for such a time as may be approved by the Health Officer or a Sanitary Inspector.

He shall not direct the patient to be removed from the house unless it is, in his opinion, impossible to make proper arrangements for his isolation therein.

11. The Health Officer or a Sanitary Inspector may order that any person who has been in contact with a person found to be suffering from smallpox, shall be segregated for a period not exceeding a fortnight in a manner and in a place to be approved by the Health Officer or a Sanitary Inspector.

12. The Health Officer or a Sanitary Inspector may order that any person who has been in contact with a person found to be suffering from small-pox shall be vaccinated or re-vaccinated within a time to be specified in the order.

13. No person shall enter any place wherein a patient is isolated under regulation 10 without the permission of the Health Officer or a Sanitary Inspector.

14. When a patient has been removed from a house for isolation under regulation 10, the municipality shall provide for him free of charge a suitable place, with necessary attendants, diet,, etc.

3. If any measure which the District Health Officer has by a notice issued under these regulations, required to be carried out, be not carried out to his satisfaction within the time stated in the notice the District Health Officer shall be entitled to carry out the measure.

Costs and compensation

4. (1) All expenses incurred in carrying out any work in pursuance of an order issued under these regulations shall be paid by the board except in any case where the order directs a person to carry out any work in relation to property in his possession, in which case the expenses shall be paid by such person:

Provided that where the conditions which led the District Health Officer to pass such an order, are not attributable to any act or default of the person in possession of the property, the board may pay to such person the whole or a part of the expenses incurred by him in carrying out the order.

(2) The board may recover all expenses incurred by the District Health Officer in carrying out the measure under regulation 3 from the person or persons to whom the notice was originally issued.

Provided that no person shall receive any compensation for anything done or suffered under these regulations if he has failed to carry out an order issued under these regulations. He shall not direct the patient to be removed from the house unless it is, in his opinion, impossible to make proper arrangements for his isolation therein within the time specified in the order and to the satisfaction of the District Health Officer.

7. (1) Every medical practitioner called in to attend upon any case of small-pox shall forthwith give notice of the case by a special messenger to the nearest member of the outdoor staff of the board and to the District Health Officer by post and the cost of such messenger in each case shall be defrayed by the Board.

(2) The doctor-in-charge of a hospital or a dispensary within the district shall forthwith give notice of any case of small-pox brought to such hospital or dispensary for treatment to the nearest Sanitary Inspector by a special messenger and to the District Health Officer by post, and the cost in each case shall be defrayed by the board.

8. Presidents of union boards in union board areas and thana officers in non-union board areas shall supply to the District Health Officer such periodical returns of cases of small-pox as he may from time to time call upon them to furnish.

9. The District Health Officer or a Sanitary Inspector may examine any person who is, or suspected to be, suffering from small-pox or who, in his opinion, may be infected with or likely to spread small-pox.

14. When a patient has been removed from a house for isolation under regulation 10, the board shall provide for him free of charge a suitable place, with necessary attendants, diet, etc.

15. No person, who is or has been suffering from small-pox, shall leave the place where he has been staying until he has received from the District Health Officer or a Sanitary Inspector written permission to do so.

LABOUR DEPARTMENT

ORDER

No. 5329I.R./D/8L-5/56.—14th December 1956.—Whereas under the Government of West Bengal, Labour Department, order No. 2469Dis./D/8L-5/56, dated the 5th June 1956, the industrial dispute between Shree Hanuman Cotton Mills, Ltd., Fuleswar, post office Uluberia, Howrah and their workmen represented by Shree Hanuman Cotton Mills Workers' Union, Uluberia, Howrah, regarding the matters specified in the schedule thereto was referred for adjudication to the Second Industrial Tribunal;

And whereas the said Second Industrial Tribunal has submitted to the State Government its award on the said industrial dispute;

Now, therefore, in pursuance of the provisions of section 17 of the Industrial Disputes Act, 1947 (XIV of 1947), the Governor is pleased hereby to publish the said award as shown in the annexure hereto.

ANNEXURE

In the matter of an industrial dispute between Shree Hanuman Cotton Mills, Ltd., Fuleswar, post office Uluberia, Howrah and their workmen represented by Shree Hanuman Cotton Mills Workers' Union, Fuleswar, Uluberia, Howrah.

BEFORE THE SECOND INDUSTRIAL TRIBUNAL, WEST BENGAL

PRESENT:

SHRI G. P. MUKHERJEE, *Judge, Second Industrial Tribunal.*

Appearances.

For the employees: Shri Patit Paban Pathak assisted by Shri Ramananda Bhaduri, Secretary, Shree Hanuman Cotton Mills Workers' Union.

For the Company: Shri Provash Mullick, Advocate assisted by Shri Kanai Lall Ghosh, Advocate.

The Government of West Bengal, Labour Department, by its order No. 2469Dis./D/8L-5/56, dated 5th June 1956, has referred the above industrial dispute to this Tribunal for adjudication.

The issues contained in the schedule to the order of reference stand as follows:—

(1) Lay-off benefits for the period of closure of the Mills from 19th May 1955 to 19th July 1955.

(2) Sick leave dues for 1955.

(3) If the dismissal of Shri Birendra Singh, Jamadar, is justified. To what relief in the way of reinstatement and/or compensation is he entitled?

(4) Sick-leave with wages for the period from 1st January 1956 to 12th May 1956 to be adjusted against sickness benefit admissible under the Employees' State Insurance Act, 1948, after the 12th May 1956.

Issue No. 3

This issue was not pressed at the time of trial on behalf of the Union. Furthermore, this issue does not call for any decision by the Tribunal. It appears that Shri Birendra Singh, Jamadar, has been suitably employed at the instance of the Company, and is in such employment even at present. The Company has also produced a statement made by him in writing, which is Annexure "B" to the Company's written statement. That statement shows that Shri Birendra Singh has been provided with a suitable alternative job in a sister concern of the Company known as "Shree Hanuman Foundry & Engineering Company, Ltd." which is situated contiguous to Shree Hanuman Cotton Mills Ltd. and that he is quite happy there. It has been further stated by him that he has no grievance against the present Company or against the Hanuman Foundry & Engineering Company, Ltd., and there is no question of his reinstatement or compensation. This issue is thus disposed of.

Issue No. 4

This issue was also not pressed by the Union at the time of hearing, and an application was filed before the Tribunal to this effect. In that application, it has been stated that as this issue has given rise to some confusion, in view of the Employees' State Insurance Act having come into operation on and from 14th August 1955, the Union did not like to press the same at this stage, but reserved the right to re-agitate the matter before the appropriate authorities later on. In view of the said application filed by the Union, this issue is not decided by the Tribunal and is left open.

Issue No. 1

There is no dispute between the parties that the Mill was closed by the Company for 2 months, that is from 19th May 1955 to 19th July 1955. The controversy centres round the question whether this closure was "lay-off" within the meaning of section 2(kkk) of the Industrial Disputes Act. According to the Company, the Mill is provided with 3 boilers, 2 of which work regularly and the third one is maintained as a stand by. The licence for one of the working boilers was due to expire on 13th April 1955, but the licence for the same could not be obtained in time from the authorities. The other working boiler suddenly broke down in the mean time on 8th May 1955. The 3rd boiler could not be safely utilised for running of the factory, as it was incapable to bear the entire load. So, the Company was obliged to keep the Mill closed from 19th May 1955 to 19th July 1955. The Company wants to say that the closure upon the facts and circumstances stated above, cannot be regarded as lay-off and that the workers are not, therefore, entitled to claim any compensation for that period. The contention of the Union, on the other hand, is that this closure was lay-off within the meaning of the Industrial Disputes Act, and as such the workers are entitled to get compensation. The Company has raised another objection in its written statement in order to defeat the claim of the workers for compensation, even if this closure is held to be lay-off. The Company says that it was willing to give the workers alternative employment in the Mill itself or in its sister concern, but all the workers did not present themselves on all days during the hours as required by law. Hence, the workers, who did not thus present themselves, cannot get any compensation. Lastly, it is contended by the Company that the workers are not entitled to any compensation for the period of closure according to the certified standing orders of the Company.

On a careful consideration of the matter, the Tribunal is of the view that the closure of the Mill for the period in question was "lay-off" within the meaning of the Industrial Disputes Act, and that the workers, who were thus laid-off, are entitled to get compensation in terms of section 25C of the Act. Obviously, the Company cannot defeat the right of the workers to get such compensation. Lay-off has been defined in section 2(kkk) of the Act. It means the failure, refusal or inability of an employer on account of shortage of coal, power or raw materials or the accumulation of stocks or the break-down of machinery or for any other reason to give employment to a workman, whose name is borne on the Muster Rolls of his industrial establishment, and who has not been retrenched. In the present case, according to the version of the Company, the Mill had to be closed on account of break-down of a boiler and for not getting licence of another boiler in time from the authorities, and as a result of this the Company was not in a position to employ the workers in the Mill. So, there cannot be any room for doubt that there was lay-off. The rights and liabilities of the employers and workmen in so far as they relate to lay-off and retrenchment, have now been given legislative recognition by a Statute. Relief for lay-off has been set out in Chapter VA of the Act, which has been introduced by Act 43 of 1953. Such rights and liabilities of employers and worker as they relate to lay-off, shall therefore be determined in accordance with the provisions of Chapter VA of the Act. It is clearly laid down in section 25J, sub-section (1) of the Industrial Disputes Act that the provisions of Chapter VA shall have effect notwithstanding anything inconsistent therewith contained in any other law including standing orders made under the Industrial Employment (Standing Orders) Act, 1946 (XX of 1946). So, the argument advanced on behalf of the Company that according to its certified standing orders the workers were not entitled to get any compensation for the period, during which the Mill was closed, does not hold good. Nor such argument can be entertained in the face of what has been stated in sub-section (1) of section 25J as mentioned above. In this connection, I may mention also that from the certified standing orders, a copy of which has been produced by the Company and marked Ext. B, it appears that provision has been made in clause (2) of section I for giving relief under the Industrial Disputes (Amendment) Act, 1953, to workmen who are laid-off for temporary stoppage of work. I shall now take up the remaining objection. The Company wants to say that during this period of closure, it was willing to give the workers laid-off alternative employment in the Mill itself or in its sister concern, but all the workers did not present themselves on all days during the hours as required by law. So, it is urged on behalf of the Company that the workers, who did not thus present themselves, are not entitled to any compensation. Presumably, the Company relied on clauses (i) and (ii) of section 25E of the Act in this respect. In my opinion, this objection is equally untenable, and I shall presently state the reasons therefor. The Company by a notice issued on 19th May 1955 closed the Mill. A copy of that notice has been produced and it is marked Ext. A. In this notice, no time or definite date was fixed for re-starting the Mill. It was stated therein that the date for re-starting the Mill would be notified later on. Nowhere in this notice it was mentioned that the Company was willing to give alternative employment to the workers, and that the workers would be required to present themselves in the Mill on all days at the appointed time during the period of closure. In the circumstances, the workers were not under any obligation to present themselves in the Mill on all days during the period of closure. The Mill being entirely closed for an indefinite period, there could possibly be no scope for any work for these workers. The Company has not shown also that it maintained any Muster Roll for the workers laid-off, so that the workers who might present themselves for work at the Mill during the period of closure, could make entries therein, although it was the duty of the Company to maintain such Muster Roll under section 26D of the Act. In view of what has been stated above, the version of the Company that it was willing to give all the workers alternative employment, and that they were required to present themselves for work on all days at the appointed time during the period of closure, cannot be believed. It is an after-thought. Reliance was also placed on behalf of the Company on Ext. C, another notice purported to have been issued by the Management on 20th May 1955. I have grave doubts as to whether any such notice was issued by the Management actually on 20th May 1955. Not a whisper was made by the Company in its written statement regarding this notice. This notice also was not produced by the Company, while conciliation proceedings were going on. Furthermore, in this notice a pious wish only was expressed by the Management to the effect that attempts would be made to employ in the Mill Maintenance Department or elsewhere such permanent workers as would call at the Mills for the same during the closure period. This did not necessarily mean that all the workers were directed to present themselves at the Mill on all days at the appointed time during the closure period, failing which they would not be paid any compensation for the period. It appears no doubt from the evidence that the Company was considerate enough in providing during this period many of the workers with work. But this fact does not debar the remaining workers, who were laid-off, from claiming lay-off compensation under the law. I, therefore, hold that those workers, who were thus laid-off and who were not provided with work during the period of closure of the Mill from 19th May 1955 to 19th July 1955, are entitled to compensation for that period. Such compensation shall be in terms of section 25C of the Act. They shall not, however get compensation for the entire period of closure, which is 2 months, but the compensation in such case shall not be for more than 45 days as provided in clause (a) to the proviso of section 25C. In the instant case, there was one continuous lay-off, and it continued for 2 months. The continuity of lay-off was not broken. That being so, clause (b) to the proviso, which contemplates a second period of lay-off after the first period is over, can have no application to the present case. Now it remains for me to decide at what rate such compensation should be assessed. Section 25C is clear on the point. Compensation for lay-off shall be equal to 50 per cent. of the total of the basic wages and dearness allowance that would have been payable to the workers, had they not been so laid-off. So, it is decided that compensation for 45 days calculated at the above rate shall be paid to such of the workers who were laid-off and who were not provided with alternative employment during the period of closure. Payment directed above be made to such workers within 15 days from the date of publication of this award in the *Calcutta Gazette*. This issue is answered accordingly.

Issue No. 2

Regarding sick leave dues for 1955, the Company's version is that the Management was fully prepared, and agreed to make payment to 308 workers, who duly applied up to 13th August 1955. The Company has admitted its liability in that respect with regard to 308 workers. But regarding the remaining 214 workers, the Company denies its liability, and wants to say that those workers simply forwarded medical certificates without any application, and as such the Company could not justly exercise its right to have the applicants for sick leave examined by its own Doctor. So, it is contended that those workers are not entitled to the benefit of sick leave pay. I have considered the evidence and also heard arguments advanced before me on behalf of both sides in this matter. It appears that this Company was a party to the disputes in the Cotton Textile Industry in West Bengal between the employers of the various Cotton Mills and their workmen. The award by the Major Tribunal in respect of these Cotton Mills was made on 28th July 1948 and it became operative from 21st August 1948. Point Nos. 7 and 9 in that award are regarding leave, holidays and working hours. It appears from the said award (page 179) that the Tribunal prescribed that the workers would get sick leave for 15 days on full pay. It further decided that sick leave shall be granted on a medical certificate, and the Company would have always the right to have any applicant for sick leave examined by its own Doctor and at its own cost. It also directed that the provision regarding sick leave would not be in operation after the Employees' State Insurance Act, 1948 came into force. That award ceased no doubt to be operative and binding on the parties after one year from the date of its enforcement, still it can be followed as guidance for standardisation of leave, holidays, etc., applicable to the workers of Cotton Mills. The provisions regarding sick leave as made in this award appear to me to be also sound. So, I am of the view that all the worker employed in the present Mill shall get advantage of sick leave benefit as prescribed in that award. The Company has said that the Management has been adhering to the directives of the said award regarding sick leave dues. But on a scrutiny of the matter I find that it is not so. I fail to understand why the Company insisted on having applications from the workers along with medical certificates. The award referred to above laid down only that such sick leave shall be granted on a medical certificate, and the Company would have always the right to have any applicant for sick leave examined by its own Doctor and at its own cost. That award did not give any directive that any application would be required along with the medical certificate for such sick leave. So, the Company was not justified in refusing sick leave benefit to those workers, who did not submit any application to the Management when they forwarded medical certificate for sick leave. The Company cannot avoid its liability simply by taking advantage of that fact. Then again, it has been admitted by O. P. W. 1 Shri B. D. Sharma, Manager of the Mill, in his cross-examination that in 1954 an arrangement was arrived to the effect that the workers would get sick leave benefits of 15 days in a year in 3 instalments. He has also admitted that in April 1955 the question of application by the workers to enjoy sick leave was waived. Considering the matter as discussed above, I hold that all the permanent workers including 214 workers who have been denied of this benefit, are entitled to get the benefit of sick leave for the year 1955 up to 13th August 1955, and not for the whole year. It appears from Ext. E that the Employees' State Insurance Act, 1948 came into force on the 14th day of August 1955 in the area, where the present Mill is situated. So, the workers, in view of the directive as made in the abovementioned Cotton Textile Award, cannot get the benefit of sick leave after the Employees' State Insurance Act, 1948, came into force. On Calculation, it is found that up to 13th August 1955, such sick leave benefit for the permanent workers of this Mill for the year 1955 will come to 9 days. Accordingly, the Tribunal directs that the permanent workers of this Mill shall get wages for 9 days as sick leave benefit for the year 1955. The payment as directed above, be made to the workers concerned within 15 days from the date of the operation of this award. This issue is decided thus.

This is my award.

AWARD

DECISIONS

Issue No. 1.—Increment

The present Company is the successor of a previous Company, named Messrs. Ganapat Ray Ram Narayan & Co. The original firm was dissolved in 1948 and the partners separated. One of the partners, viz., Shri Ram Narayan, formed a new partnership with other partners and carried on the business in the old name for two years. In 1950, the name of the Company was changed to Hind Tin Industries but the services of the workers then in the employ of the Company were continued. The workers of the Company are, therefore, the same as those who worked under the old firm of Ganapat Ray Ram Narayan & Co. The Company carries on the manufacture of containers from tin plates. These articles are used as containers of oil, Vanaspati products and ghee and by manufacturers and dealers of these commodities. The material used in this factory is tin plate, which is a controlled article, and the Company like other consumers of these articles are given a fixed quota in the year for their factory. There are about 60 employees in the concern and a number of other workers varying from 15 to 40 in number, who work under an independent contractor under the Company. There was an industrial dispute between the workmen and the old firm of Messrs. Ganapat Ray Ram Narayan & Co., which was referred to the Tribunal, and the award of the Tribunal on that dispute was published by notification, dated 29th September 1950. By this award, the existing basic wages of the workmen of the Company were confirmed and the dearness allowance of all categories of workmen was increased. The minimum basic wage appears to be Rs. 40-10 as. per month of 26 days at the rate of Rs. 1-9 per day for the unskilled employee. For the semi-skilled category, the minimum basic wage is at Re. 1-15 as. per day, *i.e.*, Rs. 48-12 as. per month of 26 days and in the skilled category of workmen, the minimum basic pay is Rs. 73 per month. It appears in this award that most of the unskilled, semi-skilled and skilled workmen were getting basic wages above the minimum wages for these categories. The dearness allowance as allowed under this award was as follows:—

Basic pay range.	Dearness allowance.
	Rs.
Up to Rs. 50 ...	... 18
Rs. 51 to Rs. 100 ...	... 28
Rs. 101 to Rs. 150 ...	... 34
Rs. 151 to Rs. 200 ...	... 40
Rs. 201 and upward ...	... 46

This dearness allowance was allowed in view of the fact that the parties agreed to have a minimum basic pay of the workers in 1949 by negotiations and fixed the dearness allowance at 25 per cent. of the basic pay, and in view of the fact that the dearness allowance should be revised to be payable in slabs, in view of the standards of dearness allowance fixed in the Major Engineering Tribunal in 1948. As a result of the award of 1950, the minimum wage of the unskilled worker amounted to Rs. 58-10, the minimum wage of the semi-skilled worker amounted to Rs. 66-10 and that of the skilled worker to Rs. 101. By the second award of the Major Engineering Tribunal, the dearness allowance of the workers in the engineering firms was revised and the minimum dearness allowance for employees with basic wages up to Rs. 50 was increased from Rs. 25 to Rs. 31. The revision was made as follows:—

Basic pay range	Dearness allowance under the first award.	Dearness allowance under the second award.
	Rs.	Rs.
Up to Rs. 50	... 25	31
From Rs. 51 to Rs. 100	... 35	42
From Rs. 101 to Rs. 150	... 40	48
From Rs. 151 to Rs. 200	... 45	54
From Rs. 201 and upwards	... 50	60

The learned Advocate for the Union contended that shortly after the award on this Company in 1950, the Major Second Engineering Tribunal made substantial increase in the dearness allowance of the workers and therefore there should be a revision of the basic wage and dearness allowance of the workmen of this Industry. The Union, therefore, claim for an *ad hoc* increment in the basic wages to the extent of Rs. 10 or 25 per cent. of the basic wage, whichever be higher and also increase in the dearness allowance on the lines of the award of the Second Engineering Tribunal. In the present issue it will be necessary to consider whether the workmen of this Company are entitled to any *ad hoc* increment in the basic wage as claimed.

It was stated that the Company has flourished since 1950. No financial incapacity has been pleaded and the number of workmen has been increased under an independent contractor and the minimum wages are not sufficient to guarantee a balanced diet for the workmen. There should, therefore, be an *ad hoc* increase of the basic wage, as there was no advance in wages since the award in 1950. There is no incremental scale in this Company and it has been decided by the Hon'ble Appellate Tribunal in a number of cases, as for example, in the case of the Simbhaoli Industries, Ltd., reported in 1954, L.A.C. 638 at page 640, in the case of Union Drug Co., reported in 1954(1) L.L.J., 766, and in the case of Star Paper Mills, reported in 1953 L.A.C., 183, that no *ad hoc* increments should be given when there are no fixed grades and incremental scales in existence. There is no claim for introduction of incremental scales in this Company in this case. Even if there were any such claim, it would have been difficult to start any incremental scales in view of the financial condition of the Company. Before incremental scales can be imposed by adjudication, it is essential to see whether the employer would be able to bear its burden. The evidence on record shows that the Company although not suffering any loss, earned a very meagre profit since 1950-51 to 1954-55. This profit ranged from Rs. 25,000 in the year at the minimum to Rs. 74,000 in the year at the maximum. This was on a capital of Rs. five and half lakhs and was earned without making any provisions for depreciation, income-tax or remuneration of the partners. Two of the partners work as whole time officers. It appears that in 1953 there was a negotiated settlement between the Union and the Management by which the dearness allowance was increased. For pay slabs up to Rs. 50, the increase was by Rs. 2 and for other pay slabs, it was at Re. 1. P.W. 1 Shri Sundar Lal Singh, who deposed for the Union, is an employee who has been in the service of the Company since the time of the old firm, Messrs. Ganapat Roy Ram Narayan & Co. He has been in the service of the firm for the last 20 years. He gets basic pay of Rs. 76 and an extra allowance of Rs. 5 besides the usual dearness allowance. His evidence is that this extra allowance is also available to some other workers in consideration of their special hardships. The evidence of O.P.W. 1 Shri Biswanath Kayan, a partner, who deposed for the Company is that he has given special increments to some deserving cases after the award of 1950 and such increments were given to 17 employees out of a total of 60 and that this was in addition to the general increments of dearness allowance given to all workers. The evidence of O.P.W. 1 shows that the contract system was introduced on account of the peculiar nature of the work that the Company has to do. Sometimes the firm requires a large number of men for a short period and some times it does not require any men at all. When the contract system was introduced in April 1954, the service conditions of the existing employees were not affected in any way and the witness states that the Union representatives were called and the difficulties of the firm were explained to them and the contractor was employed with their approval. Although there is no evidence as to the approval of the Union for the employment of the contractor, there is no doubt that the Union was apprised of this scheme of the appointment of the contractor. P.W. 1 Sundar Lal states that he was offered with the contract, but he did not accept it. Document Ext. A, being the statement of quota of tin plates received by the Company in the years from 1953 to 1956 and the statement, Ext. B, showing the production, sale and cost of the tin canisters manufactured by the Company does not show a very prosperous condition of the Company. In view of these circumstances, it is awarded that no *ad hoc* increments shall be allowed, as claimed by the Union. This issue is accordingly answered.

Issue No. 2.—Dearness allowance

The Union claims increase of dearness allowance to the extent as stated below:—

Basic pay range.	Dearness allowance.
	Rs.
Up to Rs. 50 ...	... 31
Rs. 50 to Rs. 75 ...	... 42
Rs. 75 to Rs. 100 ...	... 50
Rs. 100 and upwards ...	... 60

It will appear that the claim is much in advance of that awarded by the award of the Second Engineering Tribunal. The basic wage for which the dearness allowance under the Second Engineering Tribunal award was assured was at Rs. 30 as the minimum for the unskilled worker and Rs. 35 as the minimum for the semi-skilled workers. The unskilled worker therefore got a total minimum total wage of Rs. 61 per month and the semi-skilled worker got the total minimum wage of Rs. 66 per month. In this Company, the dearness allowance for wages up to Rs. 50 is Rs. 18 per month under the award of 1950. The minimum total wage of the unskilled worker was, therefore, Rs. 58-10 and that of the semi-skilled worker was Rs. 66-12. The dearness allowance was revised by negotiations between the Management and the Union (*vide* copy of agreement in Appendix A of the written statement of the Company) on 23rd December 1953, by which the dearness allowance for basic pay range up to Rs. 50 was increased to Rs. 20 and the dearness allowance for the other slabs of wages was increased by Re. 1. Since December 1953, the minimum total wage of the unskilled worker is, therefore, Rs. 60-10, which compares with the minimum wage fixed at Rs. 61 for the unskilled worker by the Engineering Tribunal award. The minimum total wage for the semi-skilled worker in this Company comes to Rs. 67-12 as compared to Rs. 66 fixed by the Engineering Tribunal award.

In view of the fact that there was an agreement in December 1953, long after the Second award of the Major Engineering Tribunal and the dearness allowance was revised by this agreement, a claim for revision of the dearness allowance in view of the revision of the dearness allowance by the Second Major Engineering Tribunal is not justified. In view of the circumstances, I do not consider that the claim for revision of the dearness allowance as made should be allowed. This issue is accordingly answered.

Issue No. 3.—Leave and holidays

The Union states in its written statement that all the workers should be granted leave with full wages as mentioned below:—

Privilege leave—30 days to accumulate up to 3 years,

Casual leave—10 days,

Holidays—15 days' holiday with full wage in the year,

should be granted to all workmen.

The Company states in its written statement that the leave and holidays granted by the Company are in line with the other enginerring concerns in the loality. Moreover, under the Factories Act as amended, statutory leave can accumulate up to 30 days. There is no practice whatsoever of giving casual leave to the factory workers. The Company is giving 10 festival holidays as other engineering concerns. The claim of 30 days' privilege leave to the workers of this factory cannot be allowed. They are entitled to annual leave under section 79 of the Factories Act, such leave being allowed to accumulate in the manner provided by that Act, the rate of wages being calculated as under section 80 of the Act. The claim for privilege leave is rejected. No casual leave is also allowed to the factory workers, as this is incompatible with the conditions of service in a factory. It was suggested by the learned Advocate for the Union that the Second Major Engineering Tribunal granted seven days' casual leave with full pay to the factory workers in a year. I do not find this to be correct. Seven days' casual leave with full pay in a year was given only to clerical and supervisory staff and not for employees governed by the Factories Act, 1948. The prayer for 10 days' casual leave with full pay is rejected.

The workmen are allowed 10 days' festival holidays in the year under the 1950 award. There is no ground for increasing this festival holidays. Under the Second Award of the Major Engineering Tribunal, the festival holidays allowed for the engineering firms were 10 days in the year. The claim for increase of festival holidays is also rejected. This issue is accordingly answered.

AWARD

DECISIONS

Issue No. 1

Bonus for 1955.

The Union claimed two bonuses—one month's pay as a condition of service and one month's pay on profit of 1954-55.

The Company, in its written statment, states that bonus was never paid as a condition of service, that the Company was in a solvent position in the past and therefore did not mind paying higher wages, amenities and also bonus as an *ex gratia* payment. As, however, the financial position of the Company deteriorated, the Company could not afford to be generous. In 1954-55, the Company did not make any profit, which would justify the payment of any bonus for 1955. The Company's financial year is the "Sambat" year, *i.e.*, approximately from the second half of October to the first half of October. It is also stated that the profit of the year ending the first half of October, 1955 would not justify the payment of any bonus on the principles of the Full Bench decision of the Hon'ble Labour Appellate Tribunal of India in the case of the Bombay Millowners' Association.

At the time of the hearing of the case, the parties came to an amicable settlement on the claim of bonus by the Union, and it was settled that the Company would pay bonus for the year 1954-55 at the rate of one month's wages in the manner as in the previous year as an *ex-gratia* payment. The compromise petition appears as Appendix A to this award. The petition in Appendix A shall form a part of the award. This issue is accordingly answered.

Issue No. 2.—Introduction of grade system

The Union states that the Company does not grant increment in pay annually, nor is there any certainty as to the rate of increment. The Union, on the principles of gradation and wage fixation, claims the grades for the different categories of workmen, as shown in Annexure "C", with the provision that one increment should be given for the purpose of fitting in for every past two years of service in the Company. The Company has sufficient resources, stability and profit to allow the said grade and increments, and taking into consideration the existing low wages of the workmen, the award may be given retrospective effect since the date of claim, 1st November 1955.

The Company, in its written statement, states that the question was raised before Shri G. Palit, Judge of the Industrial Tribunal, and the Company submitted its written statements explaining the position. The Union withdrew its claim at the time of the hearing. Since then the position has not been changed justifying revival of the question. There was a Minimum Wages Committee appointed by the Government of West Bengal in respect of Oil Industries, and the said Committee investigated the condition of service in the oil industry and fixed the wages of different categories of workers employed therein. The Company has been paying much higher wages to its workers than those fixed by the said Committee. No case has been made out for fixing a grade or time scale of wage structure for this particular unit of the oil industry. The wage structure under this Company and the other amenities paid by it are much higher than those paid by other units of the oil industry. There is no justification for the introduction of a grade system and a time scale of pay as demanded by the Union.

It was stated by the learned Advocate for the Union that this particular Mill is the biggest in the oil industry in West Bengal and therefore it should grant a grade scale of salary. It is claimed that it has both stability and prosperity, and in view of the principles enunciated in the case of Britannia Buildings, reported in 1954 L.A.C. 10, time scales of wages should be introduced in this Company. The learned Advocate for the Company stated that the scale of pay which this Company is paying is higher than that paid by other Companies, and the Company has been suffering losses for the last three years, viz., 1952-53, 1953-54 and 1954-55. It is claimed that the stage has come in this Company for retrenchment of staff, and as a matter of fact, some top officers have been retrenched. It is, therefore, stated that the Company does not enjoy that stability and prosperity on which incremental scales can be introduced for its employees.

The Government of West Bengal, in the Department of Labour, by notification No. 112Lab., dated 9th January 1950, appointed a Committee to hold enquiry and to advise the Government in fixing the minimum wages in respect of employees in the Oil Mills in West Bengal. The report of this Committee was sent to Government on 12th December 1951 and by notification No. 1486Lab., dated 7th March 1951 (*vide Calcutta Gazette*, dated 15th March 1951), the Government was pleased to fix the minimum rates of wages payable to employees employed in the Oil Mills in the State of West Bengal, as specified in the schedule annexed thereto. In accordance with that schedule, minimum rates of basic wages and dearness allowance paid in the Oil Mills of Calcutta and Howrah so long as the cost of living index was 350 with 1939 as 100 were fixed at Rs. 50, (basic wage Rs. 26 plus dearness allowance Rs. 24) for unskilled workers, at Rs. 56 (basic pay Rs. 32 plus dearness allowance, Rs. 24) for the semi-skilled workers and Rs. 76 (basic pay Rs. 52 plus dearness allowance Rs. 24) for the skilled workers. It appears that in this Company the minimum wage of the unskilled workers, semi-skilled workers and skilled workers are paid at Rs. 57-8, Rs. 61-8 and Rs. 100 respectively. This shows that the workers in this Company are getting higher wages than the notified minimum wages. Exhibits A and A(1) are profit and loss account for the years 1952-53 and 1953-54. It is stated that the profit and loss account for 1954-55 has not been compiled as yet. Exhibits A and A(1) show loss of about five lakhs of rupees in each of the two years mentioned. It was also stated by the learned Advocate that the year 1954-55 was also a year of loss. The oil industry is at present passing through a crisis and it is a well-known fact that many of the units of this industry are closing down temporarily or permanently for inability to work economically with imported seeds from U. P. It has been decided in the case of Simbhaoli Industries, Ltd., reported in 1954 L.A.C. 638, and in the case of Union Drug Company, reported in 1953 L.A.C., 713, that before incremental wages can be imposed by adjudication, it is essential to see whether the employer will be able to bear its burden. It is stated that the financial condition of the Company must be such as to lead to the conclusion that it would be able to pay the increments year by year for an appreciable number of years, for wage scales when settled are intended to be long-term schemes. Considering the financial condition of this Company and the circumstances surrounding the industry, I am not of the opinion that incremental scales should be introduced in this Company, in view of the principles laid down by the Hon'ble Labour Appellate Tribunal of India as mentioned above. The claim of the Union for introduction of grade system or incremental scales of salaries is rejected. This issue is accordingly answered.

Issue No. 3.—Leave

The Union states in its written statement that the leave offered by the Company is extremely inadequate and out of all proportion, and it claims the following periods of leave with full wages in a year:—

Privilege Leave—One month to accumulate for 3 years.

Casual Leave—15 days.

The Company, in its written statement, states that it grants leave with pay as follows:—

(1) Statutory Leave—According to the Factories Act.

(2) Medical Leave—15 days on full pay and 15 days on quarter pay, on the production of medical certificate to the satisfaction of the Management.

This leave will now be governed by the provisions of the Employees' State Insurance Act.

(3) Holidays—12½ days.

The Company states that the present leave rule is fair and proper and does not require any revision, especially in view of the present financial position of the Company.

By the award of the Industrial Tribunal in the case of six Oil Mills, being Lakshmi Oil Mills, Ramkrishna Oil Mills, Sree Durga Oil Mills, Bhadrakali Oil Mills, Ganesh Oil Mills and Santipur Pure Oil Mills, all of Calcutta, published by Notification dated 8th March 1952, it was awarded that annual leave with wages shall be given according to the provisions of section 79 of the Factories Act, 1948, subject to a minimum of 14 days in the year. I also award in this case that the Bhagat Oil Mills will also grant the same annual leave with wages. In the case of Lakshmi Oil Mills and five other Oil Mills, it was further awarded that leave without pay for 15 days in a year cumulative for two years shall be given. I also award accordingly in this case. In that case it was awarded also that workers would get casual leave without pay for 10 days in a year. I also award that workers in the Bhagat Oil Mills shall get casual leave without pay for 10 days in a year. There is no custom of granting any casual leave with pay in any factory. The claim for casual leave with pay as made by the Union is, therefore, rejected. This issue is accordingly answered.

Issue No. 4.—Quarters or in lieu house allowance.

The Union states in its written statement that the Company or the workmen have always kept the housing expenses out of consideration in the wages fixed and the same has been separately conceived. Under the circumstances, to do bare justice to the most of the workmen who have not yet been provided with quarters, the Company should either give quarters or house rent, and the Union claims housing accommodation for all without discrimination and to remove the discrimination existing, the Company should pay Rs. 10 flat or 15 per cent. of the pay, whichever be higher as rent per head in lieu of housing accommodation so long as housing accommodation is not possible. The Company states that there is no obligation on the part of the employer to provide quarters or accommodation to the workers concerned. The wages paid to the workers has taken into account the needs of the workers in respect of this claim. The Company, however, purely as a gesture of generosity has provided quarters to its manual workers as far as practicable. The Company had some large godowns in which many workers are allowed to stay, and to make their stay comfortable, the Company has provided further amenities in the shape of latrines, electric lights, pipe water, etc. They are, however, allowed to occupy the quarters on the basis of individuals and not as family quarters, with the distinct understanding that if on any future date the godown is required for the Company's business, they will have to vacate the same. No family members are allowed to be taken into the quarters.

On this condition, at present about 215 manual workers out of 238 workmen have been occupying the said godown. The remaining 23 workers, if they so desire, can use the godown on the same condition, *i.e.*, to vacate the quarters as and when required by the Company for its business.

The claim of the Union that the Company or the workmen have always kept the housing expenses out of consideration in the wages fixed and the same have been separately conceived is unworthy of acceptance. The Minimum Wages of the workmen in the Oil Mill industry in West Bengal, as notified by the Government of West Bengal, includes the cost of housing accommodation in the wages. The Company is paying higher wages than the notified minimum wages. In every claim of fixation of wages, the housing accommodation is taken as an element of necessity, for which provision is made in the wages. The Company, it appears, is granting housing accommodation to most of the workers as a gesture of goodwill to them and the Company is willing to extend the same benefit to the remaining 23 workmen. In these circumstances, there is no point in pressing the claim for housing accommodation for all workmen or for a claim of house allowance in lieu of housing accommodation. This claim is, therefore, rejected. This issue is accordingly answered.

AWARD

4. Before I consider the issues specifically I think it worthwhile just to preface it by a brief reference to the facts which have led up to the present dispute.

According to the Unions Messrs. Burn & Co., Ltd., Refractory and Ceramic Works are a group of factories having branches at Durgapur, Gulfabari, No. 2 Works, Lalkuti Works at Raniguni, and Ondal for manufacture of ceramic and other allied products. This group of factories formed a part of the big organisation of Burn & Co., Ltd., which had its Head Office at 12, Mission Row, Calcutta. The Company undertakes manufacture of fire bricks, fire clay and various kinds of refractory and ceramic products. Out of this Ranigunj group of factories, in the present case only the No. 2 Works and the Lalkuti Works at Ranigunj have been involved. The Ondal Works and the Durgapur Works I am told would abide by the results of this case under a separate agreement. The Refractory Works in its different factories employ about 2,600 hands comprising clerks, workers and other staff. The said Works is said to be a highly prosperous concern. Against that background the present dispute has been pitched.

The Company on the other hand, has taken a legal objection that the Government order of reference is bad because the dispute originally was an open reference. Government is not competent to amend the said order of reference by adding issues to the same. The Company also denies that the concern in question is a prosperous one. It is rather contended that the Works have been suffering losses. During the last World War, this concern was engaged in manufacturing fire bricks. The No. 2 Works was started about 25 years later for this purpose. The No. 2 Works was also manufacturing white glazed sanitary wares. The Lalkuti Works was established in 1918. Its principal product was the manufacture of silica and magnesite bricks. In 1954 the Company had closed down the No. 1 Works. The Union was formed sometime in 1948 and the relation between the Union and the Company was perfectly cordial. But the conciliatory attitude of the Company was misconstrued by the Union as an appeasing policy of the Company. So trouble arose. Strikes, slow-downs and bad conduct towards the officers followed. The situation became very grave in March 1954, and the present dispute has in its background the picture of this situation. Specific objections of the Company will be dealt with in course of consideration of the issues.

Regarding the legal objection raised by the Company that the Government order of reference is bad I must point out that this objection has no substance. Government having made the reference it was up to it to amend the same. This follows under the General Clauses Act. So in that view the present order of reference is not defective. It is next contended that the issues in question were not the subject-matter of the conciliation, and that there being no conciliation on those matters Government cannot make any reference on them. Of course, the Industrial Disputes Act provides for a reference for compulsory adjudication when the conciliation fails. But that is not essential. When Government is inclined to think that a dispute exists of if it is apprehended, Government can make a reference. So it is not necessary that a dispute must always come through the process of conciliation to enable the Government to embody the same in the order of reference. So I dispose of this initial objection raised by the Company.

Issues Nos. 1 and 2.—The Union claims that the basic wage, the dearness allowance, the grades and the scales of pay of all the categories of workmen should be revised. In the written statement of the Staff Union I get that in the case of the second staff there are 4 grades, viz.—

(a) Rs. 55—3—85—E.B.—4—109.

(b) Rs. 85—4—125—E.B.—5—150.

(c) Rs. 125—5—150—E.B.—6—190.

(d) Rs. 150—10—200—E.B.—15—275.

Shri Haripada Chanda, P.W. 2, deposes "There are 4 grades in the second staff including the special grade. I affirm the grades as mentioned in the written statement. The second staff does mainly routine work, but there are scopes for displaying intelligence and initiative. This ought to be divided into two groups with the special grade attached to them. If there are too many grades, then it becomes difficult for one to reach the maximum. There are instances where men have been blocked in one particular grade. The minimum of the grades is Rs. 55 per month...... We are given dearness allowance at Rs. 35 between the pay range Rs. 55 and Rs. 100 per month. Rs. 40 is the dearness allowance between the pay range of Rs. 101 and Rs. 150. Rs. 45 is the dearness allowance between Rs. 151 and Rs. 200. Rs. 50 is the dearness allowance between Rs. 201 and Rs. 250. Rs. 75 is the dearness allowance for the pay range of Rs. 250 and upwards".

So the Union claims that the minimum wage of the workmen should be Rs. 100 and that of the staff should be Rs. 150 per month. The Union in its written statement claims as below:—

Grade—

B—Rs. 180 to Rs. 300 in 12 years.

A—Rs. 280 to Rs. 380 in 10 years.

Special—Rs. 370 to Rs. 530 in 8 years.

Regarding dearness allowance, the Union claims that 70 per cent. of the total remuneration should be fixed as basic wage and 30 per cent. thereof as dearness allowance. The Company resists the claim on all these heads. It contends that the existing wage is fair and adequate and should not be revised. The reasonableness of the present grades and the scales of pay will be clear if I place side by side the scales and the grades which were granted by the Omnibus Engineering Tribunal, West Bengal. The Tribunal fixed three grades for the clerical staff. They are as below:—

A—Rs. 55—2½—80 (meant for non-matriculates).

B—Rs. 60—2½—90 (meant for matriculates).

C—Rs. 70—4—130 (meant for graduates).

Regarding dearness allowance, the Second Engineering Tribunal revised the award given by the First Major Engineering Tribunal, and prescribed as follows:—

Pay range up to Rs. 50—Rs. 31.

Pay range from Rs. 51 to Rs. 100—Rs. 42.

Pay range from Rs. 101 to Rs. 150—Rs. 48.

Pay range from Rs. 150—to Rs. 200—Rs. 54.

Pay range from Rs. 201 and above—Rs. 60.

From a comparison of the two sets of scales of pay and dearness allowance it will be clear that the pay scales granted by the Second Engineering Tribunal is much smaller than what obtain in the present concern. The dearness allowance, however, is a little better so far as the award of the Second Engineering Tribunal is concerned than the dearness allowance which obtains in the present concern. If we consider the fact that the award of the Major Engineering Tribunal was widely accepted by the engineering units in West Bengal, and that it achieved an abiding peace in the industrial field of labour for the time being, we should not hesitate to conclude that it is a fair scale to meet the reasonable aspiration of the labour. I do not say that it is an ideal scale of pay and that it is abreast of the times and that it pretends to meet the needs of the employees. What I want to say is that it should not be lightly modified or disturbed. The cost of living at Raniganj is not certainly more than the cost of living in Calcutta and its suburbs. The employees in the Raniganj Works cannot be supposed to be generally of superior calibre than those who are employed in engineering concerns in or about Calcutta. So, *prima facie*, I am led to conclude that the scales of pay and the grades which obtain in this Raniganj concern may be taken as fair and adequate. But I would like to supplant the scales of dearness allowance which obtain in the Raniganj Works by the scales of dearness allowance given by the Second Engineering Tribunal, as referred to above. That would certainly add a little more to the amount of pay which the staff and the operatives at Raniganj are getting at present, so far as the total remuneration is concerned. This award of the Engineering Tribunal would apply *mutatis mutandis* in the case of workers as I shall show presently.

I, however, find some substance in the contention of the Union that there is absolutely no necessity for keeping so many grades in the category of clerks. Two grades of clerks ought to be taken as sufficient. There should be only one special grade for men of special aptitude and for men having some initiative. If the special grade is not there, it will go to stifle the aspiration of the clerks and delimit their morale as a whole. So a special grade as well as a bottom grade should be there. The two intermediate grades should be amalgamated with certain safeguards. There is also another defect in the existing grades. The span of the grades extends from 10 to 16 years. This certainly does not cover the normal length of service of the clerks. The clerks generally reach the maximum provided at the top of the grade early, and rot there. The result is that unless they are promoted to the next higher grade, they will lose all impetus for their work. This is certainly not a desirable state of things. We know that gratuity is earned in many concerns not before 20 years' service. So, 20 years should be the normal span of the length of service in the grades. That will do away with the stalemate which generally lies in store for most of the clerks. This, I hope, will greatly improve the morale of the workmen as a whole. The Company ought not to grudge a little more pay at the top when they get experienced men. So I modify the grades as below:—

Grade A—$\frac{\text{Rs. 55—3—85}}{\text{10 years}}$ $\frac{\text{E.B.—4—125}}{\text{10 years = 20 years.}}$

Grade B—$\frac{\text{Rs. 85—4—125}}{\text{10 years}}$ $\frac{\text{E.B.—5—150}}{\text{5 years}}$ $\frac{\text{E.B.—6—192}}{\text{7 years = 22 years.}}$

Grade C—$\frac{\text{Rs. 150—10—250}}{\text{10 years}}$ $\frac{\text{E.B.—15—325}}{\text{5 years = 15 years.}}$

The above grades will show that I have twisted up the maximum a bit only to provide for a longer span of service. While I have amalgamated the existing B and C grades into one, I have put a second efficiency bar in the scale of the grade. I have also raised the maximum. In the special grade I have provided for 15 years as it was in the existing grade, but I have also raised the maximum there. This raising of the maximum will go a great way towards meeting the aspiration of the clerical staff as a whole. To this if the increased dearness allowance of the Engineering Tribunal which I have awarded here, is added, I think the staff should be satisfied, if they are reasonable. In this connection I should not be misunderstood for raising the pay scale beyond the limit awarded by the Second Engineering Tribunal. Nobody can deny that the cost of living index is ever on the increase. It is much in excess of the cost of living index which obtained at the time of the Second Engineering Tribunal. It is a matter of common knowledge that the scales of pay still fall far short of the living wage. It only approximates to the fair wage.

Regarding the operatives, the Engineering Tribunal awarded Rs. 30 per month for the unskilled workers, and Rs. 35 for the semi-skilled workers. The scale of pay for the skilled workers was left to be decided by bargaining. Rs. 30 pay *plus* Rs. 31 dearness allowance, i.e., Rs. 61 in all is hardly sufficient for 3 consumption units at the present moment. In the Howrah Works of Messrs. Martin Burn & Co., for instance, the learned Tribunal has awarded Rs. 37 as basic pay for unskilled workers and Rs. 42 as basic pay for the semi-skilled workers. I also grant the same here. I grant them also dearness allowance as prescribed by the Second Engineering Tribunal, West Bengal, viz.—

Rs. 31—per month up to the pay range of Rs. 50,

Rs. 42 for the pay range between Rs. 51 and Rs. 100,

Rs. 48 for the pay range between Rs. 101 and Rs. 150,

Rs. 54 for the pay range between Rs. 151 and Rs. 200, and

Rs. 60 for the pay range of Rs. 201 and above.

I need not go into the facts which have led to the above scales of pay being computed. That is well known, and that has been reiterated in most of the awards here.

I award accordingly that the pay scales, the grades and the dearness allowance of the staff and the operatives will be as above. The Union has demanded retrospective operation of my award. I do not, however, allow it. The present scales of pay that are at present existing in this concern are not so much low that any retrospective effect is required to be given to this award. Passingly I may mention that the amalgamation of the B and the C grades will make an end to the contention about the personal allowance being incorporated into the pay at the top. Under the Ext. 23(a) the Company will, when giving effect to the amalgamation of the grades, incorporate the personal allowance into the pay as stipulated in this award.

Issue No. 3.—The Staff Union contends that vacancies in the First Staff should be filled up by promotion from the Second Staff, and that promotions should be automatic. As a matter of fact, it is contended, recruitment for the First Staff is done from outside. The Company, on the other hand, contends that promotion is a part of the management function. The principle that is followed in the matter by the Company is "efficiency-*cum*-seniority". The Union could not place before me any concrete case where this salutary principle has been departed from. Shri Haripada Chanda, P.W. 2, speaks about his own personal case as one of supersession. Shri S. N. Chakravorty who superseded him was in the special grade. The special grade is above the grade "A". Shri S. N. Chakravorty was brought in from the Railway Freight Section, and he was brought in to do that work alone by himself. The witness, P.W. 2, read up to I.A., and he does not know if Shri S. N. Chakravorty is a graduate. He also does not know if Shri Chakravorty used to draw Rs. 180 per month as a Freight Clerk in the B. & A. Railway. I find from the evidence that it was not a case of supersession. The Company merely recognised the merit and efficiency and filled up the vacancy by a deserving man. No other specific case of unjust promotion could be placed before me. Though I recognise that promotions in the higher grade should be made, as far as possible, consistent with efficiency, from the lower rank, I can never accept as a principle that promotions should be automatic. That would be tantamount to sacrificing efficiency at the door of seniority. "Seniority", no doubt, should be respected, but merit and efficiency should be the ultimate guiding factors in the matter of promotion. If the management is guilty of favouritism, that may give rise to a specific complaint which may be adjudicated upon. So I find that there is not much substance in the contention about the rule of promotion. Regarding the First Staff, fresh blood may be let in because these posts are very responsible. Originality of ideas and efficient administration might guide the choice of personnel in this grade. I can never say that where such men are available from among the rank and file they should not be given preference. Rather, their experience would make up for a little shortcoming in other respect. Md. Ismail, P.W. 4, was promoted from the daily-rated position at Rs. 45 per month to a post in the special grade at Rs. 275 per month. He was even promoted to the First Staff. But on his own choice he was demoted to the Second Staff just to earn more gratuity. The issue is answered as above.

Issue No. 4.—This relates to medical facilities and other related arrangements. The Staff Union contends that patent medicines are not supplied even though prescribed by registered medical practitioners. As it is well known that patent medicines are sometimes the only medicines prescribed by doctors, it is said to be only desirable that the management should supply the same. This Union also submits that a separate hospital should be set up at Raniguuj as the Burnpur Hospital lies at a distance. It is also contended that when the workmen are treated by outside medical practitioners, the Company should also pay their bills. I have got in evidence that the Company maintains a dispensary with 3 medical officers and 5 or 6 compounders. The number of employees will be about 2,500. The Company contends that the medical staff is quite adequate. Captain T. Mookerji, O.P.W. 1, who is the Assistant Works Manager, deposes that the number of employees at Raniguuj would be 2,020, and the number of female workmen would be about 300. The Company has a nurse-*cum*-midwife at the Raniguuj Hospital on whole-time service. Maternity cases are sent up to the Burnpur Hospital which is at a distance of 14 miles from the place. There is also arrangement of beds in the Raniguuj Hospital. The accommodation in the Burnpur Hospital has always been adequate. It might be that during rush time in one or two cases beds could not be available there. But that is only very rare. I admit that patent medicines have come to take a predominant place in prescriptions made by doctors now-a-days. So if patent medicines are as a rule disallowed by the Company, then the patients would practically go without treatment. So I award that where the Company's medical officer would consider particular medicines as essentially necessary in the exigencies of the case, and where he would be of opinion that the patient would be likely to consume the whole of that, he must recommend the same for being allowed by the Company, and the Company should pay the cost of the same. If outside doctors prescribe patent medicines, the cost should be borne by the Company if its medical officer certifies as above.

Regarding the staff in the Raniguuj dispensary, I consider it to be adequate. Regarding the claim that a separate hospital should be set up immediately at Raniguuj for the workers, I do not think it to be a practicable proposition. As such, I am unable to give any direction in the matter.

Shri Haradhan Roy, P.W. 5, who is the General Secretary of the Union, sums up his prayer regarding medical facilities as below: "We want medical facilities as mentioned in the agreement with the Company, dated 12th July 1952 and 2nd June 1953. We want that those agreements should be implemented". The agreement, dated 12th July 1952, is the Ext. 15(a) and the agreement of the 2nd June 1953 is mentioned in the Annexure A1 to the Union's written statement. Regarding the Ext. 15(a), I find as below: "It was agreed that wife, own children, father, mother, unmarried sisters and minor brothers would be considered as dependants of an employee and would be given free medical treatment and that medicines outside the approved schedule but prescribed by the Company's doctor and not available from the Company's dispensary would be supplied by the Company free of charge provided the prescription was countersigned by the C.M.O. It was also agreed that in future arrangement for removing a written consent from the patient of his/her guardian and that in having no accommodation in the Burnpur Hospital the patient might get himself/herself accommodated in any other recognised hospital with the approval of the C.M.O. and in that case the Company would bear the expenses". In the Annexure A1 to the Workers' Union's statement I get this: "It was agreed in the Calcutta meeting that the management would provide for medical treatment including diets for Shri Seobachan, that they would inform the management for the purpose by 25th March 1953 and that this would apply to all T.B. cases till enforcement of the Employees' State Insurance Act in this establishment. On this the Union agreed to call off the strike by the firemen in the Lalkuti Works". The Company, however, does not like to implement these terms saying that they did not confirm all this. But it is the Company itself which refers to the Ext. 15(a), clause 19, to say that the employees would not get any salary for the pen-down strike. So it would be idle for the Company to circumvent the provisions of this agreement totally. If they wanted to do so, they should have either rescinded the said agreement or repudiated some of its terms. Even, however, if I assume that this agreement is not binding on the Company, still I find that the provisions for medical aid given in the Ext. 15(a) are as they should be. So I enforce the said provisions about medical treatment as per the Ext. 15(a) by my present award, so far as the general treatment is concerned.

Regarding T.B. patients, the matter was mooted by the strike of the Kiln Firemen of the Lalkuti Works over the matter of Seobachan. I shall refer to that later on. So far as T.B. patients among the employees are concerned, I award that it is binding on the Company to bear the costs of treatment and diet so long as they are in the hospital admitted by the Company. If they incur costs elsewhere for their treatment, etc., it will be in the discretion of the Company to allow the same on being satisfied about their genuineness. Shri Kasinath Singh and Shri Subalsakha who were attacked with T.B. and are said to have recovered from the disease have been permitted to join their service by the Company. Brojen and Seobachan have not been so permitted. I can never say that the Company must take back all its employees after they had suffered from T.B. generally. The Company may re-employ them if they are found fit and capable to do work. This disposes of the present issue about medical facilities.

Issue No. 5.—I get from the evidence that about two-thirds of the workers have been provided with quarters. Those who are not so provided, both among the staff and the operatives, are given quarter allowance at the rate of Rs. 4 on a flat rate. The Union claims that all the workers must be provided with quarters, and the staff should get at least a major portion of the rent they are liable to pay for their rented houses. I must say that this is indeed a rather tall claim. To provide two-thirds of the workers with quarters is really a good percentage on which the Company can very well gloat. It is not possible for the Company to give the major portion of the rent of the houses occupied by the staff. It will not do to forget that the cost of housing was included when the wages were calculated and fixed. But when the living wage has not been reached, the employees can very well claim that the high rent they are paying for their accommodation should be shared by the Company as well. They will soften the rigor they are faced with in this connection. That is true. It will be really blinking at facts if we gloss over the fact that it goes hard with the employees to bear the heavy rent which practically consumes a fair portion of their total salary. But the case of the Company is also to be considered. The responsibility is not exclusively of the Company to provide accommodation for the workers. The State is liable to pay in the matter. The State has come forward with a subsidised scheme for housing of the industrial workers. The Company will certainly not be slow in taking advantage of this. I do not, however, think that the ends of justice are met if we grant Rs. 4 as quarter allowance per month for both the staff and the workers regarding housing accommodation. So I allow Rs. 5 per month for the workers and Rs. 6 per month for the staff in lieu of accommodation in the Company's houses. This will be prospective.

Issue No. 6.—The Staff Union does not make any demand in this respect. The Workers' Union demands a modification, but does not mention in what specific matter the present Standing Orders fall short of their requirement. The Standing Orders are framed under the Industrial Employment (Standing Orders) Act. If there is any dispute regarding any of the provisions, that matter can be brought up before the Tribunal as an industrial dispute. Here I do not get any such specific allegation. It is only during the trial that Shri Haradhan Roy, P.W. 5, contends that under the existing Standing Orders a man may be retrenched or suspended without notice, or he may be kept on as a temporary hand for over a year. Retrenchment now under the Statute has made notice compulsory. Suspension, where it is immediate, cannot have any notice. I award that a man will be kept on temporary basis for not more than 6 months if it is with an eye to any vacancy or, in other words, where it is a probationary period. But where there is a temporary hand for a temporary work, the period for confirmation will be for over a year unless the work ends meanwhile. This is my award.

Issue No. 7.—This relates to the claim for introduction of incentive bonus. Shri Haradhan Roy, P.W. 5, who was the General Secretary of the Union, at page 7 of his deposition speaks about this matter. He says "Regarding the issue No. 7 I must point out that we have got Production Bonus in Lalkuti, and Works No. 2. The existing scheme of bonus is not satisfactory. We have suggested alternative scheme for Lalkuti. We want that the Works No. 2 should have bonus on the basis of the above scheme". He refers to the Exts. 23 and 23(a) in this connection. Shri Subrahmanian, O.P.W. 9, who was the Works Manager at the relevant time says "We did prepare a scheme for Production Bonus in this Company. Since 1949 or 1950 there is Production Bonus scheme in operation in the Works No. 2. I identify my report about the scheme, Ext. Z 11. In the Works No. 2 even the minimum production to support a scheme for bonus was absent. No Production Bonus could not be given in the Works No. 2. Since 1949 there is Production Bonus scheme in operation in Lalkuti. In my opinion, Production Bonus can be revised. My suggested scheme is Ext. S. My scheme would offer larger bonus to the workers than what they were enjoying under the old scheme. Exhibit F represents the Production Bonus scheme which is now in existence in those Works. Both the workmen as well as the management want a revision of the old scheme of bonus". In cross-examination he says "There is a demand for better bonus from the workers than under the old scheme. As the workmen wanted a greater bonus and a revision of the scheme, so we took it that the workmen treated the bonus scheme in operation as unsatisfactory ....We did not inform the Union in writing that Production Bonus would not be possible in the Works No. 2. We told them verbally". "Our Accountant prepared the present bonus scheme in consultation with me, and not in consultation with the Union. The Union was not asked to co-operate in the preparation of the scheme. The scheme would show now the workers would get greater bonus under it." From the above it will become clear that the scheme which was in operation since 1949 failed to satisfy either the employer or the employees. So both the employers and the employees joined their hands in asking for a better scheme to supplant the scheme already in operation. The Ext. S represents the said scheme prepared by the employer. The exhibits which Shri Haradhan Roy has referred to do not bear on this matter. Besides, we should remember that it was a claim for incentive bonus. Incentive bonus always lies at the discretion of the employer. What the employer considers as sufficient to attract the workers in including them to put in greater effort for increased production, should be the scheme fit to be introduced. If the workers do not show sufficient enthusiasm or if they condemn the scheme, the scheme fails in its objectives. But that does not mean that another alternative scheme can be thrust upon the Company for its acceptance. It is up to the Company to put the target at any fixed limit of production. If the limit is reached, certain bonus is given. But if it is not reached, that would disentitle the workers to have any bonus for any increased effort. Incentive bonus differs essentially from other kinds of bonus, viz., customary bonus, or bonus based on profits. The latter two are no longer *ex-gratia* payments. They can be claimed by the workers almost as a matter of right provided certain conditions are fulfilled. But in the case of incentive bonus, it is more or less an agreement which becomes operative on the consent of both parties, I mean, the employer and the employees. If it fails to enlist the approbation of any of the parties, it cannot be introduced or, even if it is introduced, it cannot be made operative and binding. I have considered the Ext. F, i.e., the existing scheme, and the Ext. S which is the proposed scheme, and I am inclined to think that the proposed scheme is better than the one which preceded it. This will become clear if we turn to the report of Shri Subrahmanian, O.P.W. 9, marked as Ext. Z 11. I agree with him that "in a correctly designed Production Bonus scheme if the factory workers earn a Production Bonus, the factory should have made a profit and not a loss. If, however, the factory makes a loss the scheme is definitely wrong". In this view the Production Bonus scheme is said to be workable in the Lalkuti Works and not in the Works No. 2. For the Works No. 2 no Production Bonus scheme is said to be possible because the minimum target necessary to keep the scheme going is double the present output. According to the report, it is not possible to increase the production to the target level under he existing conditions in the Works No. 2. There is a good deal of substance in this contention. So I accept the Ext. S as the Production Bonus scheme for the Lalkuti Works. This will appear in the Appendix to this award and it will form a part of my present award. This supplants and replaces the previous existing Production Bonus scheme as per the Ext. F. This disposes of the issue in question.

Issue No. 8.—Shri Haradhan Roy, P.W. 5, who is the General Secretary of the Union, says that the canteen should be subsidised by the Company and that the prices of food supplied should be cheaper and the food should also be of proper order. He admits that the Company has provided a room for the canteen, and electricity is supplied there free of cost. He cannot deny that food is not supplied according to the market rates, as per the Ext. G. There is no evidence placed before me that the food supplied in the canteen is of inferior order. This being the position, I do not find any substance in the contention of the Union to bring up this matter as an industrial dispute. It can never be urged that the Company will have to make certain grants towards defraying the costs of the food materials served there. So the issue is disposed of without any direction.

Issue No. 9.—So far back as 21st May 1952 the Second Staff started a pen-down strike. That lasted from 21st May 1952 to 11th June 1952. This was earmarked as a protest against the order of dismissal against Shri R. K. Raja. Shri R. K. Raja was a pay clerk in the Cash Office and Shri P. N. Banerji happened to be the Officer-in-Charge there. They had a quarrel outside the Company's premises. The Company charge-sheeted Shri Raja and dismissed him. Shri Raja, however, was subsequently reinstated in his former post of service. The Union contends that the Company virtually realised its mistake and made amends for the same. That being so, the strike had ample justification, says the Union. As such, the clerks should get their pay during the period of the pen-down strike in question. The Company, on the other hand, contends that Shri Raja regretted his conduct and he was reinstated. In the conciliation proceedings there was a tripartite agreement, dated 10th June 1952. That was during the conciliation proceedings. This agreement was subsequently confirmed by the agreement of 12th July 1952. As a result of that agreement the clerks would not get any salary for the strike period. The agreement, Ext. 15(a), runs thus: "The sit-down strike by the Second Staff was withdrawn on 10th June 1953 and it was agreed that the normal work in all sections would be restored from 11th June 1952. It was also agreed that the employees who participated in the strike would not get any salary for the period of strike and that the arrear work would be completed by working overtime and thus they would be compensated as far as possible".. So it is clear that the clerks who were involved in the pen-down strike were not entitled to any wages. It is, however, contended by the Union that the Company did not implement the undertaking regarding overtime. That may or may not be so. But for that the Union can make a fresh cause of complaint which could be looked into. But they cannot repudiate the solemn agreement for that reason. So the issue is answered by saying that the Second Staff are not entitled to any pay for the period of the pen-down strike in question.

Issue No. 10.—This relates to the claim of the Union for the wages during the strike period from 13th May 1953 to 25th May 1953 undertaken by the Kiln Firemen of the Lalkuti Works. Shri Haradhan Roy, P.W. 5, the General Secretary of the Union, says at page 2 of his deposition: "One Seobachan of Lalkuti contacted T.B. and he was vomiting blood. He wanted cost of treatment in pursuance of the agreement with the Company. The other workers also joined the issue. The Company refused to abide by the agreement regarding payment for the cost of treatment of the workmen. The Company also did not agree to remove Seobachan to any proper hospital. As a protest against this, a strike from 13th May 1953 to 25th May 1953 was launched by the workmen. Later on the Company removed Seobachan to the Fraser Hospital, Burdwan, and also bore the cost of treatment as per the agreement, dated 2nd June 1953. The firemen of Lalkuti were denied the wages for the strike period". Captain T. Mookerji, O.P.W. 1., who is the Assistant Works Manager states at page 11 of his testimony before me: "Seobachan was sent to the Burdwan Hospital in pursuance of the agreement as per the Ext. 15(d)". The Company stands by the Ext. 1, dated 11th May 1953. It is a letter written to the Secretary of the Workers' Union. It runs thus:

"**Shri Seobachan T. No. 2546—Lalkoti Works.**—With reference to your enquiry regarding the abovementioned worker, we would inform you that he was sent to Burnpur Hospital on Thursday the 7th instant for diagnosis of his disease. As he was vomiting blood occasionally he was put by the hospital authorities in the infectious ward, which is the usual practice at Burnpur Hospital. It has been ascertained from the Medical Officer, Burnpur Hospital, that a skiagram of his chest will be taken as soon as the patient stops vomiting blood. He is being given treatment for that purpose and the hospital authorities informed that his condition is better than before. We are, however, writing again to the hospital authorities enquiring about his condition.........Works Manager."

Thus it is clear that the Company took steps in the matter. It had already sent him to the Burnpur Hospital and was doing the needful. But Seobachan left the said hospital on the plea that he was not being given proper attention there. He was later on sent to the Fraser Hospital, Burdwan, and the cost of treatment was borne by the Company. Now, is this a cause for which the Kiln Firemen of the Lalkuti Works could claim justification in embarking upon a strike on 13th May 1953? It appears that the strike was a hasty one, and to all intents and purposes it does not appear as called for. A strike by the workers should be resorted to after all the avenues of settlement have been closed. It should be the last weapon in the hands of the labour. But here it appears that when the Company was not sitting tight, but was taking adequate steps towards the treatment of Seobachan, the Kiln Firemen of the Lalkuti Works took into their heads to launch a strike. So the strike can never be said to be a justified one. As such, no wages for the period of the strike from 13th May 1953 to 25th May 1953 can be allowed to them. The claim stands rejected.

Issue No. 11.—It is the contention of the Union that the Company agreed to upgrade and promote 28 men of the Second Staff, but it was not as good as its words. In this way it violated the agreements, dated 28th August 1951 and 2nd June 1953. The Union claims compensation for these 28 men of the Second Staff who were refused promotion. The agreements, dated 28th August 1951 and 2nd June 1953 are Annexures A and A1, respectively, to the written statement filed by the Staff Union. The following was stated in the agreement, dated 28th August 1951, abovementioned: "It is decided that the cases of all members of the staff who consider that their classification, promotion or increment had not been carried out justly will have an opportunity to represent their causes through the Union before the Deputy Labour Commissioner, West Bengal, and thereafter such cases will be considered and negotiated on a tripartite basis". In the Annexure A1 above referred to, dated 2nd June 1953, the agreement runs thus: "The management have already agreed to upgrade 22 other members of the staff specifically mentioned in the tripartite meeting held at Calcutta on 22nd and 23rd May 1953". On the basis of this the Union contends that the Company did not implement these agreements. Shri Haradhan Roy, P.W. 5, the General Secretary of the Union, at page 9 of his deposition states: "We wanted to raise the salary of the entire clerical staff inclusive of the list of 39 that we had pointed in the list of anomalies. This was done by an agreement and we did not submit any separate list. (Admits the letter Ext. J). The list of the entire clerical staff was sent. We pressed for increase of emolument of each and every of the clerical staff......... We had lots of discussions with the Company over this matter of increasing the wages of the clerical employees. I do not remember if the Company wanted to confine the points of disputes not in respect of the entire clerical staff but in respect of a few anomaly cases only". Captain T. Mookerji, the Assistant Works Manager, says at page 1 of his deposition: "In 1953 we had upgraded 11 of the Second Staff. We received the Ext. J5, the letter, from the Union. Besides this. we did not receive any further list containing 39 or 28 names, as the Union alleges". At page 11 of the Company's written statement the Company has made its position clear. It says "A conciliation proceeding in respect of this matter was started and joint meetings were held on 22nd and 23rd of May 1953 at the office of the Deputy Labour Commissioner, but no agreement could be arrived at even at this time. Another meeting was held on 2nd June 1953. This time also no agreement was arrived at, but curiously enough, the Deputy Labour Commissioner sent a copy of the minutes of the meeting prepared by him to the parties which hinted as if the Company had agreed to upgrade certain clerks. As this was not a correct report of what had happened in the meeting, the Managing Agents by their letter, dated 15th June 1955, vehemently protested against the alleged agreement mentioned in the said minutes. Consequently the Union's claim for upgrading based upon the alleged agreement has no legs to stand upon". So it is clear that the Company does not admit the agreement, dated 2nd June 1953, Anexure A1 to the Union's written statement. So there can be no question of its implementation. What happened appears to me is that some sort of tentative agreement was reached between the parties which, however, did not eventually materialise. It was arranged that when the Deputy Labour Commissioner would visit the Works next, the men in the list who deserved upgrading but were not so done would have their cases considered by him. But I am told that during the next visit of the Deputy Labour Commissioner as Shri Ashoke Chatterji happened to be absent, the list aforesaid was neither placed before him nor was it considered by him. The Managing Agents lost no time in repudiating the said agreement as contained in the Deputy Labour Commissioner's minutes. So there being no finalised agreement, I am unable to give any relief on this score. Besides, it is a part of the management function to determine which persons would be entitled to or eligible for annual increment, wages, promotion, etc. That is not properly an industrial dispute which can come before an Industrial Tribunal. If any worker claims promotion and that is unjustly denied by the Company, that matter may develop into an industrial dispute requiring settlement by a Tribunal. As the matter stands, I am unable to grant any relief in the present case.

Issue No. 12.—Here also the Union refers to the agreements, dated 12th July 1953 and 2nd June 1953 as already referred to, and claims relief on the basis thereof, in the shape of compensation. But in view of the Company's stand, as I have already remarked it appears that none of these two agreements was actually finalised by the consent of the management. Unless these are accepted by the Company, it cannot be said that they are applicable or can be enforced upon it. In the Annexure A1 to the Staff Union's written statement, dated 2nd June 1953, it appears that the management agreed to provide for medical treatment including diet, for Seobachan, and that this practice would apply to all T.B. cases till the enforcement of the Employees State Insurance Act in this establishment. By this the Union wants to say that the Company had undertaken to provide for medical treatment including diet for all T.B. cases till their recovery. But the Ext. 23(a), dated the 1st March 1954 states: "With reference to your above letter, we have to state that there was no agreement at the bi-partite conference on 14th August 1953, and no minutes were recorded on the discussions. There was a proposal made at the meeting to increase the diet allowance from Rs. 20 for 3 months, to Rs. 50, but at no time was it suggested as stated by you, that this amount would be paid until such time the patient was cured. Such an unlimited obligation could not be undertaken by any Company. Further, no agreement could be entered into until it had the approval of the Managing Agents". Then the Company sums up as follows:

"The lump sum *ex-gratia* payment will be assessed after taking into consideration all relevant factors and will be in addition to all the benefits at present enjoyed by T.B. patients, i.e.—

(1) 10 days' pay and D.A. in lieu of notice.

(2) Balance of any normal sick leave under Company's rules.

(3) Rs. 20 per month diet allowance for 3 months.

(4) Medicines for 3 months' treatment as prescribed by the Company's M.O. which will be handed over to them at the time of discharge.

(5) Rs. 2 per injection for the course prescribed, for paying the compounders administering the injections. Where the patient is able to secure medicines prescribed by our doctor at his native place, he may be paid a sum of Rs. 150 in lieu of the prescribed medicines."

Now, the point before me is that if these agreements have not been finalised to become enforceable, then what is the position? What should be the rules governing the case of such T.B. patients? It appears that the question of T.B. patients had very much taxed the employees. As a matter of fact, it was the cause of the strike by the Kiln Firemen of the Lalkuti Works. So it requires an adjudication. Now, if I consider the case of Government servants contacting T.B., I find that they are first of all allowed to exhaust all kinds of leave to their credit—both privilege and sick leave. Thereafter if they continue to suffer, they are asked to be examined by doctors just to see whether there is any chance of early recovery or recovery at all. If they are found otherwise, then they are granted invalid pension, if the same is eligible to them, or other kinds of relief on such basis. Considered in that light, the existing benefits which the present Company gives to its employees do not appear to me to be inadequate. So I am inclined to accept the continuance of the present system of payment to T.B. patients as obtained in the present Company. I do not like to improve upon the same at the present moment.

Another question that has been raised in this issue is whether the T.B. patients after their recovery should be allowed to resume their duties. It is very difficult to answer this generally. It should depend upon particular facts of each case. If a T.B. patient after his recovery is declared fit by the Company's doctor to do his job, and if he is no longer a source of infection to his co-workers, then certainly the Company must allow him to join. As T.B. cases admit of recovery, the mere fact that one had been a victim of tuberculosis cannot and should not forfeit his service totally. So, each case should be considered separately on its own merits by the Company with sympathy, and appropriate relief should be given where necessary. The issue is thus answered.

Issue No. 13.—The Staff Union is silent on this issue. The Workers' Union at page 12 of its written statement says "Dress for boilermen, etc. These workmen are exposed to risk and danger. Protective equipments and garments may please be ordered to be supplied". The Company says that it supplies clothings and equipments to their workmen as required under the Factories Act and Rules. Materials are not placed before me just to show that the dress and other equipments at present supplied by the Company are inadequate or are found wanting. Unless specific materials are placed before the Tribunal, it cannot see its way to grant any relief. So I answer the issue without any direction.

Issue No. 14.—The Union claims revision of the leave rules. At page 8 of the written statement of the Staff Union I get that the workers are at present allowed 17 or 18 days' annual leave per year. The second staff get only 12 days' annual leave. They are allowed further 21 days' leave which comprises privilege leave and sick leave on full pay, and also 15 days' sick leave on half pay per year. They want 30 days' annual leave accumulative up to 2 years, and 36 days' privilege leave and sick leave annually on full pay, and also 15 days' sick leave annually on half pay. The Workers' Union in its written statement contend that out of the 15 holidays admissible to the workers, only five holidays are with pay and dearness allowance and the rest are on dearness allowance only. It claims holidays with pay for all these 15 days. The Company is opposed to any change. Now, let me place here the award of the Omnibus Engineering Tribunal regarding leave conditions. That will show whether the Company's leave system requires any revision. That award runs as follows:—

> "For the operatives—statutory leave under the Factories Act—8 festival holidays and sick leave for 15 days on half pay. Five days' other leave.
>
> For the clerks—festival leave as above, privilege leave for 21 days with full pay. Sick leave 15 days on half pay and casual leave one week on full pay. Privilege leave accumulates for 3 years."

First I consider the case of the second staff. They get 12 days' annual leave. I think this is by itself rather inadequate. I make it 21 days' annual leave which will accumulate for 3 years. They also enjoy 21 days' privilege-*cum*-sick leave with full pay. This is rather anomalous. Privilege leave can be claimed more or less as a matter of right, and it can be taken to meet any necessity, while sick leave can only be had in case of sickness certified by a doctor. So privilege leave should be unqualified and for 21 days. In this view of the matter I allow 15 days' sick leave with full pay out of the 21 days previously granted, and 15 days' sick leave on half pay per year as now. About festival holidays, it should be like that of the "workers".

Regarding the workers, I make the annual leave as provided under the Factories Act. Regarding festival holidays, I make it eight as given in the Engineering Tribunal's award, on full pay including dearness allowance, and also seven days' festival holidays with dearness allowance only, without pay. So I do not increase the total number of festival holidays beyond what are being granted by the Company to the workers.

Regarding sick leave, the workers will get 15 days per year on half pay. I dispose of the issue accordingly. This will be prospective, I mean, it will come into effect with the operation of this award.

Issue No. 15.—This relates to the claim for revision of the present gratuity system. The proposed gratuity system is as per page 9 of the written statement of the Staff Union. Shri Haradhan Roy, P.W. 5, who is the General Secretary of the Union says at page 4 of his deposition "Under the existing gratuity system, workmen are allowed gratuity at the rate of 15 days' pay in case of discharge on medical grounds after a length of 10 years' service. In other cases workers are allowed gratuity at the above rate only if they have put in 15 years' service. In case of a T.B. patient now who is asked to retire on medical grounds, he is only given a lump sum as gratuity, and at the above rate. What we want is that there should be no period of restriction in cases of persons retiring on medical grounds, and also in cases of usual gratuity benefits the rule of 15 years should be substituted by a rule of 5 years. The amount of gratuity should comprise salary and dearness allowance." The Company, of course, stands by its present system of gratuity. The Union at page 9 of its statement says that the qualifying period for gratuity should be brought down to five years' service. For service between 5 years and 10 years it should be at the rate of half month's wages including dearness allowance on the basis of the wages last drawn, and for service above 10 years but below 20 years the rate should be one month's salary and dearness allowance for each year of completed service, and for service between 20 years and 30 years it should be at the rate of 1½ months' salary and dearness allowance, and above 30 years it should be at the rate of 2 months' salary and dearness allowance. This is an extravagant claim. Now, if gratuity is a retiral benefit, there can be no point in bringing down the qualifying period of eligibility. A worker must put in a fairly long period of service, and should come near his superannuation when the question of gratuity can at all arise. So to mark the qualifying period at five years would be defeating the very purpose of gratuity. After all, gratuity is a gift, or a sort of reward which the Company gives in consideration of the considerable length of approved service by which the Company must have benefited itself. So I cannot uphold the contention in favour of reducing the qualifying period for the attainment of gratuity to five years in any case, and in any event. This position is not changed if a graduated scale of gratuity is given ranging from five to ten years' service. So I do not allow it.

While I consider that there is ample justification to make the qualifying period lesser in cases of retirement on medical grounds over which the workers do not have any control, than in cases of normal retirement, yet the qualifying period cannot be reduced below 10 years. So I approve of the continuance of the existing system of gratuity in cases of retirement in consequence of accident, sickness or other grounds over which the workers do not have any control, and which occur in course of their employment disabling them from further service. In cases of men contacting T.B. before attainment of 10 years' service, the Company may give them, as now, a lump sum of gratuity with an eye to the length of service. After 10 years' service, he will get usual gratuity as now current. The rate of gratuity would be 15 days' basic pay for each year of completed service. I do not allow dearness allowance here. I also want to impose a ceiling limit on the amount of gratuity. It should not exceed 15 months' pay in any case. Though I impose the terms of gratuity on the lines as are enjoyed by the workers at present, yet if my terms narrow down the existing benefits anywhere in any way, the existing terms shall prevail. I answer the issue accordingly.

Issue No. 16.—This issue relates to the claim of the employees engaged in railway freight work who claim enhancement of salary on the strength of an agreement, dated 2nd June 1953. About this the Staff Union is silent. The Workers' Union at page 14 of its written statement contends "The management also refused to grant increment to the clerks (who in addition to their normal work helped to complete the railway freight job) to whom it promised as per the agreement, dated 2nd June 1953. The Union prays that the promised increment by the management be granted to the concerned clerks over and above any increment that they may earn by the award of the Hon'ble Tribunal with full compensation for the loss suffered by them". The Company contends at page 12 of its written statement that it never accepted the said agreement and the question of its implementation cannot arise. Shri Haradhan Roy, P.W. 5, says at page 4 of his deposition "We want the implementation in full of the agreement, dated 2nd June 1953, so far as railway freight employees are concerned regarding enhancement of their salary. We want that this agreement should be implemented. J. C. Roy was such a railway freight employee. Comptometer operators also used to do freight work. There were also other employees doing freight work" The agreement, dated 2nd June 1953 is the Annexure A1 to the written statement of the staff Union. In the body of the said agreement all that I get is that Shri Ashoke Chatterji would personally enquire into the matter of fixation of salary of those clerks who used to do the job of the present freight clerks. It is also found in the said agreement that Shri Ashoke Chatterji could not attend the day's meeting, and so he did not confirm the said agreement. I also get that the managing agents did not confirm this agreement later on, and rather repudiated it to a certain extent. So the question of its implementation cannot arise. Besides, this agreement does not go to the length of saying that the salary of those clerks doing the railway freight work would be increased. In the absence of any definite term being there in the said agreement, I do not think that it can be enforced upon the Company. All that it purports to say is that their cases would be considered. So in the present case I am unable to grant any relief to such clerks doing such work in the past merely on the basis of this agreement which was at best, a tentative and an indefinite one. So I dispose of the issue without any direction.

Issue No. 17.—It is alleged by the Company that on 2nd March 1954 a large number of workers led by Shri Haradhan Paul and Shri Khagen Das and also two others, viz., Shri H. P. Chakravorty and Shri Somenath Roy left their work in the No. 2 Works without permission and in defiance of specific orders to the contrary from the Works-in-charge, and staged a demonstration before the Works Manager's office at Lalkuti. On 3rd March 1954 the management issued charge-sheets against the abovenamed four persons who had acted as leaders in the incident aforesaid. On enquiry the management found Shri Haradhan Paul and Shri Khagen Das guilty, and in view of their past records discharged them from service. The other two were let off with warnings. Khagen Das, P.W. 6, in his deposition before me states that he went to Lalkuti with permission of his in-charge officer Shri Ansu Banerji. He admits to have gone there at 3 or 3-30 p.m., and by the time they returned, their working hours were over. They went to Lalkuti to meet Mr. Fisher in connection with their demands touching medical relief, etc. He admits further that Lalkuti stands at a distance of a quarter of a mile from his place of work which was No. 2 Works. That gate pass is required for entrance into the factory and exit therefrom is not denied. He admits that on this particular occasion they had no gate pass because their in-charge officer saw them out of the gate. Ansu Babu, O.P.W. 3., has deposed before me. He says that on the 2nd March 1954 Khagen, Haradhan and many others, numbering about 10 or 12, came to him at about 3 p.m. They said that they wanted to go to see the Works Manager and the General Superintendent who were in the Lalkuti Works. Ansu Babu then phoned to the Works Manager and told him that these people wanted to see the Works Manager in connection with matters of the Durgapur Works, and also in respect of their grievances. The Works Manager asked Ansu Babu not to permit more than 3 people to see him. He then communicated this direction of the Works Manager to those people. They declined to accept the direction, and they all went there ignoring his advice. Shri Ansu Banerji asked the Foreman to ascertain how many of the workers had left. The Foreman gave his report as per the Ext. N. One hour's wages were deducted from the pay of those people who had left, and their number was 250. Ext. Z4 shows the names of those persons. Ext. M6 is Ansu Babu's report. Capt. T. Mookerji, O.P.W. 1, who was the Assistant Works Manager, describes the incident of the 2nd March 1954. According to him Mr. Fisher came to Ranigunj to discuss some labour problem, specially, the matter of the Durgapur strike. He was with Mr. Fisher in the office in the afternoon. When Mr. Fisher learnt that the workers wanted to meet him from the No. 2

Works, he advised Ansu Babu over the phone that only 3 deputationists should be allowed to wait on him. But, Mr. Mookerji says "All these people and others had left their posts of duty without having obtained permission from the authorities. Having checked the muster roll of the No. 2 Works we found that about 250 workers or so had left their posts between 3 and 4-30 p.m. that day. All these people came to the Lalkuti office. These people came in a body and were shouting. It was about 3 p.m. Through the Personnel Officer and the Group Labour Welfare Officer we told these people that if they went back, the General Superintendent would meet 3 representatives from each of the Works. But they could not persuade them. Then myself went out to speak to them on the same lines. As these people had left their office without permission, we telephoned to the police that there might be disturbance, and some policemen were sent there. When I met these people, they were shouting and throwing threats of violence to people who would go to Durgapur. I could not persuade them. They went on shouting and holding a meeting in front of the office. They went away after the whistle at 4-30 p.m. We wrote to the police officer. Ext. M11 is the letter. Ext. M series bears upon this matter. Charge-sheets were given to these people. They did not give any reply for 20 days. Then we sent reminders......We considered their replies and found them to be unsatisfactory. We issued charge-sheets to 4 people who were the ring-leaders. They were Haradhan Paul, Kha [illegible] s, Somenath and H. P. Chakravorty......After that we considered individual cases with reference to past records and found that Haradhan and Khagen merited dismissal". From this evidence it is clear that these two people, viz., Shri Haradhan Paul and Shri Khagen Das were guilty of defying the orders of the office master. They left the factory ignoring the orders of Shri Ansu Banerji, their in-charge officer. They held a meeting in front of the Lalkuti office and staged a demonstration threatening violence to people who would go to Durgapur at the bidding of the management. They did not return to duty till the working hours were over. They turned a deaf ear to the persuasion of the authorities to leave the place. The past records of Shri Haradhan Paul and Shri Khagen Das are such as fit in with such unruly conduct on their part. In the circumstances if the management had taken a decision to dismiss these two men, the Tribunal cannot interfere with that decision. I do not accept the versions of Shri Haradhan Paul and Shri Khagen Das that their officer-in-charge had seen them out of the gate without gate pass, and that they left Lalkuti as soon as they were asked to do so by the authorities. The order of dismissal is as per the Ext. 16(d). I uphold the order of dismissal passed by the Company and say that the Company was justified in its action towards these two persons, viz., Shri Haradhan Paul and Shri Khagen Das.

Issue No. 18.—This issue relates to the order of suspension on the 7 workers mentioned in the issue. I shall take up their cases one by one. The Company had found these seven persons guilty of gross misconduct, but as there was a Tribunal proceeding in progress before Shri S. C. Mookerji, Tribunal, the Company made an application to the said Tribunal for permission to discharge Shri H. D. Roy and to dismiss the others. Pending the decision of the said Tribunal the Company placed these people under suspension. Even after the agreement that had been effected on the 24th December 1954 and in which the decision was taken to lift the lock-out, the Company kept the charge-sheets alive against these 7 persons. Now, the point before me is whether the Company's orders should stand. The Union contends that the Company did not file any application under section 33 before Shri S. C. Mookerji, as alleged. So this order of suspension for an indefinite period is in itself a punishment, and this should be vacated by the Tribunal. From the evidence I find that some applications alleged to have been filed before the Tribunal, Shri S. C. Mookerji, were missing, and other applications were filed rather late. But all these applications proved to be infructuous because the Tribunal became *functus officio* after one month of the award in the main case. Any way, the fact remains that all these 7 men are still under the order of suspension. If I merely say in the present case that the order of suspension for an indefinite period is bad and *mala fide*, that will not solve the *impases*. I have to consider each case on its merits and see whether the order passed by the management is justified or not. If it is not justified, I shall grant appropriate relief to the man concerned. To do otherwise would be denying justice and keeping the industrial dispute alive.

The pre-eminent purpose for which an Industrial Tribunal exists is to secure peace in the industry by settling disputes, and not by keeping them alive on the ground of the issue as framed being vague and indefinite. The Tribunal has jurisdiction to adjudicate incidental matters arising out of the issue before it. The statute gives it that jurisdiction. So I call upon myself to decide how far the order of the management was justified in each of these cases and also to modify it where necessary, and to grant appropriate relief.

I take up the case of Shri Haradhan Roy first. Against him is the case of the Company that he had been systematically absenting himself from duties without permission as and when he liked. After absenting without permission he wanted to regularise his absence. In this way his conduct was subversive of discipline. The Company, however, refrained from taking any direct action against him because he was the General Secretary of the Union. So the management used to convert his absence without permission either into leave with pay or leave without pay. But when the limit of patience of the management was reached, it issued a letter to him, dated 16th November 1953. This is marked as Ext. O, Annexure A. His reply as per the Annexure A1 was found to be vague. Soon on 25th November 1953 he was given a charge-sheet (Ext. O, Annexure A2). Instead of replying direct he said that his previous letter had covered the points (Ext. O, Annexure A3). Thereafter the Union asked the Company not to address Haradhan direct in this matter, but to send letters to him through the Union. Again Haradhan absented without leave from 25th December 1953 to 27th March 1954, i.e., for over 3 months. He returned to duty on 27th March 1954 when the Company, as per the Ext. O-C wanted him to explain his absence. He again absented without permission from 1st April 1954 to 5th April 1954. The management converted his absence into casual leave. On 13th April 1954 the President of the Union wrote to the Company that Shri H. D. Roy was sent to Calcutta as directed by the Government of West Bengal (*vide* Ext. O-E). When the Company wanted to have a copy of that direction, that was not forthcoming. The Company treated his absence from the 14th April to the 17th April as unauthorised absence (*vide* Ext. O-E2). So the Company, under section 17 of the Standing Orders, decided to discharge him. It placed him under suspension by its order, Ext. O-F. Thereafter an application was filed under section 33 of the Industrial Disputes Act before Shri S. C. Mookerji, Tribunal. That application, however, is missing. Now, it is the stand of the Union that Shri H. D. Roy was victimised for his Union activities which were to the chain of the management. Just at this time the strike was going to be launched. So, if the Union Secretary could be placed under suspension the workers might be off their morale and in consequence thereof the movement might be paralysed. No doubt, the order of suspension might be construed as such in the light of the strike that was going to be launched by the workers. But if we consider the matter in its true perspective, we shall find that Shri H. D. Roy was systematically absenting himself without permission since December 1953, i.e., long before the strike. Shri H. D. Roy seemed to have taken into his head that because he happened to be the General Secretary of the Union, he was beyond the clutches of the Company. The Company could not punish him even if it would. The Company's indulgence in the past might have encouraged him in thinking like this. Instead of conniving at his absence without permission, if the Company had taken firm action against him, the matter would not have come to this pass. The Union Secretary can never claim immunity from punishment for breaking discipline any more than other workers. The only advantage that he enjoys over other workers is that the Company's disciplinary action against him would be more closely scrutinised and examined than in other cases because he has espoused the cause of the workers against the Company. But nothing more than that. When the Company received the Ext. O, Annexures C and C1, it made some enquiry in the P.G. Hospital, Calcutta. He had been there as an indoor patient only for a moiety of the period of absence. This enquiry in the P.G. Hospital was made after receipt of his reply, dated 16th April 1954. Shri Haradhan Roy was treated by the Company's doctor round about the 25th December 1953, i.e., just after he had started absenting. But after that the Company was not kept apprised of his whereabouts. This is highly irregular. There should always be an application for leave when the same is wanted. Leave should be availed of in anticipation of sanction only in very rare cases, viz., in cases of emergency. But Shri H. D. Roy seemed to have thought that he could claim as a matter of right leave for his absence, though that might be without permission and though there might not be any application for the same. This is gross violation of discipline. So if the Company had placed him under suspension, that was in order. I, however, do not endorse the Company's decision to do away with his services altogether. In a manner the Company had also contributed to the present situation. So I uphold the order of suspension against Shri H. D. Roy from 27th April 1954 up to the date of this award coming into operation. During this period he will get no pay and no allowance. This period will be considered or treated as leave without pay, and it will not count towards duty. But the suspension period will come to an end as soon as the award comes into operation, and Shri Haradhan Roy will be taken back in his previous post of employment on pay last drawn, from that date.

Next, I take up the case of Shri Usha Das Gupta. It is the case of the Company that Shri Usha Das Gupta was in the habit of leaving his place of work during working hours without permission. He is said to have systematically defied all the warnings given to him for such conduct. The Company gave a circular, Ext. V—D104, dated 11th January 1952, threatening disciplinary action to be taken against those who would be found loitering outside during working hours. If anybody wanted to leave his place of work and go outside, he must do so with the permission of the departmental head. On 18th March 1954 Shri Das Gupta was found loitering outside his office by his Manager. He was warned by the departmental head as per the Ext. O1-A. Again on 27th March 1954 he was found loitering outside by the Works Manager. He was again warned by the departmental head (Ext. O1-A). Again on 1st April 1954 he was found loitering outside without permission. So he was given a charge-sheet on 1st April 1954 (Ext. O1-B). He gave no reply till 6th June 1954 before receipt of a reminder. The Company considered his reply and informed him that it wanted to dismiss him. Meanwhile he was placed under suspension. An application under section 33 of the Industrial Disputes Act is said to have been made, but that is also missing. Shri Usha Das Gupta is P.W. 12. He has put in 8 years of service under the Company. He was the Assistant Secretary of the Union at the time of his suspension. According to him the Company took this step against him just to create a panic among the workers. His contention is that there was no latrine in the No. 2 Works for the second staff. He did not take any permission to go out because he went to answer the call of nature. But this explanation is hardly convincing. Had this been a fact, he would certainly have mentioned this in his reply to the charge-sheet. But that is not done. He admits at page 2 of his deposition "I did not mention before this that I went out to answer the call of nature because there was no occasion to mention this". I see no reason why there was no occasion for mentioning this when this was his only answer to the charge-sheet. Besides, I find that he was almost in the habit of loitering outside his place of work, and that without permission of his departmental head. From the correspondence between the departmental head and the Works-in-charge I get that Shri Das Gupta did not care to take any permission for going out. He was warned, but that produced no effect upon his conduct. He might have taken into his head that because he was the Assistant Secretary of the Union, he could break discipline with impunity. In such circumstances, if he was placed under suspension, I cannot say that the Company was actuated by any improper motive to victimise him for his Union activities. It was he who gave the handle to the management for taking this action. So I endorse the order of suspension on him. But the penalty of dismissal as proposed to be inflicted upon him by the management, seems to me rather harsh and out of proportion to the offence committed by him. Here also I must point out that if the management had been more firm in the past, and had not connived at the breach of discipline, the matter would not have come to such a pass. So the management also cannot be totally exonerated in this matter. In this view of the matter, I award as follows:

I find that the Company's order for suspension against Shri Usha Ranjan Das Gupta from 13th April 1954 up to the date of my award coming into operation will be justified. Shri Usha Ranjan Das Gupta will get no pay and no allowance during this period. This period will be treated as leave without pay, and will not count towards duty. But the order of suspension must come to an end as soon as my award becomes effective. This employee shall be taken back in his former post of employment under this Company with effect from the date he joins after the enforcement of this award. But this option to join must be exercised within 15 days of the award becoming effective. Then it will lapse.

The cases of Shri S. K. Dey, R. C. Ganguly, H. P. Chakravorty, Shri S. N. Roy and Sitaram practically stand on the same footing. So their cases are taken up together. They admit of having joined the strike in question on 28th April 1954. Rakhal Ganguly says that the strike was launched not by any individual but by the Union. He says that all these 5 persons joined the strike in pursuance of the Union's decision. They were all Executive Committee members of the Union. Shri S. K. Dey was the Assistant Secretary and Shri H. P. Chakravorty was the Cashier of the Union. Capt. T. Mookerjee, O.P.W. 1, says at page 7 of his deposition "Some of the matters of charges, viz., inciting to strike, etc., certainly took place before and during the strike, and matters relating to other charges took place during the strike. These five persons were charge-sheeted because they took part in certain overt act...... Shri H. P.

Chakravorty was not implicated in any overt act, but he was charge-sheeted because his past record was very bad. After the strike there was an agreement by which the lock-out and the strike were withdrawn". At page 16 of his deposition he says "Two items, viz., (1) incitation of the workers and (2) participation in the strike were common in all those charges". Now, if I look to the evidence I do not see any dependable evidence about these workers inciting people to participate in the strike. At all events, I do not get any evidence of any overt act which was done by them in this connection. Certainly, they participated in the strike, and that strike has been found by me as illegal. So they cannot have, under law, wages during the period the strike continued. The strike continued from 28th April 1954 to 1st January 1955 when the strike and the lock-out were both withdrawn. So, so far as that period is concerned, there can be no question of any pay and allowance. After that period the question of suspension as well as the question of pay and compensation will arise. About Shri H. P. Chakravorty it is admitted by Capt. Mookerji that he took no part in any overt act. He was suspended because his past record was bad. Nobody can suddenly be suspended simply because his past record happened to be bad. Past records can have a bearing only on the sentence, and not in hauling up a man for punishment. So the suspension order against him cannot be sustained. But if I look to the Ext. 20(d) I find that the charge against him was instigation and incitement of the other staff and workers on 28th April 1954 to stage an illegal strike. Thus it is clear that the Company was out to rope in anybody who was not in its good book. This also weakens the case of the Company against the other persons. It appears that incitement to strike generally took place during sometime next before the strike in question. But the evidence is very weak to show that any overt action was taken by the Union at that time which could incriminate the workers. So I must hold that the charge of instigating and inciting the workers to indulge in the illegal strike is very vague. It could not be brought home specifically against these five persons. Now, as these persons happened to have been important office-bearers of the Union, they were made responsible for the strike. But that cannot be allowed. The next charge against these persons is that some of them took part in the assault of Shri Bankim Chatterji, O.P.W. 2, the contractor of the Company on the 28th June 1954. He states before me "Sitaram beat me, and Khagen and Somenath were with him. Rakhal Ganguly stood at a distance. I fell down, and 5 or 6 of my ribs got broken. Captain Mookerji's car was passing by at that time, and as a result the miscreants fled away. The Captain picked me up and carried me away. On the 24th when I went to the Union office, I saw Haradhan, Usha Das Gupta, Rakhal Ganguly, Sitaram and Khagen and many other members of the Union there. Sibu Dey and Haradhan threatened me saying that if I dared go to work, I would be beaten. My criminal case is still pending. Sitaram, Khagen and Somenath are accused there". Thus it is clear that the matter is *sub judice* against these persons. I am unable to find these people guilty merely on the uncorroborated testimony of Shri Bankim Chatterji, O.P.W. 2. Captain Mookerji, O.P.W. 1, has deposed before me. He frankly stated that he could not recognise any of those people. So, at best, it may be said that there is room for suspicion against these persons, so far as the evidence before me is concerned. On such evidence these persons should not have been placed under suspension. So the suspension order against these persons cannot be upheld. Hence I award that while I disallow any allowance or wages during the period of the strike in question, as already stated, I award that the suspension order after 1st January 1955 against these five persons should stand cancelled. So from that date up to the date my award become operative, these people should be taken to have been in service. If they are not allowed to join, that should be treated as a lock-out practised on the part of the Company. So I award that these five persons, viz., S. K. Dey, R. C. Ganguly, H. P. Chakravorty, S. N. Roy and Sitaram must get full wages during this period. This period will count towards their service. They will be taken back in their former posts immediately when the award becomes operative.

Issue No. 19.—This issue also relates to a question of suspension for an indefinite period and its justification. I stand by what I have said regarding the scope of jurisdiction of this Tribunal in dealing with this matter. If I find that the order of suspension is unjustified, I should put it to an end as an appropriate relief on a matter which is incidental to the issue before me. The issue also allows me to grant appropriate relief. I take up the cases separately.

First I take up the case of Bansdev. Shri Ansu Banerji O.P.W. 3, who was the store-in-charge, says at page 2 of his deposition "I know Bansdev. On 26th February 1955 at about 11-30 a.m. Bansdev entered my office. At that time Shri Santosh Bose, Shri Sibdas Chatterji and Shri N. K. Ghosh were in my office. Bansdev told me by producing an one anna coin that the Company was indulging in issuing such coins. I saw the coin. Shri Ghosh also saw it. We did not consider that to be a counterfeit one. So I returned the coin to Bansdev and asked him to come on Monday next in case he could not make use of it when I would arrange to get the coin changed. Bansdev then flung the coin on my table saying that I might smoke with the said one anna coin, and left. I called him back and asked him as to why he should say like this. He said that this was a trickery on the part of the Company to give such counterfeit coins to the workers. Bansdev was attached to the Engineering Department. So I sent a report to that department, and a charge-sheet was issued against Bansdev. Thereafter an enquiry followed in which I deposed. The Annexure A4 to the Ext. O7 is the report of the enquiry. Bansdev was present in the enquiry. Bansdev cross-examined me in the enquiry". From this it is clear that the man Bansdev was extremely defiant. He had no occasion to fly into a rage when his boss even without refusing to change the coin only asked him to come on Monday next in case he could not make use of the same. In response to that, to fling the coin on the very face of the officer and to say that he might smoke with it, was certainly a flagrant breach of discipline. This was practically tantamount to adding insult to injury. When confronted, Bansdev did not even regret his conduct. On the contrary, he violently alleged that it was a policy of the Company to give counterfeit coins to the workers. So, in such a case if the Company wants to give him any extreme penalty, I do not think that the Tribunal should interfere with that decision. His charge-sheet is the Ext. 21(e). I do not, however, pass any direction about the nature of punishment to be given to Bansdev as that is not mentioned in the charge-sheet. Only I say that the suspension for an indefinite period which in itself constitutes a punishment, was perfectly justified in this case, and that Bansdev is entitled to no relief at the hands of the Tribunal.

Next, I take up the case of Ghutur. Ext. O9 is a copy of the application under section 33 of the Industrial Disputes Act against Ghutur. The Annexure C to the Ext. O9 is the letter of discharge. Ghutur wrote a letter as per the Ext. O9. He was sent to the Eye Hospital, Medical College, Calcutta. The report of the Eye Specialist is the Annexure F to the Ext. O9. It appears in the said certificate that "he was fit for work for which acuity of vision in only one eye is required". This was on the 24th April 1954. It appears from the application filed before Shri S. C. Mookerji, Tribunal, marked as the Ext. O9, that Ghutur had a cataract in his left eye. He was operated on by an Eye Surgeon of the All-India Blind Relief Society on 25th January 1954. Subsequently his eye developed infection and he was treated by the Company's doctor. Then he was sent to the Eye Specialist, Burnpur. That specialist gave a report stating that the vision of Ghutur in his left eye was nil and that he was not fit for employment. So the Company wanted to terminate his services. It appears from the Ext. 21, dated 17th Januory 1955, that Ghutur was medically declared unfit for service and that he was discharged and asked to collect his dues. So it is clear that Ghutur's services continued till 17th January 1955. It appears also that on the 18th March 1954 he was told by the Company by a letter that his services were no longer required, and that it was terminated with effect from 19th March 1954. But the Company did not put into effect this order because as per the Company's Annexure D of the Ext. O9, dated 24th March 1954, Ghutur asked the Company for reconsideration of his case. From the Annexure E to the said Exhibit, dated 24th April 1954, it appears that his case was still being considered by the Company because it shows that he was referred to the Eye Infirmary, Medical College, Calcutta. So it may clearly be supposed that his services were continuing under the Company till 17th January 1955 when it was terminated by the Ext. 21. There was no suspension order in force against Ghutur after that date because his services were already terminated. So Ghutur should get his dues up to 17th January 1955 which will include his wages and allowance, and after that no suspension order against him does stand requiring setting aside. It is a case of discharge and so Ghutur should get his retiral benefits for retrenchment. But these observations are merely recommendatory as beyond the scope of the issue.

Next I take up the case of Sankar and Sura. It is the Company's case, as per the charge-sheet, Ext. 21(d), that after the unloading of the kiln had been completed at 11-30 a.m. that day (8th April 1955) they had no work in the kilns. Their sirdars were asked to allot the work of shifting of 3" standard firebricks from the pottery shed to the 3" warm shed. As they did not start the work allotted to them after the tiffin recess, the senior foreman Santosh Babu asked them to do the work at 2 p.m. They, however, refused to do the work till 3-30 p.m. They were asked by the departmental head to do the work, but they persisted in their refusal to do that. So charge-sheets were given to them as a measure of disciplinary action on the ground of insubordination, and also they were suspended forthwith. Sankar Munda, P.W. 10, has deposed before me. He has put in 7 years' service at Raniguni. He says that he was asked by Santosh Babu to do the work of setting. As he did not know the work of setting, he did not do it lest the materials might get broken for defective setting. He says that he was later on implicated in connection with Sinha Babu affair, and a police case was started against him. But he was acquitted. From the evidence before me I find that there must have been some misunderstanding somewhere. These two coolies were doing their work as usual till 11-30 a.m. Now, if they were asked to work in the hot room, why would they refuse to work there if the work was of the same nature? Santosh Babu, O.P.W. 4, says in his deposition that at 2 p.m. he received a report that in the hot mill Sankar and Sura were not unloading the bricks from the head of women coolies and the said women coolies were standing there with bricks on their head. Santosh Babu further says "When I asked them as to why they were not unloading bricks, they replied that it was not their work, and so they would not do this unloading work. They said that as they did not know this work, they would not do it." He explains the work of setting of bricks says "Setting of bricks means putting in rows soft bricks taken out of the kiln, or to set them in the vata before burning". He sent a report to Shri Sinha who gave the charge-sheets to these people. From the evidence of Shri Santosh Bose, O.P.W. 4, I am inclined to think that what these people were objecting to was not the unloading of bricks from the head of female coolies, but to put soft bricks in rows. But Santosh Babu would not appreciate this objection. We should also remember that this was on the 8th April 1955 when there was a ferment in the factory and there was a strike notice hanging. So the workers were naturally nervous at that period. They were afraid of doing anything which might bring troubles on them. I am, however, led to think that these people were asked to do certain new job which they had never done before. They were afraid of doing the "setting work" which required certain amount of skill. They were apprehensive of troubles also. So, instead of issuing charge-sheets, Sanotsh Babu ought to have cared to realise their difficulty and solve the same. In the circumstances, I find that these two people, viz., Sankar Munda and Sura Akuria, were wantonly suspended by the Company. I cannot uphold this suspension order. I award that the suspension orders stand cancelled against these two workers, and they will get wages from the day of the order of suspension, i.e., 8th April 1955 up to the date this award becomes operative. They must be placed in their former posts of work.

Issues Nos. 20, 21 and 22.—These issues have been taken up together as they are more or less interconnected and as they depend on the justification or otherwise of the lock-out in question. It is the contention of the Union that the lock-out was *mala fide*. At all events, the Company vindictively withheld the wages and other amenities during this lock-out period only to coerce the Union in ending the strike and in submitting to the dictates of the Company. The strike in question was launched by the Union on 28th April 1954. The Government of West Bengal by its order No. 1965Dis./D/10L-2A/53, dated 5th May 1954, referred the industrial dispute of this Company to the Tribunal presided over by Shri S. C. Mookerji, Judge. The Company declared the lock-out on 30th April 1954, i.e., two days after the launching of the strike. So it is clear that both the strike and the lock-out was posterior in date to the order of reference made by the Government. Under section 24 of the Industrial Disputes Act, 1947, as amended, a strike shall be illegal if it is declared in contravention of section 23 of the said Act. Section 23 of the Act prescribes generall prohibition of strikes and lock-outs. It runs thus " No workmen who is employed in any industrial establishment shall go on strike in breach of contract......... during the pendency of proceedings before a Tribunal and two months after the conclusion of such proceedings". So it is clear that section 24(1)(i) taken with section 23(b) of the Industrial Disputes Act, 1947, will make this strike in question as an illegal strike. It is contended that the lock-out in question is also illegal in that view. That would be so if section 24(3) of the Act had not been there. The sub-section 3 of section 24 runs thus "A lock-out declared in consequence of an illegal strike......shall not be deemed to be illegal". Therefore, the lock-out in question, even though it was illegal technically, ceased to be so because the strike in response of which this was undertaken was illegal under the Act. The Union took great pains to dilate on the fact that the Company by its action had provoked the said strike. It tried to show that the strike in that sense was justified. There may be some truth in the contention that the Company had taken some drastic steps in an explosive atmosphere and thereby it had precipitated the said strike. But that cannot improve matters or make the illegal strike shed its illegality. A strike, though legal, may be unjustified, but an illegal strike though provoked cannot be justified. That is the clear legal position concerning the strike and the lock-out in question.

In this view of the matter let me answer the issues which have been raised. I answer the issue No. 20 stating that the workmen were not entitled to any quarter allowance during this period of the lock-out from 30th April 1954 to 3rd January 1955 when it was lifted. So the quarter allowance was rightly stopped by the Company.

In answer the issue No. 21 saying that the workmen were entitled to no pay, no wages, no allowance and no relief during this period of the lock-out in question. They forfeited their right to such amenities and dues because of their indulging in the illegal strike.

The same is my answer regarding the issue No. 22. The Company was justified in withholding the fixed mess allowance so long as the lock-out lasted.

Thus the three issues are disposed of against the workmen.

Issue No. 23.—During the period of suspension the Company allowed medicines to the suspended workers on payment. As I have found that the orders of suspension given by the Company were justified in most of the cases, I think, no relief by way of compensation can be allowed to the suspended workers for the withholding of medical relief to them by the Company during the period of suspension. Besides, as a rule, when a man is placed under suspension, his wages including allowances, etc., are withheld for the time being. In that view, free medical aid and medicines can also be withheld from such workers. So I cannot say that the Company was unjustified in its conduct towards the suspended workers, so far as medical aid was concerned.

Issue No. 24.—The Workers' Union in its written statement contends that subsequent to 4th January 1955 the duty hours of the workers and the employees have been arbitrarily changed thereby placing them into great inconvenience. At page 16, paragraph 29 of their written statement, it is also alleged that the Company has effected transfers in most arbitrarily manner since 4th January 1955. The Staff Union in its written statement has made no grievance on this score. The Company emphatically denies all these allegations. It contends that it is strictly within the limits of the provisions of the Factories Act and Rules. In the evidence I have not been furnished with any specific instance where the duty hours have been changed to the prejudice of the workers or where transfers have been effected with a *mala fide* motive. So I find that there is no substance in this contention. I answer the issue without any direction.

Issue No. 25.—Neither the Workers' Union nor the Staff Union has placed anything before me to show that the arrangements of water, sanitation and light are defective. No suggestion has also been made how the matter could be improved upon. It is only a general prayer for setting up club, school, library, rest room, sporting arrangement, etc., for the workers and the staff. All that I can do, in the circumstances, is to invite the attention of the management to see that the scope for recreation of the workers and the staff might be enlarged in the near future, as soon as funds are available for the purpose. That might help to run the minds of the workers in a healthy channel thereby creating an atmosphere of useful co-operation and goodwill between the management and the employees. But I am unable to give any direction or thrust any obligation on the management in this respect. No specific case has been cited, and no specific relief can be given.

Issue No. 26.—Shri Haradhan Roy, O.P.W. 5, who is the General Secretary of the Union, says at page 6 of his deposition: "The workmen, because they were not employed in annual stocktaking, suffered diminution in their yearly earning to the tune of Rs. 40 or so. We want that this payment should be made to them. The Store Khalasis and coolies used to do this work". He further states in his cross-examination at page 13: "The stocktaking takes place in one or two months in a year. Annual stocktaking was done by Khalasis by giving them overtime. Outside their duty hours they were required to work overtime, and they were paid overtime wages. Khalasis work from 6-30 a.m. to 11-30 a.m. and then from 1 p.m. to 4-30 p.m. Khalasis were made to work overtime daily for 4 hours. I do not know if we had complained to the Factory Inspector that these people were working beyond prescribed hours as provided in the Factories Act. I do not know if the Factory Inspector asked the Company not to employ these people beyond hours prescribed in the Factories Act. The annual stocktaking was done by starting new shift for which some new hands were employed as also hands from regular shift were diverted for the purpose. This resulted in increase of work-load on regular shifts. The new shift was made to work from 2 p.m. to 10-30 p.m. and another shift worked from 6 a.m. to 2 p.m. for the stocktaking purposes. I cannot give the exact number of Khalasis employed in the Stores Department. There may be 8 Khalasis and 4 coolies. When there is no stocktaking, these Khalasis are employed in general duties. Their duty is from 6-30 a.m. to 4-30 p.m. with a recess of 1½ hours. The stocktaking generally takes place in March or April. It is not correct that during the stocktaking these persons are made to work in different shifts starting from 2 p.m.". The above statement clearly sums up the grievances of the Union concerning the annual stocktaking. It also shows how the management was forced to start a new shift during the annual stocktaking, and under what circumstances. Now, if I place the evidence of Capt. T. Mookerji, O.P.W. 1, at page 9 of his deposition, the stand taken up by the management will be absolutely clear. He says "The annual stocktaking is done from the month of April every year. In 1954 we wanted to start the annual stocktaking in the beginning of April. Previous to 1954 the Khalasis and the Store coolies used to work overtime to do the annual stocktaking. In 1954 we came to be informed that this was not permissible. So we had to get labour from the contractors for the purpose. But we were told by the contractors later on that their labourers were not doing stocktaking because they were afraid of violence from the Store coolies. So we divided the Store coolies in two sections. Out of the 8 Khalasis and 4 coolies we put 4 Khalasis and 2 coolies in the general shift, i.e., from 6-30 a.m. to 4-30 p.m. with the usual recess. The remaining 4 Khalasis and 2 coolies were put to work from 2 p.m to 10-30 p.m. with the usual recess. Those people who were asked to work from 2 to 10 p.m. did not come. So, as a result, the stocktaking in 1954 could not be completed before the 1st of May. Later on this was done by the officers after the workers had gone on strike. By the starting of these shifts very little work-load might have been put upon the workmen. We requisitioned Habiji Khalasis from the Engineering Department just to help the store coolies and Khalasis. But those people from the Engineering Department did not come to the Stores as required. We transferred men from the Grain

Shop to the Stores Department just to help them. But they also refused to carry out work. By the introduction of the second shift we did not reduce the wages of the Store coolies and Khalasis in any way". Thus it is clear that the management was landed into a great trouble with regard to the annual stocktaking. The Factory Inspector on being moved advised the management not to employ workers beyond the hours prescribed in the Factories Act. So the Company had to take recourse to double shifts for the purpose. Though they divided the existing men into two shifts, they prevented any extra load on the men by drafting newhands from other departments. Even the Stores Khalasis and the coolies started creating troubles, and they prevented outside men being requisitioned. This is certainly what is called "A dog in the manger" policy. Neither would they work themselves, nor would they allow other people to come to their help. This attitude of the workers can never be supported. There was no decrease in their earnings. But if they want any increase in their earnings without working for the same, that can never have approval from any quarter. So, I think, the Company was absolutely justified in tackling the situation in the manner it did. The workers are not entitled to claim any compensation for any loss in their extra earning that might have been caused. The Company had no other choice but to effect the present change in the system of annual stocktaking. This issue is answered against the workers.

Issue No. 27.—The Staff Union wants a modification of the existing rules of acting allowance. Under the existing system men in the same block in a grade acting for another will not get acting allowance even though salaries may differ. But if a man of the lower block is just lifted to officiate in the vacancy in the higher block, he will get acting allowance. The minimum qualifying period for acting allowance in cases of the second staff and the monthly-paid staff is 12 days, and the minimum qualifying period for the weekly-paid workers is 3 days only. The time-limit for confirmation is fixed as 3 months in case of daily-rated workers, and 6 months in case of monthly-rated staff. The workmen claim that the minimum qualifying period for acting allowance should be one day instead of 12 days as at present. They also want a modification of the quantum of the acting allowance. Under the existing rules, the quantum of acting allowance is the difference between the salary or wages of the acting incumbent and the minimum salary or wages of the higher block or grade, subject to a maximum of 25 per cent. of the incumbent's basic salary. The Union wants that the difference between the actual salary of the acting incumbent and the actual salary of the man in whose place the acting incumbent works should be the quantum of the acting allowance. The Company does not say anything besides affirming the existing rules. I think the existing rules call for certain modification. Really I fail to understand why the acting incumbent will not get the difference between his acutal pay and the actual pay of the man in whose place he does acting subject, of course, to a maximum of 25 per cent. of his basic salary. The reason is very simple and is certainly based on the sound principle, viz., if the acting-man does practically the same work used to be done by the absentee man, then why should not he get the difference of the salary? The Company certainly derives benefit by his work. So why should the minimum salary of the grade or the block form the basis? The qualifying period for acting allowance to be granted being 12 days in case of monthly-paid staff and 3 days in the case of weekly-paid workers, seems to be quite good. Acting allowance cannot be given only for one day's acting, as the Union claims. That will give rise to complications only, and nothing else.

Regarding the time-limit for confirmation, no relief has been claimed by the Union in its written statement. I do not think that any change is called for. The existing rule is quite good, and it does not admit of any criticism.

Issue No. 28.—The Staff Union claims that the personal allowance which the Company is granting should be deemed to form a part of the salary. Not only that, this personal allowance together with the salary should make a person eligible for promotion to the next higher grade. The Staff Union further says that a number of clerks having reached the top of their grade were kept in that position for several years. The management, on being moved, instead of granting increment, it granted an extra payment under the head of personal allowance. The Union claims that this should be treated as an increment to the salary and, as such, the man concerned should be promoted to the next higher grade from the date of granting such allowance. The Company in its written statement at page 17 states that in 1952 the staff staged demonstrations and as a result of which the management conceded one extra increment to all the staff with effect from 1st March 1952, without prejudice to their annual increment. Neither their grade nor their scale of pay was changed or altered. In the case of those who had already reached the top of their grade, the above increment was granted to them as "personal allowance". That this granting of the personal allowance could not be used as a stepping stone to the next higher grade was clarified in the tripartite conference held on 22nd January 1953. I am led to think that the contention of the Union is rather misconceived. It has resulted from certain confused thinking. Promotion to the next higher grade does not necessarily or automatically follow from the pay scale. That the management never intended to promote all men who had been given personal allowance to the next higher grade would appear clearly from the fact that this increment in their cases was termed as "personal allowance" and not as "increment of salary". "Allowance" differs from "salary" in its essential nature. It is independent of salary. Promotion is never automatic. It depends on efficiency, seniority, etc., and the management takes into consideration all those factors in coming to a decision in the matter of promotion. So it appears to be rather a shrewd manoeuvre on the part of the Union to gain double advantages by utilising the "personal allowance" as a stepping stone to the next higher grade. So I hold that the personal allowance cannot be deemed to be a part of the salary, and it can neither put the holder of the same automatically into the next higher grade.

The Union relies on the Ext. 32(a) in support of its contention. I have gone through the Ext. 32(a) carefully. I do not see how it can support the Union's standpoint. This personal allowance has been allowed to be incorporated in the pay only when the staff are upgraded. So unless the staff are upgraded this contingency will not happen. So the contention of the Union is misconceived.

I answer the issue, accordingly, against the Union.

Issue No. 29.—The Union claims for the office-boys and the peons the same holiday benefits as are being enjoyed by other office staff, and also compensation for them for work on such holidays. Office-boys and peons belong to the subordinate staff. They cannot have the same holidays and leave as are being granted to other office staff. Their leave and holidays are different and more or less limited. Their presence may be necessary on holidays also just for other incidental work. These office-boys and peons are daily-rated employees. They get all the privileges which are admissible to such daily-rated workers. There cannot be a different rule for a section of daily-rated workers. That will only give rise to discrimination which is never approved of in Industrial Law. All that I can say is that these office-boys and peons should be given daily-rates for the holidays on which they are made to work. The issue is thus answered.

Issue No. 30.—Under this issue the claim is for having the same benefit for Sunday work which the monthly-paid staff used to enjoy prior to 27th April 1954. The Staff Union in its written statement at page 12 says "By an agreement, dated 30th June 1951, the monthly-rated employees had been enjoying a special benefit for Sunday work up to 27th April 1954. A copy of the said agreement, dated 30th June 1951, is annexed hereunto and marked with the letter 'B'." The Annexure B runs thus:—

> "It is agreed that irrespective of hours of work and excepting where overtime wages are due according to the Factories Act, 1948, the employees booked and engaged by the Company for Sunday work would be paid wages at the ordinary rates plus half the basic wage as well as half dearness allowance for that Sunday work. The existing principles followed by the Company with regard to the booking of men for Sunday work will continue. This will be given effect to from the 1st of June, 1951."

The Company says that the monthly-rated staff are still enjoying that benefit. Captain Mookerji, O.P.W. 1, who is the Assistant Works Manager, deposes at page 10 of his deposition: "Since the re-opening of the Works in January 1955, the Time Office clerks, numbering about 9, were asked to work on Saturday afternoon and on Sunday just to complete their Muster Rolls. For this they were given compensatory off for 1½ days and also they were paid at 1½ times for work on Sundays as per the agreement with the Union". Shri Haradhan Roy, P.W. 5, the General Secretary of the Union, deposes at page 7 of his depositions: "Prior to 27th April 1954 the monthly-paid staff used to get for work on Sundays at the rate of 1½ times of their wages and also a substitute off day. The workmen used to get, besides their usual wages, 1½ days' wages and a substitute off day for work on Sunday. Now the Company has granted 1½ days' wages and a substitute off day for work on the Sunday". Now, if the Union wants to claim the benefit as per the agreement, dated 30th June 1951 (Annexure B to its written statement), then the Company might only give for Sunday work at 1½ days' basic wage and D.A. There is no provision in the said agreement for a substitute off day. But this is what the management is giving, viz., extra wages plus substitute off day. So the claim of the Union must necessarily be misconceived. It certainly does not want to have the existing benefit curtailed. So I allow the existing system for work on Sunday to continue, viz., payment of 1½ times wages with D.A. plus a substitute off day.

Issue No. 31.—The Union claims hot bonus for the kiln-men as is being enjoyed by the kiln-men of the Lalkuti Works. Shri Haradhan Roy, P.W. 5, admits at page 7 of his deposition: "The kiln-men of Lalkuti get hot bonus. But the kiln-men of the Works No. 2 do not get this. I admit that the temperature or heat at Lalkuti is a little greater than that at the Works No. 2. But the hard job that the kiln-men at Works No. 2 do ought to earn hot bonus for them as at Lalkuti". On behalf of the Company Shri D. R. Subrahmanian, O.P.W. 9, who was the Works Manager at Raniganj, says "In the No. 2 Works the maximum temperature that is created is 1,350 degrees centigrade. In Lalkuti it is 1,500 degree centigrade. The above represent the maximum temperature that obtains in those places. After 1,350 degree centigrade the ash melts, and that is very difficult to pull out. So the workmen are put to great strain while working in a temperature higher than 1,350 degree centigrade. 1,350 degree centigrade temperature obtains in Durgapur and Gulfabari Works. But there is no hot bonus in those places. Even in a portion of Lalkuti where lesser degree of temperature is maintained, no hot bonus is being given. That section is called Tunnel Drier. As higher wage is being given to the firemen of Lalkuti, so wherever there is any vacancy in Lalkuti that is being filled up by a fireman from the No. 2 Works. Some of the men from the No. 2 Works accepted job in Lalkuti, but others who had gone there came back as they could not bear the heat there". In cross-examination he says "Tunnel Drier exists for the last 20 years. This department is also run by kiln-men by turn. There is no such limit fixed less than which would disentitle hot bonus. There is no material which is fired to 1,350 degree centigrade heat at Lalkuti Works ....I can produce records to show that firemen from the No. 2 Works came to work at Lalkuti, but subsequently they went back because of excessive heat. Exhibits Z13 and Z14 are those records. There is nothing in writing to show that the workmen actually wanted to go back".

Now, the evidence makes it clear that the kiln-men at Lalkuti have to work under intense heat which is not the feature in the No. 2 Works. So, the hot bonus that is given to the kiln-men of the Lalkuti Works is well deserved. There is no reason why this should be extended to the men in the No. 2 Works. People from the No. 2 Works were drafted to Lalkuti for greater wages but some of them have come back being unable to work under the intense heat there. I cannot uphold that hot bonus should be granted to every kiln-men of the Works. That being the position, the present claim for the kiln-men of the No. 2 Works regarding hot bonus cannot be sustained. The issue is thus answered.

Issue No. 32.—It is the contention of the Union that the management has curtailed the travelling allowance and the out-station allowance of the staff. The Staff Union is silent on this point. The Workers' Union contends that the system of travelling allowance and other allowances which was in vogue for a long time was suddenly replaced by a new one with effect from 22nd January 1954. It wants that the old system regarding the above should be restored. The Company resists the claim saying that the existing rules are quite proper and do not call for any revision. During the trial nothing has been placed before the Tribunal to show that the Company has curtailed the travelling allowance and the out-station allowance of the staff to their prejudice. It also could not be shown that the existing rules bearing on the matter are such as call for any revision. So I reject the contention of the Union in this respect.

BEFORE THE THIRD INDUSTRIAL TRIBUNAL, WEST BENGAL

Miscellaneous Case No. 99 of 1956 under section 33A of the Industrial Disputes Act

Shri Gopal Mukherji ... *Petitioner,*

versus

Messrs. Indian Chemical & Therapeutical Works, Ltd. ... *Opposite party.*

Present for the workman: Shri Panchanan Bhattacharji.

Present for the Company: Shri S. C. Sen, Advocate.

AWARD

This is a complaint under section 33A of the Industrial Disputes Act by Shri Gopal Mukherji. His case is that during the pendency of the adjudication proceedings in respect of an industrial dispute between the opposite party company and their workmen, he was discharged on 14th May 1956 without permission from the Tribunal and thus the opposite party contravened section 33 of the Industrial Disputes Act. Hence the complaint.

In reply the company stated that the petitioner was at first engaged on the contract on job basis for doing sealing and filling work. There was no fixed attendance and the work was done according to his convenience. As there was some accumulation of work, the petitioner was taken on 19th September 1955 as a temporary hand for doing sealing and filling work on a salary of Rs. 56 and tiffin allowance of Rs. 4 per month. On 14th March 1956 he was given an extension of his temporary service for a fixed period of two months with effect from 15th March 1956. Extension of his temporary service of 2 months ended with 14th May 1956 and there was an automatic termination of his service. So, no question of discharge arises in the aforesaid circumstances and there was no contravention of section 33 of the Industrial Disputes Act.

DECISION

In his deposition Shri Gopal Mukherji (P.W. 1) admitted that before he joined service of the opposite party company on 19th September 1955, he had worked on a contract on job basis for doing sealing and filling work, when he used to receive payment by vouchers. Exhibits C to C(6) show that he had so worked for 6 months. According to P.W. 1 Shri Gopal Mukherji, after the said 6 months, the opposite party company entered his name in the pay-sheet. The evidence shows that this was on 19th September 1955. P.W. 1 further deposed that when the name of an employee was entered in the pay-sheet, he became eligible to be permanent on completion of 6 months' service from the date of entry in the pay-sheet. According to him, after expiry of 6 months from the date of entry of his name in the pay-sheet, he requested the management to permit him to contribute to the Provident Fund, to which the management did not agree and it ultimately discharged him on 14th May 1956. The pay-sheets from the beginning till the date of discharge, which bear his signatures, described him as temporary hand. He could not deny in his deposition that it was so. He stated that he did not notice how his name was described in the pay-sheet. He admittedly received the letter (Ext. 1) on 14th March 1956 from the opposite party company. In that letter it was categorically stated that his temporary service of sealer and filler was being extended for 2 months with effect from 15th March 1956. This would also confirm that he was taken purely on a temporary basis. On 14th May 1956 Shri Gopal Mukherji was admittedly informed that in terms of their letter, dated 14th March 1956, his period of temporary service would end on 14th May 1956 and he should not, therefore, attend the factory any further. All these clearly support the company's case that he was a temporary hand. P.W. 1 had to admit in cross-examination that he did not receive anything in writing from the opposite party to show that his appointment was on permanent basis. The standing order of the company (Ext. D) shows that the company was entitled to take an employee on temporary basis. The work in which he was employed, the evidence shows, was essentially of temporary nature. P.W. 1 admitted that the opposite party company had in its employ two permanent sealers and fillers from before he joined on 19th September 1955. The evidence shows that as there was some accumulation of work due to certain orders, the company engaged P.W. 1 on a temporary basis on 19th September 1955 on a salary of Rs. 56 and tiffin allowance of Rs. 4 per month to cope with the said temporary accumulation. As the standing order (Ext. D) authorises the company to discharge such an employee at any time without giving any notice or compensation in lieu of notice I agree that section 33 of the Industrial Disputes Act has not been attracted. In any case the complaint is without substance. It is accordingly rejected.

I award accordingly.

BEFORE THE INDUSTRIAL TRIBUNAL, WEST BENGAL

PRESENT:

SHRI M. C. BANERJEE, *District Judge (Retd.), Chairman, Jute Textile Industry Tribunal.*

For the complainant: Shri Nikhil Roy, Advocate.

For the employers: Shri R. L. Moitra, Deputy Labour Adviser of the I.J.M.A.

AWARD

The Government of West Bengal, in the Labour Department, by order Nos. 1988Dis./D/7L-48(A)/53, 2329Dis./D/7L-47/54, 3393Dis./D/3A-10/54, 3537Dis./D/7L-47/54 and 4130Dis./D/7L-47/54, dated 7th April 1954, 6th May 1954, 12th July 1954, 21st July 1954 and 26th August 1954, respectively, referred, under sections 7 and 10 of the Industrial Disputes Act, 1947 (XIV of 1947), the industrial dispute between 101 specified Jute Mills and their workmen regarding some matters specified in a schedule to this Tribunal for adjudication. The award of this Tribunal in respect of this proceeding was published in the *Calcutta Gazette*, dated 6th October 1955.

On 18th July 1956 Keshar Ahir, Jagannath Kaivi and Jhimkun Rajbhor, workmen of Messrs. Auckland Jute Mills Co., Ltd., applied under section 33A of the Industrial Disputes Act, stating that an application under section 33A of the Industrial Disputes Act filed by these applicants was pending before the Tribunal and the hearing of the same was fixed for 18th July 1956. It is further stated that the opposite party Company in spite of the pendency of the said application, dismissed the applicants by its letter, dated 2nd July 1956. The copies of the letters appear as Annexure A to the application of the petitioners. It is then stated that the said act of the opposite party Company in dismissing the petitioners on 2nd July 1956, when an application under section 33A of the Act was pending for decision, was *mala fide* and illegal and that this order of dismissal should be set aside.

The Company, in its written statement, states that the application under section 33A filed by Keshar Ahir, Jagannath Kaivi and Jhumkun Rajbhor is misconceived and is not maintainable in law, as the Company has not in any way violated section 33 of the Industrial Disputes Act. It is further stated that pendency of application under section 33A of the Act does not attract the provisions of section 33 of the Industrial Disputes Act, and that the latter section provides a period of protection to the employee only during the pendency of any proceedings before a Tribunal in respect of any dispute referred to it under section 10(3) of the Act.

It appeared at the hearing of the case that Jhimkun Rajbhor was dead at the date of hearing on 1st October 1956. The application in respect of the other two applicants, viz., Keshar Ahir and Jagannath Kaivi is, therefore, to be considered in this award.

The points that arise for decision of this case are—

(1) Is the application under section 33A of the Act maintainable?

(2) Are the petitioners, Keshar Ahir and Jagannath Kaivi entitled to any relief in this case?

The admitted facts of the case are that on 21st November 1955 the three petitioners filed an application under section 33A of the Act complaining of suspension of their employment and praying for reinstatement. Exhibit A is the Government notification publishing the award on the complaint under section 33A of the Act by the three petitioners with the copy of the award as its Annexure. The award is dated 29th June 1956 and it was published by the Government by notification, dated 16th July 1956. The application under section 33A was dismissed by the Tribunal on the ground that it was not maintainable under Industrial Disputes Act. It appears that the applicants were dismissed by the Company by orders, dated 2nd July 1956. The copies of these orders appear as Annexure A to the petitioners' application. The proceedings under section 33A, which was published on 16th July 1956, was pending till that date. It was contended by the petitioners that inasmuch as the Company dismissed the petitioners on 2nd July 1956, *i.e.*, at a date when the proceedings under section 33A of the Act was pending, this dismissal was hit by section 33 of the Act was, therefore, illegal and should be set aside.

The learned spokesman for the Company opposed this claim and cited the decision of the Hon'ble Labour Appellate Tribunal of India in the case of Anusuya Dajiba, reported in 1956(1), L.L.J., 481, where it has been stated that section 22 of the Industrial Disputes (Appellate Tribunal) Act only provides a period of protection to the employees and that period of protection commences from the date of publication of an award and continues till the appeal stage is exceeded under section 17 of the Act, and the expression "Appeal" in section 22 of the Act could not be interpreted to include complaint under section 23 of the Act so as to extend the period of protection in favour of the disposal of the appeal. On this analogy, it was argued that section 33 of the Act provide a protection to the employee only for the period of the proceeding before the Tribunal under section 10 of the Industrial Disputes Act and continues during the pendency of that proceeding and no more. I agree with this view of the matter. It appears from section 33 of the Act that the disability of the employer in respect of an intended act of the descriptions mentioned in clauses (a) and (b) of that section attaches only to the period of pendency of the proceedings before a Tribunal. The only proceeding before a Tribunal starts on the reference of a dispute to it. Section 33A clearly shows that where an employer contravenes the provisions of section 33 "during the pendency of a proceeding before a Tribunal", an employee aggrieved by such contravention may make a complaint in writing in the prescribed manner to such Tribunal and on receipt of such complaint the Tribunal should adjudicate on the complaint as if it were a dispute referred to or pending before it. The adjudication of a complaint is not, therefore, a proceeding before a Tribunal as referred to in section 33 or 33A of the Act. It is, therefore, clear that if the employer commits any of the acts as mentioned in clauses (a) and (b) of section 33 during the pendency of a case under section 33A before a Tribunal, the provisions of section 33 of the Act will not be attracted.

Secondly, the award of the Tribunal in Ext. A shows that the application under section 33A filed by the petitioners on which this award was made was not a valid application and it was not an application under section 33A at all. The petitioners cannot, therefore, invoke the provisions of section 33A in regard to the pendency of the proceeding on that application to get advantage of section 33 of the Act.

It appears that the award of the Major Jute Tribunal was published in the *Calcutta Gazette* on 6th October 1955 and the decision on appeal against that award was delivered on 31st May 1956. The decision of the appeal was enforceable under section 15 on 30th June 1956 and the date of conclusion of appeal was also 30th June 1956. As the petitioners were dismissed on 2nd July 1956, neither the original proceedings nor the proceedings in appeal were pending on that date, and neither section 33 or section 22 was hit by this act of the employer. The present application under section 33A of the Act is, therefore, incompetent. The petitioners are not entitled to any relief and the petition is rejected.

For the employers: Shri R. L. Moitra, Deputy Labour Adviser of the I.J.M.A.

AWARD

The Government of West Bengal, in the Labour Department, by order Nos. 1988Dis./D/7L-48(A)/53, 2329Dis./D/7L-47/54, 3393Dis./D/3A-10/54, 3537Dis./D/7L-47/54 and 4130Dis./D/7L-47/54, dated 7th April 1954, 6th May 1954, 12th July 1954, 21st July 1954 and 26th August 1954, respectively, referred, under sections 7 and 10 of the Industrial Disputes Act, 1947 (XIV of 1947), the industrial dispute between 101 specified Jute Mills and their workmen regarding some matters specified in a schedule to this Tribunal for adjudication. The award of this Tribunal in respect of this proceeding was published in the *Calcutta Gazette*, dated 6th October 1955.

On 22nd September 1956 Nilmony Hazra, a Clerk in the Labour Office of the Waverly Jute Mills, applied under section 33A of the Industrial Disputes Act stating as follows:—

> On 21st August 1954, the petitioner was verbally instructed by the Manager to report to the Preparing Department for work with effect from 28th August 1954. The petitioner asked for a written order of transfer and charge-sheet was issued on him on 31st August 1954 for having disobeyed the verbal order of the Manager. On 3rd September 1954 the Manager gave him written orders directing the petitioner to report to duty to the Preparing Department with effect from 4th September 1954. The petitioner thereupon reported for duty to the Preparing Department on 4th September 1954. It is stated by the petitioner that by this transfer the Company lowered the status of the service of the petitioner and in this manner altered the condition

> of his service to his prejudice. The Company has therefore contravened section 33 of the Industrial Disputes Act by altering the condition of service of the petitioner to his prejudice without the written permission of the Tribunal. The petitioner, therefore, prays that the Tribunal may be pleased to annul the order of transfer to the Preparing Department and direct retransfer of the petitioner to his former job.

The Company, in its written statement, states as follows:—

> The application is misconceived and is not tenable in law, as it does not reveal any contravention of section 33 of the Industrial Disputes Act. The transfer of a workman does not attract the provisions of section 33 of the Industrial Disputes Act. The petitioner was transferred to the Preparing Department from the Labour Office, as reports were received from the workers that the petitioner was indulging in malpractices in connection with his work in the Labour Office. The transfer did not affect his conditions of service in any way. The transfer of the petitioner to the Preparing Department was in the exercise of a management function and it was *bona fide* and justified. The prayer of the applicant for retransfer to his original post is untenable. The application under section 33A of the Industrial Disputes Act is not maintainable and should be rejected.

The points that arise for decision are—

(1) Is the application under section 33A of the Act is maintainable?

(2) Is the petitioner entitled to any relief?

DECISIONS

Points Nos. 1 and 2

On the date of hearing, the petitioner did not appear. The opposite party Company was present and the case was heard in the absence of the petitioner. It is well-settled that the Management has ample powers to make decisions regarding transfer of the Company's personnel in the normal course of business and a *bona fide* order of transfer is not a punishment to an employee. It is also to be seen that the Management in effecting transfers of workmen from one job to another acts *bona fide* in the interests of the business. There is nothing on record to show that the transfer of Nilmony Hazra from the Labour Office to the Preparing Department of the Mills was in any way *mala fide*. It is inherent in the appointment of a workman that he can be transferred from one department to another in the same Mills, the transfer of Nilmony Hazra from the Labour Office to the Preparing Department was not an alteration of the condition of service to his prejudice [1956 (1) L.L.J., 278, Patna High Court]. The order of transfer in question was not, therefore, in contravention of section 33 of the Industrial Disputes Act and the application under section 33A was not maintainable.

The applicant is not, therefore, entitled to any relief and the application under section 33A of the Act is rejected. These issues are accordingly answered.

DECISION

This appeal on behalf of the employers, Messrs. Balmer Lawrie & Co., Ltd., is from an award of the Second Industrial Tribunal, West Bengal, dated 29th November 1955, published in the *Calcutta Gazette*, dated 29th December 1955. The only issue for adjudication before the Tribunal below was "Bonus for 1953 payable in 1954". The company employs about 758 clerks, 462 subordinate staff and 280 labour staff. For some years past this company has been paying uniform Puja bonus to all employees at the rate of their one month's basic wage, and a special bonus according to circumstances to clerks and subordinate staff and at half of that rate to labour staff. In 1953 it paid one month's basic wages by way of Puja bonus and one and half months' basic wages as special bonus to non-labour staff and half of it to labour staff. Company says that there are about 40 labourers in Oil and Grease Department only 20 of whom, who are members of the Engineering Mazdoor Sabha did not accept this special bonus and raised this dispute while the remaining labour staff has accepted it. These twenty workmen claim 12 months' wages as special bonus. The Tribunal below has awarded special bonus equivalent to one and half months' basic wages to the labour staff as well. Hence this appeal by the company.

2. The first question is whether a fractional minority can raise the dispute. There is no bar to it. The dispute was raised by one of the two unions of workmen, working in the Grease factory. The company's

business consists of different varieties including many managing agencies. All the 280 and odd labour staff do not work in the same office or establishment. Therefore, all the labour staff do not appear to have a common organization. This Grease factory is an independent unit by itself and according to the company only 40 labour staff is employed therein. The dispute raised by 20 of them is not by an insignificant minority. Further, they are actual manufacturers unlike other labour staff who may be working as coolies, etc. Virtually there does not appear to be much in common amongst the labour of Grease factory and other labour staff of different units or establishments of this company. We do not find any in propriety in the dispute at the instance of these workmen. We hold that the dispute could be raised by these 20 workmen and is in order.

3. Next, it is argued for the appellants that if special bonus to these twenty workmen were given at the rate awarded by the Tribunal the remaining labour staff also will have to be given special bonus at the same rate and a consequent claim for double the amount of this special bonus will be made by non-labour staff because their rate of special bonus has, in the past, been double the rate of the labour staff. But, who has made this discrimination? The company itself. We do not find any justification for this discrimination except the unjustified reason that labour being in minority is not so vocal and not so effectively organised as the non-labour staff and therefore, the company has been able to ignore the labour staff so far. In the matter of bonus, a Bench of this Tribunal held in 1953-LAC-468 and in 1954-LAC-131 in the cases of Oil Companies that Labour staff should get higher bonus than clerical staff, because the former's wage is lower and it is time that the inequality were, to some extent, be reduced. Thus, in our view, to allow the claim of labour would not be a reason for the non-labour staff to again claim special bonus at double the rate at which it has been awarded to the labour staff by the Tribunal. In LLJ-I, 1956, 458, labour staff was awarded bonus at 5-1/3 months' basic pay, as against 4½ months' to non-labour staff.

4. Regarding the contention that other labour staff may also claim bonus for 1953 at the same rate, all that we can say at present is that such a consideration cannot be allowed to defeat the claim of the present workmen. Nor need we decide here whether these who have accepted bonus without demur and have kept aloof from this dispute, can still claim it. Besides this, total monthly basic wage bill in respect of entire labour staff is Rs. 11,809, ¾th of which would be only Rs. 8,856 the amount which has been paid less to the total labour staff. Twenty out of 280 labour staff are concerned in this appeal and the additional amount, if allowed to them would be in the vicinity of Rs. 618. Because of its unfair discrimination, the company must pay this amount and in view of its general financial positon, it can easily afford to pay it.

5. Trading results also must justify the award of this additional amount of Rs. 618 as bonus. We, therefore, proceed to consider the profits. The Adjudicator has not allowed any sum as rehabilitation reserve and inspite of the workers' objection and his finding that the company has not proved how much reserves were employed as working capital, he has allowed 2 per cent. return on reserves. He has rightly allowed normal depreciation only. He has excluded from revenue income, Rs. 5,22,497 "Interest and Dividents on Investments". Rs. 2,57,134 "Items relating to Previous Years" and Rs. 1,86,715 "Profit on sale of Fxed Assets". The question of dividends on investments was considered in 1954, L.A.C., 131. It was held that this income is unrelated to workers' efforts, but because interest paid in that case exceeded the amount of dividend, and, therefore, it cannot be said that the loaned money was not utilised in investments. The company's contention was over-ruled in that case. In a bonus case companies are allowed 6 per cent. return on share capital, and interest paid on loans is debited to profit, and loss account. They further claim return on all reserves by treating the same as working capital. Then where does the capital invested outside come from? If the company excludes the dividends and interest thus earned on investments and loans advanced, then it must disclose out of which fund the investments were made and loans were advanced. Suppose the share capital is 50 lacs. The fixed assets are worth 20 lacs, stocks, etc., 10 lacs and out of the balance of 20 lacs, 10 lacs is invested outside. Companies must either forge return on this share capital of 10 lacs or treat the earned dividend as Revenue income. They cannot have both ways. Inspite of this Tribunal's repeated decisions since long that employers must prove the amount of reserves used as working capital and the amount needed as rehabilitation reserve, they do not do it. In this case the learned Adjudicator brought this matter to the notice of the company and yet the company did not put on record sufficient data proving the amount of reserves utilised as working capital. Company's investments amount to Rs. 63,13,344 and loans advanced amount to Rs. 96,32,943. Then there are other advances. We do not know whether other advances earned interest. Only investments and loans advanced, amount to Rs. 159.45 lacs. Company says that reserve utilised as working capital amounted to Rs. 1,07,72,723. If all this is working capital, then where is the balance to make up 159.45 lacs invested and loaned? The company should have proved which item or items of

reserves cover investments and loans. In the absence of any evidence to prove how much of the amount of reserves was utilised as working capital, we think the learned Tribunal was not wrong in calculating interest on unproved working capital at 2 per cent. It comes to Rs. 1.90 lacs.

6. Similarly, about profits on sale of fixed assests, it must have been shown what those assets were and was any amount spent on their repairs and renewals to make them saleable and was that amount debited to profit and loss account? In the absence of these details for which the Union too is responsible inasmuch as it did not call for this information we do not propose to interfere with the decision of the Adjudicator in excluding this item.

7. Regarding rehabilitation allowance the company has multiplied the total cost of fixed assets including even buildings, etc., incurred up to the end of 1953 by 2.7 and has deducted the depreciation provided for and 5 per cent. scrap value. The balance has been spread over 15 years. The reserves were not deducted. This method of calculating depreciation is incorrect. Cost of buildings cannot be multiplied by 2.7 nor can the period of spread over be limited to 15 years nor can the cost incurred in recent year, during the days of high rates be multiplied by 2.7. We do not think it was a serious attempt to have rehabilitation correctly estimated.

8. In the profit and loss account there is a further debit of Rs. 60,000 as Property Reserve in addition to depreciation charged, as shown in the schedule of Fixed Capital Expenditure. This depreciation is normal, as allowable in a bonus case. There is no provision to permit further charge as property reserve. Reserves are created out of net profits. This shall have to be added back and income-tax at 7 annas per rupee shall be deducted therefrom. The balance Rs. 33,750 or say .38 lacs shall be added back to the balance, found after providing for return on invested capital. The total will be 5.37 lacs plus .38 lacs is equal to 5.75 lacs.

9. Though not necessary, still we proceed to consider whether the company can have a further surplus of about Rs. 8,800. Out of this Rs. 3,850 shall be rebate in income-tax. Thus the further net burden on the company even if all labour staff claims equal bonus shall be to the extent of Rs. 4,950 or say .05 lacs. The company has already paid Rs. 3,85,769 as bonus. Rebate on this in income-tax will be 1.68 lacs. The net burden of the bonus paid so far comes to about 2.17 lacs. Add to this Rs. .05 lac further in order to pay further Rs. 618 to the respondents as additional bonus. Total will be 2.22 lacs. The balance after providing for return on invested capital is 5.75 lacs. Deduct 1.90 lacs return at 2 per cent. on working capital, though not proved. Balance will be 3.85 lacs. Deduct 2.22 lacs net burden of the bonus which has been paid and may be paid. Balance is 1.63 lacs, which is good surplus, when we do not know how much of the reserves has been used in capital invested outside. We do realise that we have not provided for rehabilitation. But for that the company is responsible and it must thank itself. On the material before us we are of the opinion that there is enough surplus of profits for the company to bear the additional burden under the award. We, therefore, dismiss the appeal with costs to the respondents which we fix at Rs. 50.

Appeal No. Cal.-74 of 1956

Messrs. Poddar Automobiles ... ... *Appellant,*

versus

Shri Sadhan Chandra Ghosh ... ... *Respondent.*

In the matter of an appeal against the award of Shri J. N. Maitra, Judge, Industrial Tribunal, Calcutta, made on 30th January 1956 in respect of an industrial dispute between the above parties.

Dated the 31st July 1956

SHRI E. KRISHNAMURTHY, Member.

For the appellant: Shri N. Dasgupta, Advocate.
For the respondent: Shri Manna, Counsel.
State: West Bengal.
Industry: Automobiles.

DECISION

This is an appeal by Messrs. Poddar Automobiles, Calcutta (hereinafter called the Company), against an award of the 3rd Industrial Tribunal, dated 30th January 1956, published in the *Calcutta Gazette* on 1st March 1956, on a complaint under section 33A of the Industrial Disputes Act of Shri Sadhan Chandra Ghosh (hereinafter called the workman), carpenter, employed in the said Company, directing his reinstatement in service. The workman's complaint was that he was victimised for his union activities when on 22nd May 1954 he was wrongfully transferred from Calcutta to Siliguri, a branch establishment of this Company, without necessary previous permission in writing of the tribunal where a case for bonus, in which he was involved, was pending for adjudication. The complainant, therefore, prayed that his order of transfer be cancelled and he be allowed to join his duties in Calcutta with all wages and allowances due to him from the date of transfer. The Company contested this complaint mainly on the ground that it is not maintainable for two reasons, (1) the workman was not involved in the case of bonus, he being not a member of the Union which is a party to the dispute, (2) the order of transfer, which assured the complainant all existing rights and privileges in service, could not be said to be an act of contravention of the provision of section 33 of the Industrial Disputes Act. The Company also resisted the complaint on merits of the case saying that the complainant had no justifiable reasons not to comply with the order of transfer nor his story of reporting himself to duty at Calcutta was true. The learned tribunal came to the following findings:—

(1) The workman, although belonged to a different Union, was concerned in the dispute over payment of bonus which was pending, at the time of transfer, before the tribunal for adjudication. Therefore, he was a workman concerned in the dispute under section 33 of the Industrial Disputes Act,

(2) the order of transfer did not contravene the provisions of section 33 of the Industrial Disputes Act,

(3) the transfer as "ultimately moulded" was not prejudicial and *mala fide* nor was it by way of victimisation as alleged by the complainant. The tribunal, however, found that by persistently refusing to allow the complainant to rejoin his duties at Calcutta, the Company's conduct would amount to discharge of the workman from service and to punishment which would amount to contravention of section 33. The workman was, therefore, directed to be reinstated in service but without back pay. The Company, being aggrieved by this order, has preferred this appeal on the ground, that the learned tribunal had illegally acted in assuming jurisdiction in the dispute in question and finding that the application was maintainable and that on its own findings the tribunal should have held that the application was not maintainable in its present form.

Shri N. Das Gupta, on behalf of the Appellant Company, contends, that this involves substantial questions of law, viz., the question of jurisdiction of tribunal in entertaining this application under section 33A of the Industrial Disputes Act when there was no violation of the provisions of section 33A and B of the Industrial Disputes Act. He, further, submitted that the complainant was not a workman concerned in the dispute and therefore, his complaint was clearly not maintainable. Shri Manna, counsel on behalf of the Respondent, contended that there was no question of law involved in this appeal, much less a substantial one, for (1) the complainant was a workman concerned in the dispute, inasmuch as, any award made in the case of bonus pending before the tribunal would be binding upon him, just as it would be binding upon all other workmen employed in the service of the Company, (2) the transfer taken along with the fact that the workman was refused employment in Calcutta would amount to dismissal from service, as well as punishment otherwise than by dismissal, as in section 33B of the Industrial Disputes Act.

Points for our decision are (1) whether the application under section 33A is maintainable, (2) whether there has been any contravention of the provision of section 33 by directing the transfer of the complainant from Calcutta to Siliguri and subsequently refusing him to rejoin his duties in Calcutta when he refused to comply with that order, (3) on the merits of the order.

Shri Dasgupta pointed out, that the complainant, being a member of Bengal Motor Industry & Transport Workers' Union and not of the Engineering Mazdoor Union, and not being one of the parties to the dispute over payment of bonus pending before the tribunal, he cannot be said to be a workman concerned in the dispute. Further, the order of transfer is a legitimate management function, particularly authorised by the Standing Orders prevalent in this Company. Therefore, the order directing the transfer of the complainant and nine other employees from Calcutta office to Siliguri branch, cannot be said to be either (1) alteration of the condition of service or (2) discharge, or (3) punishment by dismissal or otherwise, as mentioned in section 33 of the Industrial Disputes Act. Finally on merits the complainant has no case. At all relevant times between the order of transfer and the date of filing of this complaint the complainant did not make any allegation regarding the serious illness of his wife as a reason for not complying with the order of transfer. We have perused the evidence and heard the learned counsel on both sides. We have also carefully gone through the pleadings of the parties and several documents filed in this case. In our opinion, the complainant is a workman concerned in the dispute over the payment of bonus payable to the employees of this Company pending before the tribunal for its adjudication at the time of transfer. There are no materials before us to hold that the employees represented by the complainant's Union have received the bonus amicably or under a settlement in the year in dispute. That being so, we are unable to say that the complainant is not a workman concerned in the dispute. Further, as pointed out by the learned lower tribunal in its order under appeal, under section 18(D) of the Industrial Disputes Act, any award that may be passed in that case would be binding on the complainant as it would be on other employees of the Company. Therefore, in our view, the decision of the learned tribunal on this point is correct and should be maintained. That alone would not make the complaint maintainable unless the complainant is in a position to establish that the order complained of is one which amounts to, in fact and law, a clear violation of the provisions of section 33 of the Industrial Disputes Act. Here the parties are at issue. We agree with the lower tribunal that the order of transfer in this particular case is not only justified by the exigencies of the service, for, it was made on repeated requisitions from the Siliguri office, but also is legitimate, for, in making that order the management was only acting under the Standing Orders of the Company and therefore, exercising in good faith, an acknowledged management's function. The learned lower tribunal has found this against the complainant and we find no good reasons to differ from that view. The complainant took out an advance agreeing to proceed to Siliguri on transfer but ultimately did not do so. The complainant says, that due to illness of his wife at home he could not proceed to Siliguri and applied personally to the manager for leave with a medical certificate from his village Doctor. This has been denied on behalf of the management. The complainant also said that he did not report to Siliguri thereafter, even after the discharge of his wife from hospital after treatment. On the contrary he reported to the Calcutta office when, according to him, he was refused employment. His evidence discloses that he reported to duty only once, and therefore, the learned tribunal was wrong when he observed that the management *persistently* refused him employment at Calcutta when he reported for it. One would have appreciated the *bona fides* of the complainant, if after the treatment of his wife he had gone to Siliguri and reported there for duty and was subsequently refused by the management. In fact, it appears that the complainant was reluctant to move out of Calcutta and left no stone unturned to accomplish that object. But, we are not very much concerned in this appeal about the merits of the dispute over the refusal of employment to the complainant. The transfer was, in our view, not an act of violation of the provision of section 33 of the Industrial Disputes Act. On the other hand, in making that order the management was clearly within its rights under the Standing Orders, and as such need not require any express permission from the tribunal for doing so. Assuming for argument's sake that the complainant was refused employment when he reported at the Calcutta office sometime after his wife's discharge from hospital, we are unable to hold on the facts of this case, that it amounted to either dismissal or discharge from service, which is nobody's case before us, or that it amounted to punishment by dismissal or otherwise as contemplated in section 33B of the Industrial Disputes Act. The General Secretary of the complainant's Union, writing as late as on 27th December 1954, shortly before this complaint, stated in Ext. 3, that the management not only did not withdraw the order of transfer after representation but also did not allow the workman to work here or *terminate his employment.* It would be wrong in this state of evidence and pleadings to assume, that the services of the complainant were terminated by discharge or dismissal. The correspondence to which our attention was drawn in this appeal only holds out, in our view, a threat of termination of services in case the order of transfer was not complied with. The refusal to give employment, in the circumstances of the case, may amount to lock out which again is not a violation of the provision of section 33 of the Industrial Disputes Act. This tribunal has repeatedly held that. In any view of the matter on the lower tribunal's own finding the order of reinstatement cannot be sustained. The present complaint is not maintainable, and therefore, fails. The learned tribunal clearly had no jurisdiction to entertain this application, still less to decide it. He went against the evidence in coming to the conclusion, that refusal to give employment to the complainant at Calcutta was wrong after holding that his transfer out of that place was a legitimate order. We, therefore, find that this involves a substantial question of law and is therefore competent. The complaint, being not maintainable, is hereby dismissed. The appeal succeeds and is allowed. The order of reinstatement made by the learned lower tribunal is hereby set aside. Parties will bear their own costs.

DECISION

By order No. 4064Dis./D/4L-24(A)/54, dated the 23rd August 1954, read with subsequent addendum No. 5139Dis./D/4L-24(A)/54, dated the 12th November 1954 and corrigendum No. 118Dis./D/4L-24(A)/54, dated the 12th January 1954, the Government of West Bengal in the Ministry of Labour referred the disputes specified hereunder to the Third Industrial Tribunal for adjudication:—

(1) Wages.

(2) Whether the discharge of (i) Shri Rash Behari Adhikary (Driver), (ii) Shri Motilal Roy (Driver), (iii) Shri Lal Mohon Chatterjee (Conductor) and (iv) Shri Gopal Paul (Assistant)—workers of Messrs. Ghosh Brothers—is justified? To what relief are they entitled?

In the award under appeal, the Third Industrial Tribunal raised the wages payable to Drivers, Conductors and Cleaners by varying amounts to come into force on the date of the publication of the award in the *Calcutta Gazette*.

In the Industrial Tribunal, the Union claimed for payment of full wages to Drivers and Conductors for the days when they are to absent themselves in connection with police cases but that was not allowed on the finding that that claim does not come within the scope of the reference.

In the award under appeal, the Third Industrial Tribunal has found that termination of the employment of the workmen was justified.

From the award given by the Third Industrial Tribunal on the 25th January 1956, the Union appeals under section 7 of the Industrial Disputes (Appellate Tribunal) Act, 1950.

In arguments, it is said that the Third Industrial Tribunal was wrong in thinking that the claim of payment of full wages for the drivers and conductors when they are to attend police cases was not covered by the reference.

By order No. 4064Dis./D/4L-24(A)/54, dated 23rd August 1954, the disputes were referred for adjudication to the Third Industrial Tribunal. In the notice, dated 18th August 1954, the Union gave their demands. Item No. 5 reads:—

> "*Item No.* 5.—All expenses in the case of police cases must be paid by the respective owners and the workers concerned must not be deprived of daily-wages for attending Court or police-station or anywhere in case of litigation at the time."

In paragraph 7 of the written statement, the Union pleaded—

> "That the Union on several occasions submitted a number of demands to the employers and the issue of wages that has been referred to your honour is one among other points mentioned in the said charter of demands. For a comprehensive list of demands the strike notice, dated 3rd August 1954 (marked Annexure A), may also be referred."

Plainly, the claim of payment of full wages to Drivers and Conductors for the days they are to absent themselves in connection with police cases was covered by the order of reference.

With regard to merits of the damand there is on real controversy between the parties. Indeed, the Drivers and Conductors when they are to absent themselves in connection with police cases are to be regarded to be on duty. Mr. M. R. Basu, Counsel for Messrs. Express Co-operative Transport Society, Ltd., stated that the Company was paying wages to the Drivers and Conductors for the days when they are to absent themselves in connection with police cases. Mr. P. N. Biswas, Advocate for Shri Sailesh Nath Sanyal, Burdwan Motor Service, however, stated that the Drivers and Conductors should be paid on the basis that they were doing garage duty on the day of absence in connection with the police cases. In case of Cleaners, there is no difference between the garage duty pay and running time pay. In the case of Drivers and Conductors, however, there is some difference. In our opinion, the Drivers and Conductors when they are to absent themselves in connection with police cases should be paid wages at Rs. 6 and Rs. 4 per day.

Counsel for the Union made a feeble attempt to point out that the award of the Tribunal on Issue No. 2 was wrong on facts. In maintaining the decision of the Management on Issue No. 2, the Third Indusrtial Tribunal said:—

> "When the workmen continued to work notwithstanding reduction in wages and did work till 2nd August 1954, it was not natural and probable that the employer would say that the workmen were discharged. When on the contrary the workmen continued to work and did work till 2nd August 1954 and then went to the house of the employer at 5 p.m., it was more natural that they would tell that they were not going to work any longer unless their wages were restored. The evidence shows that on such ultimatum the employer engaged new hands in that very night and with their help attempted to run the buses as usual in the morning at 6-20 a.m., and the workmen concerned along with the Union men tried to prevent them from running the buses would rather point in favour of the employer's case that the workmen themselves had struck work on an ultimatum whereupon new men were engaged in that night and brought to work on the next morning to maintain the schedule running of the buses, and that the workmen finding that their ultimatum was thus being set at naught tried to prevent the running of the buses. That they insisted restoration forthwith and failing to from the strike notice wherein demand was made not simply for reinstatement, but reinstatement with restoration or wages. I am so of the opinion that termination of employment of the workmen was justified. *When the workmen themselves left work, they are entitled to no relief.*

No attempt was made to criticise the award on Issue No. 2.

In the result, we allow the Unions' claim for payment of full wages to the Drivers, Conductors and Cleaners for the days they are to absent themselves in connection with polic ecases. In all other respects the appeal fails.

Parties to bear their own costs in appeal.

DECISION

By this decision we dispose of Appeals Nos. Cal. 93 and Cal. 95 of 1956.

In Appeal No. Cal. 93 of 1956 Bathgate Employees' Union, 4C Williams Lane, Calcutta, hereinafter called Employees Union, is the appellant. In Appeal No. Cal. 95 of 1956 Messrs. Bathgate & Co., Ltd., Calcutta, hereinafter called the Company, is the appellant.

Briefly summarised the facts that gave rise to the present appeals are this: By Government order No. 2673Dis./D/11L-142/54, dated the 25th May 1954, the Government of West Bengal in the Department of Labour, referred the following dispute for adjudication to the Fourth Industrial Tribunal, Calcutta:—

> "Whether the Company was justified in retrenching the workmen mentioned in the Schedule to the order of reference with effect from the 1st November 1953 and to what relief and/or compensation are they entitled?"

In the award under appeal the Fourth Industrial Tribunal awarded compensation at the rate of one month's salary to the retrenched workmen in terms of the Agreement, Exhibit 1.

Section 25F of the Industrial Disputes Act, 1947, hereinafter called the Act, provides that no workmen employed in any industry who has been in continuous service for not less than one year under an employer shall be retrenched by that employer until—

(a) the workmen has been given one month's notice in writing indicating the reasons for retrenchment and the period of notice has expired, or the workman has been paid in lieu of such notice, wages for the period of the notice;

(b) the workman has been paid, at the time of retrenchment, compensation which shall be equivalent to fifteen days' average pay for every completed year of service or any part thereof in excess of 6 months.

Proviso to section 25J of the Act lays down that nothing contained in the Act shall have effect to derogate from any right which a workman has under the minimum Wages Act, 1948, or any notification or order issued thereunder or any award for the time being in operation or any contract with the employer.

In conciliation proceedings contract, Exhibit 1, was made between the Company and the Employees' Union regarding payment of gratuity. In the contract, Exhibit 1, the clause relating to gratuity provides:—

> "Gratuity at the rate of one month's pay for each year of service after completion of five years of service will be given to the employees at the time of retirement, retrenchment or resignation if accepted by the management."

In appeal No. Cal. 95 of 1956 the Counsel for the Company urgues that the Contract, Exhibit 1, does not bind the Company.

Section 19(2) of the Act provides that a settlement arrived at in the course of Conciliation Proceeding under the Act, shall be binding upon the parties. In our opinion there is no force in the argument.

Counsel for the Company then urges that under the Agreement, Exhibit 1, gratuity was not admissible for the period antecedent to the agreement. Clause 5 of the agreement is one of the conditions of service of workmen employed by the Company. That being the position of matters, the workmen are entitled to gratuity for the entire period of service.

In his reply, Counsel for the Company, tenders in evidence, receipts by some of the retrenched workmen showing that they had received payments in full satisfaction of their claim.

In the Industrial Tribunal evidence was given that some of the retrenched workmen had received payments for they were badly in need of money. That evidence was believed by the Industrial Tribunal.

In our opinion there is no justification to admit additional evidence in appeal. That evidence was in possession of the Company but was not produced in the Industrial Tribunal. In any case the Industrial Tribunal has found on the evidence given by the workmen that they were not estopped from claiming compensation which was admissible to them.

In Appeal No. Cal. 93 of 1956 the Employees' Union urges that compensation provided by clause (b) of section 25F of the Act as a retrenchment relief has nothing to do with the payment of gratuity under the agreement. In the Bank Disputes case a Special Bench of the Appellate Tribunal awarded to the retrenched workmen gratuity in addition to the retrenched workmen gratuity in addition to the compensation under section 25F(b) of the Act.

In order to appreciate the point it is necessary to examine the provision of Ordinance No. 5 of 1953 which was promulgated on the 24th Octber 1953. In adding Chapter VA of the Act, the legislature departed from the provision of the Ordinance in substituting the word compensation for the word gratuity in section 25F(b) of the Act. In our opinion the substitution of the word compensation for the word gratuity in section 25F(b) shows that the payment of gratuity under a contract was not in any manner hit by section 25F(b) of the Act.

Again section 25J of the Act provides *inter alia* that nothing contained in the Act shall have effect to derogate from any right which a workman has under any contract with the employer.

In the Bank Disputes case published in Part II, Section III of the *Gazette of India*, dated 20th April 1953, the reasons for allowing gratuity in addition to the retrenchment relief provided by section 25F(b) of the Act are given in detail.

In these circumstances we modify the award given by the Industrial Tribunal by directing that the retrenched workmen will be paid compensation under section 25F(b) of the Act, in addition to wages under section 25F(a) of the Act and gratuity under clause (5) of the agreement, Exhibit 1. In all other respects the award under appeal is confirmed.

In the result we modify the award under appeal as indicated in the preceding paragraph.

Company to pay the costs of these proceedings to the workmen, which we assess at Rupees one hundred only, in all.

In the matter of an appeal against the award of Shri C. Palit, Judge, Industrial Tribunal, Calcutta, made on 27th February 1956 in respect of an industrial dispute between the above parties.

Dated the 14th August 1956

For the respondent: Shri S. C. Sen, Advocate.

DECISION

In an application under section 33 of the Industrial Disputes Act, 1947, the Industrial Tribunal has given permission to the Titaghur Paper Mills, Ltd., to discharge from their service Tilakdhari Singh, workman, for wilful disobedience under clause 19 of the Standing Order.

From that order Tilakdhari Singh appeals under section 7 of the Industrial Disputes (Appellate Tribunal Act, 1950).

In these proceedings Shri Sukumar Mitra represents Tilakdhari Singh, workman and Shri S. C. Sen represents the Titaghur Paper Mills Co., Ltd.

Shri S. C. Sen urges three points:—

(1) that the Appeal in any case is barred by limitation,

(2) that the Appeal does not involve any substantial question of law, and

(3) that pursuance to order of the Industrial Tribunal Shri Tilakdhari Singh, workman, was discharged from service on the 8th of March 1956.

From the record it is plain that the order under appeal was passed on the 27th February 1956 while this appeal was filed on the 29th March 1956. If so, the appeal is barred by time.

In any case, the question that arises in the appeal is whether permission to discharge should have been given by the Industrial Tribunal. That finding does not involve any question of law.

Again, it is conceded that pursuant to the order of the Industrial Tribunal Shri Tilakdhari Singh was discharged from service before the appeal was filed.

For the foregoing reasons, we dismiss the appeal leaving the parties to bear their own costs.

(1) **Instructions regarding submission of application.**—Applications are to be made on the prescribed form which will be available from the office of the Public Service Commission, West Bengal, Anderson House (ground floor), Alipore, Calcutta-27, personally or on sending a large self-addressed envelope with stamps sufficient to cover the postage affixed to it. Candidates who are unable to obtain copies of the prescribed form may apply on any similar typed **(not handwritten)** form showing exactly the wording and spacing of the sample form published in the "Calcutta Gazette" of the 1st September 1955, provided the blanks are filled up in the candidates' own handwriting.

(2) **Particulars and certificates required.**—Candidates should furnish evidence of their age, qualifications and previous experience together with certificates written not more than one year prior to the date of their applications, from responsible persons, testifying to their private character.

(3) **Fee.**—Candidates must enclose with their applications a fee of Rs. 5 (for each category of posts) in the form of a receipted chalan from a Government Treasury or the Reserve Bank of India under the head "XXXVI—Miscellaneous—Receipts of the Public Service Commission, West Bengal". Money orders, cheques, etc., in lieu of treasury chalans are not accepted. Postal orders, however, may be accepted from candidates. They should be crossed and made payable to "The Secretary, Public Service Commission, West Bengal". No application will be considered unless accompanied with the requisite application fee.

Candidates in Government service should make sure before depositing fee that their applications will be forwarded by their superior officers. In no case will the fee paid with the application be refunded.

The Commission may remit fee in case of genuinely indigent and bona fide displaced persons from Pakistan.

Note.—"(i) A displaced person claiming age concession must furnish with his application satisfactory evidence that he is a bona fide displaced person from Pakistan, e.g., refugee registration card or a certificate from a gazetted officer or a Member of Parliament or State Legislature, in original.

(ii) A member of the Scheduled Caste or Scheduled Tribe claiming age concession must furnish with his application a certificate in original from a gazetted officer or a Member of Parliament or State Legislature belonging to the Scheduled Caste or Scheduled Tribe, specifying the particular caste or tribe to which he claims to belong.

(iii) A displaced person seeking remission of the application fee must furnish besides the evidence required under Note (i) above, a certificate (in original) from a District Officer or a gazetted officer or a Member of Parliament or State Legislature to show that he is not in a position to pay the prescribed fee."

(4) **Address.**—Candidates should give their present address and should communicate at once any subsequent change of address.

(5) **Canvassing.**—Any attempt on the part of candidates to enlist support of their applications through persons of influence or officials of Government will disqualify them for appointment. Spontaneous recommendation from persons interested in the candidates or otherwise known to them will be disregarded.

(6) Applications from candidates who are in permanent or temporary employment under any Government, a local or Statutory Body (e.g., Damodar Valley Corporation), in India will be rejected unless they are submitted through the appointing authority of their posts or service.

Candidates serving under Government or a local or statutory body should submit an advance copy in the prescribed form. **The application fees should in such cases be attached to the advance copy and not to the original.** The candidature of such applicants may not however be considered if the original applications do not reach the Commission's office within a fortnight from the closing date. Unless applications in original or advance copies with application fees are received within the closing date, late applications may be rejected.

7. (*1*) The terminal tax levied under this Act shall be collected by means of a surcharge on fares by the railway administration, and where it is so collected the railway administration shall have all the powers and remedies for the recovery thereof as though the same were a rate or fare which the railway administration is empowered to levy under the Indian Railways Act, 1890. 9 of 1890.

(2) Such portion of the total proceeds of the tax attributable to any notified place as the Central Government may from time to time ascertain shall be deducted to meet the cost of collection of the tax.

No other terminal tax on railway passengers when terminal tax under this Act is levied.

Second Class	1	0	0	2	0	0
Third Class	0	8	0	1	0	0.

STATEMENT OF OBJECTS AND REASONS

The terminal taxes on passengers carried by railway (including pilgrim taxes) now in force are those leviable under the local enactments passed before the 1st day of April, 1937, on which date the Government of India Act, 1935, came into force. That Act made terminal taxes on passengers carried by railway a Central subject, but at the same time authorised the continuance of the levy of the existing terminal taxes on passengers carried by railway until provision to the contrary was made by the Central Legislature. Under the Constitution of India also, terminal taxes on passengers carried by railway are a matter in the Union List, and under article 269 of the Constitution such taxes shall be levied and collected by the Government of India but shall be assigned to the States in the manner provided in clause (2) of that article. Under article 277 of the Constitution, all taxes levied by the Government of any State or by any municipality or other local authority or body before the commencement of the Constitution shall continue to be levied after such commencement until provision to the contrary is made by Parliament by law. It is under this saving provision of the Constitution that the existing terminal taxes referred to above are being levied till the present time. Whenever, however, there has been any need for the levy of any fresh terminal tax or for the enhancement of any of the existing terminal taxes (including pilgrim taxes), the practice has been to have recourse to the Ordinance-making powers of the President. For example, recently the Madras Terminal Tax on Railway Passengers Ordinance, 1956, was promulgated to levy a terminal tax on railway passengers visiting Kumbakonam on the occasion of the Mahamakham festival. In order to obviate the need for the issue of an Ordinance on each such occasion for any fresh or increased levy, general legislation is desirable and this also finds favour with the different State Governments and various local bodies who have been pressing for such a general legislation for quite some time past.

After having considered the recommendations of the Taxation Inquiry Commission, 1953-54, relating to the levy of terminal tax on passengers carried by railway, sea and air, it has been decided that legislation for the levy of terminal tax should, for the present, be confined to passengers carried by railway to and from places of pilgrimage, *melas*, fairs, exhibitions, etc. The proposed legislation should provide that the places of pilgrimage, *melas*, fairs, exhibitions, etc., in respect of which, the rate (not exceeding the maximum rates specified in the legislation) at which, and the period for which, the terminal tax may be leviable, will be notified by the Central Government in the Official Gazette. The terminal tax will be leviable in respect of every ticket whether single or return; there will be a free zone not exceeding a radius of forty miles, within which no tax will be leviable and different rates of tax may be fixed for long-distance passengers and short-distance passengers. The Central Government should have the power to vary the rates of the tax or to discontinue the levy in respect of any place by notification in the Official Gazette.

The present Bill is designed to achieve the objects set forth above.
